## What is this product?

### Type

This product is a UCITS exchange traded fund or "UCITS ETF". It is a sub-fund of JPMorgan ETFs (Ireland) ICAV, an Irish collective asset-management vehicle constituted as an umbrella fund with segregated liability between its sub-funds and authorised by the CBI pursuant to the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended).

### Objectives, Process and Policies

**Objective** The Sub-Fund aims to provide an exposure to the performance of bonds issued by the governments or quasi-government entities of emerging markets countries globally which are denominated in US Dollars.

**Share Class Index** J.P. Morgan Emerging Markets Risk-Aware Bond Index

**Investment Policy** The Sub-Fund pursues a passively managed (indextracking) strategy.

The Sub-Fund aims to track the performance of the Index as closely as possible, regardless of whether the Index level rises or falls, while seeking to minimise as far as possible the tracking error between the Sub-Fund's performance and that of the Index. The Sub-Fund will invest at least 80% of its assets (excluding assets held for ancillary liquidity purposes) in securities included in the Index.

The Sub-Fund systematically includes ESG analysis in its investment decisions on at least 75% of non-investment grade and emerging market sovereign and 90% of investment grade securities. Pursuant to the Investment Manager's ESG analysis, at least 51% of the Sub-Fund's Net Asset Value (including securities which are not included in the Index) are invested in issuers with positive environmental and/or social characteristics.

The Sub-Fund invests at least 10% of its Net Asset Value in Sustainable Investments, as defined under SFDR, contributing to environmental or social objectives.

The Index is comprised of debt securities issued by the governments or quasi-government entities of emerging markets countries, which are denominated in US Dollars and which may be rated investment grade or below by independent rating agencies (e.g. Fitch, Moody's, Standard & Poor's) or unrated.

The components of the Index are selected from the components of the J.P. Morgan Emerging Market Bond Index Global Diversified (the "Parent Index") in accordance with the Index's rules-based methodology to represent a diversified set of factor characteristics. The Investment Manager evaluates and applies values and norms based screening to implement exclusions on certain industries and issuers based on specific ESG criteria and/or minimum standards of business practice based on international norms. To support this screening, the Investment Manager relies on third party provider(s) who identify an issuer's participation in or the revenue which they derive from activities that are inconsistent with the values and norms based screens. The list of screens applied that may result in exclusions can be found on the Website ([www.jpmorganassetmanagement.ie](http://www.jpmorganassetmanagement.ie)).

The Sub-Fund will use the optimisation methodology to select securities in order to build a representative portfolio that provides a return that is comparable to that of the Index whilst also ensuring that

the portfolio meets the minimum asset holdings. The optimisation methodology may also be used to reflect changes to the Index in advance of its rebalancing.

Consequently, the Sub-Fund will only hold a certain sub-set of the Index Securities.

The Sub-Fund seeks to assess the impact of ESG factors on the cashflows, policy choices or risk profiles of many issuers in which it may invest, to identify issuers that it believes will be negatively impacted by such factors relative to other issuers. The Investment Manager focuses on key risk factors, including, accounting and tax policies, disclosure and investor communications, shareholder rights, remuneration and social and environmental factors, seeking to identify such negative outliers.

The Sub-Fund may, for efficient portfolio management and investment purposes, use financial derivative instruments. USD is the base currency of the Sub-Fund.

It is currently anticipated that the tracking error of the Sub-Fund will be up to 200 bps under normal market conditions. The causes of tracking error can include but are not limited to the following: holdings/size of the Sub-Fund, cash flows, such as any delays in investing subscription proceeds into the Sub-Fund or realising investments to meet redemptions, fees and the frequency of rebalancing against the Index, or the ESG analysis and criteria.

The Sub-Fund will publicly disclose its complete holdings on a daily basis. Details of the Sub-Fund's holdings and full disclosure policy may be found on [www.jpmorganassetmanagement.ie](http://www.jpmorganassetmanagement.ie).

The Sub-Fund will publicly disclose its complete holdings on a daily basis. Details of the Sub-Fund's holdings and full disclosure policy may be found on [www.jpmorganassetmanagement.lu](http://www.jpmorganassetmanagement.lu).

This Share Class seeks to minimise the effect of currency fluctuations between the Reference Currency of the Sub-Fund (USD) and the Reference Currency of this Share Class (EUR).

**Redemption and Dealing** Shares of the Sub-Fund are traded on one or more stock exchanges. Certain market makers and brokers may subscribe and redeem Shares directly with JPMorgan ETFs (Ireland) ICAV, and are referred to as "Authorised Participants". Other investors who are not Authorised Participants can purchase and sell Shares daily on a recognised stock exchange or over-the-counter.

**Distribution Policy** This Share Class does not pay dividends. Earned income is retained in the Net Asset Value.

### SFDR Classification Article 8

### Intended retail investor

This product is intended for investors who plan to stay invested for at least 5 years.

- Investors should understand the risks involved, including the risk of losing all capital invested and must evaluate the Sub-Fund objective and risks in terms of whether they are consistent with their own investment goals and risk tolerances. The Sub-Fund is not intended as a complete investment plan.
- Typical investors in the Sub-Fund are expected to be investors who want to take exposure to the markets covered by the Index, with an overlay of ESG integration and values and norms-based screening of its investment universe and are prepared to accept the risks associated with an investment of this type, including the volatility of such market.

**Term** This product does not have a fixed maturity date and may be liquidated in certain circumstances, as further detailed in the Prospectus.

### Practical information

**Depositary** The fund depositary is Brown Brothers Harriman Trustee Services (Ireland) Limited.

**Legal Information** JPMorgan Asset Management (Europe) S.à r.l. may be held liable solely on the basis of any statement contained in this document that is misleading, inaccurate or inconsistent with the relevant parts of the Prospectus.

**Switching** Switching of Shares from one Sub-Fund into Shares in another Sub-Fund is not permitted. Switching of Shares from one Share Class into another Share Class within the same Sub-Fund is also not permitted to investors trading on stock exchanges but may be available to the Authorised Participants. Further information can be found in the Prospectus.

## What are the risks and what could I get in return?

### Risks

Lower risk

Higher risk

The risk indicator assumes you keep the product for 5 year(s).

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 3 out of 7, which is a medium-low risk class.

This rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely to impact our capacity to pay you. The risk of the product may be significantly higher if held for less than the recommended holding period.

This product does not include any protection from future market performance so you could lose some or all of your investment. If we are not able to pay you what is owed, you could lose your entire investment.

Beside the risks included in the risk indicator, other risks materially relevant for the product may affect its performance. Please refer to the relevant supplement, available free of charge at [www.jpmorganassetmanagement.lu](http://www.jpmorganassetmanagement.lu).

### Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

**What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.**

**The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.**

The stress scenario shows what you might get back in extreme market circumstances.

**Unfavourable:** this type of scenario occurred for an investment between 2017 and 2022.

**Moderate:** this type of scenario occurred for an investment between 2020 and 2025.

**Favourable:** this type of scenario occurred for an investment between 2016 and 2021.

Recommended holding period		5 years	
Example Investment		€ 10,000	
Scenarios		if you exit after 1 year	if you exit after 5 years (recommended holding period)

### What happens if JPMorgan Asset Management (Europe) S.à.r.l. is unable to pay out?

JPMorgan Asset Management (Europe) S.à r.l. is responsible for administration and management of the Sub-Fund and does not hold assets of the Sub-Fund (assets that can be held by a depositary are, in line with applicable regulations, held with a depositary in its custody network). JPMorgan Asset Management (Europe) S.à r.l., as

the manufacturer of this product has no obligation to pay out since the product design does not contemplate any such payment being made. However, investors may suffer loss if the Sub-Fund or the depositary is unable to pay out. There is no compensation or guarantee scheme in place which may offset, all or any of, your loss.

### What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

#### Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- in the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario
- € 10,000 is invested.

Example Investment € 10,000	if you exit after 1 year	if you exit after 5 years (recommended holding period)
<b>Total Costs</b>	€ 63	€ 302
<b>Annual cost impact*</b>	0.6%	0.6%

(\*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be -1.3% before costs and -1.3% after costs.

#### Composition of costs

One-off costs upon entry or exit	Annual cost impact if you exit after 1 year
<b>Entry costs</b>	0 EUR
<b>Exit costs</b>	0 EUR
Ongoing costs taken each year	
<b>Management fees and other administrative or operating costs</b>	39 EUR
<b>Transaction costs</b>	24 EUR
Incidental costs taken under specific conditions	
<b>Performance fees</b>	0 EUR

#### How long should I hold it and can I take money out early?
