Production date: 2025-12-04

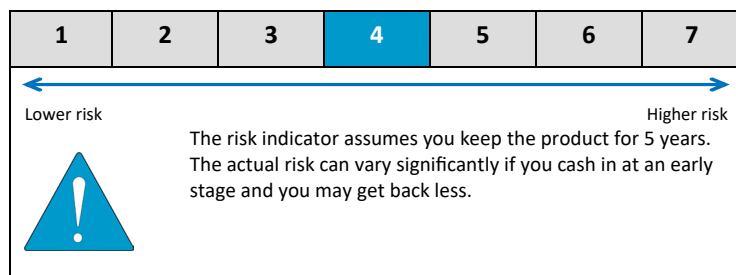

Website: www.lgim.com

Telephone: +44 (0) 203 124 3180 (for more information)

What is this product?

- Type:** This Investment Fund is a sub-Fund of Legal & General UCITS ETF Plc (the "**Company**"), an umbrella investment company with variable capital and segregated liability between Funds. The Fund is authorised in Ireland and regulated by the Central Bank of Ireland.
- Term:** There is no fixed maturity date.
- Objective:** The Fund is a passively managed exchange traded Fund that aims to track the performance of the MSCI ACWI Select Climate 500 Index – Europe Subset (the "**Index**"), subject to the deduction of the ongoing charges and other costs associated with operating the Fund. The Fund promotes a range of environmental and social characteristics which are met by tracking the Index. Shares in this Share Class (the "**Shares**") are denominated in EUR and can be bought and sold on stock exchanges by ordinary investors using an intermediary (e.g. a stockbroker). In normal circumstances, only Authorised Participants may buy and sell Shares directly with the Company. Authorised Participants may redeem their Shares on demand in accordance with the "Dealing Timetable" published on <http://www.lgim.com>. The index is designed to be a benchmark for European equities and measures the performance of small, mid and large cap publically traded companies in Europe which satisfy minimum criteria relating to liquidity and size. The Index excludes companies that are classified by the Index Provider as being involved in ongoing, very severe ESG controversy implicating a company directly through its actions, products, or operations, as outlined in the MSCI ESG Controversies methodology which can be found at: <https://www.msci.com/legal/disclosures/esg-disclosures>. The Index also excludes companies identified by MSCI ESG Business Involvement Screening Research and MSCI Climate Change Metrics that are involved in the following business activities: (i) Controversial Weapons, (ii) Nuclear Weapons, (iii) Tobacco, (iv) Thermal Coal Mining, (v) Thermal Coal Power, or (vi) Fossil Fuel Power Generation. The Index Provider determines what constitutes "involvement" in each restricted activity. This may be based on a percentage of revenue, a defined total revenue threshold or any association to a restricted activity. For more details on MSCI ESG Business Involvement Screening Research and MSCI Climate Change Metrics, please refer to http://www.msci.com/resources/factsheets/MSCI_ESG_BISR.pdf and <https://www.msci.com/climate-change-solutions>. The Index methodology aims to reduce the weighted average greenhouse gas emissions intensity relative to a company's enterprise value including cash by 7% on an annualized basis; reduce the weighted average greenhouse gas emissions intensity relative to a company's sales by 10% on an annualized basis; and increase the weight in companies with one or more greenhouse gas emissions reduction targets approved by Science Based Targets initiative (SBTi) by 20%. The Fund will primarily invest in an optimised portfolio of equity securities that, as far as possible and practicable, consists of the component securities of the Index in similar proportions to their weightings in the Index. The Fund will utilise optimisation/representative sampling techniques in order to achieve the Fund's investment objective, including by reducing overall transaction costs and taxes. This is generally achieved through the use of quantitative analysis (i.e. application of mathematical rules-based analysis based on the risk and return characteristics of the Index components) with the level of sampling techniques used by the Fund being determined by the nature of the Index components. The Fund may also invest in (1) companies that are not constituents of the Index that have similar risk and performance characteristics to the companies contained in the Index and (2) financial derivative instruments ("FDIs") (i.e. investments the prices of which are based on the companies contained in the Index and/or such other companies). Adjustments to the Fund's portfolio, including as a result of a reconstitution of the Index, will incur transaction costs. This Share Class does not intend to pay dividends. Any income which may result from the Fund's investments will be re-invested into the Fund. The depositary of the Fund is the Bank of New York Mellon SA/NV, Dublin Branch. Further information about the Fund and the share class can be obtained from the Company's prospectus and the annual and semi-annual reports, which are available, in addition to the latest prices for the share class and details of any other share classes, free of charge at: www.lgim.com.
- Intended Retail Investor:** The Fund is designed for investors looking to grow their money in an investment which can form part of their existing savings portfolio. Although investors can take their money out at any time, the Fund may not be appropriate for those who plan to withdraw their money within five years. The Fund is not designed for investors who cannot afford more than a minimal loss of their investment.

What are the risks and what could I get in return?

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 4 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium level, and poor market conditions could impact our capacity to pay you.

Further information about the risks that are relevant to this Fund can be found in the Prospectus, available at <https://fundcentres.landg.com>.

This product does not include any protection from future market performance so you could lose some or all of your investment.

If we are not able to pay you what is owed, you could lose your entire investment.

Performance Scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product / a suitable benchmark over the last 10 years. Markets could develop very differently in the future.

| Recommended holding period: | | 5 years | |
|-----------------------------|---|--------------------------|---|
| Example Investment: | | 10,000 EUR | |
| Scenarios | | If you exit after 1 year | If you exit after 5 years (Recommended holding period) |
| Minimum | There is no minimum guaranteed return. You could lose some or all of your investment. | | |
| Stress | What you might get back after costs | 3,890 EUR | 3,720 EUR |
| | Average return each year | -61.1% | -18.0% |
| Unfavourable | What you might get back after costs | 8,550 EUR | 10,710 EUR |
| | Average return each year | -14.5% | 1.4% |
| Moderate | What you might get back after costs | 10,780 EUR | 14,670 EUR |
| | Average return each year | 7.8% | 8.0% |
| Favourable | What you might get back after costs | 14,090 EUR | 18,610 EUR |
| | Average return each year | 40.9% | 13.2% |

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable: This type of scenario occurred for an investment (in reference to benchmark: MSCI ACWI Select Climate 500 Index – Europe Subset) between November 2015 and October 2020.

Moderate: This type of scenario occurred for an investment (in reference to benchmark: MSCI ACWI Select Climate 500 Index – Europe Subset) between December 2018 and November 2023.

Favourable: This type of scenario occurred for an investment (in reference to benchmark: MSCI ACWI Select Climate 500 Index – Europe Subset) between April 2020 and March 2025.

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What happens if LGIM Managers (Europe) Limited is unable to pay out?

If LGIM Managers (Europe) Limited defaults, investors in the Fund would not face any financial losses. However, the value of an investment and any income taken from it is not guaranteed and can go down as well as up, you may not get back the amount you originally invested. The fund is not covered by an investor compensation scheme.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods:

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- EUR 10,000 is invested.

| | If you exit after 1 year | If you exit after 5 years |
|-------------------------------|--------------------------|---------------------------|
| Total costs | 65 EUR | 488 EUR |
| Annual cost impact (*) | 0.7% | 0.7% (each year) |

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 8.7% before costs and 8.0% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

Composition of costs

| One-off costs upon entry or exit | | If you exit after 1 year |
|---|---|--------------------------|
| Entry costs | We do not charge an entry fee. | 0 EUR |
| Exit costs | We do not charge an exit fee for this product, but the person selling you the product may do so. | 0 EUR |
| Ongoing costs taken each year | | |
| Management fees and other administrative or operating costs | 0.11% of the value of your investment per year. This is an estimate based on actual costs over the last year. | 11 EUR |
| Transaction costs | 0.54% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell. | 54 EUR |
| Incidental costs taken under specific conditions | | |
| Performance fees | There is no performance fee for this product. | 0 EUR |

How long should I hold it and can I take money out early?

Recommended holding period: 5 (years)

The recommended holding period of 5 years has been selected for illustrative purposes for a product with a medium to long-term investment horizon. There is no minimum (or maximum) holding period for the fund and you can redeem your investment any time in accordance with the fund prospectus, however you may receive less than expected if you cash in earlier than the RHP. If you are in any doubt about the suitability of the product to meet your needs, you should seek professional advice. The Shares can be sold by ordinary investors using an intermediary (e.g. a stockbroker) when the markets on which they trade are open. An intermediary is likely to apply a commission to purchases and sales. Please see "What are the costs?" section for details of any exit fees.

The above mentioned period has been defined in accordance to the product characteristics.

How can I complain?

Complaints can be made in writing to LGIM Managers (Europe) Ltd, 70 Sir John Rogerson's Quay, Dublin 2, DO2 R296, Ireland or by submitting your complaint via the contact us section of the website <https://www.legalandgeneral.com/contact-us/> or by email to complaints@lgim.com

Other relevant information

Further information about the Fund including 5 years of past performance history can be found at www.lgim.com. Previous performance scenarios required under PRIIPs regulation can be found at <https://documents.dataglide.co/latest/shareclasses/IE00BKLTRN76/kms>. Past performance is not a guide to future performance and future returns could be significantly worse than shown. This Key Investor Document is updated at least every 12 months. If you are in any doubt about the action you should take, you should seek independent financial advice.
