

JPMorgan ETFs (Ireland) ICAV -

US Equity Premium Income Active UCITS ETF

Class: JPM US Equity Premium Income Active UCITS ETF - USD (acc)

Fund overview

ISIN IE0000EAPBT6		
Investment objective: The objective of the Sub-Fund is to provide income and long-term capital growth.		
Investment policy: The Sub-Fund pursues an actively-managed investment strategy. The Sub-Fund aims to (i) invest in a portfolio of equity securities comprising primarily of companies that are domiciled in, or carrying out the main part of their economic activity in the USA, and (ii) sell equity call options and/or equity index call options, to generate an income through the associated dividends and options premiums. (i) Equity Portfolio The Sub-Fund aims to invest at least 67% of its assets (excluding assets held for ancillary liquidity purposes) in equity securities issued by companies that are domiciled in, or carrying out the main part of their economic activity in the USA. (ii) Equity Call Options/Equity Index Call Options The Investment Manager seeks additional income through employing a financial derivative instrument ("FDI") overlay strategy which will be implemented by systematically selling equity call options and/or equity index call options which will typically have exposure to indices comprised of Benchmark Securities. However, investors should also note that the losses from the sale of equity call options and/or equity index call options may also offset the Sub-Fund's profits from increases in the value of the equity portfolio.

ESG information

ESG approach - Integrated
ESG Integration is the systematic inclusion of financially material ESG factors, alongside other relevant factors, in investment analysis and investment decisions with the goals of managing risk and improving long-term returns. ESG integration does not by itself change this product's investment objective, exclude specific types of companies or constrain its investable universe. This product is not designed for investors who are looking for a product that meets specific ESG goals or wish to screen out particular types of companies or investments, other than those required by any applicable law such as companies involved in the manufacture, production or supply of cluster munitions. ESG integration does not imply that the Fund is marketed or authorised as an ESG product in any jurisdiction where such authorisation is required.

Key risks

The value of your investment may fall as well as rise and you may get back less than you originally invested.

The value of equity securities may go down as well as up in response to the performance of individual companies and general market conditions, sometimes rapidly or unpredictably. If a company goes through bankruptcy or a similar financial restructuring, its shares in issue typically lose most or all of their value.

The value of FDIs can be volatile. This is because a small movement in the value of the underlying asset can cause a large movement in the value of the FDI and therefore, investment in such instruments may result in losses in excess of the amount invested by the Sub-Fund. For information in relation to risks associated with the use of FDI, please refer to "Derivative Risks" in the "Risk Information" section of the Prospectus.

While the Sub-Fund uses an FDI overlay strategy which is intended to provide income, there is no guarantee that the derivative strategy will achieve this. The Sub-Fund may forego some capital appreciation potential, while retaining the risk of loss should the price of the underlying decline.

Selling call options will create exposure for the Sub-Fund, as it may have to deliver the underlying securities or their value and, should the market move unfavourably, this may result in an unlimited loss. The maximum loss for the writer of a call option is potentially unlimited if the writer does not hold the components of the index which underlies the option, although the underlying component securities of the index are not delivered if the option is exercised, as the contract is cash settled. The Sub-Fund's financial liability is therefore linked to the value of the underlying index.

REITs and real estate related investments are subject to the risks associated with the ownership of real estate which may expose the relevant Sub-Fund to increased liquidity risk, price volatility and losses due to changes in economic conditions and interest rates.

The Distributing Share Classes give priority to dividends, rather than to capital growth, and may at times distribute capital gains.

Since the instruments held by the Sub-Fund may be denominated in, or have exposure to, currencies other than the Base Currency, the Sub-Fund may be affected unfavourably by exchange control regulations or fluctuations in currency rates. For this reason, changes in currency exchange rates can affect the value of the Sub-Fund's portfolio and may impact the value of the Shares.

Sustainability risk may materially negatively impact the financial condition or operating performance of an issuer and therefore the value of that investment. In addition, it may increase the Sub-Fund's volatility and/or magnify pre-existing risks to the Sub-Fund.

Further information about risks can be found in the "Risk Information" section of the Prospectus.

General Disclosures

Before investing, obtain and review the current prospectus, Key Information Document (KID) and any applicable local offering document. These documents, as well as the sustainability-related disclosures, the annual and semi-annual reports and the articles of incorporation, are available in English free from your financial adviser, your J.P. Morgan Asset Management regional contact, the fund's issuer (see below) or at

www.jpmmorganassetmanagement.ie. A summary of investor rights is available in English at

<https://am.jpmmorgan.com/lu/investor-rights>. J.P. Morgan Asset Management may decide to terminate the arrangements made for the marketing of its collective investment undertakings.

This material should not be considered as advice or an investment recommendation. Fund holdings and performance are likely to have changed since the report date.

To the extent permitted by applicable law, we may record telephone calls and monitor electronic communications to comply with our legal and regulatory obligations and internal policies. Personal data

will be collected, stored and processed by J.P. Morgan Asset Management in accordance with our EMEA Privacy Policy

For additional information on the sub-fund's target market please refer to the Prospectus.

The ETF is listed in the international quotation system of the Mexican Stock Exchange ("Sistema internacional de cotizaciones de la bolsa Mexicana de valores"). The registration does not imply a certification of the performance of the ETF.

Contact Details

For further Information on JPMorgan AM ETFs please contact us on +44 (0) 20 7134 3942 or on Jpmam-etf@jpmmorgan.com.

Risk Indicator - The risk indicator assumes you keep the product for 5 year(s). The risk of the product may be significantly higher if held for less than the recommended holding period.

The ongoing charge is the charge used in the EU PRIIPs KID. This charge represents the total cost of managing and operating the fund, including management fees, administrative costs, and other expenses (excluding transaction costs). The breakdown of costs are the max as detailed in the fund's prospectus. For more detailed information, please refer to the fund's prospectus and the PRIIPs KID available on our website.

Performance information

Source: J.P. Morgan Asset Management. Share class performance is shown based on the NAV (net asset value) of the share class with income (gross) reinvested including actual ongoing charges excluding any entry and exit fees. Performance is shown based on the NAV which may not be the same as the market price of the ETF. Individual shareholders may realise returns that are different to the NAV based returns.

The return of your investment may change as a result of currency fluctuations if your investment is made in a currency other than that used in the past performance calculation.

Indices do not include fees or operating expenses and you cannot invest in them.

The benchmark is for comparative purposes only unless specifically referenced in the Sub-Funds' Investment Objective and Policy.
