Production date: 2026-03-25

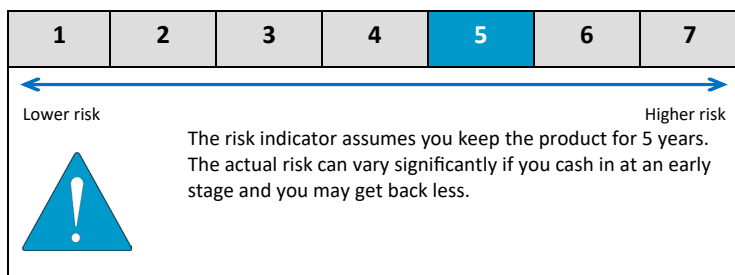

Website: www.lgim.com

Telephone: +44 (0) 203 124 3180 (for more information)

What is this product?

- Type:** This Investment Fund is a sub-Fund of Legal & General UCITS ETF Plc (the "**Company**"), an umbrella investment company with variable capital and segregated liability between Funds. The Fund is authorised in Ireland and regulated by the Central Bank of Ireland.
- Term:** There is no fixed maturity date.
- Objective:** The Fund is a passively managed exchange traded fund that aims to track the performance of the Solactive Clean Energy Index NTR (the "**Index**"), subject to the deduction of the ongoing charges and other costs associated with operating the Fund. The Fund has a sustainable investment objective as it invests in companies which (i) contribute to environmental objectives, (ii) do not significantly harm any environmental or social objectives, and (iii) follow good governance practices. Shares in this Share Class (the "**Shares**") are denominated in USD and can be bought and sold on stock exchanges by ordinary investors using an intermediary (e.g. a stockbroker). In normal circumstances, only Authorised Participants may buy and sell Shares directly with the Company. Authorised Participants may redeem their Shares on demand in accordance with the "Dealing Timetable" published on <http://www.lgim.com>. The Index is designed to provide exposure to publically traded companies that are actively engaged in the value-chain of the global clean energy industry. "Value-chain" refers to all of the value-creating activities within the global clean energy industry, beginning with the manufacturing of essential components up to the infrastructure and optimal usage of renewable energy. A company is only eligible for inclusion in the Index if it is of a sufficient size (determined by reference to the total market value of its shares) and it is sufficiently "liquid" (a measure of how actively its shares are traded on a daily basis). The universe of companies out of which the Index selection is made is refreshed semi-annually in March and September. All constituents of the Index are equally weighted within the Index subject to certain liquidity adjustments made to ensure that less liquid securities are not overly represented in the Index. The Index will exclude companies which are constituents of the ESG Exclusions Index, namely companies that (i) have severe controversies, (ii) are persistent violators of the UN Global Compact, and/or (iii) are involved, to a certain degree, in harmful activities as determined in the Index Methodology available at: www.solactive.com. In addition, the Index will exclude companies based on the exclusions for EU Paris-Aligned Benchmarks (PAB). The exclusions for PAB are the following: a) Companies involved in any activities related to controversial weapons; b) Companies involved in the cultivation and production of tobacco c) Companies in violation of the United Nations Global Compact (UNGC) principles or the Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises; d) Companies that derive 1 % or more of their revenues from exploration, mining, extraction, distribution or refining of hard coal and lignite; e) Companies that derive 10 % or more of their revenues from the exploration, extraction, distribution or refining of oil fuels; f) Companies that derive 50 % or more of their revenues from the exploration, extraction, manufacturing or distribution of gaseous fuels; g) Companies that derive 50 % or more of their revenues from electricity generation with a GHG intensity of more than 100 g CO₂ e/kWh. The Fund will primarily invest directly in the securities represented in the Index in similar proportions to their weightings in the Index. The fund may also invest in (1) companies that are not constituents of the Index that have similar risk and performance characteristics to the companies contained in the Index and (2) financial derivative instruments ("FDIs") (i.e. investments the prices of which are based on the companies contained in the Index and/or such other companies). Adjustments to the Fund's portfolio, including as a result of a reconstitution of the Index, will incur transaction costs. This Share Class does not intend to pay dividends. Any income which may result from the Fund's investments will be reinvested into the Fund. The depositary of the Fund is the Bank of New York Mellon SA/NV, Dublin Branch. Further information about the Fund and the share class can be obtained from the Company's prospectus and the annual and semi-annual reports, which are available, in addition to the latest prices for the unit class and details of any other unit classes, free of charge at: www.lgim.com.
- Intended Retail Investor:** The Fund is designed for investors looking to grow their money in an investment which can form part of their existing savings portfolio. Although investors can take their money out at any time, the Fund may not be appropriate for those who plan to withdraw their money within five years. The Fund is not designed for investors who cannot afford more than a minimal loss of their investment.

What are the risks and what could I get in return?

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 5 out of 7, which a medium-high risk class. This rates the potential losses from future performance at a medium-high level, and poor market conditions will likely impact our capacity to pay you.

Further information about the risks that are relevant to this Fund can be found in the Prospectus, available at <https://fundcentres.landg.com>.

This product does not include any protection from future market performance so you could lose some or all of your investment.

If we are not able to pay you what is owed, you could lose your entire investment.

Performance Scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product / a suitable benchmark over the last 10 years. Markets could develop very differently in the future.

Recommended holding period:		5 years	
Example Investment:		10,000 USD	
Scenarios		If you exit after 1 year	If you exit after 5 years (Recommended holding period)
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs	3,570 USD	2,680 USD
	Average return each year	-64.3%	-23.2%
Unfavourable	What you might get back after costs	7,730 USD	9,320 USD
	Average return each year	-22.7%	-1.4%
Moderate	What you might get back after costs	10,670 USD	17,500 USD
	Average return each year	6.7%	11.8%
Favourable	What you might get back after costs	22,470 USD	32,480 USD
	Average return each year	124.7%	26.6%

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable: This type of scenario occurred for an investment (in reference to benchmark: Solactive Clean Energy Index NTR) between February 2021 and October 2025.

Moderate: This type of scenario occurred for an investment (in reference to benchmark: Solactive Clean Energy Index NTR) between July 2017 and June 2022.

Favourable: This type of scenario occurred for an investment (in reference to benchmark: Solactive Clean Energy Index NTR) between February 2016 and January 2021.

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What happens if LGIM Managers (Europe) Limited is unable to pay out?

If LGIM Managers (Europe) Limited defaults, investors in the Fund would not face any financial losses. However, the value of an investment and any income taken from it is not guaranteed and can go down as well as up, you may not get back the amount you originally invested. The fund is not covered by an investor compensation scheme.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods:

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

- USD 10,000 is invested.

	If you exit after 1 year	If you exit after 5 years
Total costs	68 USD	606 USD
Annual cost impact (*)	0.7%	0.8% (each year)

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 12.6% before costs and 11.8% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	We do not charge an entry fee.	0 USD
Exit costs	We do not charge an exit fee for this product, but the person selling you the product may do so.	0 USD
Ongoing costs taken each year		
Management fees and other administrative or operating costs	0.49% of the value of your investment per year. This is an estimate based on actual costs over the last year.	49 USD
Transaction costs	0.19% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	19 USD
Incidental costs taken under specific conditions		
Performance fees	There is no performance fee for this product.	0 USD

How long should I hold it and can I take money out early?

Recommended holding period: 5 (years)

The recommended holding period of 5 years has been selected for illustrative purposes for a product with a medium to long-term investment horizon. There is no minimum (or maximum) holding period for the fund and you can redeem your investment any time in accordance with the fund prospectus, however you may receive less than expected if you cash in earlier than the RHP. If you are in any doubt about the suitability of the product to meet your needs, you should seek professional advice. The Shares can be sold by ordinary investors using an intermediary (e.g. a stockbroker) when the markets on which they trade are open. An intermediary is likely to apply a commission to purchases and sales. Please see "What are the costs?" section for details of any exit fees.

The above mentioned period has been defined in accordance to the product characteristics.

How can I complain?

Complaints can be made in writing to LGIM Managers (Europe) Ltd, 70 Sir John Rogerson's Quay, Dublin 2, DO2 R296, Ireland or by submitting your complaint via the contact us section of the website <https://www.legalandgeneral.com/contact-us/> or by email to complaints@lgim.com

Other relevant information

Further information about the Fund including 5 years of past performance history can be found at www.lgim.com. Previous performance scenarios required under PRIIPs regulation can be found at <https://documents.dataglide.co/latest/shareclasses/IE00BK5BCH80/kms>. Past performance is not a guide to future performance and future returns could be significantly worse than shown. This Key Information Document is updated at least every 12 months. If you are in any doubt about the action you should take, you should seek independent financial advice.
