What is this product?

Type:

The Fund is an Exchange-Traded Fund ("**ETF**") and is a sub-fund of the Company, a company incorporated in Ireland with limited liability as an umbrella type open-ended UCITS investment company with variable capital and segregated liability between its sub-funds under the laws of Ireland with registered number 567964 and authorised by the Central Bank of Ireland.

Term:

The Fund has no maturity date. The Fund may be terminated unilaterally by the directors of the Company and there are circumstances in which the Fund can be terminated automatically, as further described in the prospectus.

Objectives:

Investment objective:

The investment objective of the Fund is to achieve the total return performance of the Bloomberg MSCI Global High Yield Liquid Corporate Climate Transition ESG Bond Index (CTB) (the "**Index**"), less fees, expenses and transaction costs.

Investment approach:

The Fund is a passively managed ETF.

To achieve the investment objective, the Fund will employ sampling techniques to select securities in the Index which may include but are not limited to index weighted average duration, industry sectors, country weights, liquidity and credit quality. The use of the sampling approach will result in the Fund holding a smaller number of securities than are in the underlying Index.

The Fund is an Article 8 Fund (it promotes environmental and/or social characteristics) for the purposes of Regulation (EU) 2019/2088 of the European Parliament and of the Council of 27 November 2019 on sustainability-related disclosures in the financial services sector ("**SFDR**").

The Fund's base currency is USD.

The Fund may engage in securities lending, whereby 90% of the revenues arising from securities lending will be returned to the Fund and 10% of the revenues will be retained by the securities lending agent.

The Fund may be exposed to the risk of the borrower defaulting on its obligation to return the securities at the end of the loan period and of being unable to sell the collateral provided to it if the borrower defaults.

The Fund may use derivative instruments for the purposes of managing risk, reducing costs, generating additional capital or income.

The Index:

The Index is designed to measure the performance of global high yield, fixed rate debt securities issued by corporate issuers across developed and emerging markets, adjusted based upon certain environmental, social and governance ("**ESG**") metrics, which seek to increase overall exposure to those issuers demonstrating a robust ESG profile, whilst meeting the minimum standards for EU Climate Transition Benchmarks. It includes publicly issued securities by industrial, utility and financial institution issuers in global and regional markets. The securities will be rated high yield at the time of inclusion in the Index, as determined by the index provider. Securities' principal and interest must be denominated in USD, EUR or GBP. Only securities with at least one year to final maturity (i.e. the time until they become due for repayment) and minimum outstanding par

amounts as determined by the index provider, are included in the Index. Securities are excluded that, according to the Index Provider's exclusionary criteria: 1) have an MSCI ESG rating below BB; 2) have faced very severe controversies pertaining to ESG or environmental issues over the last three years; 3) are issued by an issuer that is not covered by MSCI ESG Research; or 4) are involved, as per the standard Bloomberg MSCI SRI methodology, in business activities which are deemed to have adverse impacts from an ESG standpoint. Involvement and revenue thresholds are defined by the Index provider. Further information in relation to any revenue thresholds and controversy scoring criteria, can be obtained from the Index provider's website. The index provider then re-weights eligible securities to minimise the difference in constituent, sector and industry weights to the parent index, Bloomberg High Yield Global Corporate Index, while achieving: 1) alignment with the minimum standards for EU Climate Transition Benchmarks; and 2) an uplift in MSCI ESG Score against the parent index. The Index is rebalanced on a monthly basis.

Investors should note that the Index is the intellectual property of the index provider. The Fund is not sponsored or endorsed by the index provider and a full disclaimer can be found in the Fund's supplement.

Dividend Policy:

This Share Class declares and distributes a dividend on a quarterly basis.

Redemption and Dealing of Shares:

The Fund's shares are listed on one or more Stock Exchange(s). Investors can buy or sell shares daily through an intermediary directly or on Stock Exchange(s) on which the shares are traded. In exceptional circumstances investors will be permitted to redeem their shares directly from Invesco Markets II plc in accordance with the redemption procedures set out in the prospectus, subject to any applicable laws and relevant charges.

Intended Retail Investor:

The Fund is intended for investors aiming for income and long term capital growth, who may not have specific financial expertise but are able to make an informed investment decision based on this document, the supplement, and the prospectus, have a risk appetite consistent with the risk indicator displayed below and understand that there is no capital guarantee or protection (100% of capital is at risk).

Practical information

Fund Depositary: The Bank of New York Mellon SA/NV, Dublin Branch, Riverside Two, Sir John Rogerson's Quay, Grand Canal Dock, Dublin 2, D02 KV60, Ireland.

Find out more: Further information can be obtained from the prospectus, latest annual report and any subsequent interim reports. This document is specific to the Fund. However, the prospectus, annual report and the interim reports are prepared for the Company of which the Fund is a sub-fund. These documents are available free of charge in English. They can be obtained along with other practical information, such as share prices, at eff.invesco.com (select your country and navigate to the Documents section on the product page), by calling +353 1 439 8000.

The assets of the Fund are segregated as a matter of Irish law and as such, in Ireland, the assets of one sub-fund will not be available to satisfy the liabilities of another sub-fund. This position may be considered differently by the courts in jurisdictions outside of Ireland.

Subject to satisfying certain criteria as set out in the prospectus, investors may be able to exchange their investment in the Fund for shares in another sub-fund of the Company which is being offered at that time.

What are the risks and what could I get in return?

Risk Indicator

! The risk indicator assumes you keep the product for 7 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 2 out of 7, which is a low risk class. This rates the potential losses from future performance at a low level and poor market conditions are very unlikely to impact the value of your investment.

Be aware of currency risk. In some circumstances, you may receive payments in a different currency from your local currency, so the final return you will get may depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown here.

This product does not include any protection from future market performance so you could lose some or all of your investment.

For other risks materially relevant to this product which are not taken into account in the summary risk indicator, please refer to the prospectus and/or the Fund's supplement.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the Fund/a suitable benchmark over the last 10 years. Markets could develop very differently in the future. The stress scenario shows what you might get back in extreme market circumstances.

What happens if Invesco Investment Management Limited is unable to pay out?

The assets of the Fund are segregated from those of Invesco Investment Management Limited. In addition, the Bank of New York Mellon SA/NV, Dublin Branch (the “**Depository**”), as the depository of the Company, is responsible for the safekeeping of the assets of the Fund. To that effect, if Invesco Investment Management Limited defaults, there will be no direct financial impact on the Fund. In addition, the assets of the Fund shall be segregated from the Depository's assets, which may limit the risk for the Fund suffering some loss in case of default by the Depository. As a shareholder in the Fund, there is no compensation or guarantee scheme in place.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed, in the first year you would get back the amount that you invested (0 % annual return). For the other holding period, we have assumed the fund performs as shown in the moderate scenario and the investment is USD 10,000.

Investment: USD 10,000	If you exit after 1 year	If you exit after 7 years
Total costs	46 USD	369 USD
Annual cost impact (*)	0.5%	0.5%

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 2.8% before costs and 2.3% after costs.

How long should I hold it and can I take money out early?

Recommended holding period: 7 years

This Share Class has no required minimum holding period however we have selected 7 years as the recommended holding period as the Share Class invests for the long term therefore you should be prepared to stay invested for at least 7 years.

You can sell your shares in the Share Class during this period or hold the investment longer. For details of how to redeem your shares please refer to the "Redemption and Dealing of Shares" section under "What is this product?" and consult the "What are the costs?" section for details of any applicable fees. If you sell some or all of your investment before 7 years your investment will be less likely to achieve its objectives, however, you will not incur any additional costs by doing so.
