

This document is a Supplement to the Prospectus dated 26 March 2025 issued by Global X ETFs ICAV (the “ICAV”). This Supplement forms part of, and should be read in conjunction with, the Prospectus.

Investors' attention is drawn to the risk warnings contained in the section of the Prospectus entitled “Risk Factors” and, in particular, to the risk warnings contained in the section of this Supplement entitled “Risk Factors”.

Words and expressions defined in the Prospectus, unless the context otherwise requires, have the same meaning when used in this Supplement.

SUPPLEMENT

in respect of

GLOBAL X VIDEO GAMES & ESPORTS UCITS ETF (the “Fund”)

a UCITS ETF Sub-Fund of the Global X ETFs ICAV

an open-ended Irish collective asset-management vehicle having registration number C435449 and established as an umbrella fund with segregated liability between sub-funds and authorised by the Central Bank of Ireland as a UCITS.

Dated 26 March 2025

The Directors of the ICAV, whose names appear in the Directory in the Prospectus, accept responsibility for the information contained in this Supplement. To the best of the knowledge and belief of the Directors (who have taken all reasonable care to ensure that such is the case) the information contained in this document is in accordance with the facts and does not omit anything likely to affect the import of such information.

THE FUND

Investment Objective

The investment objective of the Fund is to provide investment results that closely correspond, before fees and expenses, generally to the price and yield performance of the Solactive Video Games & Esports v2 Index (the “**Index**”).

Investment Policy

In order to achieve this investment objective, the Fund will seek to replicate the performance of the Index, subject to the deduction of the TER and other expenses associated with operating the Fund as further described in the “Fees and Expenses” section of the Prospectus. It will do so by investing primarily in a portfolio of equity securities and derivatives that, as far as possible and practicable, consists of the component securities of the Index in similar proportions to their weightings in the Index and in American Depositary Receipts (“**ADRs**”) and Global Depositary Receipts (“**GDRs**”) based on the securities in the Index. **By holding each equity security in approximately the same proportion as its weighting in the Index, the Fund may have exposure to or invest up to 20% of the Net Asset Value of the Fund in stocks issued by the same body. This limit may be raised to 35% for a single issuer in exceptional market conditions which may include the dominance of a particular issuer in the relevant market.**

The Fund is not classified as an Article 8 or Article 9 fund pursuant to SFDR, however, disclosure in accordance with the requirements of Article 6 of SFDR in relation to the integration of sustainability risks is set out in the Prospectus.

The Index is designed to provide exposure to exchange-listed companies that are positioned to benefit from increased consumption related to video games and esports, including companies whose principal business is in video game development/ publishing, video game and esports content distribution and streaming, operating/owning esports leagues/teams, and producing video game/esports hardware (collectively, “**Video Games & Esports Companies**”), as defined by Solactive AG (the “**Index Provider**”).

In constructing the Index, the Index Provider first applies a proprietary natural language processing algorithm to the eligible universe, which screens filings, disclosures and other public information (e.g. regulatory filings, earnings transcripts, etc.) for keywords that describe the Index theme, to identify and rank companies with direct exposure to the video games and esports industry. Companies identified by the natural language processing algorithm, as of the selection date, are further reviewed by the Index Provider on the basis of revenue related to video games and esports activities. To be eligible for the Index, a company is considered by the Index Provider to be a Video Games & Esports Company if the company generates at least 50% of its revenues from video games and esports activities, as determined by the Index Provider. Video Games & Esports Companies are those companies that (i) develop and/or publish video games, (ii) facilitate the streaming or distribution of video gaming and/ or esports content, (iii) operate and/or own competitive esports leagues and/or competitive esports teams, and/or (iv) produce hardware used in video games and/or esports, including augmented and virtual reality.

To be a part of the eligible universe of the Index, certain minimum market capitalisation and liquidity criteria, as defined by the Index Provider, must be met. As of 1 February 2023, companies must have a minimum market capitalisation of \$200 million and a minimum average daily turnover for the last 6 months greater than or equal to \$2 million in order to be eligible for inclusion in the Index. As of 1 February 2023, companies listed in the following countries were eligible for inclusion in the Index: Australia, Austria, Belgium, Canada, Denmark, Finland, France, Germany, Hong Kong, Ireland, Israel, Italy, Japan, Netherlands, New Zealand, Norway, Poland, Portugal, Singapore, South Korea, Spain, Sweden, Switzerland, Taiwan, the United Kingdom, and the United States.

The Index is weighted according to a modified capitalisation weighting methodology and is reconstituted and reweighted semi-annually. Modified capitalisation weighting seeks to weight constituents primarily based on market capitalisation, but subject to caps on the weights of the individual securities. Generally speaking, this approach will limit the amount of concentration in the largest market capitalisation

companies and increase company-level diversification. The Index may include large-, mid- or small-capitalisation companies. As of 1 February 2023, the Index had 40 constituents.

The Investment Manager uses a “passive” or indexing approach to try to achieve the Fund’s investment objective. The Fund does not try to “outperform” the Index and does not seek temporary defensive positions when markets decline or appear overvalued.

Where it is not possible or practicable for the Fund to invest directly in or continue to hold all of the component securities of the Index (for reasons such as, but not limited to, where this would involve difficulties or substantial costs, where one or more securities in the Index becomes temporarily illiquid or unavailable, or as a result of legal restrictions or regulatory limitations that apply to the Fund but not the Index) and/or where consistent with its investment objective, the Fund may also invest in the following additional assets subject to the conditions and within the limits laid down by the Central Bank:

- Depositary Receipts relating either to component securities of the Index or to equity securities of the type referred to above;
- FDIs – namely, total return “unfunded” OTC Swaps and exchange-traded equity futures – which may be used for investment purposes (such as gaining exposure to the Index and/or any particular constituents of the Index) in accordance with the terms set out in the sections entitled “Fund Investments”, “Unfunded OTC Swap Model” and Schedule II of the Prospectus. While the Fund may invest up to 100% of its Net Asset Value in total return “unfunded” OTC Swaps, it is not expected that this flexibility will be used. The Fund will only invest in FDIs as provided for in the RMP prepared by the Investment Manager in respect of the Fund and filed with the Central Bank;
- Equity securities which are not constituents of the Index, which, in the opinion of the Investment Manager, are expected to provide similar performance and risk characteristics to the Index constituent(s) which are not possible or practicable for the Fund to invest directly in or continue to hold; and
- Collective investments schemes that have a similar strategy to the Fund or allow similar exposure to the Index constituents.

The equity securities and FDI investments of the Fund will be listed, traded and dealt with on one or more of the Regulated Markets set out in Schedule 1 to the Prospectus.

The Fund may, in addition, employ other techniques relating to transferable securities, including entering into securities lending transactions, investing in repurchase and reverse repurchase transactions and collective investment schemes, for the purpose of efficient portfolio management only, in accordance with the terms set out in the section entitled “**Efficient Portfolio Management Techniques**” and Schedule III of the Prospectus. While the Fund may invest up to 100% of its Net Asset Value in repurchase and reverse repurchase transactions it is not expected that this flexibility will be used.

The maximum proportion of the Net Asset Value of the Fund that can be subject to securities lending is 50%. The proportion of the Net Asset Value of the Fund that will be subject to securities lending is expected to range from 0% to 50%.

The maximum proportion of the Net Asset Value of the Fund that can be subject to repurchase transactions is 20%. The proportion of the Net Asset Value of the Fund that will be subject to repurchase transactions is expected to be 0%.

The maximum proportion of the Net Asset Value of the Fund that can be subject to reverse repurchase transactions is 20%. The proportion of the Net Asset Value of the Fund that will be subject to reverse repurchase transactions is expected to be 0%.

The maximum proportion of the Net Asset Value of the Fund that can be subject to total return swaps is 20%. The proportion of the Net Asset Value of the Fund that will be subject to total return swaps is expected to be 0%.

As at the date of this Fund Supplement, to the extent the Fund undertakes securities lending, the Fund will receive 87% of the associated revenue generated from securities lending activities and the remaining 13% will be retained by the securities lending agent (representing the attendant direct and indirect operational costs and fees of the securities lending).

Base Currency

The Base Currency of the Fund is USD.

Investment Manager

The Investment Manager of the Fund is Global X Management Company LLC.

There is no guarantee that the Fund will achieve its investment objective.

It is recommended that an investment in the Fund should not constitute a substantial proportion of an investment portfolio and may not be appropriate for all investors.

PROFILE OF A TYPICAL INVESTOR

A typical investor in the Fund would want to take a long or short-term exposure to the market covered by the Index and would be prepared to accept the medium level risks associated with an investment of this type, including the potential volatility of such market. Such an investor is also one that is able to assess the merits and risks of an investment in the Shares of the relevant Class of the Fund.

SHARE CLASSES

Only ETF Shares will be issued in respect of the Fund.

TRACKING ERROR

The anticipated tracking error in normal market conditions is set out below for each of the Classes of the Fund. Please note that, whilst the Fund has multiple Classes some of which are denominated in different currencies, some of which are distributing Classes and/or some of which are Hedged Classes, the anticipated tracking error displayed for all Classes is that applicable for the USD Accumulating (which is denominated in USD, unhedged and accumulates any applicable dividends) as against the Index (which is also denominated in USD, unhedged and accumulates any applicable dividends).

The anticipated tracking error of a Class is not a guide to its future performance. The annual and semi-annual report and accounts will set out the actual realised tracking error as at the end of the period under review.

DIVIDENDS

Where the ICAV intends to declare dividends with respect to one or more Classes of the Fund, the proposed frequency of such dividend declarations shall be as set out in the table in the section entitled "Share Classes".

It is not the current intention of the Directors to declare dividends in respect of the Classes identified as “accumulating” classes in this Supplement. The income and earnings and gains of the Funds will be accumulated and reinvested. Any change to this dividend policy shall be set out in an updated version of the Supplement and notified to the Shareholders in advance.

It is intended to declare dividends in respect of the Classes identified as “distributing” classes in this Supplement. Distributions in respect of these Classes will be declared on each Distribution Date in each year provided that if such dates are not Business Days, the declaration date will be the Business Day immediately following such date respectively. The distribution may comprise net income (if any) of the Fund.

The Distribution Date for this Fund will be as noted on the distribution calendar available at <https://globalxetfs.eu>.

Payments

With the authorisation and upon the instruction of the Common Depositary’s Nominee, any dividends declared and any liquidation and mandatory redemption proceeds are paid by the ICAV or its authorised agent (for example, a paying agent) to the applicable ICSD. Investors, where they are Participants, must look solely to the applicable ICSD for their share of each dividend payment or any liquidation or mandatory redemption proceeds paid by the ICAV or, where they are not Participants, they must look to their respective nominee, broker or Central Securities Depositary (as appropriate, which may be a Participant or have an arrangement with a Participant of the applicable ICSD) for any share of each dividend payment or any liquidation or mandatory redemption proceeds paid by the ICAV that relates to their investment.

Investors shall have no claim directly against the ICAV in respect of dividend payments and any liquidation and mandatory redemption proceeds due on Shares represented by the Global Share Certificate and the obligations of the ICAV will be discharged by payment to the applicable ICSD with the authorisation of the Common Depositary’s Nominee.

DEALING IN SHARES OF THE FUND

Only the ETF Shares issued in respect of this Fund will be listed and/or traded on the Relevant Stock Exchanges. It is envisaged that ETF Shares will be bought and sold by private and institutional investors in the secondary market.

Only Authorised Participants may subscribe for and redeem ETF Shares in the Fund directly with the ICAV in accordance with the section of the Prospectus entitled “**Subscriptions and Redemptions**” having regard to the information set out below:

FEES AND EXPENSES

A TER will be paid out of the assets of each Class to the ICAV. The TER for each Class is set out under the heading “TER” in the table included under the heading “**Share Classes**”.

This section should be read in conjunction with the section headed “**Fees, Costs and Expenses**” in the Prospectus.

RISK FACTORS

Investment in the Fund carries with it a degree of risk including, but not limited to, the risks described in the “**Risk Factors**” section of the Prospectus including particularly Securities Lending Risk, Concentration Risk, Non-Diversification Risk, Risk of Investing in Developed Markets, Risk of Investing in Emerging Markets, Risk of Investing in China, Risk of Investing in Taiwan, Risk of Investing in Japan, Risk of Investing in South Korea, New Fund Risk and the following:

Given the investment strategy of the Fund and its risk profile, the likely impact of sustainability risks on the Fund's returns is expected to be low.

Associated Risks Related to Investing in Video Game and Esports Companies: Video Game and Esports Companies may have limited product lines, markets, financial resources or personnel. These companies typically face intense competition and potentially rapid product obsolescence. Video Game and Esports Companies may be dependent on one or a small number of product or product franchises for a significant portion of their revenue and profits. They may also be subject to shifting consumer preferences, including preferences with respect to gaming console platforms, and changes in consumer discretionary spending. Video Game and Esports Companies may be adversely impacted by government regulations, and may be subject to additional regulatory oversight with regard to privacy concerns and cybersecurity risk. Recently, Video Game and Esports Companies have faced enhanced regulatory scrutiny, and certain regulators have at times suspended the issuance of licenses for new

video games or limited the hours that video games can be played by individuals. These companies are also heavily dependent on intellectual property rights and may be adversely affected by loss or impairment of those rights. Video Game and Esports Companies could be negatively impacted by disruptions in service caused by hardware or software failure. Video Game and Esports Companies, especially smaller companies, tend to be more volatile than companies that do not rely heavily on technology. The customers and/or suppliers of Video Game and Esports Companies may be concentrated in a particular country, region or industry. Any adverse event affecting one of these countries, regions or industries could have a negative impact on Video Game and Esports Companies. Through its portfolio companies' customers and suppliers, the Fund is specifically exposed to Asian Economic Risk and European Economic Risk.

Risks Related to Investing in the Communication Services Sector: Companies in the communications sector may be affected by industry competition, substantial capital requirements, government regulation, cyclicity of revenues and earnings, obsolescence of communications products and services due to technological advancement, a potential decrease in the discretionary income of targeted individuals and changing consumer tastes and interests.

Risks Related to Investing in the Entertainment Industry: Entertainment companies may be impacted by high costs of research and development of new content and services in an effort to stay relevant in a highly competitive industry, and entertainment products may face a risk of rapid obsolescence. Entertainment companies are subject to risks that include cyclicity of revenues and earnings, changing tastes and topical interests, and decreases in the discretionary income of their targeted consumers. Sales of content through physical formats and traditional content delivery services may be displaced by new content delivery mechanisms, such as streaming technology, and it is possible that such new content delivery mechanisms may themselves become obsolete over time. The entertainment industry is regulated, and changes to rules regarding advertising and the content produced by entertainment companies can increase overall production and distribution costs. Companies in the entertainment industry have at times faced increased regulatory pressure which has delayed or prohibited the release of entertainment content.

Currency Risk: The Fund may invest in securities denominated in currencies other than in the Base Currency of the Fund. Because the Fund's NAV is determined in U.S. dollars, the Fund's NAV could decline if currencies of the underlying securities depreciate against the U.S. dollar or if there are delays or limits on repatriation of such currencies. Currency exchange rates can be very volatile and can change quickly and unpredictably. As a result, the Fund's NAV may change quickly and without warning, which could have a significant negative impact on the Fund.

RISK MANAGEMENT

The Fund's global exposure, being the incremental exposure and leverage generated by the Fund through its use of FDI, shall be calculated on at least a daily basis using the commitment approach and, in accordance with the requirements of the Central Bank, may at no time exceed 100% of the Fund's Net Asset Value. As noted in the "Investment Policy" section above, the Fund's use of FDI is an ancillary element of the investment policy in that it is an alternative means of gaining exposure to the Index, or one or more of the constituents of the Index, in circumstances where direct investment in the constituents of the Index is not possible, practicable or desirable. Regardless of whether exposure to the underlying constituents is obtained by direct investment in the constituents, or by gaining exposure to the constituents through the use of FDI, the same notional value shall be committed to the investment by the Fund. Accordingly, it is not expected that the Fund will be leveraged.

THE INDEX

General Description

The Index is designed to provide exposure to exchange-listed companies that are positioned to benefit from increased consumption related to Video Games & Esports Companies, as defined by the Index Provider.

In constructing the Index, Solactive AG first applies a proprietary natural language processing algorithm to the eligible universe, which screens filings, disclosures and other public information (e.g., regulatory filings, earnings transcripts, etc.) for keywords that describe the Index theme, to identify and rank companies with direct exposure to the video games and esports industry. Companies identified by the natural language processing algorithm, as of the selection date, are further reviewed by Solactive AG on the basis of revenue related to video games and esports activities. To be eligible for the Index, a company is considered by Solactive AG to be a Video Games & Esports Company if the company generates at least 50% of its revenues from video games and esports activities, as determined by Solactive AG. Video Games & Esports Companies are those companies that (i) develop and/or publish video games, (ii) facilitate the streaming or distribution of video gaming and/or esports content, (iii) operate and/or own competitive esports leagues and/or competitive esports teams, and/or (iv) produce hardware used in video games and/or esports, including augmented and virtual reality.

To be a part of the eligible universe of the Solactive Video Games & Esports v2 Index, certain minimum market capitalisation and liquidity criteria, as defined by Solactive AG, must be met. As of 1 February 2023, companies must have a minimum market capitalisation of \$200 million and a minimum average daily turnover for the last 6 months greater than or equal to \$2 million in order to be eligible for inclusion in the Solactive Video Games & Esports v2 Index. As of 1 February 2023, companies listed in the following countries were eligible for inclusion in the Solactive Video Games & Esports v2 Index: Australia, Austria, Belgium, Canada, Denmark, Finland, France, Germany, Hong Kong, Ireland, Israel, Italy, Japan, Netherlands, New Zealand, Norway, Poland, Portugal, Singapore, South Korea, Spain, Sweden, Switzerland, Taiwan, the United Kingdom, and the United States.

The Index is weighted according to a modified capitalisation weighting methodology and is reconstituted and re-weighted semi-annually. Modified capitalisation weighting seeks to weight constituents primarily based on market capitalisation, but subject to caps on the weights of the individual securities. Generally speaking, this approach will limit the amount of concentration in the largest market capitalisation companies and increase company-level diversification. The Index may include large-, mid- or small-capitalisation companies. As of 1 February 2023, the Index had 40 constituents.

The information set out above is a summary of the principal features of the Index and does not purport to be an exhaustive description. Further information can be found in “*Index Guideline Solactive Video Games & Esports v2 Index*” (the “**Index Methodology**”) which is available, along with the constituents and weights of the Index at: <https://www.solactive.com/indices/?index=DE000SL0BWE8>

Index Rebalancing

The Index shall be rebalanced on a semi-annual basis in January and July. It is possible that additional companies not presently represented in the Index will be added and that one or more companies presently represented will be removed at the time of the semi-annual rebalance dates.

Investors should note that the respective weights of each of the constituents of the Index are expected to fluctuate in-between the periodic rebalance dates of the Index. Please see the Prospectus section entitled “*Circumstances where the weighting of an Index constituent exceeds the applicable concentration limits prescribed by the UCITS Regulations*” for details of the procedure to be adopted when the weighting of any constituent of the Index exceeds the permitted investment restrictions. During each rebalance, each constituent is subject to a maximum weight of 4.5% and a minimum weight of 0.3%.

Index Provider

The Benchmark Administrator is Solactive AG and the Index is calculated by Solactive AG.

The Index is sponsored by the Solactive AG, as the Index Provider, which is an organisation that is independent of the Fund and Global X Management Company LLC, the Investment Manager for the Fund. The Index Provider determines the relative weightings of the securities in the Index and publishes information regarding the market value of the Index.

TAXATION

German Investment Tax Act

The ICAV seeks to maintain “equity fund” status for the Fund pursuant to Section 2 para. 6 and 7 of the German Investment Tax Act 2018.

Investors should consult their own professional advisers as to the implications of the Fund maintaining “equity fund” status pursuant to the German Investment Tax Act 2018.

As at the date of this Fund Supplement, at least 51% of the Fund’s assets will be continuously invested in equity assets as defined in Section 2. para. 8 of the German Investment Tax Act 2018.

DISCLAIMERS

The ICAV is required to provide details of the Index Provider’s website to enable investors to obtain further details of the Index (including its constituents). Neither the ICAV nor the Investment Manager has any responsibility for the contents of such website and are not involved in any way in sponsoring, endorsing or otherwise involved in the establishment, maintenance or contents of the website.

Solactive AG is a leading company in the structuring and indexing business for institutional clients. Solactive AG runs the Solactive index platform. Solactive AG indices are used by issuers worldwide as underlying indices for financial products. Solactive AG does not sponsor, endorse or promote any Fund and is not in any way connected to it and does not accept any liability in relation to their issue, operation and trading.
