Share class ISIN: IE00BLRPRF81

This PRIIP is authorised in Ireland
Website: www.lgim.com
Telephone: +44 (0) 203 124 3180
Regulator: Central Bank of Ireland
Production date: 2025-05-15

What is this product?

Type: This investment fund is a sub-Fund of Legal & General UCITS ETF Plc (the "**Company**"), an umbrella investment company with variable capital and segregated liability between Funds. The Fund is authorised in Ireland and regulated by the Central Bank of Ireland.

Term: There is no fixed maturity date.

Objectives: The Fund is a passively managed exchange traded Fund that aims to track the performance of the J.P. Morgan ESG CEMBI Broad Diversified Custom Maturity Index (the "**Index**"), subject to the deduction of the ongoing charges and other costs associated with operating the Fund.
The Fund promotes a range of environmental and social characteristics which are met by tracking the Index.
Shares in this Share Class (the "**Shares**") are denominated in USD and can be bought and sold on stock exchanges by ordinary investors using an intermediary (e.g. a stockbroker). In normal circumstances, only Authorised Participants may buy and sell Shares directly with the Company. Authorised Participants may redeem their Shares on demand in accordance with the "Dealing Timetable" published on **http://www.lgim.com**.
The index measures the performance of certain US dollar denominated emerging market fixed and floating rate bonds issued by corporate entities from emerging market countries. The Index offers exposure to bonds which have at least USD500 million in outstanding issuance. The bonds must have at least 2.5 years to maturity to be eligible for inclusion in the Index and must have greater than 6 months to maturity to remain eligible at each month-end rebalancing. There is no credit rating criteria for inclusion in the Index. The index is rebalanced on a monthly basis, on the last US business day of the month. The Index is designed to provide exposure to securities of issuers that satisfy certain environmental, social and governance ("ESG") requirements, as defined by the index provider. An ESG scoring and screening methodology is applied by the Index to tilt towards issuers ranked higher on ESG criteria and green bond issues, and to underweight and exclude issuers that rank lower. The Index excludes issuers with revenue from the following industries: (a) thermal coal; (b) tobacco; and (c) weapons.
The Fund will primarily invest in a representative sample of the bonds contained in the Index whose risk and performance characteristics closely resemble that of the Index as a whole. The Fund may also invest in (1) bonds and similar securities that are not constituents of the Index that have similar risk and performance characteristics to the bonds contained in the Index and (2) financial derivative instruments ("FDIs") (i.e. investments the prices of which are based on the bonds contained in the Index and/or such other bonds or similar securities).
This Share Class aims to pay semi-annual dividends out of the Fund's net income by electronic transfer.
The depositary of the Fund is the Bank of New York Mellon SA/NV, Dublin Branch. Further information about the Fund and the share class can be obtained from the Company's prospectus and the annual and semi-annual reports, which are available, in addition to the latest prices for the share class and details of any other share classes, free of charge at: **www.lgim.com**.

Intended retail investor: The Fund is designed for investors looking for a combination of growth and income from an investment in eligible liquid, US Dollar-denominated, emerging market, fixed and floating-rate corporate bonds which can form part of their existing savings portfolio. Although investors can take their money out at any time, the Fund may not be appropriate for those who plan to withdraw their money within five years. The Fund is not designed for investors who cannot afford more than a minimal loss of their investment.

What is the risk and what could I get in return?

1	**2**	3	4	5	6	7

Typically Lower rewards — Typically higher rewards

Lower Risk — Higher Risk

The risk indicator assumes you keep the product for 5 year(s). The actual risk can vary significantly if you cash in at an early stage and you may get back less.
You may not be able to sell your product easily or you may have to sell at a price that significantly impacts on how much you get back.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 2 out of 7, which is a low risk class. This classification rates the potential losses from future performance at a low level, and poor market conditions could impact the value of your investment. Any other risks materially relevant to the PRIIP not included in the summary risk indicator are described in the Fund supplement and/or Prospectus. The lowest category does not mean risk free.

Investing in emerging market corporate bonds will expose the Fund to any political, social and economic instability in the relevant countries. Investing in the Chinese Interbank Bond Market via Bond Connect is subject to regulatory risk.

The value of the Fund may be affected by risks not in the SRI, including failure of a counterparty, custodian, issuer or index provider and derivative use.

This product does not include any protection from future market performance so you could lose some or all of your investment.
Be aware of currency risk. You may receive payments in a different currency, so the final return you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.
The Fund is not covered by an investor compensation scheme.

Performance scenarios

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product with input from benchmark(s)/proxy over the last 10 years. Markets could develop very differently in the future.

Market developments in the future cannot be accurately predicted. The scenarios shown are only an indication of some of the possible outcomes based on recent returns. Actual returns could be lower.

Investment USD 10,000.00			
Scenarios		**1 year**	**5 years (Recommended holding period)**
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress scenario*	What you might get back after costs	7,770 USD	7,850 USD
	Average return each year	-22.3%	-4.7%
Unfavourable scenario**	What you might get back after costs	7,950 USD	8,980 USD
	Average return each year	-20.5%	-2.1%
Moderate scenario***	What you might get back after costs	10,410 USD	10,530 USD
	Average return each year	4.1%	1.0%
Favourable scenario****	What you might get back after costs	11,620 USD	13,920 USD
	Average return each year	16.2%	6.8%

* The Stress scenario shows what you might get back in extreme market circumstances.

** The Unfavourable scenario was simulated based on the appropriate benchmark used for an investment between 06-2021 and 02-2025.

*** The Moderate scenario was simulated based on the appropriate benchmark used for an investment between 04-2018 and 04-2023.

**** The Favourable scenario was simulated based on the appropriate benchmark used for an investment between 01-2016 and 01-2021.

This table shows the money you could get back over the next 5 year(s), under different scenarios, assuming that you invest 10,000.00 USD.

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What happens if LGIM Managers (Europe) Limited is unable to pay out?

If LGIM Managers (Europe) Limited defaults, investors in the Fund would not face any financial losses. However, the value of an investment and any income taken from it is not guaranteed and can go down as well as up, you may not get back the amount you originally invested. The fund is not covered by an investor compensation scheme.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

The Reduction in Yield (RIY) shows what impact the total costs you pay will have on the investment return you might get. The total costs take into account one-off, ongoing and incidental costs.

The amounts shown here are the cumulative costs of the product itself, for the holding period(s). They include potential early exit penalties. The figures assume you invest 10,000.00 USD. The figures are estimates and may change in the future.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest and how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

We have assumed:
- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- USD 10,000.00 is invested.

Investment USD 10,000.00	If you cash in after 1 year	If you cash in after 5 years
Total costs	35 USD	187 USD
Impact on return (RIY) per year (*)	0.4%	0.4%

(*) This illustrates how costs reduce your return each year over the holding period. For example, it shows that if you exit at the recommended holding period your average return per year is projected to be 1.4% before costs and 1.0% after costs.

Composition of costs

The table below shows:
- The impact each year of the different types of costs on the investment return you might get at the end of the recommended holding period.
- What the different cost categories mean.

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	0.00% There is no entry fee for this product.	0 USD
Exit costs	0.00% There is no exit fee for this product.	0 USD
Ongoing costs taken each year		
Management fees and other administrative or operating costs	0.35% of the value of your investment per year.	35 USD
Transaction costs	0.00% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	0 USD
Incidental costs taken under specific conditions		
Performance fees and carried interest	0.00% There is no performance fee for this product.	0 USD

How long should I hold it and can I take my money out early?

An investor can hold their investment for any time period but 5 year(s) is recommended.

The recommended holding period of 5 years has been selected for illustrative purposes for a product with a medium to long-term investment horizon. There is no minimum (or maximum) holding period for the fund and you can redeem your investment any time in accordance with the fund prospectus, however you may receive less than expected if you cash in earlier than the RHP. If you are in any doubt about the suitability of the product to meet your needs, you should seek professional advice. The Shares can be sold by ordinary investors using an intermediary (e.g. a stockbroker) when the markets on which they trade are open. An intermediary is likely to apply a commission to purchases and sales. Please see “What are the costs?" section for details of any exit fees.

The above mentioned period has been defined in accordance to the product characteristics.

How can I complain?

Complaints can be made in writing to LGIM Managers (Europe) Ltd, 70 Sir John Rogerson's Quay, Dublin 2, DO2 R296, Ireland or by submitting your complaint via the contact us section of the website https://www.legalandgeneral.com/contact-us/ or by email to complaints@lgim.com.

Other relevant information

Further information about the Fund including 2 years of past performance history and previous performance scenarios required under PRIIPs regulation can be found at www.lgim.com. Past performance is not a guide to future performance and future returns could be significantly worse than shown. This Key Information Document is updated at least every 12 months. If you are in any doubt about the action you should take, you should seek independent financial advice.
