HANetf ICAV

Supplement dated 22 July 2026

for

Sprott Pure Play Copper Miners UCITS ETF

This Supplement contains specific information in relation to the **Sprott Pure Play Copper Miners UCITS ETF** (the **Sub-Fund**), a sub-fund of HANetf ICAV (the **ICAV**), an Irish collective asset-management vehicle umbrella fund with segregated liability between sub-funds which is registered in Ireland by the Central Bank of Ireland (the **Central Bank**) and authorised under the UCITS Regulations.

This Supplement forms part of the Prospectus of the ICAV dated 14 May 2026 (the **Prospectus**) **and should be read in the context of and together with the Prospectus. Save as disclosed in this Supplement, there has been no significant change and no significant new matter has arisen since publication of the Prospectus.**

The Directors of the ICAV whose names appear in the section entitled Directors of the ICAV in the Prospectus accept responsibility for the information contained in this document. To the best of the knowledge and belief of the Directors (who have taken all reasonable care to ensure such is the case) the information contained in this document is in accordance with the facts and does not omit anything likely to affect the import of such information.

Words and expressions defined in the Prospectus shall, unless the context otherwise requires, have the same meaning when used in this Supplement.

Shares purchased on the secondary market cannot usually be sold directly back to the Sub-Fund. Investors must buy and sell Shares on a secondary market with the assistance of an intermediary (e.g. a stockbroker) and may incur fees for doing so. In addition, investors may pay more than the current Net Asset Value when buying Shares and may receive less than the current Net Asset Value per Share when selling them. The value of Shares may go down as well as up and investors may not get back any of the amount invested.

Prospective investors should review this Supplement and the Prospectus carefully in their entirety and consider the **Risk Factors** set out in the Prospectus and in this Supplement before investing in this Sub-Fund.

1 IMPORTANT INFORMATION

1.1 Profile of a typical investor

Investment in the Sub-Fund is suitable for investors seeking capital growth over the long term.

The Sub-Fund is available to a wide range of investors seeking access to a portfolio managed in accordance with the investment objective and policy set out below. An investment should only be made by those persons who are able to sustain a loss on their investment. Typical investors in the Sub-Fund are expected to be investors who want to take exposure to the markets covered by the Index and are prepared to accept the risks associated with an investment of this type, including the volatility of such market.

1.2 General

This Supplement sets out information in relation to the Shares and the Sub-Fund. You must also refer to the Prospectus which is separate to this document and describes the ICAV and provides general information about offers of shares in the ICAV. You should not take any action in respect of the Shares unless you have received a copy of the Prospectus. Should there be any inconsistency between the contents of the Prospectus and this Supplement, the contents of this Supplement will, to the extent of any such inconsistency, prevail. This Supplement and the Prospectus should both be carefully read in their entirety before any investment decision with respect to Shares is made.

The Shares in the ETF Share Classes (as defined below) of the Sub-Fund issued and available for issue will be admitted to listing on the Official List as maintained by Euronext Dublin and traded on the regulated market of Euronext Dublin.

1.3 Suitability of Investment

You should inform yourself as to (a) the possible tax consequences, (b) the legal and regulatory requirements, (c) any foreign exchange restrictions or exchange control requirements and (d) any other requisite governmental or other consents or formalities which you might encounter under the laws of the country of your citizenship, residence or domicile and which might be relevant to your purchase, holding or disposal of the Shares.

The Shares are not principal protected. The value of the Shares may go up or down and you may not get back the amount you have invested. See the section entitled **Risk Factors** of the Prospectus and the section entitled **Risk Factors** of this Supplement for a discussion of certain risks that should be considered by investors.

An investment in the Shares is only suitable for you if you are a sophisticated investor and (either alone or with the help of an appropriate financial or other advisor) are able to assess the merits and risks of such an investment and have sufficient resources to be able to bear any losses that may result from such an investment. The contents of this document are not intended to contain and should not be regarded as containing advice relating to legal, taxation, investment or any other matters.

1.4 Distribution of this Supplement and Selling Restrictions

Distribution of this Supplement is not authorised unless accompanied by a copy of the Prospectus and is not authorised in any jurisdiction after publication of the audited annual report of the ICAV unless a copy of the then latest annual report and, if distributed after the semi-annual report has been produced, a copy of the then latest published semi-annual report and unaudited accounts is made available in conjunction with the

Prospectus and this Supplement. The distribution of this Supplement and the offering or purchase of the Shares may be restricted in certain jurisdictions. If you receive a copy of this Supplement and/or the Prospectus you may not treat such document(s) as constituting an offer, invitation or solicitation to you to subscribe for any Shares unless, in the relevant jurisdiction, such an offer, invitation or solicitation could lawfully be made to you without compliance with any registration or other legal requirement other than those with which the ICAV has already complied. If you wish to apply for the opportunity to purchase any Shares it is your duty to inform yourself of, and to observe, all applicable laws and regulations of any relevant jurisdiction. In particular, you should inform yourself as to the legal requirements of so applying, and any applicable exchange control regulations and taxes in the countries of your respective citizenship, residence or domicile.

2 INVESTMENT MANAGER

The Manager has appointed Tidal Investments, LLC as investment manager for the Sub-Fund (the **Investment Manager**) with a discretionary mandate pursuant to an investment management agreement dated 27 October 2021 (as amended) between the Manager and the Investment Manager (the **Investment Management Agreement**) described under the heading **Material Contracts** below.

Under the terms of the Investment Management Agreement, the Investment Manager provides, subject to the overall supervision and control of the Manager, investment management services to the Manager in respect of the Sub-Fund's portfolio of assets. It may delegate all or part of the investment management responsibilities to one or more sub-investment managers, may obtain the services of investment advisers on a non-discretionary basis and may obtain third party research advice with the fees in respect of any such delegation being paid by the Investment Manager out of its own fee.

3 INVESTMENT OBJECTIVE AND POLICIES

3.1 Investment objective

The investment objective of the Sub-Fund is to track the price and the performance, before fees and expenses, of an index that provides exposure to the performance of companies which are active in the copper mining industry and have been assessed for environmental and social characteristics.

3.2 Investment policy

In order to seek to achieve its investment objective, the Sub-Fund will adopt a “passive management” investment strategy and will seek to employ a replication methodology, meaning as far as possible and practicable, it will invest in the equity securities of companies in proportion to the weightings comprising the Nasdaq Sprott Copper Miners Screened Index (NTR) (the **Index**).

In order to replicate the Index, the Sub-Fund may invest up to 20% of its Net Asset Value in shares issued by the same body. This limit may be raised to 35% for a single issuer when exceptional market conditions apply (for example where the weighting of the issuer in the Index is increased as a result of the issuer’s dominant market position or as a result of a merger). These increased limits will only apply where the Sub-Fund is replicating the Index.

The Sub-Fund may, from time to time, use a sampling methodology under various circumstances, including when it may not be possible or practicable to purchase all of the securities in the Index, for example, due to lot size issues or local market restrictions which may apply in certain emerging or frontier markets. The Sub-Fund may also use other transferable securities, being exchange traded commodities (**ETC**), in order to obtain exposure to Index constituents.

Further details in relation to the Index are set out in the section entitled **Information on the Index** below.

The Sub-Fund may invest more than 20% of its assets in companies listed or traded in countries considered to be emerging markets by the Investment Manager. Given the exposure of the Sub-Fund to emerging markets**, an investment in the Sub-Fund should not constitute a substantial portion of an investment portfolio and will not be appropriate for all investors.** Please refer to paragraph 15.63 of the Prospectus (**Emerging Market Risk**).

The Investment Manager will regularly monitor the Sub-Fund's tracking accuracy. Information relating to the anticipated Tracking Error is set out in the section entitled **Tracking of Index** below.

The Sub-Fund may invest in ancillary liquid assets and money market instruments which may include bank deposits, certificates of deposit, commercial paper, floating rate notes and freely transferable promissory notes.

Investors should also note that the Sub-Fund may invest in ETFs established as collective investment schemes and authorised as UCITS in pursuit of its investment objective, subject to the investment restrictions outlined in the Prospectus. The ETCs in which the Fund may invest will be listed or traded on a Regulated Market and will not be leveraged. Investment in, or exposure to, ETCs will be limited to 20% of the Sub-Fund's net assets. The ETCs may include ETCs issued by a related party to the Manager. Where this is the case, the Manager and the related party will be accruing management fees on the ETCs purchased by the Sub-Fund as well as on the shares issued by the Sub-Fund. The Manager intends to reimburse a corresponding part of the fees to the ICAV. Any reimbursements and rebates received by the ICAV in relation to the investment in ETCs will be retained by the Sub-Fund for the benefit of its investors.

The equity securities, ancillary liquid assets, money market instruments and FDI (other than permitted unlisted investments) held by the Sub-Fund will be listed or traded on the Regulated Markets referred to in Appendix 1 of the Prospectus.

3.3 **Sustainability Risks**

The Sub-Fund promotes, among other characteristics, environmental and social characteristics by seeking to track, before fees and expenses, the return performance of the Index, and qualifies as a financial product subject to Article 8(1) of Regulation (EU) 2019/2088 of the European Parliament and of the Council of 27 November 2019 on sustainability-related disclosures in the financial services sector (as may be amended from time to time) (**SFDR**). Information on how the Index is consistent with environmental and social characteristics is set out in the section entitled Information on the Index. Please also refer to Environmental, Social and Governance Standards under the section entitled Risk Factors of the Prospectus. Further disclosures in relation to the application of the SFDR are set out in the Annex to this Supplement. The “do no significant harm” principle applies only to those investments underlying the fund that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this fund do not take into account the EU criteria for environmentally sustainable economic activities.

A sustainability risk in this context means an environmental, social or governance (**ESG**) event or condition that, if it occurs, could cause an actual or a potential material negative impact on the value of the investment (**Sustainability Risk**). Sustainability factors means environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters (**Sustainability Factors**).

The investment objective of the Sub-Fund is to track, before fees and expenses, the return performance of the Index. The Index and the eligibility criteria for inclusion as a constituent of the Index take account of ESG considerations in that the Index seeks to give exposure to companies within the investment universe of the

Index that demonstrate comparatively higher ESG characteristics relative to their peers in the initial index universe. In seeking to track, before fees and expenses, the return performance of the Index when making investment decisions on behalf of the Sub-Fund, the Manager, in conjunction with the Investment Manager, have deemed it not relevant that further consideration should be given by the Investment Manager to Sustainability Risks or the adverse impacts of its investment decisions taken on behalf of the Sub-Fund on Sustainability Factors as part of its implementation of the investment policy, as to do so would risk increasing Tracking Error between the returns of the Sub-Fund and the returns of the Index.

The Manager, in conjunction with the Investment Manager, has assessed the likely impacts of Sustainability Risks on the returns of the Sub-Fund, and considers it likely that Sustainability Risks will not have a material impact on the returns of the Sub-Fund.

3.4 **Use of financial derivative instruments and efficient portfolio management**

Investors should note that the Sub-Fund may invest in FDIs for efficient portfolio management and/or hedging purposes. The Sub-Fund may use futures, currency swaps and currency forwards for the purpose of reducing risk associated with currency exposures within the Sub-Fund. This may on occasions lead to an increase in the risk profile of the Sub-Fund or result in a fluctuation in the expected level of volatility. The Sub-Fund may also enter into securities lending transactions for efficient portfolio management purposes, and in particular, to reduce costs. Please see the section entitled **Risk Factors** in the Prospectus in relation to such risks.

The Sub-Fund will employ the commitment approach to assess the Sub-Fund's global exposure and to ensure that the Sub-Fund's use of derivative instruments is within the limits specified by the Central Bank. Global exposure will be calculated daily. While the Sub-Fund may be leveraged through the use of the FDIs, any such leverage would not be expected to be in excess of 100% of the Sub-Fund's Net Asset Value. Including FDI's, the total exposure associated with the investments of the Sub-Fund, may not exceed 200% of the Net Asset Value of the Sub-Fund.

Investment in FDIs is subject to the conditions and limits contained in the Central Bank UCITS Regulations issued by the Central Bank. Subject to these limits, the Sub-Fund may invest in FDIs dealt on any of the regulated markets set out in the list of Regulated Markets in Appendix 1 to the Prospectus (and/or over the counter FDIs (**OTC**s).

The ICAV employs a risk management process which enables it to accurately measure, monitor and manage at any time the various risks associated with FDIs and their contribution to the overall risk profile of the portfolio of assets of the Sub-Fund. The ICAV will, on request, provide supplementary information to Shareholders relating to the risk management methods employed, including the quantitative limits that are applied and any recent developments in the risk and yield characteristics of the main categories of investments. The Sub-Fund will only invest in FDIs in accordance with the risk management process filed with the Central Bank.

The Sub-Fund may invest in FDIs dealt over the counter provided that the counterparties to over-the-counter transactions are institutions subject to prudential supervision and belong to categories approved by the Central Bank.

Position exposure to the underlying assets of FDIs, when combined where relevant with positions resulting from direct investments, may not exceed the investment limits set out in the Central Bank UCITS Regulations.

Please see the section entitled **Use of Financial Derivative Instruments and Efficient Portfolio Management** in the Prospectus in relation to FDI.

3.5 Securities financing transactions

The Sub-Fund may enter into repurchase/reverse repurchase agreements and securities lending arrangements solely for the purposes of efficient portfolio management and, in the case of securities lending in particular to reduce costs, subject to the conditions and within the limits set out in the Prospectus. Any type of assets that may be held by the Sub-Fund in accordance with its investment objective and policies may be subject to such Securities Financing Transactions. The maximum and expected proportion of the Net Asset Value of the Sub-Fund that can be subject to Securities Financing Transactions is set out in the table below:

	Expected portion of Net Asset Value of the Sub-Fund	**Maximum proportion of the Net Asset Value of the Sub-Fund**
Securities Lending	20%	45%
Repurchase/reverse repurchase agreements	20%	45%

4 PORTFOLIO TRANSPARENCY

Information about the Investments of the Sub-Fund shall be made available on a daily basis. The Sub-Fund will disclose on www.HANetf.com at the start of each Business Day the identities and quantities of the securities and other assets held by it.

5 TRACKING OF INDEX

The anticipated Tracking Error of the Sub-Fund is not a guide to its future performance. The Tracking Error is not anticipated to exceed 1% under normal market conditions.

Further information on the anticipated Tracking Error is set out in the section entitled **Tracking of Index** in the Prospectus.

6 INFORMATION ON THE INDEX AND INDEX PROVIDER

This section is a brief overview of the Index. It contains a summary of the principal features of the Index and is not a complete description of the Index. In case of inconsistency between the summary of the Index in this section and the complete description of the Index, the complete description of the Index prevails. Information on the Index appears on the website identified below in **Rebalance and Further Information**. Such information may change from time to time and details of the changes will appear on that website.

6.1 General Description of the Index

The Index is governed by a published, rules-based methodology and is designed to measure the performance of a global investable universe of securities (predominantly publicly listed companies) that are active in the copper mining industry combined with an assessment for environmental and social characteristics.

The Index is sponsored, calculated and administered by Nasdaq, Inc. (the **Index Provider**).

Additional information on the Index can be found at:
https://indexes.nasdaqomx.com/Index/Overview/NScope

6.2 **Index Universe and Selection**

To be eligible for inclusion in the Index, firstly, a company must be classified by the Index Provider as a copper producer, developer or explorer and have a copper theme intensity score of at least 25% i.e., at least 25% of its revenues are derived from copper mining related activities. Classification is based on the definitions below. All references to "revenue" are references to gross revenue as reported in a company's most recent available audited financial statements.

Producers: companies that extract copper and that have a significant percentage of their revenue tied to the sale of copper.

Developers: companies that have the majority of their operations related to preparing mines for copper extraction.

Explorers: companies that have the majority of their operations related to searching for copper, which may involve mapping, surveying, testing water and soil samples, drilling, etc.

Following classification, to be eligible for inclusion in the Index, a security must meet the below requirements:

(i) have a primary listing on a stock exchange or regulated market as described in Appendix 1 of the Prospectus;

(ii) have been listed on a stock exchange or regulated market for at least three months prior to an index rebalancing date;

(iii) have a free float market capitalisation of at least USD$200,000,000 at the time of inclusion in the Index and, once included in the Index, have a free float market capitalisation of at least USD$100,000,000 at the time of each subsequent rebalance of the Index;

(iv) have a minimum three month average daily value traded of at least USD$500,000 prior to inclusion in the Index and, once included in the Index, have a minimum three month average daily value traded of at least USD$250,000 at the time of each subsequent rebalance of the Index;

(v) be evaluated for greenhouse gas (GHG) emissions and energy intensity scores to exclude securities with the worst scores. To make this evaluation, the Index Provider uses data from Skarn Associates, a consultancy specialising in energy intensity, GHG emissions and water use across copper supply chains. For more information, please visit https://www.skarnassociates.com/ ; and

(vi) be evaluated based on ESG screens, with any companies violating any of the ESG screens excluded from the index universe (if data is unavailable the company remains eligible for inclusion). The ESG screening is based on research and analysis provided by Sustainalytics, and excludes companies from the index universe which:

(a) violate the UN Global Compact principles; and/or
(b) are involved in, linked and/or derive a specified proportion of their revenues from:
    (i) Prohibited weapons;
    (ii) Oil and gas;
    (iii) Arctic oil and gas;
    (iv) Oil sands;
    (v) Thermal coal; and/or
    (vi) Pesticides.
(c) Have a Sustainalytics Controversy Rating of five (5).

Sustainalytics specialises in providing ESG data. For more information, please visit: https://www.sustainalytics.com

6.3 **Weighting**

The Index is a modified free float market capitalization-weighted index.

The weight of physical copper is set to 4.75% and the weight of the remaining index securities is determined using a multi-step process as described below:

1. securities are grouped into two categories based on their theme intensity score. Securities with a theme intensity score greater than 50% are considered "Group 1" and securities with a theme intensity score between 25% and 50% are considered "Group 2";
2. a theme-adjusted free float market capitalization is calculated for Group 2 constituents by multiplying a security's free float market capitalization by its theme intensity score. Free float market cap (unadjusted) is used for index securities in Group 1; and
3. each index security's initial weight is determined by dividing its modified market capitalization (as determined in Step 3) by the aggregate free float market capitalisation of all index securities.

Initial weights are then adjusted in the following order:

1. Group 2 securities are capped at 15% aggregate weight. Excess weight is redistributed to Group 1 securities;
2. all securities (both Group 1 & Group 2) are then capped at 4.75%. Excess weight is redistributed to Group 1 and 2 securities; and
3. using the capped weights from Step 6 above, index security weights are adjusted by their respective E1 Intensity Score and rescaled to 100%, such that Group 2 securities do not exceed 15% in aggregate weight. The 4.75% physical copper weight is included in Group 1 weight adjustments but excluded from those of Group 2.

Weights are then adjusted to meet the following constraints:

- The weight of physical copper is set to 4.75%.
- No security weight may exceed 9.75%.
- The aggregate weight of securities with weight greater than 5% may not exceed 39.75%.
- Securities must have a minimum weight of 0.30%.
- The aggregate weight of Group 2 securities may not exceed 15%.

6.4 **Rebalance and Further Information**

The Index is rebalanced on a quarterly basis in March, June, September and December each year.

7 **INVESTMENT RESTRICTIONS**

The general investment restrictions as set out in the Prospectus shall apply.

The Sub-Fund may not invest more than 10% of its Net Asset Value in open-ended collective investment schemes.

There may be instances where the weighting of any constituent security of the Index could cause the Sub-Fund to breach the investment restrictions set out in the Prospectus. If such an event occurs, it is intended that the Sub-Fund will purchase other assets, the effect of which will seek to maintain, so far as is possible, the same economic exposure to and the same weighting of the security of that issuer in the Index without breaching its investment restrictions.

The Directors may from time to time impose such further investment restrictions as shall be compatible with or in the interests of Shareholders.

8 BORROWING

The Sub-Fund may borrow money in an amount up to 10% of the market value of its net assets at any time for the account of the Sub-Fund and the Depositary may charge the assets of the Sub-Fund as security for any such borrowing, provided that such borrowing is only for temporary purposes.

The Sub-Fund may acquire currency by means of a back-to-back loan agreement. Foreign currency obtained in this manner is not classified as borrowing for the purposes of the UCITS Regulations provided that the offsetting deposit is denominated in the Base Currency of the Sub-Fund and equals or exceeds the value of the foreign currency loan outstanding.

9 RISK FACTORS

While the general risk factors set out in the section entitled **Risk Factors** in the Prospectus apply to the Sub-Fund, the following risk factors described in the Prospectus under the headings; **Absence of prior active market, Capital Controls and Sanctions Risk, Concentration Risk, Emerging Market Risk, Specialisation Risk, Sector Concentration Risk**, **Information Technology Company Risk**, **Currency Risk, Liquidity of Investments**, **Small- and Mid-Capitalisation Risk, Political and/or Legal/Regulatory Risk, Regulatory Restrictions, Index Rebalancing and Costs, Issuer-specific Risk, ETF Share Class and Non-ETF Share Class Risk, Environmental, Social and Governance (ESG) Standards, SFDR Sub-Fund Classification Risk and Screening Risk** are particularly relevant for the Sub-Fund. The following risks relate specifically to the Sub-Fund:

9.1 Commodity Risk

The Sub-Fund may invest in companies that are susceptible to fluctuations in certain commodity markets and to price changes due to trade relations. Any negative changes in commodity markets that may be due to changes in supply and demand for commodities, market events, regulatory developments, other catastrophic events, or other factors that the Sub-Fund cannot control could have an adverse impact on those companies.

9.2 Metals and Mining Industry Risk

Companies in the metals and mining industry are susceptible to fluctuations in worldwide metal prices and extraction and production costs. In addition, metals and mining companies may have significant operations in areas at risk for social and political unrest, security concerns and environmental damage. These companies may also be at risk for increased government regulation and intervention. Such risks may adversely affect the companies to which the Sub-Fund has exposure.

9.3 Sector Focus Risk

The Sub-Fund will invest a significant portion of its assets in the copper mining sector and the Sub-Fund anticipates that it may be subject to the sector specific risk described below.

Mining Sector Risk: The exploration and development of mineral deposits involve significant financial risks over a significant period of time, which even a combination of careful evaluation, experience and knowledge may not eliminate. Few properties which are explored are ultimately developed into producing mines. Major expenditures may be required to establish reserves by drilling and to construct mining and processing facilities at a site. In addition, mineral exploration companies typically operate at a loss and are dependent

on securing equity and/or debt financing, which might be more difficult to secure for an exploration company than for a more established counterpart.

10 DIVIDEND POLICY

The Sub-Fund may issue Distributing Shares and Accumulating Shares. Where any Distributing Shares are issued, the Directors may declare dividends annually on or about December in each year to the Shareholders of such Shares out of the net income and/or realised gains net of realised and unrealised losses and/or capital of the Sub-Fund attributable to the Distributing Shares, in accordance with the terms of the Prospectus. **Where distributions will be paid out of the capital of the Sub-Fund, investors may not receive back the full amount invested.** The profits attributable to the Accumulating Shares in the Sub-Fund shall be retained within the Sub-Fund and will be reflected in the Net Asset Value of the Accumulating Shares.

11 KEY INFORMATION FOR SHARE DEALING

	ETF Share Classes	Non-ETF Share Classes
Base Currency	US Dollar	
Minimum Sub-Fund Size	The minimum size of the Sub-Fund will be $30,000,000 or foreign currency equivalent thereof or such other amount as may be determined by the Directors at their discretion. When the size of the Sub-Fund is below $30,000,000 or foreign currency equivalent, the Directors of the ICAV may compulsorily redeem all of the Shares of the Sub-Fund in accordance with the **Mandatory Redemptions** section of the Prospectus.	
Minimum Initial Investment Amount	N/A	US$50,000
Business Day	means a day on which markets are open for business in London (or such other day(s) as the Directors may from time to time determine and notify in advance to Shareholders).	
Dealing Day	In general, each Business Day will be a Dealing Day. However, certain Business Days will not be Dealing Days where, in the sole determination of the Directors markets on which the Sub-Fund's investments are listed or traded, or markets relevant to the Index, are suspended or closed; or where is a public holiday in the jurisdiction of the Investment Manager or their delegates; provided always that there is at least one Dealing Day per fortnight. The Dealing Days for the Sub-Fund are available from the Administrator and can be found at www.HANetf.com.	
Dealing Deadline	4.30 pm (Irish time) on the Business Day prior to the relevant Dealing Day.	
Initial Offer Period	The Initial Offer Period has closed.	The Initial Offer Period shall commence at 9.00 am (Irish time) on 23 July 2026 and close on the earlier of the receipt of an initial subscription and 5.00pm (Irish time) on 19 January 2027 as may be

		shortened or extended by the Directors and notified to the Central Bank. Shares will be initially offered at a price of approximately US$7.77 per Share (or its foreign currency equivalent).
Settlement Date for Subscriptions	In respect of cash subscriptions, on the first Business Day after the relevant Dealing Day, provided that if such day is not a Currency Day, settlement will be postponed to the immediately following Currency Day; In respect of in kind subscriptions, on the third Business Day after the relevant Dealing Day or within such other period as the Directors may determine (not exceeding 10 Business Days following the relevant Dealing Deadline).	In respect of cash subscriptions, on the first Business Day after the relevant Dealing Day, provided that such day is not a day on which foreign exchange markets are open for settlement of payments in the relevant Currency Day settlement will be postponed to the immediately following Currency Day.
Redemptions **Settlement Date for Redemptions**	Creation Units may be redeemed on a Dealing Day at a price based on the Net Asset Value per Share multiplied by the number of Shares in a Creation Unit. A redeeming Shareholder will have deducted from redemption proceeds an appropriate amount of duties and charges, if applicable. The Shares in the ETF Share Classes which are the subject of the redemption must be received by the Sub-Fund by the second Business Day after the relevant Dealing Day. Redemption proceeds will be typically transferred within 3 Business Days of the relevant Dealing Day and, in any event, within such other period as the Directors may determine (not exceeding 10 Business Days following the relevant Dealing Deadline), provided that all required documentation has been furnished to the Administrator and the relevant Shareholder has delivered, in the relevant Securities Settlement System, the Shares to be redeemed.	Shares in Non-ETF Share Classes may be redeemed on a Dealing Day at a price based on the Net Asset Value per Share. A redeeming Shareholder will have deducted from redemption proceeds an appropriate amount of duties and charges, if applicable. The Shares which are the subject of the redemption must be received by the Sub-Fund by the second Business Day after the relevant Dealing Day. Redemption proceeds will be typically transferred within 3 Business Days of the relevant Dealing Day and, in any event, within such other period as the Directors may determine (not exceeding 10 Business Days following the relevant Dealing Deadline), provided that all required documentation has been furnished to the Administrator.
Valuation	The Net Asset Value per Share is calculated in accordance with the section entitled **Calculation of Net Asset Value/ Valuation of Assets** in the Prospectus.	

Publication Time	8.00 am (Irish time) on the relevant Dealing Day.
Valuation Point	4.00pm (US EST) on the relevant Dealing Day.
Website	www.HANetf.com

Subscription and redemption requests for ETF Share Classes will normally be accepted in multiples of the Creation Unit set at the discretion of the Manager. Authorised Participants should refer to the AP Portal for details of the applicable Creation Unit.

12 DESCRIPTION OF AVAILABLE SHARES

12.1 ETF Share Classes and Non-ETF Share Classes

The Sub-Fund may comprise both listed Classes (being **ETF Share Classes**) and unlisted Classes (being **Non-ETF Share Classes**) in accordance with the requirements of the Central Bank. ETF Share Classes will be identified as such by the denominated "ETF". Classes without the "ETF" denominator are Non-ETF Share Classes.

Share Class Name	Dividend Policy	Hedged/Unhedged	Currency
Accumulating ETF Share Class	Accumulating	Unhedged	USD

13 CHARGES AND EXPENSES

13.1 This section entitled **Charges and Expenses** should be read in conjunction with the sections entitled **General Charges and Expenses** and **Management Charges and Expenses** in the Prospectus**.**

The following fees may be charged, at the discretion of the Manager, on the Net Asset Value per Share in the Creation Unit subscribed for by Shareholders in respect of the ETF Share Classes, and on the Net Asset Value per Share in respect of the Non-ETF Share Classes, (and will not be incurred by the ICAV on behalf of the Sub-Fund, and accordingly will not affect the Net Asset Value of the relevant Class of Share of the Sub-Fund).

Charge	ETF Share Classes	Non-ETF Share Classes
Preliminary Charge	N/A	of up to 5% at the Manager's discretion
Exchange Charge	N/A	of up to 3% at the Manager's discretion
Redemption Charge	of up to 3% at the Manager's discretion	of up to 3% at the Manager's discretion
Cash Transaction Fee	of up to 3% at the Manager's discretion	N/A
In Kind Transaction Fee	of up to 3% at the Manager's discretion	N/A

13.2 The Preliminary Charge is in addition to the investment amount received from an investor for subscription for Shares. Such Preliminary Charge is payable to the Manager.

13.3 The Cash Transaction Fee and In Kind Transaction Fee will not be charged in circumstances where a Preliminary, Exchange or Redemption Charge is payable to the Manager.

13.4 The following fees and expenses will be incurred by the ICAV on behalf of the Sub-Fund and will affect the Net Asset Value of the relevant Class of Share of the Sub-Fund:

Share Class Name	Total Expense Ratio (TER)
Accumulating ETF Share Class	Up to 0.59 % per annum

13.5 The TER, a percentage of the Net Asset Value of the relevant Class of Shares (plus VAT, if any), is payable by the ICAV out of the Sub-Fund Assets to the Manager. The TER will accrue on each day and will be calculated on each Dealing Day and paid monthly in arrears. The TER will cover all of the ordinary fees, operating costs and expenses payable by the Sub-Fund including fees and expenses paid to the Manager, all ordinary costs and expenses connected with the management and operating activities of the Sub-Fund, including investment management and advisory fees, Director's fees, registration, listing, transfer agency, administration, custody and depositary fees, common depository fees, registrar fees, regulators and auditors and certain legal expenses of the ICAV.

13.6 The TER does not include extraordinary/other costs and expenses (including but not limited to transaction charges, stamp duty or other taxes on the investments of the ICAV including duty charges for portfolio re-balancing, withholding taxes, commissions and brokerage fees incurred with respect to the ICAV's investments, interest on any non-overdraft credit facility and charges incurred in negotiating, effecting or varying the terms of such facility, any commissions charged by intermediaries in relation to an investment in the Sub-Fund and such extraordinary or exceptional costs and expenses (if any) as may arise from time to time, such as material litigation in relation to the ICAV all of which will be paid separately out of the assets of the Sub-Fund).

To the extent that the Sub-Fund enters into securities lending transactions to reduce costs, the Sub-Fund will receive at least 70% of the associated revenue generated from the securities lending activities. The remaining 30% or less of the associated revenue will be deducted in order to pay the direct and indirect operational costs of the Securities Lending Agent in respect of the provision of agency services to the Sub-Fund. The Manager acting in its capacity as "responsible person" of the Sub-Fund shall ensure that all such revenue, net of direct and indirect operational costs, will be returned to the Sub-Fund. Such costs and fees shall be charged at normal commercial rates and shall not include hidden revenue.

13.7 The cost of establishing the Sub-Fund will be borne by the Marketing Agent.

13.8 This section entitled **Charges and Expenses** should be read in conjunction with the sections entitled **General Charges and Expenses** and **Management Charges and Expenses** in the Prospectus.

14 MATERIAL CONTRACTS

The Investment Management Agreement provides that the appointment of the Investment Manager as investment manager will continue in force unless and until terminated by the Manager immediately on written notice to the Investment Manager or by the Investment Manager giving not less than one hundred and eighty (180) days' notice in writing to the Manager although in certain circumstances the agreement may be terminated forthwith by notice in writing by either party to the other. Under this agreement, the Investment Manager shall not be liable to the Manager or any Shareholders or otherwise for any error of judgement or

loss suffered by the Manager or any such Shareholder in connection with the Investment Management Agreement unless such loss arises from the negligence, fraud or wilful default in the performance or non-performance by the Investment Manager or persons designated by it of its obligations or duties under the agreement or breach of contract on the part of the Investment Manager or any of its agents or delegates or their agents.

15 REGISTRATION FOR PUBLIC DISTRIBUTION AND LISTING

Application is expected to be made to register the Sub-Fund for public distribution in various European countries.

Application will be made to list the Shares in the ETF Share Classes on Euronext Dublin. Through the operation of such a secondary market, persons who are not Authorised Participants or not able or willing to subscribe for and redeem Creation Units will be able to buy or sell Shares in the ETF Share Classes from or to other retail investors or market makers, broker/dealers, or other Authorised Participants at prices which should approximate, after currency conversion, the Net Asset Value of the Shares in the ETF Share Classes.

16 HOW TO BUY AND SELL SHARES

Applicants should note that investors in a Non-ETF Share Class can subscribe and redeem their Shares directly from the ICAV, whereas investors who have purchased Shares in an ETF Share Class on the secondary market should be aware that such shares cannot usually be sold directly back to the ICAV. Additionally, if exchanges are closed but it is a Dealing Day for the Sub-Fund, then Non-ETF Share Class investors may be able to subscribe and redeem with the Sub-Fund, while other investors will likely have to wait for the Exchanges to open again to buy and sell Shares.

Investors in an ETF Share Class can purchase or sell Shares on a stock exchange through an intermediary at any time during the trading day whereas investors in a Non-ETF Share Class may only purchase and sell shares directly with the ICAV prior to the Dealing Deadline for that Dealing Day.

16.1 ETF Share Classes

Investors can buy and sell Shares in the ETF Share Classes on the secondary market with the assistance of an intermediary (e.g., a broker-dealer) as described above in accordance with the procedures set out in the section entitled **Secondary Market** in the Prospectus and may incur fees charged by their intermediary or broker. In addition, investors in ETF Share Classes may pay more than the current Net Asset Value when buying Shares and may receive less than the current Net Asset Value when selling them.

Investors can otherwise subscribe for or redeem Creation Units in accordance with the procedures set out in the section entitled **Primary Market** in the Prospectus.

16.2 Non-ETF Share Classes

Investors can buy and sell Shares in the Non-ETF Share Classes in accordance with the procedures set out in the section entitlement **Share Dealing – Non-ETF Sub-Funds** in the Prospectus. Investors in Non-ETF Share Classes may pay the Preliminary Charge and the Redemption Charge in the section entitled **Charges and Expenses** to cover transactions costs of purchasing and selling Shares of the Sub-Fund.

17 CLASSIFICATION AS AN EQUITY FUND FOR GERMAN TAX PURPOSES

The Sub-Fund will be managed in such a way to ensure that it qualifies as an "Equity Fund", as such term is defined in the German Investment Tax Act 2018 (as amended), please see sections headed **Classification**

as an Equity Fund or as a Mixed Fund for German Tax Purposes and **Additional Information for German Tax Purposes** within the Prospectus for further details.

18 OTHER INFORMATION

New Sub-Funds may be created from time to time by the Directors with the prior approval of the Central Bank in which case further Supplements incorporating provisions relating to those Sub-Funds will be issued by the ICAV.

The names of the Sub-Funds currently approved by the Central Bank are listed in the Global Supplement.

SCHEDULE 1

ANNEX

Template pre-contractual disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Product name: Sprott Pure Play Copper Miners UCITS ETF
Legal entity identifier: 2549001OTGUWJJM12Q68

Environmental and/or social characteristics

Does this financial product have a sustainable investment objective?

☐ **Yes**	☒ **No**
☐ It will make a minimum of **sustainable investments with an environmental objective:** ___%	☐ It **promotes Environmental/Social (E/S) characteristics** and while it does not have as its objective a sustainable investment, it will have a minimum proportion of ___% of sustainable investments
☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy	☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	☐ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
	☐ with a social objective
☐ It will make a minimum of **sustainable investments with a social objective:** ___%	☒ It promotes E/S characteristics, but **will not make any sustainable investments**

What environmental and/or social characteristics are promoted by this financial product?

The Sub-Fund promotes environmental and social characteristics, including the specific environmental characteristics of reducing exposure to companies in the copper mining industry which have high GHG emissions and high intensity scores or operational involvement in the fields of oil and gas, Arctic oil and gas, oil sands, thermal coal and pesticides and the social characteristic of reducing exposure to prohibited weapons. The Sub-Fund will adopt a "passive management" investment strategy and will seek to employ a replication methodology, meaning as far as possible and practicable, it will invest in all of the securities in proportion to the weightings comprising the Nasdaq Sprott Copper Miners Screened Index (the **Index**), which is comprised of a global investable universe of securities (predominantly publicly listed companies) that are active in the copper mining industry. The Index methodology excludes companies in the copper mining industry which have high GHG emissions and energy intensity scores and do not comply with UN

Global Compact principles and/or have any operational business involvement in the fields of prohibited weapons, oil and gas, Arctic oil and gas, oil sands, thermal coal, or pesticides from the Index.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

- ***What sustainability indicators are used to measure the attainment of each of the environmental or social characteristics promoted by this financial product?***

The primary evaluation for environmental characteristics is based on the analysis of data for greenhouse gas emissions and energy intensity provided by Skarn Associates, a specialist in ESG mining research. In order to be eligible for inclusion in the Index, companies must have low GHG emissions and low energy intensity. An E1 tCO2e intensity score below 7 t /Cu t (based on the Skarn analysis) is required. By reducing exposure to companies involved with high GHG emissions and high energy intensity, the Sub-Fund is promoting the environmental characteristic of reducing carbon emissions.

In addition, eligible companies are also required to comply with UN Global Compact principles, must not have any operational business involvement in the fields of prohibited weapons, oil and gas, Arctic oil and gas, oil sands, thermal coal, or pesticides and must have a Sustainalytics Controversy Rating of five (5).

- ***What are the objectives of the sustainable investments that the financial product partially intends to make and how does the sustainable investment contribute to such objectives?***

N/A – the Sub-Fund does not make any sustainable investments.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

- ***How do the sustainable investments that the financial product partially intends to make, not cause significant harm to any environmental or social sustainable investment objective?***

N/A – the Sub-Fund does not make any sustainable investments.

- *How have the indicators for adverse impacts on sustainability factors been taken into account?*

N/A - the Sub-Fund does not take into account the indicators for adverse impacts on sustainability factors.

- *How are the sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

N/A – the Sub-Fund does not make any sustainable investments.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

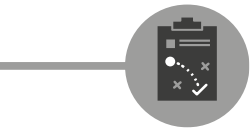

Does this financial product consider principal adverse impacts on sustainability factors?

☐ Yes

☒ No

The Sub-Fund does not consider principal adverse impacts on sustainability factors.

The investment strategy guides investment decisions based on factors such as investment objectives and risk tolerance.

What investment strategy does this financial product follow?

In order to seek to achieve its investment objective, the Sub-Fund will adopt a "passive management" investment strategy and will seek to employ a replication methodology, meaning as far as possible and practicable, it will invest in all of the securities in proportion to the weightings comprising the Index.

What are the binding elements of the investment strategy used to select the investments to attain each of the environmental or social characteristics promoted by this financial product?

The Index methodology excludes companies in the copper mining industry which have high GHG emissions and energy intensity scores and further excludes companies that do not comply with the UN Global Compact principles in addition to companies that have an operational business involvement in the fields of prohibited weapons, oil and gas, Arctic oil and gas, oil sands, thermal coal, or pesticides.

If any company fails the screening process above, it will be excluded from the selection.

Whilst the Sub-Fund and the Index seek to ensure compliance with such criteria at each rebalance or review date, between these reviews or rebalances, securities which no longer meet these criteria may remain included in the Index until they are removed at the subsequent rebalance or review or the portfolio of the Sub-Fund until it is possible and practicable to sell down such positions.

- ***What is the committed minimum rate to reduce the scope of the investments considered prior to the application of that investment strategy?***

  There is no committed minimum rate to reduce the scope of the investments considered prior to the application of that investment strategy

- ***What is the policy to assess good governance practices of the investee companies?***

  The Index methodology screens companies for compliance with UN Global Compact principles. Companies that fail the screening process will be excluded from the selection.

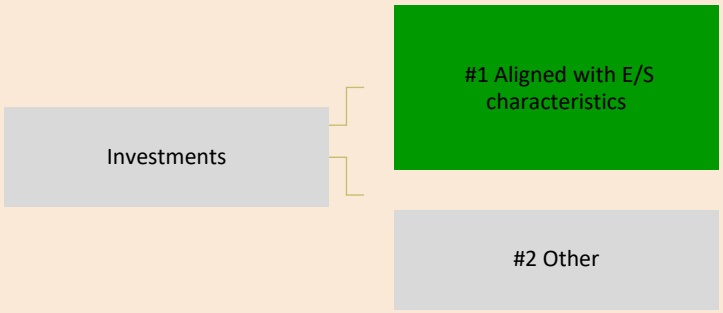

Good governance practices include sound management structures, employee relations, remuneration of staff and tax compliance.

What is the asset allocation planned for this financial product?

Asset allocation describes the share of investments in specific assets.

At least 90% of the Sub-Fund's assets are aligned with the environmental and social characteristics promoted by the Sub-Fund (#Aligned with E/S characteristics), which do not qualify as sustainable investments. Up to 10% of the investments of the Sub-Fund are not aligned with these characteristics (#2 Other).

Taxonomy-aligned activities are expressed as a share of:
- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

How does the use of derivatives attain the environmental or social characteristics promoted by the financial product?

The Sub-Fund may use FDIs for efficient portfolio management and hedging purposes. These FDIs are not used to attain the environmental and social characteristics promoted by the Sub-Fund.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

To what minimum extent are sustainable investments with an environmental objective aligned with the EU Taxonomy?

0%. The Sub-Fund does not commit to a minimum extent of EU Taxonomy alignment for its investments.

Does the financial product invest in fossil gas and/or nuclear energy related activities that comply with the EU Taxonomy[1]?

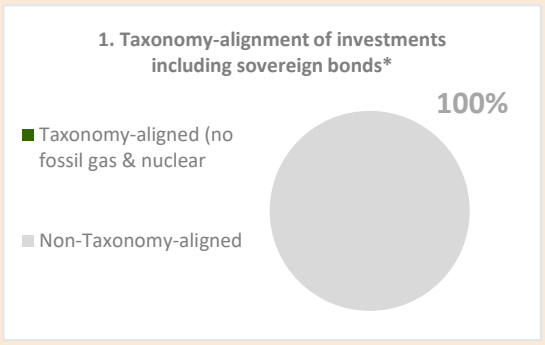

☐ Yes:

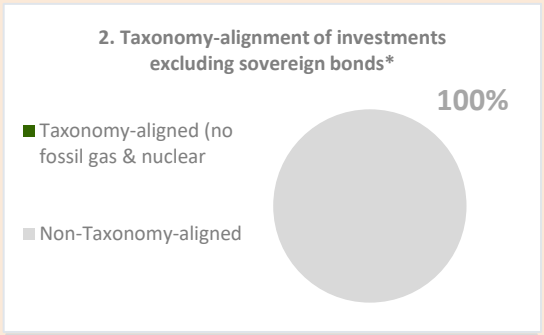

☐ In fossil gas ☐ In nuclear energy

☒ No

[1] *Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see*

The two graphs below show in green the minimum percentage of investments that are aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

This graph represents 100% of the total investments

* *For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.*

What is the minimum share of investments in transitional and enabling activities?

N/A – the Sub-Fund has no minimum proportion of investment in transitional or enabling activities.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under the EU Taxonomy.

What is the minimum share of sustainable investments with an environmental objective that are not aligned with the EU Taxonomy?

N/A – the Sub-Fund has no minimum share of investments with an environmental objective that are not aligned with the EU Taxonomy Regulation

What is the minimum share of socially sustainable investments?

N/A – the Sub-Fund has no minimum share of socially sustainable investments.

What investments are included under "#2 Other", what is their purpose and are there any minimum environmental or social safeguards?

The Sub-Fund predominantly makes investments that are aligned with environmental and social characteristics (#1 Aligned with E/S characteristics).

Those investments included under "#2 Other", may include ancillary liquid assets, money market instruments, investments in ETFs authorised as UCITS, futures, currency swaps and currency forwards. It may also include securities which no longer meet the environmental and/or social criteria described above but will not be removed from the Index until the next Index rebalance. There are no minimum environmental or social safeguards.

Is a specific index designated as a reference benchmark to determine whether this financial product is aligned with the environmental and/or social characteristics that it promotes?

explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Yes, the Sub-Fund has designated the Nasdaq Sprott Copper Miners Screened Index as the reference index.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

- ***How is the reference benchmark continuously aligned with each of the environmental or social characteristics promoted by the financial product?***

The Index promotes environmental and social characteristics by excluding companies in the copper mining industry which have high GHG emissions and energy intensity scores and further excludes companies that fail the screening process for compliance with UN Global Compact principles, in addition to any operational business involvement in the fields of prohibited weapons, oil and gas, Arctic oil and gas, oil sands, thermal coal, or pesticides from selection for the Index.

How is the alignment of the investment strategy with the methodology of the index ensured on a continuous basis?

The Sub-Fund will adopt a "passive management" investment strategy and will seek to employ a replication methodology, meaning as far as possible and practicable, it will invest in all of the securities in proportion to the weightings comprising the Index, which is comprised of a global investable universe of securities (predominantly publicly listed companies) that are active in the copper mining industry. The Sub-Fund may, from time to time, use a sampling methodology under various circumstances.

- ***How does the designated index differ from a relevant broad market index?***

The Index differs from a broad market index as it seeks to measure the performance of a global investable universe of securities that are active in the copper mining industry. The Index includes companies classified by the Index Provider as a copper producer, developer or explorer and which have a copper theme intensity score of at least 25% i.e., at least 25% of its revenues are derived from copper mining related activities. Eligible companies must also meet the minimum market capitalisation and liquidity requirements and have a primary listing on a stock exchange or regulated market as described in Appendix 1 of the Prospectus for at least three months prior to an index rebalance date. The Index excludes companies for violations of the UN Global Compact principles and any operational business involvement in the fields of prohibited weapons, oil and gas, Arctic oil and gas, oil sands, thermal coal, or pesticides.

- ***Where can the methodology used for the calculation of the designated index be found?***

Additional information on the Index can be found at https://indexes.nasdaqomx.com/Index/Overview/NScope

Where can I find more product specific information online?

Additional information on the Sub-Fund can be found at https://www.hanetf.com/product-list
