You are about to purchase a product that is not simple and may be difficult to understand

What is this product?

Type This is a UCITS ETF

Objectives

The Sub-Fund aims to outperform Solactive ISS Paris Aligned Select Euro Corporate Bond Index (the Index) over the long term by investing in an actively managed portfolio of EUR investment grade (IG) fixed rate corporate bonds while also having the sustainable objective of reducing its carbon emissions, and meeting the requirements for Paris-aligned Benchmarks in Commission Delegated Regulation (EU) 2020/1818.

The Sub-Fund will seek to achieve its investment objective primarily through investment in a portfolio of EUR IG fixed rate corporate bonds. To achieve its sustainable investment objective, the Sub-Fund aims to limit its corporate bond investments to issuers that are constituents of the Index and reduce its weighted average carbon emissions so that they are lower than or equal to those of the Index. While it is intended that the Sub-Fund's investments will comprise IG issues, issues may be downgraded and in such event the Sub-Fund may hold non-IG issues until such time as it is possible and practicable (in the Investment Manager's view) to liquidate the position. As further described in the "Investment Techniques and Instruments" section in the Prospectus, the Sub-Fund may also invest in other securities, including European government bonds, and/or financial derivative instruments (FDIs), for efficient portfolio management (EPM) purposes. The FDIs in which the Sub-Fund may invest for EPM purposes are swaps and futures, including European government bond futures, as described in the Prospectus. The Sub-Fund is actively managed with reference to the Index, targeting ex-ante annualised tracking error relative to the Index of up to 1.0%. Bonds are selected from an investment universe of EUR corporate bonds issued by that are represented in the Index. The Investment Manager aims to select bonds that are undervalued or fairly valued relative to their creditworthiness, while avoiding bonds that are overvalued. Bonds are assessed based on fundamental issuer-level credit analysis and valuation scores, calculated using industry standard data and tools.

The Investment Manager may also adjust the risk profile of the Sub-Fund relative to the Index in response to market conditions, using quantitative inputs such as sector credit spreads, historical return patterns and cross-asset class prices.

Term

This investment has no maturity date. The Manufacturer has the right to terminate the product in a limited number of circumstances, as set out in the Prospectus.

Redemption and Dealing Shares: You can purchase or sell units in the Sub-Fund on any business day as further specified in the Supplement.

Distribution Policy: The Sub-Fund can launch both accumulating and distributing share classes. Please refer to www.jhetf.com/documents and search "dividend calendar" for further information.

Intended Retail Investor

Intended Retail Investor: The Sub-Fund is intended for well-informed investors aiming to invest over the long term, who are able to make an informed investment decision based on this document and the Prospectus, have a risk appetite consistent with the risk indicator below and understand that there is no capital guarantee protection (100% of capital is at risk).

What are the risks and what could I get in return?

Lower risk

Typically Lower Rewards

Typically Higher Rewards

The risk indicator assumes you keep the product for 5 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less. You may not be able to sell your product easily or you may have to sell at a price that significantly impacts on how much you get back. Be aware of currency risk. In some circumstances, you may receive payments in a different currency, so the final return you will get may depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

The Sub-Fund has been rated as a 2 due to the nature of its investments and frequency of price movements which includes the following. This rates the potential losses from future performance at a medium level and poor market conditions could impact the capacity of the Sub-Fund to pay you.

No capital protection: The value of your investment may go down as well as up and you may not get back the amount you invested.

Details of all relevant risks can be found in the prospectus and supplement, available at www.jhetf.com.

Performance Scenarios

The figures shown include all the costs of the product itself (the ongoing costs of the representative share class) but may not include all the costs that you pay to your advisor or distributor / and includes the costs of your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the Fund over the last 5 years. The stress scenario shows what you might get back in extreme market circumstances.

Performance Scenarios

Recommended hold period: 5 years

Investment: 10000 €

| Scenarios | | If you exit after 1 year | If you exit after the 5-year recommended holding period |
|-----------------------|---|--------------------------|---|
| Minimum | There is no minimum guaranteed return. You could lose some or all of your investment. | | |
| Stress Scenario | What you might get back after costs | 8084.19 € | 7845.18 € |
| | Average Return each year | -19.158% | -4.738% |
| Unfavourable Scenario | What you might get back after costs | 8398.46 € | 8925.63 € |
| | Average Return each year | -16.015% | -2.248% |
| Moderate Scenario | What you might get back after costs | 10190.39 € | 9785.78 € |
| | Average Return each year | 1.904% | -0.432% |
| Favourable Scenario | What you might get back after costs | 10876.27 € | 11235.30 € |
| | Average Return each year | 8.763% | 2.357% |

The SRI and performance scenarios computation have been integrated using data of the fund benchmark and, for data points prior to the benchmark launch, the parent index as a proxy.

What happens if Waystone Management Company (IE) Limited is unable to pay out?

The assets of the Fund are segregated from those of Waystone Management Company (IE) Limited. In addition, HSBC Continental Europe, Dublin Branch, as the depositary of Janus Henderson ICAV funds (the "Depositary"), is responsible for the safekeeping of the assets of the Fund. To that effect, if Waystone Management Company (IE) Limited defaults, there will be no direct financial impact on the Fund. In addition, the Fund's assets shall be segregated from the Depositary's assets, which limits the risk for the Fund suffering some loss in case of default of the Depositary. As a unitholder in the Fund, there is no compensation or guarantee scheme in place.

What are the costs?

The person selling to you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs and show you the impact that all costs will have on your investment over time. The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

| Investment: 10000 € | If you cash in after 1 year | If you cash in after 3 years | If you cash in at the end of the 5 years |
|------------------------|-----------------------------|------------------------------|--|
| Total costs | 3317 € | 98.83 € | 16194 € |
| Annual cost impact (*) | 0.332% | 0.331% | 0.326% |

(*) This illustrates how costs reduce your return each year over the holding period. For example, it shows that if you exit at the recommended holding period your median return per year before cost (the ongoing cost of the representative share class) is projected to be -0.11% and your median return per year after costs is projected to be -0.43%.

Composition of costs

The table below shows the impact each year of the different types of costs on the investment return you might get at the end of the recommended holding period and the meaning of the different cost categories. Note that there is no performance fee.

| Impact on return per year | | | |
|---------------------------|-----------------------|-------|--|
| One-off costs | Entry costs | 0.00% | The costs you pay when entering your investment |
| | Exit costs | 0.00% | |
| Other ongoing costs | Portfolio transaction | 0.14% | The cost of buying and selling the underlying investment for the product |
| | Other ongoing costs | 0.19% | The costs that we take each year for managing your investment |
| Incidental costs | Performance fees | | |

Transaction Cost: This is an estimate of the costs incurred when we buy and sell the underlying investments of the product. The actual amount will vary depending on how much we buy and sell

Other Ongoing Costs: this is the total expense ratio. I.e. The total of management fees and other administrative or operating costs

Entry / Exit Cost: We do not charge secondary market investors an entry or exit fee for this product, but the person selling you the product may do so. The information can be obtained from your brokers. The Authorised Participants dealing in the primary market pay for the subscription and redemption charges.

How long should I hold it and can I take money out early?

The funds are designed to be held over the long term and we recommend you hold this investment for at least 5 years. You can request to take some or all your money out at any time, you can typically require to buy or sell shares in the sub fund on any business day (set out in the fund supplement) If you sell your shares at an earlier stage this will increase the risk of lower investment returns or losses.

How can I complain?

If you wish to make a complaint about the Fund, the Issuer or any person advising or selling the fund, you should write to: Tabula Investment management, 55 Strand, London WC2N5LR. Alternatively, you can email etfs@janushenderson.com or via our website <https://www.jhetf.com/contact/>. Alternatively, you can send your complaint to the Management Company at 35 Shelbourne Rd, Ballsbridge, IE - Dublin, D04 A4E0, Ireland or by e-mail to complianceeurope@waystone.com.
