INVESTMENT OBJECTIVE: The aim is for your investment to reflect the performance of the MSCI China All Shares Tech Select Screened 100 Index (index). DESCRIPTION OF INDEX: The index is designed to reflect the performance of a set of large and medium capitalisation Chinese companies selected from the MSCI China All Shares Index (Parent Index), which meet certain revenue thresholds (Relevance Score) associated with the development of new products and services from technology innovations leading to breakthroughs in areas including but not limited to internet and digitalisation, mobility, autonomous technology, industrial automation and digital healthcare, and to exclude companies which do not fulfil specific Environmental, Social and Governance (ESG) requirements. ESG CRITERIA: The index excludes companies from the Parent Index, which breach certain ESG criteria, as disclosed in the prospectus and/or supplement. The remaining companies are ranked by their market capitalisation and the top 100 issuers (or all if less than 100) are selected and their securities are included in the index. Such securities are weighted by the product of the Relevance Score and their free float adjusted market capitalisation with a cap of 4.5% applied at the issuer level. The index is reviewed and rebalanced on a semi-annual basis. INDEX REBALANCING, CALCULATION AND ADMINISTRATION: The index is calculated on a total return net basis, which means that all dividends and distributions by the companies are reinvested in the shares after tax. The index is calculated in U.S. Dollars on a daily basis. INVESTMENT POLICY: To achieve the aim, the fund will attempt to replicate the index, before fees and expenses, by buying all or a substantial number of the securities in the index either through the Investment Manager's RQFII licence or through the Stock Connect. The fund may employ techniques and instruments in order to manage risk, reduce costs and improve results. The return of the product is reflected by the daily calculated net asset value per unit and the distribution amount if applicable. The currency of the fund is USD. Returns and gains are not distributed but are reinvested in the fund. This fund is a sub-fund of Xtrackers for which the sales prospectus and the periodic reports are prepared as a whole.
