

The Company and the Directors of HSBC ETFs PLC (the **"Directors"**) listed in the Prospectus in the **"Management and Administration"** section, accept responsibility for the information contained in this Supplement. To the best of the knowledge and belief of the Company and the Directors (who have taken all reasonable care to ensure that such is the case) the information contained in this Supplement is in accordance with the facts and does not omit anything likely to affect the import of such information. The Company and the Directors accept responsibility accordingly.

HSBC Emerging Market Screened Equity UCITS ETF

(A sub-fund of HSBC ETFs PLC, an umbrella fund with segregated liability between sub-funds authorised by the Central Bank of Ireland pursuant to the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011) (as amended)

22 December 2025

This Supplement forms part of the Prospectus for the purposes of the UCITS Regulations. Unless otherwise provided for in this Supplement, all capitalised terms shall have the same meaning herein as in the Prospectus. This Supplement should be read in the context of, and together with, the Prospectus and contains information relating to the HSBC Emerging Market Screened Equity UCITS ETF (the **"Fund"**) which is a separate sub-fund of the Company, represented by the HSBC Emerging Market Screened Equity UCITS ETF series of shares in the Company (the **"Shares"**). Please see Appendix A for a list of the other sub-funds of the Company, Appendix B for a list of the paying agents appointed by the Management Company and Appendix C for a list of sub-custodians appointed by the Depositary.

Prospective investors should review this Supplement and the Prospectus carefully and in their entirety. Prospective investors should consult a stockbroker, bank manager, solicitor, accountant or other financial adviser for independent advice in relation to: (a) the legal requirements within their own countries for the purchase, holding, exchanging, redeeming or disposing of Shares; (b) any foreign exchange restrictions to which they are subject in their own countries in relation to the purchase, holding, exchanging, redeeming or disposing of Shares; (c) the legal, tax, financial or other consequences of subscribing for, purchasing, holding, exchanging, redeeming or disposing of Shares; and (d) the provisions of this Supplement and the Prospectus.

Potential investors should consider the risk factors set out in the Prospectus and in this Fund Supplement before investing in this Fund. An investment in the Fund should not constitute a substantial proportion of an investment portfolio and may not be appropriate for all investors.

Prospective investors should refer to the Annex to this Fund Supplement regarding the Fund's environmental and / or social characteristics.

Investors should note that, where cash is the method of payment, a Direct Dealing (Cash Transaction) Fee of up to 3% of subscription and redemption monies may be applicable when dealing directly with the Fund for Shares.

The FTSE Emerging ESG Low Carbon Select Index does not benefit in any manner whatsoever from the sponsoring, support, or promotion, and is not sold by FTSE International Limited (hereinafter **"FTSE"**), London Stock Exchange Plc, the Financial Times Limited or Research Affiliates LLC (collectively designated as the **"Holders"**). The Holders do not grant any guarantee and do not make any commitment, whether explicit or implied, as to the income to be obtained by using the FTSE Emerging ESG Low Carbon Select Index (hereinafter the **"Index"**) and/or the level at which the Index is positioned at any given moment or day or any other type. The Index is calculated by or on behalf of FTSE. The Holders shall not be held responsible (regardless of resulting from negligence or any other reason) for any error impacting the Index concerning whosoever and shall not be obliged to inform whosoever of any error impacting it. **"FTSE®"**, **"FT-SE®"** and **"Footsie®"** are trademarks registered by the London Stock Exchange Plc and The Financial Times Limited, and are used under licence by FTSE. **"RAFI™"** and **"Research Affiliates™"** are trademarks owned by Research Affiliates LLC and are used under licence by FTSE.

GENERAL

The following provisions shall be applicable to the Fund:

Base Currency	US Dollars (“USD”)
Brazilian Tax	<p>On 14 September 2016, the Brazilian tax authorities issued Normative Instruction 1658/16 amending the list of countries considered to be ‘low tax jurisdictions’ to include Ireland. The changes were effective from 1 October 2016 onwards and established capital gains tax on the disposal of Brazilian securities. Also, on September 1, 2021, Brazil's House of Deputies approved Bill 2,337, which if approved by Brazil's Senate and President would establish withholding tax on dividends.</p> <p>As a consequence investors should note that where such taxes are applied to Brazilian securities they will be passed on to investors in the Fund and paid to the Brazilian tax authorities.</p>
Business Day	<p>A day on which the markets in London are open and/or such other day or days as the Directors may determine excluding days on which Significant Markets are closed and/or the Index is unavailable on the Business Day following the Dealing Day. This must be notified in advance to the Shareholder. A “Significant Market” is any market and/or exchange or combination of markets and/or exchanges where the value of the Fund's investments in those markets and/or exchanges exceeds 30% of the Net Asset Value of the Fund, calculated on a yearly basis and recorded in the Company's financial statements unless the Management Company determines that a different percentage and/or date should apply which it believes to be more appropriate.</p>
Conversion Transaction Fee	The maximum conversion fee that may be charged being up to 5% of the Net Asset Value per Share, such fee if any can be waived partially or totally by the Directors.
Dealing Day	<p>Every Business Day or such other day or days as the Directors may determine and notify to the Administrator and to the Shareholder in advance provided there shall be at least one (1) Dealing Day per fortnight. As the Valuation Point (as defined below) occurs on the Business Day following the Dealing Day, the Fund is not open for the purpose of receiving dealing requests on any Business Day prior to a Significant Market being closed. The Fund is, however, open for the purpose of receiving dealing requests on a day on which a Significant Market is closed as the Valuation Point in respect of such Dealing Day will be on the Business Day following the Significant Market being closed, even though such Dealing Day may not itself be designated as a Business Day.</p>
Dealing Deadline	<p>16.00 (Irish time) on any Dealing Day (unless otherwise agreed by the Directors and notified in advance to the Shareholder in the Fund and in any event prior to the Valuation Point). On the relevant Dealing Day of the Fund prior to 25 December and 1 January, subscription application forms must be received by 12.00 noon (Irish time). Any properly made application received</p>

	by the Administrator after the Dealing Deadline will not be accepted until the next Dealing Day.
Direct Dealing (Cash Transaction) Fee	Up to 3%. Such fees may be waived by the Directors, in whole or in part, either generally or in any specific case, at their absolute discretion.
Duties and Charges	All stamp duties and other duties, taxes, governmental charges, imposts, levies, exchange costs and commissions (including foreign exchange spreads), custodian and sub-custodian charges, transfer fees and expenses, agents' fees, brokerage fees, commissions, bank charges, registration fees or other duties and charges, whether payable in respect of the constitution, increase or reduction of the cash and other assets of the Company or the creation, acquisition, issue, conversion, exchange, purchase, holding, repurchase, redemption, sale or transfer of Shares or Investments by or on behalf of the Company and, if appropriate, any provision for the spread or difference between the price at which any Investment was valued for the purpose of calculation of the Net Asset Value per Share of any Fund and the estimated or actual price at which any such Investment may be purchased, in the case of subscriptions to the relevant Fund, or sold, in the case of redemptions from the relevant Fund, including, for the avoidance of doubt, any charges or costs arising from any adjustment to any swap or other derivative contract required as a result of a subscription or redemption, or in respect of the issue or cancellation of share certificates or otherwise which may have become or will become payable in respect of or prior to or upon the occasion of any transaction, dealing or valuation.
Index	FTSE Emerging ESG Low Carbon Select Index
Index Provider	FTSE International Limited
In-Kind Transaction Fee	As in-kind subscriptions and redemptions are not accepted for this Fund, there is no In-Kind Transaction Fee applicable.
Portfolio Composition File	The Portfolio Composition File will be available from the Investment Manager upon request. The securities comprised in the Portfolio Composition File will be consistent with the investment objective and policies of the Fund. See " Investment Objective and Policies " below.
Portfolio Holdings File	The Portfolio Holdings File will be available on the Website.
Price Per Creation Unit	The Net Asset Value per Share multiplied by the number of Shares in a Creation Unit. The Net Asset Value per Share will be published on each Dealing Day on the Website.
Profile of a Typical Investor	Investment in the Fund may be suitable for investors seeking capital appreciation with a five year time horizon through investments made primarily in equities that are listed or traded on Recognised Markets, as defined in the Prospectus. An investor should consider his/her personal tolerance for the daily fluctuations of the market before investing in the Fund, as the volatility of the Fund may be high. Investors should be prepared to bear losses.

	Shares in the Fund will be available to both retail and institutional investors.
Publication Time for Portfolio Composition File	By 08.00 (Irish time) on each Business Day.
Replication	<p>The Fund will aim to invest in the constituents of the Index in generally the same proportions in which they are included in the Index.</p> <p>However, there may be circumstances when it is not possible or practicable for the Fund to invest in all constituents of the Index. Such circumstances may include (but are not limited to): (i) a limited availability of the Index constituents; (ii) trading suspensions on constituents of the Index; (iii) cost inefficiencies; (iv) if the assets under management of the Fund are relatively small. In addition, the Fund may not invest in one or more constituents of the Index where there are internal or regulatory driven trading restrictions (as detailed in the “Investment Restrictions” and “Investment Restrictions – Other Restrictions” sections of the Prospectus) that apply to the Fund or Investment Manager but not the Index.</p>
Valuation Point	23.00 (Irish time) on each Business Day following the Dealing Day. The closing price is the last traded price for equity securities based on the results of the closing auction or the mid-price of the best bid and offer prices at the time the market closes.
Website	www.etf.hsbc.com

INVESTMENT OBJECTIVES AND POLICIES

The investment objective of the Fund is to replicate the performance of the FTSE Emerging ESG Low Carbon Select Index (the “**Index**”), while minimising as far as possible the tracking error between the Fund’s performance and that of the Index.

The Index is a subset of the FTSE Emerging Index (the “**Parent Index**”) and aims to measure the performance of companies in emerging markets as defined by the Index Provider. As further detailed in the “**Index Description**” section of the Supplement, on an annual basis, the Index Provider screens all securities by applying sustainable exclusionary criteria and weights companies in order to reduce the exposure in the Index to companies with higher carbon emissions and fossil fuel reserves and to improve the exposure in the Index to comply with favourable FTSE Russell environmental, social and governance (“**ESG**”) ratings compared to that of the Parent Index. In addition, the United Nations Global Compact (UNGC) exclusionary criteria are applied to the Index on a quarterly basis (i.e. on each rebalancing date).

In replicating the performance of the Index, the Fund promotes certain environmental, social and/or governance characteristics (as set out in the section titled “**The Index**”) and has been categorised as an Article 8 fund for the purpose of the SFDR.

In seeking to achieve its investment objective, the Fund will aim to invest in the constituents of the Index in generally the same proportions in which they are included in the Index. The Fund promotes certain environmental, social and/or governance characteristics (as set out in the section titled “**Index Description**”) Information on the Index’s characteristics and the determination of sustainable investments is set out under the section titled “**Index Description**” below.

However, there may be circumstances when it is not possible or practicable for the Fund to invest in all constituents of the Index. Such circumstances may include (but are not limited to): (i) a limited availability of the Index constituents; (ii) trading suspensions on constituents of the Index; (iii) cost inefficiencies; (iv) if the assets under management of the Fund are relatively small. In addition, the Fund may not invest in one or more constituents of the Index where there are internal or regulatory driven trading restrictions (as detailed in the “**Investment Restrictions**” and “**Investment Restrictions – Other Restrictions**” sections of the Prospectus) that apply to the Fund or Investment Manager but not the Index.

The Fund will make use of the increased diversification limits available under Regulation 71 of the UCITS Regulations and may also be in a position to hold up to 35% of the Fund’s Net Asset Value in one constituent of the Index issued by the same body, due to exceptional market conditions (i.e. the issuer represents an unusually large portion of this market measured by the Index).

As a result of not investing in some of the Index constituents, the Fund may: (i) gain exposure indirectly through other assets or instruments (including: (a) American Depositary Receipts, European Depositary Receipts and Global Depositary Receipts which are certificates typically issued by a bank or trust company evidencing ownership of shares of a non-US issuer; (b) Eligible Collective Investment Schemes that have a similar investment objective or strategy to the Fund including schemes managed by the Investment Manager or its affiliates; or (c) financial derivative instruments (“**FDI**”) which, in the opinion of the Investment Manager, will assist in achieving the Fund’s investment objective and are alternatives to directly purchasing the underlying securities included in the Index and/or (ii) hold the investible Index constituents in different proportions to the Index and/or (iii) invest in securities which are not constituents of the Index which, in the opinion of the Investment Manager, are expected to provide similar performance and risk characteristics to the uninvestable Index constituents and/or (iv) hold cash or cash equivalents including money market funds which are Eligible Collective Investment Schemes. The Fund may not invest more than 10% of its net assets in Eligible Collective Investment Schemes used for investment and/or cash management purposes.

Most of the securities in which the Fund invests will be listed or traded on Recognised Markets, as defined in the Prospectus. Investments in securities listed or traded in Russia will only be made in

securities that are listed or traded on the Moscow Exchange ("**MICEX-RTS**"). As of the end of August 2021, Russian securities made up approximately 3.75% of the Index's market capitalisation.

The indicative net asset value per share for the Fund is available on at least one major market data vendor terminal such as Bloomberg, as well as on a wide range of websites that display stock market data, including www.reuters.com.

The Fund may use financial derivative instruments ("**FDI**"), including, but not limited to, futures, forwards, foreign exchange contracts (including spot and forward contracts), equity options, contracts for differences, total return swaps, certificates, notes and warrants which may be used to reduce tracking error between the Fund's performance and that of the Index. These instruments may be used for efficient portfolio management and/or investment purposes. The Fund may not enter into funded swap transactions. The primary policy of the Fund is to acquire securities included in the Index, as described above, but FDI may be used where the direct holdings of securities may not be possible or where tracking error can be better minimised by using FDI. To the extent that the Fund uses FDI, there may be a risk that the volatility of the Fund may increase. However, the Fund is not expected to have an above average risk profile as a result of its use of or investment in FDI. FDI will be used within the limits stipulated by the Central Bank of Ireland and as described in "**Use of Financial Derivative Instruments**" in the Prospectus. Accordingly, although FDI may be inherently leveraged, the primary purpose of the use of FDI is to reduce tracking error, and, although the Fund will be leveraged as a result of its investments in FDI, the Fund's global exposure (as prescribed in the Central Bank UCITS Regulations) relating to FDI, calculated using the commitment approach, must not exceed 100% of the Fund's total Net Asset Value.

Where the Fund cannot invest directly in Indian equities, exposure to the Indian equity market may be achieved through futures (instruments which create an exposure to an underlying asset).

Efficient portfolio management refers to techniques and instruments which relate to transferable securities which fulfil the following criteria: They are economically appropriate in that they are realised in a cost-effective way and investment decisions involving transactions that are entered into for one or more of the following specific aims: (i) the reduction of risk (e.g. to perform an investment hedge on a portion of a portfolio); (ii) the reduction of cost (e.g. short term cash flow management or tactical asset allocation); and (iii) the generation of additional capital or income for the Company with an appropriate level of risk, taking into account the risk profile of the Fund as described in this Supplement and the Prospectus and the general provisions of the UCITS Regulations. In particular, FDI may be used for the purpose of minimising tracking error, i.e. the risk that the Fund return varies from the Index return. Equity futures, index futures and currency futures may be used to hedge against market risk or to gain exposure to an underlying market. Forward contracts may be used to hedge or to gain exposure to an increase in the value of an asset, currency or deposit. Foreign exchange contracts may be used to convert the currency of the underlying investments of each Fund into the Base Currency and to hedge the dividends received in a currency other than the Base Currency between the ex-date and the pay date. Equity options may be used to hedge or achieve exposure to a particular market instead of using a physical security. Contracts for differences and total return swaps may be used to hedge or achieve exposure to a particular stock instead of using a physical security. Certificates may be used to achieve exposure to a stock or to a basket of stocks instead of using a physical security. Notes and warrants may be used to achieve exposure to a particular stock instead of using a physical security.

The Directors may exercise all borrowing powers of the Company in accordance with the 'Borrowing Policy' section in the Prospectus. Such borrowing will be temporary and will not exceed 10% of the Net Asset Value of the Fund.

The tracking error is the annualised standard deviation of the difference between the monthly (or daily) returns of the Fund and the Index.

A series of factors may give rise to tracking error:

- Transaction costs, operating expenses, custody costs, taxes, as a result of changes in the investments of the Fund and re-weightings of the Index, corporate actions, currency

fluctuations, cash flows into and out of the Fund from dividend/reinvestments and any costs and expenses which are not taken into account in the calculation of the Index.

- Internal restrictions, such as the HSBC Global Asset Management Banned Weapons Policy (as detailed in the Prospectus section: INVESTMENT RESTRICTIONS - Other Restrictions) or other market or regulatory driven trading restrictions that apply to a Fund but not the relevant Index.

Moreover, in the event of the temporary suspension or interruption of trading in the investments comprising the Index, or of market disruptions, rebalancing the Fund's investment portfolio may not be possible and may result in deviations from the returns of the Index.

The Index will be rebalanced on a quarterly basis in order to account for the exclusions criteria described above alongside changes to the Parent Index, and the Fund's investment portfolio will be rebalanced as soon as practicable thereafter.

The Fund is passively managed. There is no guarantee that the investment objective of the Fund will be achieved. In particular, no financial instrument enables the returns of the Index to be reproduced exactly.

The anticipated tracking error is the expected standard deviation of the differences between the returns of the Fund and the Index.

As at the date of this Supplement, the anticipated tracking error for the Fund is expected to be up to 0.20% in normal market conditions. Divergences between anticipated and realised tracking error will be explained in the annual report for the relevant period.

The anticipated tracking error for the Fund is not a guide to future performance.

The volatility level of the Fund will have a strong correlation to the volatility level of the Index.

Total Return Swaps, Contracts for Difference and Securities Lending

The Fund may engage in securities lending subject to the requirements of the Securities Financing Transactions Regulation, the UCITS Regulations and the Central Bank UCITS Regulations. This is more particularly described in the Prospectus under the heading "*Total Return Swaps, Contracts for Difference and Securities Lending*". Up to 30% of the Fund's net assets may be subject to securities lending arrangements at any one time, however the amount subject to securities lending arrangements is not generally expected to exceed 0 – 25% of the Fund's net assets. Furthermore, the Fund may invest up to 10% of its net assets in total return swaps and contracts for difference, however such investments are not generally expected to exceed 5% of the Fund's net assets.

INVESTMENT RISKS

Investment in the Fund carries with it a degree of risk including the risks described under "**Risk Factors**" in the Prospectus and the specific risk factors set out below. These investment risks are not purported to be exhaustive and potential investors should review the Prospectus and this Supplement carefully and consult with their professional advisors before making an application for Shares. Investment in the Fund is not for investors who cannot afford to lose all or a significant part of their investment.

An investor should consider his/her personal tolerance for the daily fluctuations of the market before investing in the Fund.

FDI

In the event the Fund uses FDI for efficient portfolio management or investment purposes, such use may increase the risk profile of the Fund.

For information in relation to the risks associated with the use of FDI, please refer to the “**Risk Factors – Particular Risks of Financial Derivative Instruments**” section of the Prospectus.

The Index

An investment in the Fund exposes an investor to the market risks associated with fluctuations in the Index and the value of securities comprised in the Index. The value of the Index can increase as well as decrease and the value of an investment will fluctuate accordingly. There is no guarantee that the Fund’s investment objective will be achieved. The Fund is subject to tracking error, as described in the Prospectus, which is the risk that its returns may not correlate accurately to those of the Index. Furthermore, any re-weighting of the Index may increase the risk of tracking error.

The past performance of the Index should not be seen as an indication of the future performance of the Index or the Fund.

Emerging Markets

The economies of emerging markets in which the Fund will invest may differ favourably or unfavourably from the economies of industrialised countries. Investments in emerging markets entail risks which include the possibility of political or social instability, adverse changes in investment or exchange control regulations, expropriation and withholding of dividends at source. In addition, such securities may trade with less frequency and volume than securities of companies and governments of developed, stable nations. Investments in these markets may also be adversely affected by laws, stock exchange practices or regulatory supervision not comparable with those in more developed markets.

As a result of its investment in emerging market countries, therefore, the Fund may be subject to political, settlement, liquidity, currency accounting standards and custodial risks. Please refer to the “**Political and/or Regulatory Risks**”, “**Custodial Risk**” and “**Particular Risks of Investment in Chinese Securities**” sections of the Prospectus for details of political, currency and custodial risks associated with investment in these countries. Risks in connection with settlement, liquidity and accounting standards are addressed below.

Settlement and Liquidity Risks

The Shareholder should note that settlement mechanisms in emerging markets are generally less developed and reliable than those in more developed countries and that this therefore increases the risk of settlement default, which could result in substantial losses for the Fund in respect to investments in emerging markets. In addition, the settlement mechanisms in certain emerging markets may be untested. Some emerging markets use physical share delivery settlement procedures and in such circumstances, there may be share registration and delivery delays and it may not be possible to ensure delivery against payment.

The Shareholder should also note that the securities of companies domiciled in emerging markets are less liquid and more volatile than more developed stock markets and this may result in fluctuations in the price of the Shares of the Fund.

Accounting Standards

The legal infrastructure and accounting, auditing and reporting standards in emerging markets in which the Fund may invest may not provide the same degree of information to investors as would generally apply internationally. In particular, valuation of assets, depreciation, exchange differences, deferred taxation, contingent liabilities and consolidation may be treated differently from international accounting standards.

This document does not include detailed information on the political, economic and legal environment of the emerging markets in which the Fund may invest. Prospective investors should consult a stockbroker, bank manager, solicitor, accountant or other financial adviser for independent advice in relation to the relevant conditions and risk in investing in emerging markets generally.

Investment in Russia

There are significant risks inherent in investing in Russia including: (a) delays in settling transactions and the risk of loss arising out of Russia's system of securities registration and custody; (b) the lack of corporate governance provisions or general rules or regulations relating to investor protection; (c) pervasiveness of corruption, insider trading, and lack of law enforcement in the Russian economic system; (d) difficulties associated in obtaining accurate market valuations of many Russian securities, based partly on the limited amount of publicly available information; (e) tax regulations are ambiguous and unclear and there is a risk of imposition of arbitrary or onerous taxes; (f) the general financial condition of Russian companies, which may involve particularly large amounts of inter-company debt; (g) banks and other financial systems are not well developed or regulated and as a result tend to be untested and have low credit ratings; and (h) the risk that the government of Russia or other executive or legislative bodies may decide not to continue to support the economic reform programs implemented since the dissolution of the Soviet Union.

The concept of fiduciary duty on the part of a company's management is generally non-existent. Local laws and regulations may not prohibit or restrict a company's management from materially changing the company's structure without shareholder consent. Foreign investors cannot be guaranteed redress in a court of law for breach of local laws, regulations or contracts. Regulations governing securities investment may not exist or may be applied in an arbitrary and inconsistent manner.

Securities in Russia are issued only in book entry form and ownership records are maintained by registrars who are under contract with the issuers. The registrars are neither agents of, nor responsible to, the Custodian or its local agents in Russia. Transferees of securities have no proprietary rights in respect of securities until their name appears in the register of holders of the securities of the issuer. The law and practice relating to registration of holders of securities are not well developed in Russia and registration delays and failures to register securities can occur. Although Russian sub-custodians will maintain copies of the registrar's records ("**Extracts**") on its premises, such Extracts may not, however, be legally sufficient to establish ownership of securities. Furthermore, fraudulent securities, Extracts or other documents are in circulation in the Russian markets and there is therefore a risk that the Fund's purchases may be settled with such securities. In common with other emerging markets, Russia has no central source for the issuance or publication of corporate actions information. The Custodian therefore cannot guarantee the completeness or timeliness of the distribution of corporate actions notifications.

To mitigate the above perceived risks, investments in securities listed or traded in Russia will only be made in securities that are listed or traded on the MICEX-RTS.

SUBSCRIPTIONS

During the Initial Offer Period, Classes of Shares in the Fund will first be issued at the price of the Index multiplied by a factor of 0.01 as at the Valuation Point on the first Business Day following the close of the Initial Offer Period which is from 1 May 2025 to 31 October 2025 (or such other date as the Directors may determine) and the price of which can be obtained from the Investment Manager. Thereafter, Shares in the Fund will be issued at the Net Asset Value per Share plus an appropriate provision for Duties and Charges and in accordance with the provisions set out in the Prospectus and this Supplement.

The USD Class of Shares in the Fund is issued at the Net Asset Value per Share plus an appropriate provision for Duties and Charges and in accordance with the provisions set out in the Prospectus and the Supplement.

Dealing Timetable

Deadline for Application Form for all subscriptions	16.00 (Irish time) on any Dealing Day.
Cash Subscriptions – cut-off for receipt of cash:	By 15.00 (Irish time) within two Business Days after the Dealing Day.
In-Kind Subscriptions:	In-kind subscriptions are not accepted for this Fund. 100% cash subscriptions are accepted only.
Settlement of Shares subscribed for	Within two Business Days following the Dealing Day or such earlier day as the Directors may determine provided that appropriate cleared subscription monies for cash subscriptions (including the cash portion of an in-kind subscription where relevant) have been received no later than the settlement deadline of the relevant clearing platform or, no later than 15.00 (Irish time) for wire transfers (or no later than such time as agreed by the Investment Manager for the Portfolio Deposit of an in-kind subscription where an in-kind subscription is agreed to be accepted by the Investment Manager). Subscriptions through either process must be effected on the same Business Day after the Dealing Day on which settlement is sought, unless this falls on a USD Foreign Exchange Market holiday, in which case they will settle on the Business Day after the USD Foreign Exchange Market holiday.

All payments should be clearly referenced with one payment per subscription trade.

On the relevant Dealing Day of the Fund prior to 25 December and 1 January, subscription application forms must be received by 12.00 noon (Irish time). Where a subscription application form is received after 12.00 noon (Irish time), the subscription shall be held over until the next Dealing Day.

USD Foreign Exchange Market Holiday

The above cut-off times for receipt of cash and, where an in-kind subscription is agreed to be accepted by the Investment Manager, for receipt of the Portfolio Deposit, are to apply unless a Dealing Day falls on a USD Foreign Exchange Market holiday, in which case cash (including the cash portion of an in-kind subscription where an in-kind subscription is agreed to be accepted by the Investment Manager) should be received by the respective cut-off time on the Business Day after the USD Foreign Exchange Market holiday. Any cash received after 15.00 (Irish time) will be deemed as late settlement and will not be moved to the Fund account until the following Business Day. In such an event the investor shall indemnify the Company and the Administrator for any loss suffered as a result of the investor's failure to transmit subscription monies in a timely fashion. The Depositary is not liable for any loss suffered due to the late payment of subscription proceeds to the Fund.

CONVERSIONS

A conversion request will be treated as a cash redemption request in respect of the original Class of Shares and as a cash subscription application in respect of the new Class of Shares in this Fund or in any other sub-fund of the Company. On this basis and provided the original Class of Shares and the new Class of Shares have the same base currency, the Shareholder will be entitled on any Dealing Day to apply to convert any or all of their Shares of any Class in the Fund into Shares of another Class in the Fund or any other sub-fund of the Company except where dealings in the relevant Shares have been temporarily suspended in the circumstances described in the Prospectus and where the Dealing Deadlines are different for the Class of Shares in the sub-funds of the Company being converted. Please refer to the terms and conditions regarding subscriptions and redemptions of the relevant Fund Supplements.

When requesting the conversion of Shares as an initial investment in a sub-fund of the Company, the Shareholder should ensure that the aggregate Net Asset Value per Share of the Shares converted is equal to or exceeds any minimum holding for the relevant sub-fund. In the case of a conversion of a partial holding only, the value of the remaining holding must also be at least equal to any minimum holding for the relevant sub-fund. If the number of Shares of the new Class to be issued on conversion is not an integral number of Shares, the Company may issue fractional Shares of the new Class or return the surplus arising to the Shareholder seeking to convert the Shares of the original Class.

Conversions will attract a Conversion Transaction Fee, being the fee payable to the Administrator as agent for the Company where, as part of a conversion of Shares, Shares are redeemed for cash and subsequently invested for cash in a different sub-fund of the Company. The fee payable is deducted from the redemption proceeds at the same rate as the Conversion Transaction Fee as specified in the relevant Fund Supplement of the subscribed for sub-fund.

REDEMPTIONS

The Shareholder may effect a redemption of Shares at the Net Asset Value per Share less an appropriate provision for Duties and Charges on any Dealing Day, provided that a written redemption request is signed by the Shareholder and received by the Administrator no later than the Dealing Deadline on the relevant Dealing Day in accordance with the provisions of the “**Subscriptions, Valuations and Redemptions**” section of the Prospectus. Settlement for cash transactions will take place within 10 Business Days of the relevant Dealing Day. Redemptions in-kind are not available for this Fund.

As per the provisions set out in the Prospectus, redemptions proceeds (in cash) will only be released where the Administrator holds full original anti-money laundering documentation.

FEES AND EXPENSES

For details of the fees and expenses payable by the Fund please refer to the “**Fees and Expenses**” section in the prospectus.

The total annual fees and operating expenses of the Classes (except for transaction charges and taxes or duty charges for portfolio re-balancing, all of which are paid separately out of the assets of the Fund) (the “**Total Expense Ratio**” or “**TER**”) are shown in the table below. The TER shall accrue daily and be payable monthly in arrears. The Management Company will absorb (by reimbursement to the account of the Fund) any additional fees, costs or expenses over the Total Expense Ratio. The fees, costs and expenses which the Total Expense Ratio covers are set out in the next paragraph.

Class	TER per annum of the Net Asset Value of the Class
Base Currency and unhedged Share Classes	Up to 0.18%
Hedged Share Classes	Up to 0.21%

Fees, costs and expenses paid from the TER may include, but are not limited to, fees and expenses paid to the Management Company, Investment Manager, Administrator, Depositary, regulators, auditors, any delegates or agents of the Company, as applicable, and certain legal costs of the Company, including establishment expenses.

Where cash is the method of payment, a Direct Dealing (Cash Transaction) Fee of up to 3% of subscription and redemption monies may be applicable when dealing directly with the Fund for Shares.

Investors should note that there is a tax which may be applied to all foreign investors investing in Brazil and is payable to the Brazilian tax authorities and so long as the tax remains in force, this tax will be passed on to investors in the Fund.

THE CLASSES OF SHARES

The Fund has different Classes of Shares which are described in “The Shares” section of the Prospectus. Only certain Classes of shares may be available for subscription as at the date of the Supplement. Additional Classes of Shares may be added in the future in accordance with the requirements of the Central Bank. An up-to-date list of launched Classes and Classes available to purchase can be obtained from the registered office of the Investment Manager.

Class	Type	Distribution Policy	ISIN
USD	A Class denominated in the Base Currency	Accumulating	IE00BKY59G90
CHF Hedged	A CHF hedged Class	Accumulating	
EUR Hedged	A EUR hedged Class	Accumulating	
GBP Hedged	A GBP hedged Class	Accumulating	
USD Hedged	A USD hedged Class	Accumulating	
USD	A Class denominated in the Base Currency	Distributing	
CHF Hedged	A CHF hedged Class	Distributing	
EUR Hedged	A EUR hedged Class	Distributing	
GBP Hedged	A GBP hedged Class	Distributing	
USD Hedged	A USD hedged Class	Distributing	

Distributing Shares will generally pay dividends on a semi-annual basis in January/February and July/August in accordance with the section of the Prospectus entitled “Distribution Policy”.

Information on currency hedged Classes is provided under the “Currency Transactions” section of the Prospectus.

Shares are freely transferable subject to and in accordance with the provisions of the Articles and as set out in the Prospectus.

The settlement of Shares is centralised in an ICSD structure. Shares will not generally be issued in Dematerialised Form and no temporary documents of title or share certificates will be issued, other than the global certificate issued to the Common Depositary’s Nominee which is required for the ICSD settlement model (the ICSD being the Recognised Clearing and Settlement System through which the Shares will be settled). Where Shares are issued in Dematerialised Form in one or more Recognised Clearing and Settlement Systems, redemption of these Shares can only be completed by the delivery of those Shares back through that Recognised Clearing and Settlement Systems. Other than the global certificate issued to the Common Depositary’s Nominee, no individual certificates for Shares will be issued by the Company. The Directors may, in their absolute discretion, refuse to accept any subscription for Shares, in whole or in part.

The USD Class of Shares was admitted to the official list of the UK Listing Authority and admitted to trading on the main market of the London Stock Exchange on 28 August 2020. The Company is a recognised scheme in the UK for the purposes of the Financial Services and Markets Act 2000, as amended or re-enacted from time to time.

INDEX DESCRIPTION

This section is a summary of the principal features of the FTSE Emerging ESG Low Carbon Select Index (the “Index”) and is not a complete description of the Index.

General

The Fund will aim to replicate the net total return performance of the Index.

The Index seeks to achieve a reduction in carbon emissions and fossil fuel reserves exposure and an improvement of the FTSE Russell ESG rating against that of the Parent Index.

The Index achieves this in the following ways:

1. on an annual basis in September, removing stocks based on sustainability exclusionary criteria. The following types of companies are removed from the Index on an annual basis due to the sustainability exclusionary criteria and some criteria may apply thresholds:
 - a. companies identified as providing core weapons systems, or components/services that are considered tailor-made and essential for banned and controversial weapons (including anti-personnel mines, blinding laser weapons, nuclear weapons, cluster weapons, biological and chemical weapons, depleted uranium, non-detectable fragments, and white phosphorus munitions);
 - b. companies identified as involved in the manufacturing of tobacco products;
 - c. companies identified as involved in providing tailor-made products and/or services, or tailor-made components for conventional military weapons;
 - d. companies identified as involved with thermal coal extraction and electricity generation;
 - e. companies identified as involved with electricity generation from nuclear power; and
 - f. companies considered to have breached one or more of the UNGC principles (widely accepted sustainability principles covering human rights, labour, environment and anti-corruption);
 - g. companies identified as involved in owning or operating a gambling establishment or manufacturing specialised products exclusively for gambling or providing supporting products/services to gambling operations; and
 - h. companies identified as involved in the production or operation of adult entertainment establishments or in the distribution of adult entertainment materials;
2. on an annual basis in September, adjusting the weights of the remaining companies within the Parent Index according to carbon emissions¹, fossil fuel reserves exposure and FTSE Russell ESG ratings²based criteria. The Index also aims to maintain country neutrality and to limit industry divergence against the Parent Index by maintaining maximum stock weights of 10% and minimum stock weights of 0.5 bps³; and
3. on a quarterly basis, removing companies considered to be non-compliant with one or more of the UNGC principles.

Due to the rating criteria and exclusions referred to above, the Index will have a smaller number of constituents compared to the Parent Index and therefore is likely to exhibit a different performance and risk profile. Furthermore, as some of the exclusions are applied after the annual rebalance, the Index is unlikely to maintain the capping criteria of the Parent Index and country neutrality. In addition, the level of ESG improvement, carbon reduction and fossil fuel reserves exposure may change from the levels initially set. All of the aforementioned levels will also vary over time with stock price movements.

The Index will be rebalanced on a quarterly basis (i.e. in March, June and December) in order to account for the UNGC exclusions criteria described above along with changes to the Parent Index. Each company's carbon footprint, fossil fuel reserves exposure and FTSE Russell ESG rating is assessed on an annual basis.

¹ Carbon emissions are measured as Greenhouse Gas (GHG) Protocol Scope 1 and 2 emissions and calculated as operational carbon emissions in metric tons per million dollars revenue.

² Each company in the Index is assigned an ESG rating using the FTSE Russell ESG ratings. Companies with higher ESG ratings will have their weights increased, while companies with lower ESG ratings will have their weights decreased.

³ Industry (and stock) weight positions will change versus the Parent Index due to the application of the exclusion criteria and also stock price movements.

Publication of the Index

The Index is calculated on a daily basis at closing prices using the official closing stock market prices for the constituent stocks. The Index is also calculated in real time on each trading day. The closing price of the Index, its components, its rebalancing frequency and its performance is available on the FTSE® internet website: <https://www.ftserussell.com/>.

The Index methodology may be amended from time to time by the Index Provider. Information on the Index methodology is available on the website above.
