What is this product?

Type

The product is a UCITS - Part 1 sub-fund of a SICAV under Luxembourg law. The fund is a UCITS ETF.

Term

This product is an open-ended fund without predefined maturity. You may request the redemption of shares generally on each valuation date. The company may, however, suspend the redemption if extraordinary circumstances appear to make this necessary, taking into account the interests of the investors. Further, the company may restrict the redemption. The product may be redeemed early in certain circumstances as set out in the sales prospectus. The 2D - EUR Hedged share class of Xtrackers II US Treasuries UCITS ETF was launched in 2016.

Objectives

The fund is passively managed. **INVESTMENT OBJECTIVE:** The aim is for your investment to reflect the performance of the IBOXX \$ TREASURIES Index (index), while seeking to minimise foreign currency fluctuations at share class level. **DESCRIPTION OF INDEX:** The index reflects the performance of tradable debt (bonds) denominated in US Dollars issued by the US government. The composition of the index is rebalanced according to a pre-set methodology. For bonds to be included in the index they must have a minimum maturity of 18 months when they are issued, and, on the relevant rebalancing date, have a remaining time to maturity of at least one year. The bonds must have at least \$1 billion outstanding. **INDEX REBALANCING, CALCULATION AND ADMINISTRATION:** The index is calculated on a total return basis, which means that amounts equivalent to interest payments on the bonds are reinvested in the index. The index is reviewed and re-balanced monthly and is administered by IHS Markit Benchmark Administration Limited. **INVESTMENT POLICY:** To achieve the aim, the fund will i) attempt to replicate the index, before fees and expenses, by buying a portfolio of securities that may comprise the constituents of the index or other unrelated investments as determined by DWS entities and ii) enter into financial contracts (derivatives) which attempt to reduce the effect of exchange rate fluctuations between the currency of the fund's assets and the currency of your shares. The fund may employ techniques and instruments in order to manage risk, reduce costs and improve results. These techniques and instruments may include the use of derivatives. The fund may also engage in secured lending of its investments to certain eligible third parties to generate additional income to offset the costs of the fund. **FURTHER INFORMATION:** Certain information (including the latest share prices of the fund, indicative net asset values, full disclosure on the composition of the fund's portfolio and information on the index constituents) are available on your local DWS website or at www.Xtrackers.com. Transaction costs and taxes, unexpected fund costs and market conditions such as volatility or liquidity issues may affect the ability of the fund to track the index. The anticipated level of tracking error in normal market conditions is 1 per cent. The return of the product is reflected by the daily calculated net asset value per unit and the distribution amount if applicable. The currency of the fund is USD. The fund distributes up to four times per annum. This fund is a sub-fund of Xtrackers II for which the sales prospectus and the periodic reports are prepared as a whole. The assets and liabilities of each sub-fund are segregated by law. As a result, assets of one sub-fund are not available in the event of claims against or insolvency of another. More share classes may be available for this fund - please refer to the relevant section of the sales prospectus for further details. You are not permitted to exchange your shares in this fund for other funds of Xtrackers II. The depositary is State Street Bank International GmbH, Luxembourg Branch. More detailed information of this fund, such as the sales prospectus as well as the latest annual and semi-annual report, can be obtained free of charge online at www.etf.dws.com. These documents are available in English or German. The documents as well as other information (including the latest share prices) are available free of charge.

Intended retail investor

The fund is designed for: (i) retail clients with (ii) basic knowledge and experience and (iii) are prepared to accept the level of risk indicated below (including losses up to the total invested amount). A typical investor will have (iv) a medium-term investment horizon (three years). The fund is suitable for (v) general capital accumulation (growth).

What are the risks and what could I get in return?

Risk Indicator

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you. We have classified this product as 3 out of 7, which is a medium-low risk class. This rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely to impact the capacity to pay you.

The following is applicable if you subscribe for or settle shares in a different currency than the fund or share-class currency: Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

The following risks could be of particular significance for the fund: Credit risk, Derivatives risk, Bonds risk, Conflicts of interest risk, Currency Hedging risk, Exceptional circumstances risk, Interest rate risk, Region Concentration risk. A more detailed description of risks and other general information can be found in the risk section(s) of the sales prospectus. You may lose some or all of your investment. Your risk is limited to the amount invested. This product does not include any protection from future market performance so you could lose some or all of your investment.

Performance Scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The unfavourable, moderate and favourable scenarios shown are illustrations using the worst, average and best performance of the product and a suitable benchmark over the last 10 years. Markets could develop very differently in the future.

Recommended holding period: Example Investment:		3 years 10.000 EUR	
		If you exit after 1 year	If you exit after 3 years
Scenarios			
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs Average return each year	6,430 EUR -35.7 %	7,130 EUR -10.7 %
Unfavourable	What you might get back after costs Average return each year	8,390 EUR -16.1 %	7,830 EUR -7.8 %
Moderate	What you might get back after costs Average return each year	9,820 EUR -1.8 %	9,770 EUR -0.8 %
Favourable	What you might get back after costs Average return each year	11,170 EUR 11.7 %	11,040 EUR 3.4 %

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. The stress scenario shows what you might get back in extreme market circumstances. For the 1 year holding period the following applies: This type of scenario (Favourable, Moderate, Unfavourable) occurred for an investment - possibly with reference to iBoxx \$ Treasuries Total Return Index - between (Favourable: 30.04.2019-30.04.2020, Moderate: 31.03.2017-29.03.2018, Unfavourable: 29.10.2021-31.10.2022). For the recommended holding period the following applies: This type of scenario (Favourable, Moderate, Unfavourable) occurred for an investment - possibly with reference to iBoxx \$ Treasuries Total Return Index - between (Favourable: 31.07.2017-31.07.2020, Moderate: 30.01.2015-31.01.2018, Unfavourable: 30.10.2020-31.10.2023).

What happens if DWS Investment S.A. is unable to pay out?

The assets of the fund are kept separately from those of the management company, DWS Investment S.A.. An insolvency or default of the management company should not result in the fund suffering any financial loss in relation to its assets. On the insolvency or default of the depositary State Street Bank International GmbH, Luxembourg Branch securities held by the depositary on behalf of the fund should be protected but the fund may suffer loss in relation to cash and certain other assets which are not protected. Cash deposits of the fund deposited with other credit institutions may cause investors to suffer a financial loss if such deposits are not covered by any existing deposit guarantee schemes. Investment in the fund is not covered by any investor compensation or guarantee scheme.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods. We have assumed: In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario. 10.000 EUR is invested.

	If you exit after 1 year	If you exit after 3 years
Total costs	17 EUR	51 EUR
Annual cost impact (*)	0.2 %	0.2 % each year

*This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be -0.6% before costs and -0.8% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	We do not charge an entry fee.	0 EUR
Exit costs	We do not charge an exit fee.	0 EUR
Ongoing costs taken each year		
Management fees and other administrative or operating costs	0.13 % of the value of your investment per year. This is an estimate based on actual costs for the fiscal year ending 31.12.2024.	13 EUR
Transaction costs	0.04 % of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	4 EUR
Incidental costs taken under specific conditions		

Performance fees	We do not charge a performance fee.	0 EUR
------------------	-------------------------------------	-------

Secondary market investors (those who buy or sell shares on a stock exchange) may be charged certain fees by their stock broker. These charges, if any, can be obtained from such stock broker. Authorised participants dealing directly with the fund will pay the transaction costs related to their subscriptions and redemptions.

To the extent the fund undertakes securities lending to generate revenue, the fund will ultimately be allocated 70% of the associated gross revenue. The remaining 30% will be allocated to the management company, out of which it (i) retains 5% of such 30% (that is 1.5% of the overall gross revenues generated from such transactions) for its own coordination and oversight tasks, (ii) pays the direct costs to external service providers, and (iii) pays such revenues as remain following payment of (i) and (ii) to the investment manager for supporting the management company in initiating, preparing and implementing securities lending transactions, as set out in the sales prospectus. As securities lending revenue sharing does not increase the costs of running the fund, this has been excluded from the composition of costs.

How long should I hold it and can I take money out early?

Recommended holding period: 3 years. The product has no minimum holding period.

This product has no required minimum holding period. The recommended holding period has been selected due to its investment strategy and because it is designed for a medium term investment horizon. It is expected that it will be possible to achieve the investment objective of the fund within this time frame. You may request the redemption of shares generally on each valuation date. No fees or penalties will be charged by the company for any such transaction.

There is no change on the risk return profile when you redeem your shares early.
