What is this product?

Type

This product is a UCITS exchange traded fund or "UCITS ETF". It is a sub-fund of JPMorgan ETFs (Ireland) ICAV, an Irish collective asset-management vehicle constituted as an umbrella fund with segregated liability between its sub-funds and authorised by the CBI pursuant to the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended).

Objectives, Process and Policies

Objective The Sub-Fund aims to provide current income while seeking to maintain a low volatility of principal.

Share Class Benchmark ICE BofA Sterling 3-Month Government Bill Index

Investment Policy The Sub-Fund pursues an actively-managed investment strategy.
The Sub-Fund seeks to achieve its investment objective by primarily investing in investment grade, Pound Sterling-denominated, short term fixed, variable and floating rate debt securities.
The Sub-Fund will not seek to track the performance of the benchmark, rather the Sub-Fund will hold a portfolio of actively selected and managed investments. The benchmark has been included as a point of reference against which the performance of the Sub-Fund may be measured. The Sub-Fund will be managed without reference to its benchmark.
At least 51% of the Sub-Fund's Net Asset Value is invested in issuers with positive environmental and/or social characteristics that follow good governance practices, as measured through the Investment Manager's proprietary environmental, social and governance ("ESG") scoring methodology and/or third party data. In addition, for some but not necessarily all issuers, the Sub-Fund incorporates a bespoke set of Employee Engagement and Diversity ("EE&D") data inputs, such as an issuer's gender breakdown, diversity programmes, ethnicity score and equal pay score into the investment process. The Sub-Fund invests at least 51% of those assets that have an EE&D rating in issuers scoring above a pre-defined threshold in relation to EE&D inputs. The Sub-Fund promotes environmental and/or social characteristics.
The Sub-Fund invests at least 10% of its Net Asset Value in Sustainable Investments, as defined under SFDR, contributing to environmental or social objectives.
The Investment Manager evaluates and applies values and norms based screening to implement exclusions on certain industries and issuers based on specific ESG criteria and/or minimum standards of business practice based on international norms. To support this screening, the Investment Manager relies on third party provider(s) who identify an issuer's participation in or the revenue which they derive from activities that are inconsistent with the values and norms based screens. The list of screens applied that may result in exclusions can be found on the Website (www.jpmorganassetmanagement.ie).
The Sub-Fund systematically includes ESG analysis in its investment decisions on at least 75% of non-investment grade securities and on at least 90% of investment grade securities purchased.
The Investment Manager allocates the Sub-Fund's assets among a range of market sectors. In buying and selling investments for the Sub-Fund, the Investment Manager looks for market sectors and individual securities that it believes will assist in delivering the Sub-Fund's investment objective by providing stable income and price appreciation.
The Sub-Fund will concentrate its investments in the banking industry and, under normal conditions, will invest more than 25% of its Net Asset Value in debt securities issued by companies which are in the banking industry. The Sub-Fund may, however, invest less than 25% of its Net Asset Value in this industry as a temporary defensive measure.
The Sub-Fund seeks to maintain a duration of one year or less. Duration is a measure of the price sensitivity of a debt security or a portfolio of debt securities to changes in relevant interest rates. As part of its principal investment strategy and for temporary defensive purposes, any portion of the Sub-Fund's Net Asset Value may be invested in cash and cash equivalents.
The Sub-Fund may invest in instruments denominated in currencies other than GBP, however, any non-GBP exposure will be hedged into GBP.
The Sub-Fund may, for efficient portfolio management purposes, use financial derivative instruments.
The Sub-Fund seeks to assess the impact of ESG factors on the cash flows or risk profiles of many issuers in which it may invest, to identify issuers that it believes will be negatively impacted by such factors relative to other issuers. The Investment Manager focuses on key risk factors, including, accounting and tax policies, disclosure and investor communications, shareholder rights, remuneration and social and environmental factors, seeking to identify such negative outliers.
GBP is the base currency of the Sub-Fund.
The Sub-Fund will publicly disclose its complete holdings on a daily basis. Details of the Sub-Fund's holdings and full disclosure policy may be found on www.jpmorganassetmanagement.ie.

Redemption and Dealing Shares of the Sub-Fund are traded on one or more stock exchanges. Certain market makers and brokers may subscribe and redeem Shares directly with JPMorgan ETFs (Ireland) ICAV, and are referred to as "Authorised Participants". Other investors who are not Authorised Participants can purchase and sell Shares daily on a recognised stock exchange or over-the-counter.

Distribution Policy This Share Class will normally pay dividends monthly.

SFDR Classification Article 8

Intended retail investor

This product is intended for investors who plan to stay invested for at least 1 year.

- Investors should understand the risks involved, including the risk of losing all capital invested and must evaluate the Sub-Fund objective and risks in terms of whether they are consistent with their own investment goals and risk tolerances. The Sub-Fund is not intended as a complete investment plan.
- Typical investors in the Sub-Fund are expected to be investors who want to take broad market exposure to short duration debt securities, with positive environmental and/or social characteristics that follow good governance practices, with an overlay of ESG integration and values and norms-based screening of its investment universe, and who are looking for potentially

higher returns than a money market fund and are prepared to incur a higher level of risk in order to achieve this, including the volatility of investments in such debt securities.

Term This product does not have a fixed maturity date and may be liquidated in certain circumstances, as further detailed in the Prospectus.

Practical information

Depositary The fund depositary is Brown Brothers Harriman Trustee Services (Ireland) Limited.

Legal Information JPMorgan Asset Management (Europe) S.à r.l. may be held liable solely on the basis of any statement contained in this document that is misleading, inaccurate or inconsistent with the relevant parts of the Prospectus.

What are the risks and what could I get in return?

Risks

Lower risk ← → **Higher risk**

1	2	3	4	5	6	7

The risk indicator assumes you keep the product for 1 year(s).

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 1 out of 7, which is the lowest risk class.

This rates the potential losses from future performance at a very low level, and poor market conditions are very unlikely to impact our capacity to pay you. The risk of the product may be significantly higher if held for less than the recommended holding period.

This product does not include any protection from future market performance so you could lose some or all of your investment. If we are not able to pay you what is owed, you could lose your entire investment.

Beside the risks included in the risk indicator, other risks materially relevant for the product may affect its performance. Please refer to the relevant supplement, available free of charge at www.jpmorganassetmanagement.lu.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable: this type of scenario occurred for an investment between 2021 and 2022.

Moderate: this type of scenario occurred for an investment between 2018 and 2019.

Favourable: this type of scenario occurred for an investment between 2023 and 2024.

What happens if JPMorgan Asset Management (Europe) S.à.r.l. is unable to pay out?

JPMorgan Asset Management (Europe) S.à r.l. is responsible for administration and management of the Sub-Fund and does not hold assets of the Sub-Fund (assets that can be held by a depositary are, in line with applicable regulations, held with a depositary in its custody network). JPMorgan Asset Management (Europe) S.à r.l., as the manufacturer of this product has no obligation to pay out since the product design does not contemplate any such payment being made. However, investors may suffer loss if the Sub-Fund or the depositary is unable to pay out. There is no compensation or guarantee scheme in place which may offset, all or any of, your loss.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- in the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario
- £ 10,000 is invested.

Example Investment £ 10,000	if you exit after 1 year (recommended holding period)
Total Costs	**£ 22**
Annual cost impact*	**0.2%**

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 0.6% before costs and 0.6% after costs.
