FUND OVERVIEW

The Fund aims to achieve a return on your investment, through a combination of capital growth and income on the Fund's investments, which reflect the return of the MSCI ACWI SRI Select Reduced Fossil Fuel Index, the Fund's benchmark index (Index).

KEY BENEFITS

- 1. Adopts a best-in-class approach to sustainable investing. The Fund will invest in companies with Socially Responsible Investment ("SRI") criteria (based on the SRI criteria of the Index) within each relevant sector of activities covered by the Index.
- 2. Screens out companies from the Index if they are identified as being involved in certain business lines/activities, as outlined in the Fund's Prospectus. The remaining companies are rated by the index provider based on their ability to manage their ESG risks and opportunities and are given a MSCI ESG rating. Screens out companies that are involved in very severe controversies based on the MSCI ESG controversy score.
- 3. The Index targets a 25% representation from each Global Industry Classification Standard ("GICS") sector within the Regional Indices.

CAPITAL AT RISK: The value of investments and the income from them can fall as well as rise and are not guaranteed. Investors may not get back the amount originally invested.

KEY RISKS:

- The value of equities and equity-related securities can be affected by daily stock market movements. Other influential factors include political, economic news, company earnings and significant corporate events.
- The benchmark index only excludes companies engaging in certain activities inconsistent with ESG criteria if such activities exceed the thresholds determined by the index provider. Such ESG screening may reduce the potential investment universe and this may adversely affect the value of the Fund's investments compared to a fund without such screening.
- Counterparty Risk: The insolvency of any institutions providing services such as safekeeping of assets or acting as counterparty to derivatives or other instruments, may expose the Share Class to financial loss.
