(the “Company”)

SUPPLEMENT

for

FIRST TRUST INDXX INNOVATIVE TRANSACTION & PROCESS UCITS ETF

(the “Fund”)

DATED 24 February 2025

This Supplement forms part of, and should be read in conjunction with, the Prospectus dated 24 February 2025. Unless otherwise defined herein, capitalised terms used in this Supplement shall have the meaning given to them in the Prospectus. To the extent that there is any inconsistency between the Supplement and the Prospectus, the Supplement shall prevail. The Company is a UCITS umbrella fund with segregated liability between its sub-funds. Details of the other Funds offered by the Company are specified in the Prospectus and will be available on request.

The Company has obtained the approval of the Central Bank for the establishment of the Fund as a UCITS pursuant to the UCITS Regulations.

Investment Objective	
Investment Objective	The Fund seeks to provide investors with investment results that correspond generally to the price and yield of an equity index, the Indxx Blockchain Index (the “Index”).
Tracking Error	The Investment Manager will regularly monitor the Fund’s tracking accuracy and will seek to maintain at least a 95% correlation between the return of the Index and the return of the Fund. It is expected that the level of tracking error will be 0-2% in normal market conditions.

Investment Policy	
Investment Policy	<p>In order to achieve its investment objective, the investment policy of this Fund is to invest at least 90% of its net assets in a portfolio of equity securities that consists of the equity securities (or corresponding American Depositary Receipts (“ADRs”) or Global Depositary Receipts (“GDRs”)) within the Index or in ADRs or GDRs representing securities in the Index where direct investment in a constituent security of the Index is not practicable or possible.</p> <p>The Fund attempts to replicate, before fees and expenses, the performance of the Index. The Investment Manager will seek to do this by replicating so far as possible the investments in the index.</p> <p>Subject to Schedule III of the Prospectus entitled “Investment Restrictions”, the Investment Manager may also invest in a portfolio of assets which may comprise money market or short-term instruments such as Investment Grade fixed and</p>

Investment Policy

	<p>floating government securities, bankers' acceptances, certificates of deposit, and Eligible Collective Investment Schemes which have a similar investment objective and policies as that of the Fund or are money market funds. The amount which may be invested in such money market instruments, short-term instruments and Eligible Collective Investment Schemes shall not exceed 10% of the Net Asset Value of the Fund.</p> <p>The Fund's Investments, other than its Investments in Eligible Collective Investment Schemes, will be listed or traded on Regulated Markets worldwide and which are set out in Schedule II of the Prospectus entitled "The Regulated Markets".</p> <p>Subject to the investment limits set out in the preceding paragraphs, the Fund assets are permanently physically invested with a minimum of at least 51% of their value in securities defined as equity in accordance to sec. 2 para. 8 of the German Investment Tax Act.</p>

Index	The Index is a modified equal-weighted index. Stocks that are comprised in the Index are selected based on a company’s products or services related to blockchain technology. The Index is rebalanced semi-annually and reconstituted semi-annually in March and September for eligibility. The index provider, Indxx, LLC, may adjust the rebalance/reconstitution schedule in the future to accommodate the evolution of the target universe. It is expected that the Fund will rebalance the weighting of its components and reconstitute its components within a short period of time after the Index publicly announces any such rebalancing or reconstitution.

Index Description

The description below is a summary of information provided by the Index Provider on the methodology for the construction of the Index.

The Index is a modified equal-weighted index measuring the performance of the companies that are either actively using, investing in, developing, or have products that are poised to benefit from blockchain technology and/or the potential for increased efficiency that it provides to various business processes. The Index tracks the performance of equity securities (or corresponding ADRs and GDRs).

The inception date of the Index was 7 December 2017.

The securities included in the Index are selected in the following manner:

1. the Index begins with a global universe of equity securities, ADRs and GDRs in both developed and emerging markets;
2. companies with market capitalisations of less than \$250 million are removed;
3. companies with an average daily trading volume of less than \$1 million over the last three months are removed;
4. companies that have not traded on at least 90% of the eligible trading days in the last six months (three months for securities with less than six months of trading history) are removed;
5. companies with a free float of less than 20% of outstanding shares are removed;
6. companies trading at a price of \$10,000 or above per share are removed;
7. the universe is then narrowed to companies with exposure to blockchain technology and/or the potential to benefit from the increased process efficiency it could provide (as discussed above), as identified by the Index Provider;
8. from the eligible universe, each company is assigned to a tier based on three categories of exposure (see below for additional information);
 - i. Tier 1 – Active Enablers – companies that are actively developing blockchain technology products or systems for their own use and for sale and support to other companies; companies that are direct service providers for blockchain technology; or, companies that have business models that rely on delivering products or services that utilize blockchain technology;
 - ii. Tier 2 – Active Users – companies that are using blockchain technology which is generally supported by an Active Enabler; or, companies that have at least one use or test case implementing blockchain technology;
 - iii. Tier 3 – Active Explorers – companies that have been publicly disclosed as being active in exploring the incorporation of blockchain technology into their business; or, companies that have a press release on their website or a news article stating that they have started working in the blockchain technology space;
9. companies assigned to Tiers 1 and 2 are eligible for inclusion in the Index. Companies assigned to Tier 3 will not be included in the Index;

Fund Characteristics

	<p>10. the top 100 companies (see below for further information), ranked by exposure to blockchain technology, are included in the Index;</p> <p>11. companies from Tier 1 and Tier 2 will each make up 50% of the Index, with companies equally-weighted within each tier (see below for weighting restrictions).</p> <p>The Index is capped at 100 companies. If more than 100 names qualify for inclusion in the Index, the 100 constituents for the Index shall then be determined by each name's exposure to blockchain technology where blockchain has the most substantial impact on their respective businesses. This shall be accomplished via a multi-faceted approach that may involve but not be limited to (1) business focus; (2) investment; (3) market capitalisation; (4) liquidity; and (5) other factors. Each company shall be assigned an individual score for each of the factors, which shall be aggregated. The 100 companies with the highest aggregate scores shall be included in the Index.</p> <p>The Index is rebalanced and reconstituted semi-annually in March and September of each year for eligibility. The Fund expects to rebalance the weighting of its components and reconstitute (i.e., add or delete) its components within a short period of time after the Index publicly announces any such rebalancing or reconstitution and the costs of the rebalancing, which are not expected to be significant, will be borne by the Fund. The Index Provider may adjust the rebalance/reconstitution schedule in the future to accommodate the evolution of the target universe.</p> <p>For details of the exact composition of the Index, please refer to the following website https://indxx.com/indices.php?id=252.</p> <p>The Fund is subject to tracking error risk, which is the risk that its returns may not track exactly those of the Index.</p>
