What is this product?

Type: This Investment Fund is a sub-Fund of Legal & General UCITS ETF Plc (the "**Company**"), an umbrella investment company with variable capital and segregated liability between Funds. The Fund is authorised in Ireland and regulated by the Central Bank of Ireland.

Term: There is no fixed maturity date.

Objective: The investment objective of the Fund is to track the performance of the ShortDAX® x2 Index.

The Fund is passively managed and aims to track the performance of the ShortDAX® x2 Index (the "Index"), before the deduction of fees and expenses. The Index is designed to provide daily investment results that correspond to twice the inverse of the daily performance of the DAX® Index (the "Underlying Index"), adjusted to reflect financing and borrowing costs.

Due to the daily rebalancing of the Index, the Fund's performance over periods longer than one day may differ significantly from twice the inverse of the performance of the Underlying Index over the same period. As a result, the Fund may not be suitable for investors seeking exposure for periods longer than one day.

The Fund achieves exposure to the performance of the Index primarily through the use of financial derivative instruments, in particular total return swap agreements. The Fund may also invest in a basket of securities and/or other assets for collateral and liquidity management purposes, and may use other financial derivative instruments for efficient portfolio management or to assist in tracking the performance of the Index.

This Share Class does not intend to pay dividends. Any income which may result from the Fund's investments will be re-invested into the Fund.

Shares in this Share Class (the "**Shares**") are denominated in EUR and can be bought and sold on stock exchanges by ordinary investors using an intermediary (e.g. a stockbroker). In normal circumstances, only Authorised Participants may buy and sell Shares directly with the Company. Authorised Participants may redeem their Shares on demand in accordance with the "Dealing Timetable" published on <http://www.lgim.com>.

The depositary of the Fund is the Bank of New York Mellon SA/NV, Dublin Branch. Further information about the Fund and the share class can be obtained from the Company's prospectus and the annual and semi-annual reports, which are available, in addition to the latest prices for the share class and details of any other share classes, free of charge at: www.lgim.com.

Intended Retail Investor: The Fund is designed for investors who: (1) understand the risks involved in investing in a product with leveraged exposure; (2) intend to invest on a short term basis; and (3) are able to bear the risk of losing their entire investment. The Fund is not designed for investors who cannot afford more than a minimal loss of their investment.

What are the risks and what could I get in return?

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 6 out of 7, which is the second-highest risk class.

This rates the potential losses from future performance at a high level, and poor market conditions are very likely to impact our capacity to pay you.

Further information about the risks that are relevant to this Fund can be found in the Prospectus, available at <https://fundcentres.landg.com>.

This product does not include any protection from future market performance so you could lose some or all of your investment.

If we are not able to pay you what is owed, you could lose your entire investment.

Performance Scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product / a suitable benchmark over the last 10 years. Markets could develop very differently in the future.

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What happens if LGIM Managers (Europe) Limited is unable to pay out?

If LGIM Managers (Europe) Limited defaults, investors in the Fund would not face any financial losses. However, the value of an investment and any income taken from it is not guaranteed and can go down as well as up, you may not get back the amount you originally invested. The fund is not covered by an investor compensation scheme.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount. We have assumed EUR 10,000 is invested.

	If you exit after 1 day
Total costs	0 EUR
Cost impact (*)	0.0%

This illustrates the effect of costs over a holding period of less than one year. This percentage cannot be directly compared to the cost impact figures provided for other PRIIPs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

How long should I hold it and can I take money out early?

Recommended holding period: 1 (day)

The recommended holding period of 1 day has been selected for illustrative purposes for a product with a short-term investment horizon. There is no minimum (or maximum) holding period for the fund and you can redeem your investment any time in accordance with the fund prospectus, however you may receive less than expected if you cash in earlier than the RHP. If you are in any doubt about the suitability of the product to meet your needs, you should seek professional advice. The Shares can be sold by ordinary investors using an intermediary (e.g. a stockbroker) when the markets on which they trade are open. An intermediary is likely to apply a commission to purchases and sales. Please see "What are the costs?" section for details of any exit fees.

The above mentioned period has been defined in accordance to the product characteristics.

How can I complain?
