Dated 9 September 2026

IMPORTANT INFORMATION

Suitability of Investment

Please review the information in the Prospectus regarding suitability of an investment.

The Shares are not principal protected. The value of the Shares may go up or down and you may not get back the amount you have invested. See the section headed "Risk Factors" of the Prospectus and the section headed "Other Information – Risk Factors" of this Supplement for a discussion of certain risks that should be considered by you.

In addition to investing in transferable securities, the Company may invest on behalf of the Fund in financial derivative instruments ("FDIs"), where applicable. Certain risks attached to investments in FDIs are set out in the Prospectus under "Risk Factors". An investment in the Fund should not constitute a substantial portion of an investor's portfolio.

The Shares purchased on the Secondary Market cannot usually be sold directly back to the Fund. Investors must buy and sell Shares on a Secondary Market with the assistance of an intermediary (e.g. a stockbroker) and may incur fees for doing so. In addition, investors may pay more than the current net asset value when buying Shares and may receive less than the current net asset value when selling them.

Profile of a typical investor

A typical investor would be one who is a private or institutional investor and is seeking capital appreciation over the long term. Such an investor is also one that is able to assess the merits and risks of an investment in the Shares.

General

This Supplement sets out information in relation to the Shares and the Fund. You must also refer to the Prospectus which is separate to this document and describes the Company and provides general information about offers of shares in the Company. You should not take any action in respect of the Shares unless you have received a copy of the Prospectus. Should there be any inconsistency between the contents of the Prospectus and this Supplement, the contents of this Supplement will, to the extent of any such inconsistency, prevail. This Supplement and the Prospectus should both be carefully read in their entirety before any investment decision with respect to Shares is made.

Definitions

Words and expressions defined in the Prospectus will, unless otherwise defined in this Supplement, have the same meaning when used in this Supplement.

TERMS OF THE SHARES REPRESENTING INTERESTS IN THE FUND

Investment Objective of the Fund

The investment objective of the Fund is to provide exposure to the performance of equally weighted large and mid-capitalisation companies in European developed markets.

Investment Policy of the Fund

In order to achieve the investment objective, the Fund will seek to replicate the net total return performance of the MSCI Europe Equal Weighted Index (the **"Reference Index"**) less fees, expenses and transaction costs. Further information on the components and selection criteria of the Reference Index is set out below under **"General Description of the Reference Index"**.

The Fund will employ a Replication Strategy.

In order to replicate the Reference Index, the Fund may invest up to 20% of its Net Asset Value in shares issued by the same body.

Further information in relation to how the Fund will seek to track the Reference Index is set out in the sections titled "**Investment Objective and Policies**" and "**Investment Restrictions and Permitted Investments**" in the Prospectus.

There are a number of circumstances where gaining access to the components of the Reference Index may be prohibited by regulation, may not otherwise be in the Shareholders' interests or may not otherwise be possible or practicable, as set out in the Prospectus.

The Fund may hold ancillary liquid assets (namely cash and UCITS money market funds) and use efficient portfolio management techniques in accordance with the requirements of the Central Bank.

The Fund may also engage in transactions in FDIs for hedging and/or efficient portfolio management purposes. The Fund may use the following FDIs listed on a Market or traded OTC, as applicable: options and futures transactions, forward contracts, non-deliverable forwards and spot foreign exchange transactions. Further details on FDIs and how they may be used are set out in the section titled "**Appendix III – Efficient Portfolio Management and Use of Financial Derivative Instruments**" in the Prospectus.

Further information relevant to the Fund's investment policy is set out in the sections titled "**Investment Objectives & Policies**" and "**Investment Restrictions and Permitted Investments**" in the Prospectus.

Investment Restrictions of the Fund

The general investment restrictions set out under "**Investment Restrictions and Permitted Investments**" in the Prospectus apply to the Fund.

The Fund shall not invest more than 10% of its net assets in other UCITS, open ended CIS or closed ended collective investment funds that meet the requirements of the Central Bank (and, in the case of closed ended collective investment funds, that qualify as transferable securities).

With the exception of permitted investment in unlisted securities or in units of open-ended CIS, investment will be limited to the stock exchanges and regulated markets set out in Appendix I of the Prospectus.

Index Tracking

It is anticipated that the Tracking Error, as measured using the unhedged Share Classes, will be between 0% and 1.00% under normal market conditions. However, exceptional circumstances may arise which cause the Fund's Tracking Error to exceed 1.00%.

Efficient Portfolio Management

Further information on efficient portfolio management techniques that may be used by the Fund is contained in the **"Securities Financing Transactions"** section below and in the main body of the Prospectus under the heading **"Appendix III – Efficient Portfolio Management and Use of Financial Derivative Instruments"**.

Securities Financing Transactions

The Fund may use Securities Financing Transactions, namely securities lending.

The type of assets that may be held by the Fund in accordance with its investment objective and policies and may be subject to such Securities Financing Transactions are equities. The maximum proportion of the Fund's assets that may be subject to securities lending is 100%, and the expected proportion of the Fund's assets that may be subject to securities lending is between 0% and 30%. Please refer to the Prospectus section "**Securities Financing Transaction**" for further details.

Sustainability risks

The Fund is not classified as an Article 8 or Article 9 fund pursuant to SFDR. The investments underlying

the Fund do not take into account the EU criteria for environmentally sustainable economic activities outlined in Regulation (EU) 2020/852 of the European Parliament and of the Council of 18 June 2020 on the establishment of a framework to facilitate sustainable investment.

As the Fund is passively managed, management of the portfolio does not include any separate integration of sustainability risks into the investment process. Sustainability risks were considered in the selection of the Reference Index for use by the Fund. However, as the main strategy of the Fund is to track the performance of the Reference Index, the Manager deems that further consideration of sustainability risks is not relevant to the strategy of the Fund.

Currency Hedging Policy

The Fund may enter into transactions for the purposes of hedging the foreign exchange exposure in any hedged Share Classes (identified by "**Hdg**" in their names).

The Fund may enter into transactions for the purposes of hedging the foreign exchange exposure of the currency or currencies in which the underlying assets of the Fund are denominated to the currency of a Share Class (identified by "**PfHdg**" in their names).

Further information on currency hedging at Share Class level is set out in the section titled "**Hedged Classes**" in the Prospectus.

Borrowing and Leverage

The Company on behalf of the Fund may borrow up to 10% of the Net Asset Value of the Fund on a temporary basis. Further information on borrowing and leverage is set out in the sections titled **"Borrowing and Lending Powers"** and **"Leverage"** in the Prospectus.

The Company will use the commitment approach for the purposes of calculating global exposure for the Fund. The Fund's total exposure to the Reference Index will be limited to 100% of Net Asset Value.

While it is not the Investment Manager's intention to leverage the Fund, any leverage resulting from the use of FDIs will be done in accordance with the Regulations.

Dividend Policy

Dividends will be declared on a quarterly basis for the Dist Shares, the USD PfHdg Dist Shares, the EUR PfHdg Dist Shares, the GBP PfHdg Dist Shares, the CHF PfHdg Dist Shares, the MXN PfHdg Dist Shares, the SEK PfHdg Dist Shares, and the HKD PfHdg Dist Shares in accordance with the general provisions set out in the Prospectus under the heading “Dividend Policy" and Shareholders will be notified in advance of the date on which dividends will be paid. Distributions will not be made in respect of the Acc Shares, the USD PfHdg Acc Shares, the EUR PfHdg Acc Shares, the GBP PfHdg Acc Shares, the CHF PfHdg Acc Shares, the MXN PfHdg Acc Shares, the SEK PfHdg Acc Shares, and the HKD PfHdg Acc Shares and income and other profits will be accumulated and reinvested.

Application will be made to Euronext Dublin and/or the London Stock Exchange and/or Deutsche Borse and/or such other Relevant Stock Exchanges for listing and/or admission to trading of the Shares issued and available to be issued on the main market of each of the Relevant Stock Exchanges on or about the Launch Date. This Supplement and the Prospectus together comprise listing particulars for the purposes of trading on the main market of each of the Relevant Stock Exchanges.

Exchange Traded Fund

The Fund is an ETF. The Shares of the Fund are fully transferable among investors and will be listed and/or traded on the Relevant Stock Exchanges. It is envisaged that Shares will be bought and sold by private and institutional investors in the Secondary Market in the same way as the ordinary shares of a listed trading company.

Investors should refer to the section of the Prospectus titled **“Subscriptions and Redemptions”** for information of how to deal in Shares.

GENERAL DESCRIPTION OF THE REFERENCE INDEX

The Reference Index is an equal-weighted version of the MSCI Europe Index (the "**Parent Index**").

The Reference Index is further described below but only represents an extract of information available from public sources and neither the Directors, the Manager, MSCI Inc. or such other successor sponsor to the Reference Index (the "**Index Provider**") nor the Investment Manager take any responsibility for the accuracy or completeness of such information.

The Parent Index measures the performance of large and mid-capitalisation companies in European developed markets.

The Reference Index is constructed from the Parent Index by including the same constituent securities of the Parent Index, but equally weighting each company at each rebalancing date, rather than weighting companies by float-adjusted market capitalisation.

Capitalised terms used above and not defined herein are defined by the Index Provider. Further information on these terms and the Reference Index methodology can be found on the Index Provider's website. This document provides a summary of the principal features of the Reference Index; the complete description of the Reference Index shall at all times prevail.

Index Rebalancing

The Reference Index rebalances quarterly in February, May, August and November. For companies represented by multiple securities in the Reference Index, the weight of those securities will be free-float adjusted weighted across the respective company weight.

The Fund will bear the costs of any rebalancing trades (i.e. the costs of buying and selling securities of the Reference Index and associated taxes and transaction costs).

Index Provider and Website

The Reference Index is sponsored by MSCI Inc and more details on the Reference Index can be found at: http://www.msci.com.

Publication

The level of the Reference Index will be published on: http://www.msci.com.
