Advantages of BTCE

Trades like an ETF

Buy and sell like any stock or ETF through your regular broker or bank. No new account needed, just enter the ticker or ISIN on your trading platform.

Tier 1 Regulatory Framework

Issued and domiciled in Germany, tradable on XETRA and many additional plattforms, and with German financial authority approved base prospectus.

Advanced ETP Structure

100% fully backed, physical redemption, independent administrator, and full transparency through real-time proof of holdings feature.

Institutional-Grade Custody

Assets backing the ETP are kept in coldstorage custody and are secured by an independent trustee, thus mitigating issuer default risk.

Key risks

- 1. Investor's capital is at risk and investors may not get back the amount originally invested and should obtain independent advice before making a decision.
- 2. Any decision to invest should be based on the information contained in the relevant prospectus.
- 3. ETP securities are structured as debt securities, not as equity.
- 4. ETPs trade on exchanges like securities. They are bought/sold at market prices which may be different to the net asset value of the ETP.
