## Risks

Guinness Sustainable Energy UCITS ETF is an equity fund. Investors should be willing and able to assume the risks of equity investing. The Fund invests at least 80% in companies involved in sustainable energy or energy technology sectors; it is therefore susceptible to the performance of those sectors, and can be volatile. The value of an investment and the income from it can fall as well as rise as a result of market and currency movement, you may not get back the amount originally invested. Further details on the risk factors are included in the Fund's documentation, available on [www.guinnessgi.com](http://www.guinnessgi.com) or [hanetf.com](http://hanetf.com).

The Guinness Sustainable Energy UCITS ETF was launched on 03.12.2020 as the iClima Global Decarbonisation Enablers UCITS ETF. On 25/07/2024 Guinness Asset Management became the new investment manager. The investment objective and policy of the Fund was changed to align with the Guinness Sustainable Energy strategy.

## Fund Profile

### Aim

Long-term capital growth

### Investment Case

Designed to benefit from opportunities associated with the transition to a sustainable energy system. We believe that over the next twenty years the sustainable energy sector will benefit from the combined effects of strong demand growth and improving economics of renewable energy supply. The sector will benefit from both public and private support for low carbon technologies.

### Process

50% top down, 50% bottom up. Value bias in bottom-up stock selection.

### Portfolio

Concentrated, typically equally-weighted portfolio of 30 positions. Majority of Fund invested in stocks over \$500m in size.

### Investment Objective

An equity fund which invests in companies in the solar, wind, hydro, geothermal, biofuels, biomass and energy efficiency sectors.

The Fund is actively managed and uses the MSCI World Index as a comparator benchmark only.
