## Report on the Activities of the Fund

There were three Sub-Funds in operation as of December 31, 2025. All Sub-Funds' objective is to replicate, as closely as possible, the performance of their benchmark index.

The Market Access STOXX® China A Minimum Variance Index UCITS ETF used a physical replication method in order to gain exposure to the relevant benchmark index listed below. The other two Sub-Funds used a synthetic replication method in order to gain exposure to the relevant benchmark index listed below:

Sub-Fund Name	Benchmark Index
Market Access Rogers International Commodity Index UCITS ETF	Rogers International Commodity Index
Market Access NYSE Arca Gold BUGS Index UCITS ETF	NYSE Arca Gold Bugs Index
Market Access STOXX® China A Minimum Variance Index UCITS ETF	STOXX® China A 900 Minimum Variance Unconstrained AM Index

### Tracking Difference

The tracking difference is the difference between the return of the Sub-Fund and its benchmark index over a period of time. The table below compares each Sub-Fund's performance to the performance of the relevant benchmark index for the period December 31, 2024 to December 31, 2025. A negative tracking difference means that the Sub-Fund underperformed the benchmark index. A positive tracking difference shows an outperformance of the benchmark index by the Sub-Fund.

Sub-Fund Name	Sub-Fund Return	Benchmark Index Return	Tracking Difference	Reason for the difference
Market Access Rogers International Commodity Index UCITS ETF	-6.84%	-5.65%	-1.19%	The Sub-Fund performed in line with the benchmark index before costs. The Sub-Fund underperformed the benchmark index due to its annual total expense ratio and transaction costs.
Market Access NYSE Arca Gold BUGS Index UCITS ETF	124.26%	126.36%	-2.10%	The Sub-Fund performed in line with the benchmark index before costs. The Sub-Fund underperformed the benchmark index due to its annual total expense ratio and transaction costs.
Market Access STOXX® China A Minimum Variance Index UCITS ETF	-4.37%	-3.39%	-0.98%	The Sub-Fund performed in line with the benchmark index before costs. The Sub-Fund underperformed the benchmark index due to its annual total expense ratio and transaction costs.

### Tracking Error

The tracking error is the volatility of the difference between the return of the Sub-Fund and the return of the benchmark index. It measures the quality of index replication. The table below compares the estimated tracking error of the Sub-Fund, to its realised tracking error for the period December 31, 2024 to December 31, 2025.

Sub-Fund Name	Estimated Tracking Error up to	Realised Tracking Error	Reason for the difference
Market Access Rogers International Commodity Index UCITS ETF	0.05%	0.004%	The realised tracking error was in line with expectations.
Market Access NYSE Arca Gold BUGS Index UCITS ETF	0.05%	0.004%	The realised tracking error was in line with expectations
Market Access STOXX® China A Minimum Variance Index UCITS ETF	2.00%	0.01%	The realised tracking error was in line with expectations

## **Independent auditor's report**

To the Shareholders of  
Market Access  
5, Allée Scheffer  
L-2520 Luxembourg  
Grand Duchy of Luxembourg

### **Report on the audit of the financial statements**

#### **Opinion**

We have audited the financial statements of Market Access (the "Fund") and of each of its sub-funds, which comprise the statement of net assets and the securities portfolio as at 31 December 2025, and the statement of operations and changes in net assets for the year then ended, and the notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Fund and of each of its sub-funds as at 31 December 2025, and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

#### **Basis for opinion**

We conducted our audit in accordance with EU Regulation N° 537/2014, the Law of 23 July 2016 on the audit profession ("Law of 23 July 2016") and with International Standards on Auditing ("ISAs") as adopted for Luxembourg by the "Commission de Surveillance du Secteur Financier" ("CSSF"). Our responsibilities under the EU Regulation N° 537/2014, the Law of 23 July 2016 and ISAs as adopted for Luxembourg by the CSSF are further described in the "Responsibilities of the "réviseur d'entreprises agréé" for the audit of the financial statements" section of our report. We are also independent of the Fund in accordance with the International Code of Ethics for Professional Accountants, including International Independence Standards, issued by the International Ethics Standards Board for Accountants ("IESBA Code") as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the financial statements, and have fulfilled our other ethical responsibilities under those ethical requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### **Key audit matters**

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. We have determined that there are no key audit matters to communicate in our report.

#### **Other information**

The Board of Directors of the Fund is responsible for the other information. The other information comprises the Statistics, the Changes in number of shares outstanding and the Additional unaudited information but does not include the financial statements and our report of "réviseur d'entreprises agréé" thereon.

## Shape the future with confidence

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report this fact. We have nothing to report in this regard.

### **Responsibilities of the Board of Directors of the Fund for the financial statements**

The Board of Directors of the Fund is responsible for the preparation and fair presentation of the financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements, and for such internal control as the Board of Directors of the Fund determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors of the Fund is responsible for assessing the Fund's and each of its sub-fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Fund or any of its sub-funds or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are responsible for overseeing the Fund's financial reporting process.

### **Responsibilities of the “réviseur d'entreprises agréé” for the audit of the financial statements**

The objectives of our audit are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue a report of the “réviseur d'entreprises agréé” that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with EU Regulation N° 537/2014, the Law of 23 July 2016 and with the ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with EU Regulation N° 537/2014, the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors of the Fund.

## Shape the future with confidence

- Conclude on the appropriateness of the Board of Directors of the Fund's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's or any of its sub-funds' ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our report of the "réviseur d'entreprises agréé" to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our report of the "réviseur d'entreprises agréé". However, future events or conditions may cause the Fund or any of its sub-funds to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence and communicate to them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our report unless law or regulation precludes public disclosure about the matter.

### Report on other legal and regulatory requirements

We have been appointed as "réviseur d'entreprises agréé" by the General Meeting of the Shareholders on 22 April 2025 and the duration of our uninterrupted engagement, including previous renewals and reappointments, is seven years.

We confirm that the prohibited non-audit services referred to in EU Regulation No 537/2014 were not provided and that we remained independent of the Fund in conducting the audit.

### 1 - General information

MARKET ACCESS (referred to hereinafter as the "Fund"), is a Luxembourg open-ended investment company with variable share capital, sponsored by Market Access Asset Management Limited, incorporated on October 31, 2000 for an unlimited period as a public limited company (société anonyme) under the name "Unifund" and organised in accordance with the provisions of Part I of the Law of December 17, 2010, as amended (the "2010 Law") on undertakings for collective investment (UCIs). The Fund has appointed FundRock Management Company S.A. to act as management company of the Fund under Chapter 15 of the 2010 Law (the "Management Company").

The articles of incorporation of the Fund (the "Articles") have been filed with the Luxembourg Trade and Companies' Register (where they are available to the public or from where a copy may be obtained) and they have been published for the first time in the "Mémorial C, Recueil des Sociétés et Associations" on December 8, 2000. The Articles have been lastly amended on May 5, 2017 and the amendments were published in the RESA (Recueil électronique des sociétés et associations) on May 19, 2017.

The list of the funds managed by the Management Company, may be obtained, on simple request, at the registered office of the Management Company.

The Fund works as an umbrella fund, which means that it is comprised of sub-funds, each of which represents a specific class of assets and liabilities (each a "Sub-Fund"). Each Sub-Fund may be represented by specific class or classes of shares (each a "class of shares").

The following exchange traded Sub-Funds are open to subscription.

In order to realise the investment objective outlined below, the assets of the following Sub-Funds (disclosed with their defined index),

MARKET ACCESS NYSE ARCA GOLD BUGS INDEX UCITS ETF - NYSE ARCA Gold BUGS Index

MARKET ACCESS ROGERS INTERNATIONAL COMMODITY INDEX UCITS ETF - Rogers International Commodity Index®

were managed as follows:

The objective of each Sub-Fund is to replicate, as far as possible, the performance of the defined index (the "Index"). In order to gain exposure to the Index, each Sub-Fund will use a method of synthetic replication of the Index.

It is intended that each Sub-Fund's assets will be invested mainly in equities and other securities classed as equities, Money Market Instruments, money market funds, negotiable debt instruments and debt or interest rate instruments, synthetic Money Market Instruments (i.e. equities and/or fixed income securities which performance is exchanged against Money Market Instruments linked performance), bonds and other debt instruments.

The Sub-Fund may also use management techniques and instruments available to UCITS, such as repurchase agreements, securities lending and borrowing.

On an ancillary basis, the Sub-Fund may also hold cash.

In order to realise its investment objective outlined above, the Market Access Rogers International Commodity Index UCITS ETF entered into a performance swap agreement with BNP Paribas S.A.. The swap is denominated in EUR.

The Market Access NYSE ARCA Gold BUGS Index UCITS ETF also entered into a performance swap agreement (each a "Swap Agreement", collectively known as "Swap Agreements"), with Barclays Bank Plc (each trading counterparty a "Swap Counterparty", collectively known as "Swap Counterparties"), with the swap denominated in EUR. Through such Swap Agreements, each Sub-Fund will exchange the total return of the performance of its portfolio against payment by the Swap Counterparty of the performance of the Index.

The Swap Agreement's notional amount will be adjusted when subscriptions or redemptions are received by the Sub-Fund and, where applicable, in case of movements on the securities portfolio.

The transactions above will be carried out in strict compliance with the applicable regulations and the investment restrictions applicable to the Sub-Fund.

The Market Access Rogers International Commodity Index UCITS ETF (the "**RICI Sub-Fund**")'s objective is to replicate, as far as possible, the performance of the Rogers International Commodity Index® (the "**RICI**" or the "**Index**").

The Market Access NYSE Arca Gold BUGS Index UCITS ETF (the "**Gold BUGS Sub-Fund**")'s objective is to replicate, as far as possible, the performance of the NYSE ARCA Gold BUGS Index (the "**Gold BUGS Index**" or the "**Index**").

The MARKET ACCESS STOXX® CHINA A MINIMUM VARIANCE INDEX UCITS ETF (the "**China MV Sub-Fund**")'s objective is to replicate, as closely as possible, the performance of the STOXX® China A 900 Minimum Variance Unconstrained AM Index (the "**China MV Index**" or the "**Index**").

In order to gain exposure to the China MV Index, the China MV Sub-Fund will use a method of either **physical replication or synthetic replication** of the China MV Index. The method effectively used will be disclosed in the monthly fact sheets available at [www.marketaccessetf.com](http://www.marketaccessetf.com).

## Other notes to the financial statements

### 1 - General information

In seeking to achieve its investment objective, the China MV Sub-Fund will aim to invest in the constituents of the Index in generally the same proportions in which they are included in the Index as of the launch date of the China MV Sub-Fund.

This is expected to involve investing primarily in onshore RMB (i.e. CNY) denominated equity securities issued by issuers based in, or having a significant exposure to, the People's Republic of China ("PRC"), excluding Hong Kong, Macao and Taiwan ("Mainland China"), as further described below.

The Investment Manager intends investing directly into China A-Shares listed on the Shanghai Stock Exchange and/or the Shenzhen Stock Exchange using the Shanghai-Hong Kong and Shenzhen-Hong Kong Stock Connect programmes (as further described in the Prospectus in sub-section (iv) of section (e) *Risk Considerations*).

There may be circumstances when it is not possible or practicable for the China MV Sub-Fund to invest in all constituents of the Index. Such circumstances may include (but are not limited to): (i) a limited availability of the Index constituents; (ii) trading suspensions on constituents of the Index; (iii) cost inefficiencies; (iv) if the assets under management of the China MV Sub-Fund are relatively small, or (v) where there are internal or regulatory driven trading restrictions (as detailed in the Prospectus under Section 5 (*Investment Restrictions*) and in sub-section (iv) of section (e) *Risk Considerations*) that apply to the China MV Sub-Fund, the Management Company and/or the Investment Manager but not the Index.

If the China MV Sub-Fund's assets fall below a size whereby the Investment Manager considers it is not possible and/or practicable to maintain a fully replicated strategy, the Investment Manager may reduce exposure to certain securities in the Index, but will aim to ensure that the China MV Sub-Fund's portfolio of assets will replicate the returns of the Index as far as possible. However, in such circumstances, the China MV Sub-Fund may not take exposure to all securities in the Index on the basis that the Index contains too many securities to efficiently purchase and/or, at times, certain securities included in the Index are difficult to purchase on the relevant markets in the required size or for other reasons.

The China MV Sub-Fund may use derivative instruments, including, but not limited to, swaps, futures, forwards, foreign exchange contracts (including spot and forward contracts), equity options, contracts for difference, certificates, notes and warrants which may be used to reduce tracking error between the China MV Sub-Fund's performance and that of the Index. These instruments may be used for efficient portfolio management and/or investment purposes. The primary policy of the China MV Sub-Fund is to acquire securities included in the Index, as described above, but derivative instruments may be used where the direct holdings of securities may not be possible or where tracking error can be better minimised by using derivative instruments.

### 2 - Principal accounting policies

#### 2.1 - Presentation of the financial statements

The financial statements are prepared in accordance with Luxembourg regulations relating to undertakings for collective investment.

The financial statements are presented on the basis of the latest net asset value calculated at the end of the financial year. The net asset value of these Sub-Funds is struck as at 31 December 2025, except for the Sub-Fund MARKET ACCESS STOXX® CHINA A MINIMUM VARIANCE INDEX UCITS ETF for which the net asset value has been calculated on 30 December 2025 because Hong Kong Stock Connect was closed on 31 December 2025. In accordance with the prospectus, the net asset values were calculated using the latest exchange rates known at the time of calculation.

The figures presented in the financial statements tables may in some cases show non-significant differences due to the use of rounding. These differences do not affect in any way the fair view of the financial statements of the Company.

#### 2.2 - Portfolio valuation

Securities listed on an official stock exchange or dealt in on a Regulated Market are valued on the basis of the last known price in Luxembourg on the Valuation Date and, if this security is traded on several markets, on the last known price of the market considered to be the principal market for these securities. If the last known price is not representative, the valuation is based on the probable realisation value estimated by the Board of Directors with due care and in good faith. Securities not listed on an official stock market or dealt in on a Regulated Market are valued on the basis of the probable realisation value estimated by the Board of Directors conservatively and in good faith.

#### 2.3 - Net realised profit or loss on sales of investments

Realised gains or losses on sales of investments are calculated on the basis of average cost of the investments sold.

The net realised gain or loss on sale of swaps is determined on the basis of the average cost of swaps sold.

### 2 - Principal accounting policies

#### 2.4 - Foreign currency translation

The accounting records and the financial statements of each Sub-Fund are expressed in the respective currencies of the Sub-Funds as mentioned in the statements (EUR and CNH). Bank accounts, other net assets and market value of the investments in securities expressed in currencies other than the Sub-Funds' currencies are converted into the Sub-Funds' currencies at the rates of exchange prevailing at year-end. Income and expenses in currencies other than the Sub-Funds' currencies are converted into the Sub-Funds' currencies at the rate of exchange prevailing at payment date.

Cost of investments in securities in currencies other than Sub-Fund currency is converted into EUR and CNH at the exchange rate applicable at purchase date.

Exchange rates used:

30/12/2025	1 EUR	=	8.22950	CNH	31/12/2025	1 EUR	=	8.19760	CNH
	1 EUR	=	1.17585	USD		1 EUR	=	1.17445	USD

#### 2.5 - Combined financial statements

The combined statement of net assets and Statement of operations and changes in net assets are expressed in Euro (EUR). The Total Net Assets of the Fund is equal to the sum of the Net Assets of the various activated Sub-Funds translated into EUR at the rates of exchange prevailing in Luxembourg on 31 December 2025, the Valuation Day.

#### 2.6 - Valuation of forward foreign exchange contracts

The liquidating value of forward exchange contracts not traded on exchanges or on other regulated markets shall mean their net liquidating value determined, pursuant to the policies established by the Board of Directors, on a basis consistently applied for each different variety of contracts. The liquidating value of forward exchange contracts traded on exchanges and regulated markets shall be based upon the last available settlement prices of these contracts on exchanges and regulated markets on which the particular forward exchange contracts are traded by the Fund; provided that if a forward exchange contract could not be liquidated on the day with respect to which net assets are being determined, the basis for determining the liquidating value of such contract shall be such value as the Board of Directors may deem fair and reasonable.

#### 2.7 - Valuation of swaps

Index or financial instrument related swaps are valued at their market value established by reference to the applicable index or financial instrument. The valuation of the swap agreement - related to the index or a financial instrument - is based upon the market value of such swap transaction, which is subject to parameters such as the level of the underlying index, the interest rates, the equity dividend yields and the estimated index volatility.

For the avoidance of doubt, in exceptional circumstances where some of the prices of the underlying constituents of an index are stale because the relevant markets on which they are traded are closed for trading or because of a market disruption event or a suspension in trading on a given day, the valuation of such swap referencing the index may be adjusted to reflect the next available live prices for the affected constituents. This adjusted swap valuation will be determined by the Pricing Agent(s) and verified by the Investment Manager and the Central Administrative Agent.

The swap income and expenses are disclosed under the caption Net realized profit/(loss) on swaps in the Statement of operations and Changes in Net Assets of the Sub-Funds.

#### 2.8 - Dividend and interest income

Dividend income is accounted for on an ex-dividend basis, net of withholding tax. Interest income is recognized on an accrual basis.

### 3 - Service agent fees

For the following Sub-Funds, the effective Service agent fees, including all the costs and expenses, except the transaction costs are as follows as at 31 December 2025:

### 6 - Taxation

The Sub-Funds are as a rule liable in Luxembourg to a subscription tax (*taxe d'abonnement*) of 0.05% per annum of their net asset value as set out in the relevant Sub-Fund's Particulars. Such tax is payable quarterly at the end of the relevant quarter and is calculated on the basis of the aggregate net asset value of the Sub-Funds at the end of the relevant calendar quarter. No such tax is payable on the value of assets which consist of units or shares of other Luxembourg funds that have already been subject to such tax. No Luxembourg tax is payable on the realised capital appreciation of the assets of the Sub-Fund.

However, an exemption from such subscription tax is available to the relevant Sub-Fund(s), namely, those:

- whose securities are listed or traded on at least one stock exchange or another regulated market operating regularly, recognised and open to the public; and
- whose exclusive object is to replicate the performance of one or more indices (as these terms are interpreted under applicable Luxembourg regulations) on the basis of Article 175(e) of the 2010 Law.

The application of such exemption is based on regulatory and tax provisions as these are known to the Board of Directors at the time of the latest Prospectus. Such assessment is subject to such changes in the Luxembourg legal, regulatory and tax provisions by any competent Luxembourg authority as will exist from time to time. Furthermore, other exemptions or reduction of the applicable rate (i.e. 0.01% per annum) are available under the conditions of Articles 174 and 175 of the 2010 Law. Any change in the status of an investor may subject the entire relevant Sub-Fund(s) to a subscription tax at the rate of 0.05%.

**Income tax** Under current law and practice, the Fund is not liable to any Luxembourg tax on profits or income.

**Value added tax** The Fund is considered in Luxembourg as a taxable person for value added tax ("VAT") purposes without any input VAT deduction right. A VAT exemption applies in Luxembourg for services qualifying as fund management services. Other services supplied to the Fund could potentially trigger VAT and require the VAT registration of the Fund in Luxembourg as to self-assess the VAT regarded as due in Luxembourg on taxable services (or goods to some extent) purchased from abroad.

No VAT liability arises in principle in Luxembourg in respect of any payments by the Fund to its shareholders, to the extent that such payments are linked to their subscription to the Fund's shares and do not constitute the consideration received for taxable services supplied.
