

Purpose

This document provides you with key information about this investment product. It is not marketing material. The information is required by law to help you understand the nature, risks, costs, potential gains and losses of this product and to help you compare it with other products.

Product

iShares MSCI World SRI UCITS ETF (the "Fund"), **Hedged EUR Dist** (the "Share Class"), ISIN: **IE00BMZ17W23**, is authorised in Ireland and manufactured by BlackRock Asset Management Ireland Limited (the "Manager") which is part of the BlackRock, Inc group.

The Manager is authorised in Ireland and regulated by the Central Bank of Ireland (the "CBI") and the CBI is responsible for supervising the Manager in relation to this Key Information Document.

More information is available at **www.blackrock.com** or by calling **+44-207-743-2030**. This document is dated 10 April 2025.

What is this product?

Type: The Fund is a sub-fund of iShares IV plc, an umbrella company incorporated in Ireland, authorised by the Central Bank of Ireland as a Undertaking for Collective Investment in Transferable Securities ("UCITS"). The Fund is a UCITS exchange-traded fund, a UCITS ETF.

Term: The Fund does not have a fixed term of existence or maturity period but in certain circumstances, as described in the Fund prospectus, the Fund may be unilaterally terminated following written notice to unitholders subject to compliance with the Fund prospectus and applicable regulation.

Objectives

- The Fund aims to achieve a return on your investment, through a combination of capital growth and income on the Fund's investments, which reflect the return of the MSCI World SRI Select Reduced Fossil Fuel Index ("the Index").
- The Fund, is passively managed and aims to invest in equity securities (e.g. shares) that make up the Index.
- The Index measures the performance of a sub-set of equity securities (e.g. shares) within four regional indices: the MSCI Pacific Index, the MSCI Europe & Middle East Index, the MSCI Canada Index, and the MSCI USA Index ("Regional Indices") which are issued by global companies with higher environmental, social and governance ("ESG") ratings than other sector peers within the relevant Regional Indices, based on a series of exclusionary and ratings based criteria. Companies are excluded from the Index if they are identified as being involved in certain business lines/activities, as outlined in the Fund's Prospectus. The remaining companies are rated by the index provider based on their ability to manage their ESG risks and opportunities and are given a MSCI ESG rating which determines their eligibility for inclusion. Companies that are involved in very severe controversies are also excluded based on an MSCI ESG controversy score.
- The Fund will adopt a best-in-class approach to sustainable investing. This means that it is expected that the Fund will invest in the best issuers from an ESG / Socially Responsible Investment ("SRI") perspective (based on the ESG or SRI criteria of the Index) within each relevant sector of activities covered by the Index.
- The Index targets a 25% representation from each Global Industry Classification Standard ("GICS") sector within the Regional Indices. Eligible companies in each sector are ranked by the following criteria (in order): (1) each company's MSCI ESG Rating, (2) current index membership (existing constituents are preferred over non-constituents), (3) industry adjusted ESG scores, and (4) decreasing free float-adjusted market capitalisation. Eligible companies from each sector are then included in the Index in a specific order, as defined by the index provider in the index methodology, until the 25% representation has been met.
- The Index is free float adjusted market capitalisation weighted. Free float-adjusted means that only shares readily available in the market rather than all of a company's issued shares are used in calculating the Index. Constraints to limit deviation from the constituent and sector weights of the Regional Indices are applied.
- The Fund intends to replicate the Index by holding the equity securities which make up the Index, in similar proportions to it. The investment manager may use Financial Derivative Instruments ("FDIs") (i.e. investments the prices of which are based on one or more underlying assets) to help achieve the Fund's investment objective.
- The price of equity securities fluctuates daily and may be influenced by factors affecting the performance of the individual companies issuing the equities, as well as by daily stock market movements, and broader economic and political developments which in turn may affect the value of your investment.
- The Fund may also engage in short-term secured lending of its investments to certain eligible third parties to generate additional income to off-set the Fund's costs.
- The relationship between the return on your investment, how it is impacted and the period for which you hold your investment is considered below (see "How long should I hold it and can I take my money out early?").
- The depositary of the Fund is State Street Custodial Services (Ireland) Limited.
- Further information about the Fund can be obtained from the latest annual report and half-yearly reports of the iShares IV plc. These documents are available free of charge in English and certain other languages. These can be found, along with other (practical) information, including prices of units, on the iShares website at: www.ishares.com or by calling +44-207-743-2030 or from your broker or financial adviser.
- Your shares will be distributing shares (i.e. income will be paid on the shares quarterly).
- The Fund's base currency is US Dollar. Shares for this Share Class are denominated in Euro. The performance of your shares may be affected by this currency difference.
- Your shares will be "hedged" with the aim of reducing the effect of exchange rate fluctuations between their denominated currency and the Fund's underlying portfolio currencies. FDIs, including FX forward contracts, will be used for currency hedging purposes. The hedging strategy may not completely eliminate currency risk and, therefore, may affect the performance of your shares.
- The shares are listed and traded on various stock exchanges. In normal circumstances, only authorised participants may buy and sell shares directly with the Fund. Investors who are not authorised participants (e.g. select financial institutions) can generally only buy or sell the shares on the secondary market (e.g. via a broker on a stock exchange) at the then prevailing market price. The value of the shares are related to the value of the underlying assets of the Fund, less costs (see "What are the costs?" below). The prevailing market price at which the shares trade on the secondary market may deviate from the value of the Shares. Indicative net asset value is published on relevant stock exchanges websites.

Intended retail investor: The Fund is intended for retail investors with the ability to bear losses up to the amount invested in the Fund (see "How long should I hold it and can I take my money out early?").

Insurance benefits: The Fund does not offer any insurance benefits.

What are the risks and what could I get in return?

Risk Indicator

Lower risk		Higher risk				
1	2	3	4	5	6	7
 The risk indicator assumes you keep the product for 5 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less.						

- The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.
- We have classified this product as 4 out of 7, which is a medium risk class. This classification rates the potential losses from future performance at a medium level, and poor market conditions could affect the value of your investment. This classification is not guaranteed and may change over time and may not be a reliable indication of the future risk profile of the Fund. The lowest category does not mean risk free.
- **Be aware of currency risk.** If you receive payments in a currency that is different to the product's base currency, the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.
- Please refer to the product's Prospectus for details of other materially relevant risks that may apply to this product.
- This product does not include any protection from future market performance so you could lose some or all of your investment.
- If the product is not able to pay you what is owed, you could lose your entire investment.

Performance Scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product, which may include input from benchmark(s) / proxy, over the last ten years. Markets could develop very differently in the future.

Recommended holding period : 5 years		Example Investment : EUR 10,000	
Scenarios		If you exit after 1 year	If you exit after 5 years
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress*	What you might get back after costs	7,680 EUR	3,440 EUR
	Average return each year	-23.2%	-19.2%
Unfavourable**	What you might get back after costs	7,910 EUR	10,850 EUR
	Average return each year	-20.9%	1.7%
Moderate**	What you might get back after costs	11,220 EUR	16,090 EUR
	Average return each year	12.2%	10.0%
Favourable**	What you might get back after costs	15,040 EUR	20,450 EUR
	Average return each year	50.4%	15.4%

* The stress scenario shows what you might get back in extreme market circumstances.

** This type of scenario occurred for an investment in the product and/or benchmark(s) or proxy between :

Scenarios	1 year	5 years
Unfavourable	December 2021 - December 2022	December 2021 - December 2024
Moderate	July 2023 - July 2024	October 2019 - October 2024
Favourable	March 2020 - March 2021	October 2016 - October 2021

What happens if BlackRock Asset Management Ireland Limited is unable to pay out?

The assets of the Fund are held in safekeeping by its depositary, State Street Custodial Services (Ireland) Limited (the "Depositary"). In the event of the insolvency of the Manager, the Fund's assets in the safekeeping of the Depositary will not be affected. However, in the event of the Depositary's insolvency, or someone acting on its behalf, the Fund may suffer a financial loss. However, this risk is mitigated to a certain extent by the fact the Depositary is required by law and regulation to segregate its own assets from the assets of the Fund. The Depositary will also be liable to the Fund and the investors for any loss arising from, among other things, its negligence, fraud or intentional failure properly to fulfil its obligations (subject to certain limitations). As a shareholder of the Fund you would not be able to make a claim to the UK Financial Services Compensation Scheme or any other scheme about the Fund in the event that the Fund is unable to pay out.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time: The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return).
- For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- EUR 10,000 is invested.

	If you exit after 1 year	If you exit after 5 years
Total costs	24 EUR	196 EUR
Annual cost Impact (*)	0.2%	0.3%

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 10.2% before costs and 10.0% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

Composition of Costs

		If you exit after 1 year
One-off costs upon entry or exit		

Entry costs	We do not charge an entry fee. ¹	-
Exit costs	We do not charge an exit fee. ¹	-

Ongoing costs taken each year

Management fees and other administrative or operating costs	0.23% of the value of your investment per year. This is based on a combination of estimated and actual costs data over the last year. Any underlying product costs are included here with the exception of transaction costs which would be included below under 'Transaction costs'.	23 EUR
---	---	--------

Transaction costs	0.01% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	1 EUR
-------------------	---	-------

Incidental costs taken under specific conditions

Performance fees	There is no performance fee for this product.	-
------------------	---	---

¹Not applicable to secondary market investors. Investors dealing via stock exchanges will pay fees charged by stock brokers. Such charges can be obtained on exchanges where the shares are listed and traded, or from stock brokers. Authorised participants dealing directly with the Fund or the Management Company will pay related transaction costs.

How long should I hold it and can I take money out early? Recommended Holding Period: 5 years

The recommended holding period (RHP) has been calculated in line with the investment strategy of the Fund and the time frame in which it is expected that it will be possible to achieve the investment objective of the Fund. Any investment should be considered against your specific investment needs and appetite for risk. BlackRock has not considered the suitability or appropriateness of this investment for your personal circumstances. If you are in any doubt about the suitability of the Fund to your needs you should seek appropriate professional advice. Details of dealing frequency can be found under "What is this product?". You may receive less than expected if you cash in earlier than the RHP. The RHP is an estimate and must not be taken as a guarantee or an indication of future performance, return or risk levels. Please see the "What are the costs?" section for details of any exit fees.

How can I complain?

If you are not entirely satisfied with any aspect of the service you have received and you wish to complain, details of our complaints handling process are available at www.blackrock.com/uk/individual/about-blackrock/contact-us. Additionally, you can also write to the Investor Services Team, at BlackRock's UK Registered Office, 12 Throgmorton Avenue, London, EC2N 2DL or e-mail them at enquiry@ukclientservices.blackrock.com.
