

HANetf ICAV

Supplement dated 14 May 2026

for

Future of Defence UCITS ETF

This Supplement contains specific information in relation to the **Future of Defence UCITS ETF** (the **Sub-Fund**), a sub-fund of HANetf ICAV (the **ICAV**), an Irish collective asset-management vehicle umbrella fund with segregated liability between sub-funds which is registered in Ireland by the Central Bank of Ireland (the **Central Bank**) and authorised under the UCITS Regulations.

This Supplement forms part of the Prospectus of the ICAV dated 14 May 2026 (the Prospectus) and should be read in the context of and together with the Prospectus. Save as disclosed in this Supplement, there has been no significant change and no significant new matter has arisen since publication of the Prospectus.

The Directors of the ICAV whose names appear in the section entitled **Directors of the ICAV** in the Prospectus accept responsibility for the information contained in this document. To the best of the knowledge and belief of the Directors (who have taken all reasonable care to ensure such is the case) the information contained in this document is in accordance with the facts and does not omit anything likely to affect the import of such information.

Words and expressions defined in the Prospectus shall, unless the context otherwise requires, have the same meaning when used in this Supplement.

Shares purchased on the secondary market cannot usually be sold directly back to the Sub-Fund. Investors must buy and sell Shares on a secondary market with the assistance of an intermediary (e.g. a stockbroker) and may incur fees for doing so. In addition, investors may pay more than the current Net Asset Value when buying Shares and may receive less than the current Net Asset Value per Share when selling them.

The value of Shares may go down as well as up and investors may not get back any of the amount invested.

Prospective investors should review this Supplement and the Prospectus carefully in their entirety and consider the **Risk Factors** set out in the Prospectus and in this Supplement before investing in this Sub-Fund.

1 IMPORTANT INFORMATION

1.1 Profile of a typical investor

Investment in the Sub-Fund is suitable for investors seeking capital growth over the long term.

The Sub-Fund is available to a wide range of investors seeking access to a portfolio managed in accordance with the investment objective and policy set out below. An investment should only be made by those persons who are able to sustain a loss on their investment. Typical investors in the Sub-Fund are expected to be investors who want to take exposure to the markets covered by the Sub-Fund's investment policy and are prepared to accept the risks associated with an investment of this type, including the volatility of such market.

1.2 General

This Supplement sets out information in relation to the Shares and the Sub-Fund. You must also refer to the Prospectus which is separate to this document and describes the ICAV and provides general information about offers of shares in the ICAV. You should not take any action in respect of the Shares unless you have received a copy of the Prospectus. Should there be any inconsistency between the contents of the Prospectus and this Supplement, the contents of this Supplement will, to the extent of any such inconsistency, prevail. This Supplement and the Prospectus should both be carefully read in their entirety before any investment decision with respect to Shares is made.

The Shares in the ETF Share Classes (as defined below) of the Sub-Fund issued and available for issue will be admitted to listing on the Official List as maintained by Euronext Dublin and traded on the regulated market of Euronext Dublin.

1.3 Suitability of Investment

You should inform yourself as to (a) the possible tax consequences, (b) the legal and regulatory requirements, (c) any foreign exchange restrictions or exchange control requirements and (d) any other requisite governmental or other consents or formalities which you might encounter under the laws of the country of your citizenship, residence or domicile and which might be relevant to your purchase, holding or disposal of the Shares.

The Shares are not principal protected. The value of the Shares may go up or down and you may not get back the amount you have invested. See the section entitled Risk Factors of the Prospectus and the section entitled **Risk Factors** of this Supplement for a discussion of certain risks that should be considered by investors.

An investment in the Shares is only suitable for you if you are a sophisticated investor and (either alone or with the help of an appropriate financial or other advisor) are able to assess the merits and risks of such an investment and have sufficient resources to be able to bear any losses that may result from such an investment. The contents of this document are not intended to contain and should not be regarded as containing advice relating to legal, taxation, investment or any other matters.

1.4 Distribution of this Supplement and Selling Restrictions

Distribution of this Supplement is not authorised unless accompanied by a copy of the Prospectus and is not authorised in any jurisdiction after publication of the audited annual report of the ICAV unless a copy of the then latest annual report and, if distributed after the semi-annual report has been produced, a copy of the then latest published semi-annual report and unaudited accounts is made available in conjunction with the Prospectus and this Supplement. The distribution of this Supplement and the offering or purchase of the Shares may be restricted in certain jurisdictions. If you receive a copy of this Supplement and/or the

Prospectus you may not treat such document(s) as constituting an offer, invitation or solicitation to you to subscribe for any Shares unless, in the relevant jurisdiction, such an offer, invitation or solicitation could lawfully be made to you without compliance with any registration or other legal requirement other than those with which the ICAV has already complied. If you wish to apply for the opportunity to purchase any Shares it is your duty to inform yourself of, and to observe, all applicable laws and regulations of any relevant jurisdiction. In particular, you should inform yourself as to the legal requirements of so applying, and any applicable exchange control regulations and taxes in the countries of your respective citizenship, residence or domicile.

2 INVESTMENT MANAGER

The Manager has appointed Vident Advisory, LLC, with registered office at 1125 Sanctuary Parkway, Suite 515, Alpharetta, GA 30009 as investment manager for the Sub-Fund (the **Investment Manager**) with a discretionary mandate pursuant to the investment management agreement dated 14 July 2023, as amended between the Manager and the Investment Manager (the **Investment Management Agreement**) described under the heading Material Contracts below.

The Investment Manager specialises in ETF sub-advisory management and portfolio management services for passively and actively managed ETF funds. Under the terms of the Investment Management Agreement, the Investment Manager provides, subject to the overall supervision and control of the Manager, investment management services to the Manager in respect of the Sub-Fund's portfolio of assets. It may delegate all or part of the investment management responsibilities to one or more sub-investment managers, may obtain the services of investment advisers on a non-discretionary basis and may obtain third party research advice with the fees in respect of any such delegation being paid by the Investment Manager out of its own fee.

3 INVESTMENT OBJECTIVE AND POLICIES

3.1 Investment objective

The investment objective of the Sub-Fund is to track the price and the performance, before fees and expenses, of an index that provides exposure to the performance of companies in the defence (including cyber defence) industry.

3.2 Investment policy

In order to seek to achieve its investment objective, the Sub-Fund will adopt a "passive management" investment strategy and will seek to employ a replication methodology, meaning as far as possible and practicable, it will invest in the securities in proportion to the weightings comprising the EQM Future of Defence Index (the **Index**).

The Sub-Fund may, from time to time, use a sampling methodology under various circumstances, including when it may not be possible or practicable to purchase all of the securities in the Index, for example, due to lot size issues or local market restrictions which may apply in certain emerging or frontier markets.

Further details in relation to the Index are set out in the section entitled **Information on the Index** below.

The Investment Manager will regularly monitor the Sub-Fund's tracking accuracy. Information relating to the anticipated Tracking Error is set out in the section entitled **Tracking of Index** below.

The Sub-Fund may invest in ancillary liquid assets and money market instruments which may include bank deposits, certificates of deposit, commercial paper, floating rate notes and freely transferable promissory notes.

The Sub-Fund may invest in ETFs established as collective investment schemes and authorised as UCITS in pursuit of its investment objective, subject to the investment restrictions outlined in the Prospectus.

The transferable securities, ancillary liquid assets, money market instruments and FDI (other than permitted unlisted investments) held by the Sub-Fund will be listed or traded on the Regulated Markets referred to in Appendix 1 of the Prospectus.

3.3 Sustainability Risks

For the purposes of Regulation (EU) 2019/2088 on sustainability-related disclosures in the financial services sector (**SFDR**) the Sub-Fund is not deemed (i) a fund that promotes environmental or social characteristics; (ii) a fund that has sustainable investment as its objective; or (iii) a fund with reduction in carbon emissions as its objective. As such, the Sub-Fund discloses under Article 6 of the SFDR and does not disclose under Articles 8 or 9 of the SFDR. Article 6 of the SFDR requires the disclosure of the manner in which sustainability risks are integrated into the investment decisions of the Investment Manager with respect to the Sub-Fund and the results of the assessment of the likely impacts of sustainability risks on the returns of the Sub-Fund.

A sustainability risk in the context of the Sub-Fund is an environmental, social or governance (**ESG**) event or condition that, if it occurs, could cause an actual or a potential material negative impact on the value of the investment. Further details on sustainability risks and the impacts of them on the returns of the Sub-Fund are set out in the section of the Prospectus entitled Risk Factors.

The Sub-Fund is passively managed and holds securities included in the Index, which it tracks. The Index is required to represent an adequate benchmark for the market to which it refers. The Index is created by the Index Administrator. As the strategy of the Sub-Fund is to track the Index, changes to the portfolio of the Sub-Fund are driven by changes to the Index in accordance with the published methodology rather than by an active selection of securities by the Investment Manager. Accordingly, the Investment Manager does not exercise discretion to actively select or deselect securities as part of the investment process. The Investment Manager does not therefore integrate sustainability risks in the investment process. Even where the Sub-Fund uses an optimisation strategy or representative sampling technique to track the Index, sustainability risks may not be incorporated into the optimisation strategy or representative sampling technique as the Sub-Fund's investment objective is to track the performance of the Index and decisions driven by sustainability risks could impact the ability to achieve that objective.

The Manager and the Investment Manager have elected for the time being not to consider the principal adverse impacts of investment decisions taken on behalf of the Sub-Fund on sustainability factors in the manner contemplated by Article 4(1)(a) of the SFDR in light of the nature, scale and complexity of the Sub-Fund's activities.

3.4 Use of financial derivative instruments and efficient portfolio management

Investors should note that the Sub-Fund may invest in FDIs for investment, efficient portfolio management and/or hedging purposes. The Sub-Fund may use futures, currency swaps and currency forwards for the purpose of reducing risk associated with currency exposures within the Sub-Fund. This may on occasions lead to an increase in the risk profile of the Sub-Fund or result in a fluctuation in the expected level of volatility. The Sub-Fund may also enter into securities lending transactions for efficient portfolio management purposes, and in particular, to reduce costs. Please see the section entitled **Risk Factors** in the Prospectus in relation to such risks.

The Sub-Fund will employ the commitment approach to assess the Sub-Fund's global exposure and to ensure that the Sub-Fund's use of derivative instruments is within the limits specified by the Central Bank. Global exposure will be calculated daily. While the Sub-Fund may be leveraged through the use of the FDIs, any such leverage would not be expected to be in excess of 100% of the Sub-Fund's Net Asset Value.

Including FDI's, the total exposure associated with the investments of the Sub-Fund, may not exceed 200% of the Net Asset Value of the Sub-Fund.

Investment in FDIs is subject to the conditions and limits contained in the Central Bank UCITS Regulations issued by the Central Bank. Subject to these limits, the Sub-Fund may invest in FDIs dealt on any of the regulated markets set out in the list of Regulated Markets in Appendix 1 to the Prospectus (and/or over the counter FDIs (OTCs)).

The ICAV employs a risk management process which enables it to accurately measure, monitor and manage at any time the various risks associated with FDIs and their contribution to the overall risk profile of the portfolio of assets of the Sub-Fund. The ICAV will, on request, provide supplementary information to Shareholders relating to the risk management methods employed, including the quantitative limits that are applied and any recent developments in the risk and yield characteristics of the main categories of investments. The Sub-Fund will only invest in FDIs in accordance with the risk management process filed with the Central Bank.

The Sub-Fund may invest in FDIs dealt over the counter provided that the counterparties to over-the-counter transactions are institutions subject to prudential supervision and belong to categories approved by the Central Bank.

Position exposure to the underlying assets of FDIs, when combined where relevant with positions resulting from direct investments, may not exceed the investment limits set out in the Central Bank UCITS Regulations.

Please see the section entitled **Use of Financial Derivative Instruments and Efficient Portfolio Management** in the Prospectus in relation to FDI.

3.5 Securities financing transactions

The Sub-Fund may enter into repurchase/reverse repurchase agreements and securities lending arrangements solely for the purposes of efficient portfolio management and, in the case of securities lending in particular to reduce costs, subject to the conditions and within the limits set out in the Prospectus. Any type of assets that may be held by the Sub-Fund in accordance with its investment objective and policies may be subject to such Securities Financing Transactions. The maximum and expected proportion of the Net Asset Value of the Sub-Fund that can be subject to Securities Financing Transactions is set out in the table below:

	Expected portion of Net Asset Value of the Sub-Fund	Maximum proportion of the Net Asset Value of the Sub-Fund
Securities Lending	20%	45%
Repurchase/reverse repurchase agreements	20%	45%

4 PORTFOLIO TRANSPARENCY

Information about the Investments of the Sub-Fund shall be made available on a daily basis. The Sub-Fund will disclose on www.HANetf.com at the start of each Business Day the identities and quantities of the securities and other assets held by it.

5 TRACKING OF INDEX

The anticipated Tracking Error of the Sub-Fund is not a guide to its future performance. The Tracking Error is not anticipated to exceed 1% under normal market conditions.

Further information on the anticipated Tracking Error is set out in the section entitled **Tracking of Index** in the Prospectus.

6 INFORMATION ON THE INDEX, INDEX SPONSOR AND INDEX ADMINISTRATOR

This section is a brief overview of the Index. It contains a summary of the principal features of the Index and is not a complete description of the Index. In case of inconsistency between the summary of the Index in this section and the complete description of the Index, the complete description of the Index prevails. Information on the Index appears on the website identified below in **Rebalance and Further Information**. Such information may change from time to time and details of the changes will appear on that website.

6.1 General Description of the Index

The Index is governed by a published, rules-based methodology and is designed to measure the performance of a global investable universe of publicly listed companies, headquartered in NATO+ countries that generate revenues from the defence (including cyber defence) sector.

NATO+ countries comprise both (i) NATO member countries and (ii) countries designated by US law as Major Non-NATO Allies (**MNNAs**).

The Index is sponsored by EQM Indexes LLC (the **Index Sponsor**) and administered by BITA GmbH (the **Index Administrator**).

6.2 Index Universe

Companies eligible for inclusion in the Index comprise publicly listed companies headquartered in NATO+ countries which derive more than 50% of their revenues from the manufacture and development of military aircraft and/or defence equipment (which includes military armoured vehicles and tanks, weapon systems and missiles, munitions and accessories, electronics and mission systems and naval ships) or cyber security contracting with a NATO+ member nation verified by publicly available contract information. Companies which are assigned to the Aerospace & Defence industry of the Global Industry Classification Standard (**GICS®**) methodology are eligible for inclusion in the Index universe. Cyber security companies eligible for inclusion in the Index universe fall into the "Systems Software", "Communications Equipment", "Semiconductors", "Internet Services and Infrastructure" and "Application Software" GICS® sub-industry categories. In addition, constituents must:

- 6.2.1 where business operations are in cyber security, such operations must be contracted with a NATO+ country;
- 6.2.2 have a primary listing on a stock exchange or regulated market as described in Appendix 1 of the Prospectus;
- 6.2.3 have a market capitalisation of at least US\$1 billion;
- 6.2.4 have an average daily traded value of at least US\$1 million over the last three months; and
- 6.2.5 be in compliance with the United Nations Global Compact (**UNGC**) principles and Organisation for Economic Cooperation (**OECD**) Guidelines for Multinational Enterprises.

6.3 Rebalance and Further Information

The Index is rebalanced on a quarterly basis in January, April, July and October.

The Index is calculated in USD.

Further information, including the weighting methodology of the Index constituents, is available at the website of the Index Sponsor: <https://www.vettafi.com/indexing/index/natop>.

7 INVESTMENT RESTRICTIONS

The general investment restrictions as set out in the Prospectus shall apply.

The Sub-Fund may not invest more than 10% of its Net Asset Value in open-ended collective investment schemes.

There may be instances where the weighting of any constituent security of the Index could cause the Sub-Fund to breach the investment restrictions set out in the Prospectus. If such an event occurs, it is intended that the Sub-Fund will purchase other assets, the effect of which will seek to maintain, so far as is possible, the same economic exposure to and the same weighting of the security of that issuer in the Index without breaching its investment restrictions.

The Directors may from time to time impose such further investment restrictions as shall be compatible with or in the interests of Shareholders.

8 BORROWING

The Sub-Fund may borrow money in an amount up to 10% of the market value of its net assets at any time for the account of the Sub-Fund and the Depositary may charge the assets of the Sub-Fund as security for any such borrowing, provided that such borrowing is only for temporary purposes.

The Sub-Fund may acquire currency by means of a back-to-back loan agreement. Foreign currency obtained in this manner is not classified as borrowing for the purposes of the UCITS Regulations provided that the offsetting deposit is denominated in the Base Currency of the Sub-Fund and equals or exceeds the value of the foreign currency loan outstanding.

9 RISK FACTORS

While the general risk factors set out in the section entitled **Risk Factors** in the Prospectus apply to the Sub-Fund, the following risk factors described in the Prospectus under the headings **Absence of prior active market, Capital Controls and Sanctions Risk, Concentration Risk, Specialisation Risk, Sector Concentration Risk, Currency Risk, ETF Share Class and Non-ETF Share Class Risk, Interest Rate Risk, Liquidity of Investments, Small- and Mid-Capitalisation Risk, Political and/or Legal/Regulatory Risk, Regulatory Restrictions, Index Rebalancing and Costs** and **Issuer-specific Risk** are particularly relevant for the Sub-Fund.

The following risks relate specifically to the Sub-Fund:

9.1 US Political Risks

The geographic focus of the Sub-Fund is linked to NATO membership and designation under US law of major non-NATO ally (**MNNA**) status. MNNA status of any country may be affected by changes in US government policies and political developments. The Sub-Fund's investments may therefore be subject to change depending on these developments.

9.2 Sectoral Investment Risk – Defence Sector

Where a Sub-Fund invests a significant portion of its assets in the securities of companies of a sector, it is more likely to be impacted by events or conditions affecting that sector. The Sub-Fund shall invest predominantly in companies in the defence sector, including related sectors such as cyber security and defence. The defence industry can be significantly affected by government regulation and spending policies because companies involved in this industry rely, to a significant extent, on government demand for their

products and services. The financial condition of these companies is heavily influenced by government defence spending, which may be reduced in efforts to control government budgets.

10 DIVIDEND POLICY

The Sub-Fund may issue Distributing Shares and Accumulating Shares. Where any Distributing Shares are issued, the Directors may declare dividends annually on or about December in each year to the Shareholders of such Shares out of the net income and/or realised gains net of realised and unrealised losses and/or capital of the Sub-Fund attributable to the Distributing Shares, in accordance with the terms of the Prospectus. **Where distributions will be paid out of the capital of the Sub-Fund, investors may not receive back the full amount invested.** The profits attributable to the Accumulating Shares in the Sub-Fund shall be retained within the Sub-Fund and will be reflected in the Net Asset Value of the Accumulating Shares.

The Manager acting in its capacity as "responsible person" of the Sub-Fund shall ensure that all such revenue, net of direct and indirect operational costs, will be returned to the Sub-Fund. Such costs and fees shall be charged at normal commercial rates and shall not include hidden revenue.

This section entitled **Charges and Expenses** should be read in conjunction with the sections entitled **General Charges and Expenses** and **Management Charges and Expenses** in the Prospectus.

14 MATERIAL CONTRACTS

The Investment Management Agreement provides that the appointment of the Investment Manager as investment manager will continue in force unless and until terminated by the Manager immediately on written notice to the Investment Manager or by the Investment Manager giving not less than ninety (90) days' notice in writing to the Manager although in certain circumstances the agreement may be terminated forthwith by notice in writing by either party to the other. Under this agreement, the Investment Manager shall not be liable to the Manager or any Shareholders or otherwise for any error of judgement or loss suffered by the Manager or any such Shareholder in connection with the Investment Management Agreement unless such loss arises from the negligence, fraud or wilful default in the performance or non-performance by the

Investment Manager or persons designated by it of its obligations or duties under the agreement or breach of contract on the part of the Investment Manager or any of its agents or delegates or their agents.

15 REGISTRATION FOR PUBLIC DISTRIBUTION AND LISTING

Application is expected to be made to register the Sub-Fund for public distribution in various European countries.

Application has been made to list the Shares in the ETF Share Classes on Euronext Dublin. Through the operation of such a secondary market, persons who are not Authorised Participants or not able or willing to subscribe for and redeem Creation Units will be able to buy or sell Shares in the ETF Share Classes from or to other retail investors or market makers, broker/dealers, or other Authorised Participants at prices which should approximate, after currency conversion, the Net Asset Value of the Shares in the ETF Share Classes.

16 HOW TO BUY AND SELL SHARES

Applicants should note that investors in a Non-ETF Share Class can subscribe and redeem their Shares directly from the ICAV, whereas investors who have purchased Shares in an ETF Share Class on the secondary market should be aware that such shares cannot usually be sold directly back to the ICAV. Additionally, if exchanges are closed but it is a Dealing Day for the Sub-Fund, then Non-ETF Share Class investors may be able to subscribe and redeem with the Sub-Fund, while other investors will likely have to wait for the Exchanges to open again to buy and sell Shares.

Investors in an ETF Share Class can purchase or sell Shares on a stock exchange through an intermediary at any time during the trading day whereas investors in a Non-ETF Share Class may only purchase and sell shares directly with the ICAV prior to the Dealing Deadline for that Dealing Day.

16.1 ETF Share Classes

Investors can buy and sell Shares in the ETF Share Classes on the secondary market with the assistance of an intermediary (e.g., a broker-dealer) as described above in accordance with the procedures set out in the section entitled **Secondary Market** in the Prospectus and may incur fees charged by their intermediary or broker. In addition, investors in ETF Share Classes may pay more than the current Net Asset Value when buying Shares and may receive less than the current Net Asset Value when selling them.

Investors can otherwise subscribe for or redeem Creation Units in accordance with the procedures set out in the section entitled **Primary Market** in the Prospectus.

16.2 Non-ETF Share Classes

Investors can buy and sell Shares in the Non-ETF Share Classes in accordance with the procedures set out in the section entitled **Share Dealing – Non-ETF Sub-Funds** in the Prospectus. Investors in Non-ETF Share Classes may pay the Preliminary Charge and the Redemption Charge in the section entitled **Charges and Expenses** to cover transactions costs of purchasing and selling Shares of the Sub-Fund.

17 CLASSIFICATION AS AN EQUITY FUND FOR GERMAN TAX PURPOSES
