Notes to the Financial Statements for the financial year ended 31 March 2025

1. MATERIAL ACCOUNTING POLICIES

SSGA SPDR ETFs Europe I plc (the “Company”) was incorporated on 5 January 2011 under registration number 493329 and operates in Ireland as a public limited company under the Companies Act 2014 (the “Companies Act”). It was authorised by the Central Bank of Ireland (the “Central Bank”) on 7 March 2011. The registered office of the Company is 78 Sir John Rogerson’s Quay, Dublin D02 HD32, Ireland.

The material accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied throughout the periods.

(a) Basis of preparation

The financial statements have been prepared in accordance with International Financial Reporting Standards (“IFRS”) as adopted by the European Union (“EU”), the interpretations adopted by International Accounting Standard Board (“IASB”) and Irish statute comprising the Companies Act and the UCITS Regulations.

The financial statements have been prepared on a going concern basis as the Directors are of the view that the Company can continue in operational existence for at least twelve months from the date of approval of these financial statements (the period of assessment) and under the historical cost convention as modified by the revaluation of certain financial assets and financial liabilities (including derivative financial instruments) held at fair value through profit and loss.

The Directors anticipate the financial assets will continue to generate enough cash flows on an ongoing basis to meet the Company’s liabilities as they fall due. In making this assessment, the Directors considered the potential impact of the Russia/Ukraine conflict on the Company’s business over the period of assessment.

Changes to material accounting policies are described below.

(b) New standards, amendments and interpretations

New standards, amendments and interpretations issued and effective for the financial year beginning 1 April 2024

The following new and amended standards and interpretations are not expected to have a material impact on the Company’s financial statements:

Amendments to IAS 1 - Classification of Liabilities as Current or Non-Current - Deferral of Effective Date provides a more general approach to the classification of liabilities under IAS 1 Presentation of Financial Statements based on the contractual arrangements in place at the reporting date. The amendments are effective for annual reporting periods beginning on or after 1 January 2024.

Amendments to IAS 7 - Statement of Cash Flows and IFRS 7 Financial Instruments: Disclosures: Supplier Finance Arrangements. The amendments seek to add disclosure requirements, and ‘signposts’ within existing disclosure requirements, that ask entities to provide qualitative and quantitative information about supplier finance arrangements. The amendments are effective for reporting periods beginning on or after 1 January 2024.

Amendments to IFRS 16 - Lease Liability in a Sale and Leaseback. The amendments are effective for reporting periods beginning on or after 1 January 2024.

There are no other new standards, interpretations or amendments to existing standards that are issued and effective that would be expected to have a material impact on any of the Company’s financial statements. The standards/amendments that became effective in the current year have been listed and also since they are effective already, impact should generally be known.

New standards, amendments and interpretations issued but not effective for the financial year beginning 1 April 2024

The following new and amended standards and interpretations are not expected to have a material impact on the Company’s financial statements:

Amendments to IAS 21 - Lack of Exchangeability. The amendments are effective for reporting periods beginning on or after 1 January 2025.

IFRS 18 - Presentation and Disclosure in Financial Statements. The standard is effective for reporting periods beginning on or after 1 January 2027.

IFRS 19 - Subsidiaries without Public Accountability: Disclosures. The standard is effective for reporting periods beginning on or after 1 January 2027.

Amendments to IFRS 9 and IFRS 7 - Amendment to the Classification and Measurement of Financial Instruments. The amendments are effective for reporting periods beginning on or after 1 January 2026.

There are no other new standards, interpretations or amendments to existing standards that are not yet effective that would be expected to have a material impact on any of the Company’s financial statements.

Notes to the Financial Statements for the financial year ended 31 March 2025 (continued)

1. MATERIAL ACCOUNTING POLICIES (CONTINUED)

(c) Foreign currency translation

Functional and presentation currency

The Company operates a number of Funds, each with its separately determined functional currency as stated on the Statement of Financial Position. Items included in the Company's financial statements are measured using the currency of the primary economic environment in which each of the Funds operate. The Company has also adopted these currencies as the presentation currency of the individual Funds. Company totals are presented in U.S. Dollars (which is also the "functional currency").

Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign currency assets and liabilities are translated into the functional currency using the exchange rate prevailing at the Statement of Financial Position date. Foreign exchange gains or losses arising from translation are included in the Statement of Comprehensive Income.

For the purposes of producing the Company Statement of Financial Position, the Statements of Financial Position of the individual Funds which are not kept in the presentation currency are translated to U.S. Dollar using the exchange rates as at 31 March 2025 and accumulated for preparation of the Company Statement of Financial Position. For the purpose of producing the Company Statement of Comprehensive Income, the Company Statement of Changes in Net Assets Attributable to Holders of Redeemable Participating Shares and the Company Statement of Cash Flows from the accounts of the individual Funds, average exchange rates for the financial year are used. The combination of average and year end exchange rates in the different statements gives rise to a notional currency translation gain or loss in the Company Statement of Changes in Net Assets Attributable to Holders of Redeemable Shares and the Company Statement of Cash Flows. This relates to the Company position only and has no impact on the Net Asset Value ("NAV") attributable to holders of redeemable participating shares.

(d) Significant accounting judgements and estimates

The preparation of the Company's financial statements requires management to make judgements, estimates and assumptions that affect the amounts recognised in the financial statements. However, uncertainty about these assumptions and estimates could result in outcomes that could require a material adjustment to the carrying amount of the asset or liability affected in the future.

Going concern

As disclosed in Note 1 (a) and based on an assessment by the Directors, the financial statements have been prepared on a going concern basis.

Fair value measurement of financial derivative instruments ("FDIs") and securities not quoted in active market

The Funds hold financial instruments that are not quoted in active markets, including FDIs. Fair value of such instruments is determined using valuation techniques and may be determined using reputable pricing sources (such as pricing agencies) or indicative prices from market makers. Broker quotes as obtained from the pricing sources may be indicative and not executable or binding. Where no market data is available, the Company may value positions using its own models, which are usually based on valuation methods and techniques generally recognised as standard within the industry. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. The judgements include considerations of liquidity and model inputs such as credit risk (both own and counterparty's), correlation and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments. The models used to determine fair values are validated and periodically reviewed by experienced personnel of the Investment Manager, independent of the party that created them.

Models use observable data, to the extent practicable. However, areas such as credit risk (both own and counterparty), volatilities and correlations require the Investment Manager to make estimates. Changes in assumptions about these factors could affect the reported fair values of financial instruments. The Funds consider observable data to be market data that is readily available, regularly distributed and updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market. Refer to Note 1 (e) (iii) for further information about the fair value measurement of the Funds' financial instruments.

(e) Financial instruments

(i) Classification

The Company classifies its investments based on both the Company's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Company is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions. The Company has not taken the option to irrevocably designate any equity securities as fair value through other comprehensive income. The contractual cash flows of the Company's debt securities are solely principal and interest, however, these securities are neither held for the purpose of collecting contractual cash flows nor held both for collecting contractual cash flows and for sale. The collection of contractual cash flows is only incidental to achieving the Company's business model's objective. Consequently, all investments are measured at fair value through profit or loss.

Notes to the Financial Statements for the financial year ended 31 March 2025 (continued)

1. MATERIAL ACCOUNTING POLICIES (CONTINUED)

(e) Financial instruments (continued)

(ii) Recognition, derecognition and measurement

Regular purchases and sales of investments are recognised on trade date - the date on which the Fund commits to purchase or sell the investment. Financial assets and financial liabilities at fair value through profit or loss are initially recognised at fair value. Transaction costs are expensed as incurred in the Statement of Comprehensive Income, please see Note 1(l) for further details. Financial assets are derecognised when the rights to receive cash flows from the investments have expired or the Fund has transferred substantially all risks and rewards of ownership. Financial liabilities are derecognised when the obligations to pay cash flows from the investments have been discharged, cancelled or expired.

Subsequent to initial recognition, all financial assets and financial liabilities at fair value through profit or loss are measured at fair value. Gains and losses arising from changes in the fair value of the 'financial assets or financial liabilities at fair value through profit or loss' category are presented in the Statement of Comprehensive Income, within net changes in fair value of financial assets and financial liabilities at fair value through profit or loss in the period in which they arise.

Dividend income from financial assets at fair value through profit or loss is recognised in the Statement of Comprehensive Income within dividend income when the Fund's right to receive payments is established. Interest on debt securities at fair value through profit or loss is recognised in the Statement of Comprehensive Income within Income from financial assets at fair value based on the effective interest rate.

(iii) Fair value estimation

IFRS 13 Fair value measurement ("IFRS 13") improves consistency and reduces complexity by providing a precise definition of fair value. Funds' valuation inputs for listed financial assets and liabilities are consistent with the inputs prescribed in the Funds' offering document.

The fair value of financial assets and liabilities traded in active markets (such as publicly traded derivatives and trading securities) are based on quoted market prices at the close of trading on the reporting date. In respect of debt securities, the quoted market price used for financial assets held by the Fund is the current bid price; the appropriate quoted market price for financial liabilities is the current asking price. In respect of equity securities, the quoted market price used is the last traded price.

When the fair value of financial assets and financial liabilities recorded in the Statement of Financial Position cannot be derived from active markets, they will be valued at its probable realisation value estimated with care and in good faith by the Directors in consultation with the Administrator or by a competent person,

firm or corporation appointed by the Directors and approved for such purpose by the Depositary. These values are determined using a variety of valuation techniques that include the use of mathematical models. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. The judgements include considerations of liquidity and model inputs such as credit risk (both the Company's and counterparty's), correlation and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments. The models are calibrated regularly and tested for validity using prices from any observable current market transactions in the same instrument (without modification or repackaging) or based on any available observable market data. The classification of fair value measurements at the year end is set out in Note 12 under "Fair value hierarchy". All equity investment instruments held by the Funds are exchange traded and valued in the same manner as equities described above.

The Company has determined that it has two business models:

- Hold to collect business model: this includes the Company's cash and receivables, where these financial assets are held to collect contractual cash flows;
- Other business model: this includes the Company's investments in fixed income securities, where these financial assets are managed, measured and valued on a fair value basis, with frequent sales taking place.

The Company's investments, such as fixed income securities, are neither held for the purpose of collecting contractual cash flows nor held both for collecting contractual cash flows and for sale, and therefore do not meet the business model test under IFRS 9 Financial Instruments ("IFRS 9"). As such, the Company classifies the investment as a financial asset at fair value through profit or loss. Cash and receivables are held at amortised cost with a simplified expected credit loss model as they do not contain a financing component.

IFRS 9 requires an impairment assessment to be carried out on its financial assets. The Directors have assessed that impairment does not apply to financial assets classified as fair value through profit or loss. In relation to assets held at amortised cost, the Directors consider the probability of default to be close to zero, as these instruments have a low risk of default and the counterparties have a strong capacity to meet their contractual obligations in the near term. As a result, no loss allowance on financial assets at amortised cost has been recognised in the financial statements based on lifetime expected credit loss as any such impairment would be wholly insignificant to the Company.

Notes to the Financial Statements for the financial year ended 31 March 2025 (continued)

1. MATERIAL ACCOUNTING POLICIES (CONTINUED)

(e) Financial instruments (continued)

(iv) Specific Instruments

Forward and Spot Foreign Currency Exchange Contracts

The fair value of open forward foreign currency exchange contracts and open spot foreign currency exchange contracts is calculated as the difference between the contracted rate and the current forward rate that would close out the contract on the Statement of Financial Position date. For each relevant Fund, gains or losses on open spot foreign currency exchange contracts are included in cash and cash equivalents in the Statement of Financial Position and gains or losses on open forward foreign currency exchange contracts are included in financial assets (or financial liabilities) at fair value through profit or loss, as appropriate, in the Statement of Financial Position and are shown in the Schedule of Investments of each relevant Fund. Any changes in fair value are recognised in the Statement of Comprehensive Income.

Futures Contracts

Initial margin deposits are made upon entering into futures contracts and are generally made in cash or cash equivalents. The fair value of futures contracts is based upon their quoted daily settlement prices. Changes in the value of open futures contracts are recognised as unrealised gains or losses on futures contracts until the contracts are terminated, at which time realised gains and losses are recognised in the Statement of Comprehensive Income.

Gains or losses on open futures contracts are shown in the Schedule of Investments of each relevant Fund and in the Statement of Financial Position as financial assets or financial liabilities at fair value through profit or loss, as appropriate.

To Be Announced ("TBA") Commitments

The Funds may enter into TBA, with payment and delivery at a scheduled future date beyond the customary settlement period for that security. With TBA transactions, the particular securities to be delivered are not identified at trade date; however, delivered securities must meet specified terms, including issuer, rate and mortgage term, and be within industry-accepted "good delivery" standards. Until settlement, the Funds maintain cash reserves and liquid assets sufficient to settle their TBAs. TBA securities are purchased and sold on a forward commitment basis with an approximate principal amount and maturity date. The actual principal amount and maturity date will be determined upon settlement when the specific mortgage pools are assigned.

Income on the securities will not be earned until settlement date. TBA commitments may be considered securities in themselves, and involve a risk of loss if the value of the security to be purchased declines prior to settlement date, the risk of which is in addition to the risk of decline in the value of a Fund's other assets.

TBA commitments, which are accounted for as purchase and sale transactions, may be considered securities themselves, and involve a risk of loss due to changes in the value of the security prior to the settlement date as well as the risk that the counterparty to the transaction will not perform.

Unsettled TBA commitments are valued at their fair value. The contract is marked to market daily and the change in fair value is recorded by the Funds as an unrealised gain or loss. Based on market circumstances, the Investment Manager will determine whether to take delivery of the underlying securities or to dispose of the TBA commitments prior to settlement.

The Funds that hold TBAs outstanding as at 31 March 2025, which are included in Financial Derivative Instruments in the Statement of Financial Position, are listed under their correspondent Financial Derivative Instruments section of the Schedule of Investments.

(f) Cash and cash equivalents and bank overdraft

Cash comprises cash in hand and demand deposits. Cash equivalents are short term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to insignificant changes in value, and are held for the purpose of meeting short-term cash commitments rather than for investments or other purposes.

Cash in hand or on deposit and bank overdrafts shall be valued at face value, together with accrued interest where applicable. Cash accounts are maintained at umbrella level in respect of subscription and redemption money received from or due to investors in the Funds of the Company. These accounts are operated in accordance with the Central Bank of Ireland's guidance "Umbrella funds—cash accounts holding subscription, redemption and dividend monies". Such cash accounts are deemed to be assets of the Company and therefore any balances have been reflected in the Statement of Financial Position as at 31 March 2025 and 31 March 2024.

(g) Cash held with/due to brokers and counterparties for open FDIs

Cash held as collateral with brokers

Cash collateral provided by the Funds is identified in the Statement of Financial Position at fair value as cash held as collateral with broker and is not included as a component of cash and cash equivalents. For collateral other than cash, if the party to whom the collateral is provided has the right by contract or custom to sell or re-pledge the collateral, a Fund classifies that asset in its Statement of Financial Position separately from other assets and identifies the asset as pledged collateral. Where the party to whom the collateral is provided does not have the right to sell or re-pledge, a disclosure of the collateral provided is made in the notes to the financial statements.

Notes to the Financial Statements for the financial year ended 31 March 2025 (continued)

1. MATERIAL ACCOUNTING POLICIES (CONTINUED)

(g) Cash held with/due to brokers and counterparties for open FDIs (continued)

Cash due from/to broker

Cash due from/to broker is margin cash which is held by or due to brokers for open futures contracts or derivatives and represents the exchange traded futures contracts' margin deposits held with brokers. This amount is the minimum deemed by the brokers and counterparties for collateral requirements and is as such restricted and is reported separately to the unrestricted cash on the Fund's Statement of Financial Position.

These amounts are recognised initially at fair value and subsequently measured at amortised cost. At each reporting date, the Fund shall measure the loss allowance on amounts due from broker at an amount equal to the lifetime expected credit losses if the credit risk has increased significantly since initial recognition. If, at the reporting date, the credit risk has not increased significantly since initial recognition, the Fund shall measure the loss allowance at an amount equal to 12-month expected credit losses.

Significant financial difficulty of the broker, a breach of contract such as a default or past due event, it is becoming probable that the broker will enter bankruptcy or other financial reorganisation are all considered indicators that the balances may be credit impaired. If the credit risk increases to the point that it is considered to be credit impaired, interest income will be calculated based on the gross carrying amount adjusted for the loss allowance. A significant increase in credit risk is defined by management as any contractual payment which is more than 30 days past due. Any contractual payment which is more than 90 days past due is considered credit impaired.

(h) Redeemable participating shares

Redeemable participating shares are redeemable at the Shareholder's option and are classified as financial liabilities, in accordance with IAS 32 Financial Instruments: Presentation ("IAS 32").

For the purpose of calculating the net assets attributable to Shareholders in accordance with a Fund's redemption requirements, each Fund's assets and liabilities are valued on the basis of the relevant Fund's Index method of valuation (the "dealing prices"). The Funds issue shares at the NAV of the existing shares on the basis of dealing prices.

In accordance with the Prospectus the holders of participating shares can redeem them for cash equal to a proportionate share of the relevant Fund's NAV (calculated in accordance with redemption requirements) on the relevant dealing day.

Each Fund's NAV per share is calculated by dividing the net assets attributable to holders of redeemable participating shares (calculated in accordance with redemption requirements) by the number of shares in issue.

(i) Unrealised and realised gain/(loss) on investments

In respect of each instrument type classified as financial instruments at fair value through profit or loss, the change in unrealised gains/(losses) and realised gains/(losses) are included in net changes in fair value of financial assets and financial liabilities at fair value through profit or loss in the Statement of Comprehensive Income for each Fund.

Realised gains and losses on disposals of financial instruments classified as 'at fair value through profit or loss' are calculated using the average cost method. They represent the difference between an instrument's initial carrying amount and disposal amount, or cash payments or receipts made on derivative contracts (excluding payments or receipts on collateral margin accounts for such instruments).

(j) Dividend income

Dividend income is credited to the Statement of Comprehensive Income on the dates on which the relevant securities are listed as "ex-dividend". Dividend income is shown gross of any non-recoverable withholding taxes, which are disclosed separately in the Statement of Comprehensive Income, and net of any tax credits.

Dividend income from financial assets at fair value through profit or loss is recognised in the Statement of Comprehensive Income within dividend income when the Funds' right to receive payment is established.

(k) Income from financial assets at fair value and interest expense

Income from financial assets at fair value and interest expense are recognised in the Statement of Comprehensive Income for all interest bearing instruments using the effective interest rate method. Interest on debt securities at fair value through profit or loss is recognised in the Statement of Comprehensive Income within Income from financial assets at fair value based on the effective interest rate.

The effective interest method is a method of calculating the amortised cost of a financial asset or financial liability and of allocating the interest income or interest expense over the relevant period.

The effective interest rate is the rate that exactly discounts estimated future cash payments or receipts throughout the expected life of the financial instrument, or, when appropriate, a shorter financial period, to the net carrying amount of the financial asset or financial liability.

Notes to the Financial Statements for the financial year ended 31 March 2025 (continued)

1. MATERIAL ACCOUNTING POLICIES (CONTINUED)

(k) Income from financial assets at fair value and interest expense (continued)

When calculating the effective interest rate, the Fund estimates cash flows considering all contractual terms of the financial instrument, but does not consider future credit losses. The calculation includes all fees and points paid or received between parties to the contract that are an integral part of the effective interest rate, transaction costs and all other premiums or discounts.

(l) Expenses

Expenses are charged to the Statement of Comprehensive Income. Transaction costs incurred on the acquisition of an investment, which are included within the cost of that investment cannot be separately identifiable and are included within net changes in the fair value of financial assets and financial liabilities at fair value through profit or loss in the Statement of Comprehensive Income. Expenses arising in the disposal of investments are deducted from the disposal proceeds and are included within net changes in the fair value of financial assets and financial liabilities at fair value through profit or loss in the Statement of Comprehensive Income.

Transaction costs are incremental costs that are directly attributable to the acquisition, issue or disposal of a financial asset or liability. An incremental cost is one that would not have been incurred if the entity had not acquired, issued or disposed of the financial instrument. When a financial asset or liability is recognised initially, an entity shall measure it at its fair value through profit or loss, plus transaction costs that are directly attributable to the acquisition or issue of the financial asset or financial liability.

Transaction costs on the purchases and sales of bonds, TBAs and forward foreign currency exchange contracts are included in the purchase and sale price of the investment, and are not separately identifiable. Transaction costs on purchases and sales of equities, rights, warrants and futures are included in net changes in the fair value of financial assets and financial liabilities at fair value through profit or loss in the Statement of Comprehensive Income, and disclosed in Note 4. Purchases and sales transaction costs include identifiable brokerage charges, commissions, transaction related taxes and other market charges.

Custody transaction costs include transaction costs paid to the Depository and form part of the TER percentages as disclosed in Note 3.

(m) Receivables

Receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market.

Receivables are recognised initially at fair value plus transaction costs that are directly attributable to their acquisition/origination. They are subsequently measured at amortised cost using the effective interest yield method, less provision for impairment.

(n) Payables

Payables are recognised initially at fair value and subsequently stated at amortised cost. The difference between the proceeds and the amount payable is recognised over the financial period of the payable using the effective interest method.

Trade and other creditors are payable at various dates in the next three months in accordance with the suppliers' usual and customary credit terms.

(o) Distributions

Distributions with an ex-date during the financial year under review are included as a finance cost in the Statement of Comprehensive Income. The reinvestment of distributions if applicable, being the portion of the total distribution reinvested, are included as a share transaction in the Statement of Changes in Net Assets Attributable to Holders of Redeemable Participating Shares.

(p) Taxation

Capital gains, dividends and interest received may be subject to capital gains tax and withholding tax imposed by the country of origin and such taxes may not be recoverable by the Company or its Shareholders. These taxes are included in the Statement of Comprehensive Income.

(q) Segment reporting

Operating segments are reported in a manner consistent with the internal reporting used by the chief operating decision maker. The chief operating decision maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as State Street Global Advisors Europe Limited.

(r) Offsetting

Financial assets and liabilities are offset and the net amount presented in the Statement of Financial Position when and only when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis, or realise the assets and settle the liability simultaneously.

(s) Securities lending income

Securities lending income is earned from lending securities owned by the Fund to a number of third-party borrowers. Securities lending income is accounted for when earned. Securities Lending income earned during the financial year is disclosed in Note 13.

2. TAXATION

The Company qualifies as an investment undertaking as defined in Section 739B of the Taxes Consolidation Act 1997, as amended. Under current Irish law and practice, the Company is not liable to Irish tax in respect of its income and gains, other than on the occurrence of a chargeable event. Generally a chargeable event arises on any distribution, redemption, repurchase, cancellation, transfer of shares or on the ending of a "Relevant

Notes to the Financial Statements for the financial year ended 31 March 2025 (continued)

2. TAXATION (CONTINUED)

Period". A "Relevant Period" being an eight year period beginning with the acquisition of the shares by the Shareholder and each subsequent period of eight years beginning immediately after the preceding Relevant Period.

A chargeable event does not include:

- i) Any transactions in relation to shares held in a recognised clearing system as designated by order of the Revenue Commissioners of Ireland; or
- ii) An exchange of shares representing one Fund for another Fund of the Company; or
- iii) An exchange of shares arising on a qualifying amalgamation or reconstruction of the Company with another Fund; or
- iv) Certain exchanges of shares between spouses and former spouses.

No tax will arise on the Company in respect of chargeable events relating to:

- i) A Shareholder who is neither Irish resident nor ordinarily resident in Ireland for tax purposes, at the time of the chargeable event, provided appropriate valid declarations in accordance with the provisions of the Taxes Consolidation Act, 1997, as amended, are held by the Company;
- ii) Certain exempted Irish tax resident Shareholders who have provided the Company with the necessary signed statutory declarations; or
- iii) Any transaction (which might otherwise be a chargeable event) in relation to shares held in a recognised clearing system as designated by order of the Irish Revenue Commissioners.

Dividend income, interest and capital gains (if any) received on investments made by the Company may be subject to withholding taxes imposed by the country from which the investments income/gains are received and such taxes may not be recoverable by the Company or its Shareholders.

The Minimum Tax Directive provides for a European Union wide implementation of the Organization for Economic Cooperation and Development ("OECD") Inclusive Framework on Base Erosion Profit Shifting ("BEPS") Pillar Two rules. The Pillar Two legislation was enacted in Ireland and is effective for the financial year beginning 01 January 2024. The Company meets the definition of an investment entity under BEPS Pillar Two rules, and the clause within it that seeks to protect the tax neutrality of investment funds. This excludes the Company from quantitative disclosures under BEPS Pillar Two requirement along with Qualified Domestic Minimum Top-up Tax ("QDMTT") requirement.

3. FEES & EXPENSES

All of the fees and expenses payable in respect of a Fund are paid as one single fee. This is referred to as the "Total Expense Ratio" or "TER". The TER does not include extraordinary costs and expenses, or certain transaction costs.

After deduction and payment of Directors' and auditors' fees and expenses, (which are included in TER), the balance of the TER is paid to the Management Company, and the Management Company is then responsible for the payment of all operational expenses of the Company. This includes, but is not limited to, fees and expenses of the Investment Manager, Depositary, Administrator, Transfer Agency and Company Secretary. The Investment Manager may pay part or all of its fees to any person that invests in or provides services to the Company or in respect of any Fund.

The Management Company will also be responsible for the payment of the following fees and expenses:

- i) the cost of listing and maintaining a listing of shares on any Listing Stock Exchange;
- ii) the cost of convening and holding Directors' and Shareholders' meetings;
- iii) professional fees and expenses for legal and other consulting services;
- iv) the costs and expenses of preparing, printing, publishing and distributing Prospectuses, Supplements, annual and semi-annual reports and other documents to current and prospective Shareholders;
- v) the costs and expenses arising from any licensing or other fees payable to any Index Provider or other licensor of intellectual property, trademarks or service marks used by the Company;
- vi) the costs and expenses of any investment adviser appointed by the Investment Manager; and
- vii) such other costs and expenses (excluding non-recurring and extraordinary costs and expenses) as may arise from time to time and which have been approved by the Directors as necessary or appropriate for the continued operation of the Company or of any Fund.

The TER is calculated and accrued daily in the NAV of each Fund and payable monthly in arrears. The annual TER of each Fund of the Company is as listed in the table below and overleaf. If a Fund's expenses exceed the TER outlined below in relation to operating the Funds, the Management Company will cover any shortfall from its own assets.

The audit fees for the financial year ended 31 March 2025 (including expenses) are EUR 338,184 (31 March 2024: EUR 308,000) which is net of VAT. These are paid from the TER disclosed below. There were no fees for other assurance services,

Notes to the Financial Statements for the financial year ended 31 March 2025 (continued)

3. FEES & EXPENSES (CONTINUED)

tax assurance services or other non-audit services paid to Ernst & Young for the financial year ended 31 March 2025 (31 March 2024: Nil).

The Directors' fees for the financial year ended 31 March 2025 are USD 134,514 (31 March 2024: USD 121,862), the amount payable to the Directors at financial year end was USD Nil (31 March 2024: USD Nil) and this is paid from the TER disclosed

below. Directors fees relate to the aggregate amounts of emoluments paid to or receivable by directors in respect of qualifying services.

4. TRANSACTION COSTS

As disclosed in Note 1, transaction costs are incremental costs that are directly attributable to the acquisition, issue or disposal of a financial asset or liability.

Purchases and sales transaction costs include identifiable brokerage charges, commissions, transaction related taxes and other market charges. Included in these purchases and sales transaction costs are the transaction costs on the purchase and sales of equities, equity investment schemes and futures. Custody transaction costs include transaction costs paid to the Depositary and Sub-Custodians, and form part of the TER as disclosed on Note 3.

Disclosed below are the Funds that incurred purchases and sales transaction costs during the financial year ended 31 March 2025 and 31 March 2024:

5. SHARE CAPITAL

The authorised share capital of the Company is 500,000,000,002 (five hundred billion and two) shares of no par value divided into two subscriber shares of no par value and 500,000,000,000 (five hundred billion) shares of no par value. The Directors are empowered to issue up to all of the shares of the Company on such terms as they think fit.

The subscriber shares entitle the holders to attend and vote at general meetings of the Company but do not entitle the holders to participate in the profits or assets of the Company, except for a return of capital on winding-up. The subscriber shares do not form part of the net assets of the Funds or the Company and are disclosed by way of this note only.

The Shares (other than the subscriber shares) entitle the holders to attend and vote at general meetings of the Company and to participate equally (subject to any differences between fees, charges and expenses applicable to different Classes) in the profits and assets of the Fund to which the Shares relate.

Share capital transactions (number of shares) in the Funds for the financial year ended 31 March 2025 and financial 31 March 2024 were as follows:

6. RELATED PARTIES

Entities with joint control

In the opinion of the Directors, the Management Company, the Investment Manager, Global Distributor, Sub-Distributor, the Sub-Investment Managers, Administrator, Transfer Agent and Registrar, Directors of the Management Company, Depositary and Securities Lending Agent are all related parties to the Company. Please refer to Note 3, Fees and Expenses, for an explanation of the fee structure of the Company. All transactions were entered into in the normal course of business.

Directors

The Directors are entitled to receive fees and expenses, which form part of the TER rates as set out in Note 3. Total Directors' fees for the financial year amounted to USD 134,514 (31 March 2024: USD 121,862) of which USD Nil (31 March 2024: USD Nil) was payable at the financial year end.

Ms. Kathleen Gallagher, Ms. Ellen Needham (resigned on 1 May 2023) and Mr James Binny (resigned on 31 March 2025) did not receive any Director fees for the financial year ended 31 March 2025 and 31 March 2024.

The interests of the Directors in related parties are as follows:

Ms. Kathleen Gallagher is a Managing Director at State Street Global Advisors and is Head of Australia and Head of ETF Model Portfolios in EMEA and APAC for the SPDR business.

Mr. James Binny, until his resignation on 31 March 2025 was a Director of the Company. Mr. Binny is a Managing Director at State Street Global Advisors and is Head of Investments for SSGA Europe Limited and Global Head of Currency.

The interests of the Directors of the Management Company in related parties are as follows:

Ann Prendergast is an Executive Vice President and Head of the Europe, Middle East and Africa (EMEA) region for State Street Global Advisors (SSGA).

Eric Linnane is also a Managing Director and Head of State Street Global Advisors Europe Limited Investment Operations.

Marie-Anne Heeren is a Senior Managing Director and Head of the SSGA Institutional Client Group for Europe. Ms. Heeren is also Branch Manager for State Street Global Advisors Europe Limited's Belgian Branch.

Scott Sanderson is also a Managing Director and the Chief Financial Officer (CFO) for State Street Global Advisors in EMEA.

The Company has appointed State Street Global Advisors Europe Limited (the "Management Company") to be responsible for the day-to-day management of its affairs subject to the overall supervision of the Board. The Management Company is responsible for the investment management of the assets of the Company. State Street Global Advisors Limited, State Street Global Advisors Trust Company and State Street Global Advisors Singapore Limited are Sub-Investment Managers for the Company.

The Management Company is also responsible for the administration of the Company and the implementation of the Company's and Funds' distribution and marketing policy.

10. EFFICIENT PORTFOLIO MANAGEMENT

The Funds may, for the purpose of efficient portfolio management and in accordance with the conditions and limits imposed by the Central Bank, use financial derivative instruments ("FDIs") including warrants, futures and forward foreign currency exchange contracts including non-deliverable forwards ("NDFs"). Efficient portfolio management means investment decisions involving transactions that are entered into for one or more of the following specific aims: the reduction of risk, the reduction of cost or the generation of additional capital or income for a Fund with an appropriate level of risk, taking into account the risk profile of the Fund. In particular, FDIs may be used for the purpose of minimising tracking error, i.e., the risk that the Fund return varies from the Index return.

To the extent that the Investment Manager, on behalf of a Fund, uses FDIs, there may be a risk that the volatility of the Fund may increase. It is expected that the volatility level of each Fund will be closely correlated with the volatility of the Index. Investors should note that there can be no assurance that the historical volatility levels of the Index will continue to be observed in the future or that the Fund will have a similar volatility level, and that therefore there is a risk that the Fund volatility may be relatively high when compared to other investments and may change

Notes to the Financial Statements for the financial year ended 31 March 2025 (continued)

10. EFFICIENT PORTFOLIO MANAGEMENT (CONTINUED)

significantly over time and an investment in the Fund may not be appropriate for all investors. That notwithstanding, each Fund is not expected to have an above average risk profile as a result of its use of or investment in FDIs. FDIs will be used within the limits stipulated by the Central Bank and positions taken for hedging purposes will not be allowed to exceed materially the value of the assets that they seek to offset. Accordingly, although FDIs will be inherently leveraged, the primary purpose of the use of FDIs is to reduce tracking error, and while the Fund will be leveraged as a result of its investments in FDIs, such leverage will not exceed 100% of the Fund's total NAV. The Fund's leverage is measured in accordance with the commitment approach.

The Funds, subject to the restrictions imposed on the use of FDIs described above and by the UCITS Regulations, may buy and sell futures contracts to either create exposure or reduce exposure to various securities included in the Index or to reduce certain aspects of risk inherent in specific trades. Futures contracts are agreements to buy or sell a fixed amount of a bond or currency at a fixed date in the future. Futures contracts are exchange-traded instruments and their dealing is subject to the rules of the exchanges on which they are dealt. Forward foreign currency exchange contracts may be used for efficient portfolio management purposes. For example, forward foreign currency exchange contracts may be used to manage currency exposures represented in the Index. Non-deliverable forward foreign currency exchange contracts may be used for the same reasons. They differ from standard forward foreign currency exchange contracts in that at least one of the currencies in the transaction is not permitted to be delivered in settlement of any profit or loss resulting from the transaction. Typically, profit or loss in this case will be delivered in U.S. Dollars or Euros.

The Funds enter into futures contracts, forward foreign currency exchange contracts and securities lending for efficient portfolio management purposes. The gains/(losses) associated with each financial derivative instrument are included within net changes in fair value of financial assets and liabilities at fair value through profit and loss in the Statement of Comprehensive Income. The counterparties to the FDIs are identified on the relevant Schedule of Investments.

Please refer to Note 13 for further details on securities lending.

11. FINANCIAL RISKS

As an investment company, the management of financial instruments is fundamental to the management of the Company's business. The Investment Manager is responsible, subject to the overall supervision and control of the Board, for managing the assets and investments of the Funds of the Company in accordance with the investment objectives and guidelines approved by the Board and policies set forth in the Prospectus and Supplements.

The Company's risk management function is carried out by the Management Company, ultimately represented by the Board, and is supported by the Risk Management Team ("RMT") who manage risk on a day to day basis under the leadership and supervision of the Designated Person of the Management Company, subject to on-going monitoring by the Designated Persons of the Management Company and members of the Management Committee. The Board reviews at least annually the risk management policy and procedures in place and the Designated Persons monitor on an ongoing basis the reports prepared by RMT. The Board and the Designated Persons may issue risk guidelines which will be binding on the Investment Managers. Currently, the guidelines include monitoring and highlighting any deviation from the investment objective and policy of each Fund and ensuring that each Fund's global exposure from the use of FDIs, and the counterparty exposure to any counterparty, is maintained within the parameters set out by the Central Bank of Ireland. RMT monitors these guidelines and the Investment Managers also perform such reviews through their oversight and portfolio management functions.

The Company's activities expose it to a variety of financial risks: market risk (including market price risk, foreign exchange risk and interest rate risk), liquidity risk and credit risk.

There have been no changes in the investment management process for the Funds since the prior financial year end.

More specifically, the ability of any Fund to achieve significant correlation between the performance of the Fund and the index it tracks may be affected by changes in securities markets, changes in the composition of the index, cash flows into and out of the Fund and fees and expenses of the Fund. Each Fund will seek to track index returns regardless of the current or projected performance of the index or of securities comprising the index. As a result, each Fund's performance may be less favourable than that of a portfolio managed using an active investment strategy. The structure and composition of the index will affect the performance, volatility and risk of the index (in absolute terms and by comparison with other indices), and consequently, the performance, volatility, and risk of the Fund. As the Funds seek to replicate index returns regardless of current or projected performance, financial risks are not actively managed.

The following information is not intended to be a comprehensive summary of all risks and investors should refer to the Prospectus and Supplements for a more detailed discussion of the risks inherent in investing in the Company.

Notes to the Financial Statements for the financial year ended 31 March 2025 (continued)

11. FINANCIAL RISKS (CONTINUED)

Market risk

Market Price risk

The Funds are exposed to equity and fixed income securities price risk and derivative price risk. This arises from investments held by the Funds for which prices in the future are uncertain. The investments of a Fund are subject to general economic conditions, normal market fluctuations and the risks inherent in investment in international securities markets.

The Funds' exposure to market price risk is the total value of financial assets and financial liabilities at fair value through profit or loss as set out in each Statement of Financial Position.

The sensitivity of the Funds to fluctuations in market prices based on a 10% increase in market prices, is set out in the table below:

31 March 2025	Currency	Estimated NAV Increase

** The name of the Fund changed on 10 February 2025. Please refer to Note 18.

Foreign exchange risk

The Funds operate internationally and may hold both monetary and non-monetary assets denominated in currencies other than their respective functional currencies. Foreign currency risk arises as the value of future transactions, recognised monetary assets and monetary liabilities denominated in other currencies fluctuate due to changes in foreign exchange rates.

A Fund may, but will not necessarily, invest in currency exchange contracts to help reduce exposure to different currencies, however there is no guarantee that these contracts will successfully do so. Also, these contracts may reduce or eliminate some or all of the benefit that a Fund may experience from favourable currency fluctuations.

The information is a relative estimate of risk and is not intended to be a precise and accurate number because they cannot predict whether these balances will vary by more or less than 5%.

The Funds exposure to currencies other than their functional currency is set out in the tables below.

As at 31 March 2025 and 31 March 2024, except for the Funds listed above, no other Funds had exposure to currencies other than their functional currency.

Interest rate risk

Interest rate risk arises from the effects of fluctuations in the prevailing levels of markets' interest rates on the fair value of financial assets and liabilities and future cash flows. The Funds analysed below hold fixed interest securities that expose those Funds to fair value interest rate risk.

Notes to the Financial Statements for the financial year ended 31 March 2025 (continued)

11. FINANCIAL RISKS (CONTINUED)

Market risk (continued)

Interest rate risk (continued)

As interest rates rise, the values of debt securities or other income-producing investments are likely to fall. This risk is generally greater for obligations with longer maturities.

Cash holdings and overdrafts of the Funds are not subject to significant interest rate risk.

The exposure of each Fund to fluctuations in interest rates is set out in the following table, categorised by reference to maturity date:

31 March 2025

SPDR Bloomberg 0-3 Year Euro Corporate Bond UCITS ETF

	Up to 1 year EUR	1-5 years EUR	Over 5 years EUR	Non- interest bearing EUR	Total EUR

As at 31 March 2024, the remaining Funds hold financial assets and liabilities, which are not exposed to interest rate risk. The Funds also have indirect exposure to interest rate risk through the investments into futures contracts, whereby the value of the underlying asset may fluctuate as a result of a change in interest rates.

The below interest rate sensitivity analysis shows the effect on the Net Asset Value of the Funds of a 1% change in interest rates.

The information is a relative estimate of risk and is not intended to be a precise and accurate number. The calculations are based on historical data. Future price movements and correlations between securities could vary significantly from those experienced in the past.

Credit risk

The Funds are exposed to credit risk, which is the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation.

The main concentration to which the Funds are exposed arises from investments in debt securities and counterparty credit risk on trading derivative products, cash and cash equivalents, amounts due from brokers and other receivable balances, as set out in the Statements of Financial Position.

The Company engages in security lending activities which expose the Funds to counterparty credit risk. The maximum exposure to each Fund is equal to the value of the securities loaned as disclosed in Note 13. The Funds receive collateral equal to a percentage in excess of the value of securities sold.

It is possible that the ability of an issuer to meet its obligations will decline substantially during the year or that the issuer will default on its obligations. An actual or perceived deterioration of the ability of an issuer to meet its obligations will likely have an adverse effect on the value of the issuer's securities.

The Funds are subject to credit risk from investments in debt securities. Such credit risk is managed by the permanent risk management function of the Company as required by the investment objectives for the Funds.

The Funds securities and cash are held within the depositary's network as of 31 March 2025 and 31 March 2024. Details of the credit risk relating to assets held with the Depositary are disclosed under Depositary risk.

Depositary risk

The Funds' Depositary is State Street Custodial Services (Ireland) Limited (the "Depositary"). Substantially all of the assets and cash of the Funds are held within the depositary's network. Bankruptcy or insolvency of the Depositary or of its parent company State Street Corporation may cause the Funds' rights with respect to its investments in securities held by the Depositary to be delayed. The maximum exposure to this risk at 31 March 2025 is the total value of investments disclosed in the Schedule of Investments, excluding financial derivatives and including the value of cash as detailed in the Statement of Financial Position.

In accordance with the requirements of the Companies Act 2014 and the UCITS Regulations, the Funds' securities are maintained within the depositary's network in segregated accounts with ownership rights remaining with the Funds. The Depositary will ensure that any agents it appoints to assist in safekeeping the assets of the Funds will segregate the assets of the Funds, with the exception of cash. Cash cannot be registered in the name of, or identified as beneficially owned by a client, nor can it practically be held in physical segregation. Thus in the event of insolvency or bankruptcy of the Depositary, the Funds' assets (excluding cash) are segregated and protected and this further reduces counterparty risk. The Funds will, however, be exposed to the risk of the Depositary/sub-custodians or certain depositories used by the Depositary, in relation to the Funds' cash held by the Depositary. In the event of the insolvency or bankruptcy of the Depositary, the Fund will be treated as a general creditor of the Depositary in relation to cash holdings of the Funds.

At 31 March 2025, State Street Corporation had a credit rating of A by Standard & Poor's (2024: A).

Counterparty risk

The Funds are subject to credit risk with respect to the counterparties with whom the Company, on behalf of the Funds, enters into derivative contracts. The exposure to each of the counterparties is the unrealised value of the derivative contracts as disclosed in the relevant Fund's Schedule of Investments, plus the value of the margin cash held by the counterparty, if any. If a counterparty becomes insolvent or otherwise fails to perform its obligations, a Fund may experience significant delays in obtaining any recovery in an insolvency, bankruptcy, or other reorganisation proceeding and may obtain only a limited recovery or may obtain no recovery. In the event of insolvency, collateral held with the counterparty will be available to offset against the net position of the Fund.

At 31 March 2025, the counterparties to the various derivative contracts and their associated credit ratings were as follows:

Bank of America (A+) (31 March 2024: A+), Bank of Montreal (A+) (31 March 2024: n/a), Barclays Bank (A+) (31 March 2024: A+), Barclays Capital (A+) (31 March 2024: A+), BNP Paribas (A+) (31 March 2024: A+), Citibank (A+) (31 March

Notes to the Financial Statements for the financial year ended 31 March 2025 (continued)

11. FINANCIAL RISKS (CONTINUED)

Credit risk (continued)

Counterparty risk (continued)

2024: A+), Deutsche Bank (A) (31 March 2024: A), Goldman Sachs (A+) (31 March 2024: A+), HSBC Bank (A+) (31 March 2024: A+), JP Morgan Chase Bank (AA-) (31 March 2024: A-), Merrill Lynch International (A+) (31 March 2024: A+), Mizuho Securities (A) (31 March 2024: A), Morgan Stanley (A+) (31 March 2024: A+), Nomura (not rated) (31 March 2024: n/a), Royal Bank of Canada (AA-) (31 March 2024: AA-), Societe Generale (A) (31 March 2024: A), Standard Chartered Bank (A+) (31 March 2024: A+), State Street Bank and Trust Company (AA-) (31 March 2024: AA-), Toronto Dominion Bank (A+) (31 March 2024: AA-), UBS AG (A+) (31 March 2024: A+), Wells Fargo & Company (A+) (31 March 2024: A+) and Westpac Banking Corporation (AA-) (31 March 2024: AA-).

The permanent risk management function of the Company shall monitor compliance with the UCITS risk limit system, including counterparty risk (i.e. the risk related to transactions entered with another counterparty and performance by that counterparty of its obligations, particularly in relation to over-the-counter derivatives) in accordance with the UCITS Regulations.

Financial assets and liabilities are offset and the net amount reported in the Statement of Financial Position when there is a legally enforceable right to set off the recognised amounts and there is an intention to settle on a net basis, or realise the asset and settle the liability simultaneously. IFRS 7 Financial Instruments: Disclosure ("IFRS 7") requires disclosure of financial derivative instruments that have been offset in the Statement of Financial Position, or that have not been offset in the Statement of Financial Position but are subject to an enforceable master netting arrangement or similar agreement. At 31 March 2025

and 31 March 2024, there were no financial derivative instruments offset in the Statement of Financial Position. The financial derivative instruments held by the Funds are futures and forward foreign currency exchange contracts. The amounts shown for these contracts in the Statement of Financial Position are disclosed on a gross basis.

With the exception of SPDR Bloomberg Global Aggregate Bond UCITS ETF Fund for the years ended 31 March 2025 and 31 March 2024, there was no securities collateral pledged in relation to OTC financial derivative instruments during the years ended 31 March 2025 and 31 March 2024. Please refer to Schedule of Investment for further details. There was securities collateral received in relation to efficient portfolio management during the financial year ended 31 March 2025. Please refer to Note 13 for further details on securities lending.

The following tables present, at a Fund level, the Fund's financial assets and liabilities subject to offsetting, enforceable master netting arrangements and similar agreements as at 31 March 2025. While the terms and conditions of these agreements may vary, all transactions under any such agreement constitute a single contractual relationship between each Fund and each counterparty, severally and not jointly. Each Funds' obligation to make any payments, deliveries or other transfers in respect of any transaction under such an agreement may be netted against the counterparty's obligations under such agreement. A default by either party in performance with respect to one transaction under such an agreement would give the other party the right to terminate all transactions under such agreement and calculate one net amount owed from one party to the other. Further information on the Funds exposure to the counterparties of the various derivative contracts is provided in the relevant Funds' Schedule of Investments.

Investment grade securities are those issued by an entity with a minimum investment grade credit rating from at least one globally recognised credit rating agency; Standard & Poor's or Moody's.

In the following tables, investments that are rated as BBB- and above are included within Investment Grade and all investments below BBB- are included in Non Investment Grade.

The credit ratings of the issuers of securities held by the various Funds are as follows:

31 March 2025

SPDR Bloomberg 0-3 Year Euro Corporate Bond UCITS ETF		Total	%
Credit Rating		EUR	
Investment Grade		845,778,360	99.08
Non Investment Grade		7,890,150	0.92

Liquidity risk

Liquidity risk is the risk that a Fund may not be able to generate sufficient cash resources to settle its obligations in full as they fall due or can only do so on terms that are materially disadvantageous. Any Fund may be exposed to the daily settlement of margin calls on derivatives and to daily cash redemptions of redeemable shares.

The Funds have the ability to borrow in the short term to ensure settlement. Each Fund may borrow money from a bank up to a limit of 10% of its NAV, but only on temporary basis. The facility bears interest at Fed Funds Rate plus 200 basis points.

Certain investments and types of investments are subject to restrictions on resale, may trade in the over-the-counter market or in limited volume, or may not have an active trading market. Illiquid securities may trade at a discount from comparable, more liquid investments and may be subject to wide fluctuations in market value. It may be difficult for a Fund to value illiquid securities accurately. Also, a Fund may not be able to dispose of illiquid securities or execute or close out a derivatives transaction readily at a favourable time or price or at prices approximating those at which the Fund currently values them.

Redemption Limits

If redemption requests received in respect of Shares of a particular Fund on any Dealing Day total, in aggregate, more than 10% of all of the issued Shares of that Fund on that Dealing Day, the Management Company shall be entitled, at its absolute discretion, to refuse to redeem such number of Shares of that Fund on that Dealing Day, in excess of 10% of the issued Shares of the Fund, in respect of which redemption requests have been received, as the Management Company shall determine. If the Management Company refuses to redeem Shares for this reason, the requests for redemption on such date shall be reduced rateably and the Shares to which each request relates which are not redeemed shall be redeemed on each subsequent Dealing Day (but shall not receive priority on such subsequent Dealing Day), provided that the Company shall not be obliged to redeem more than 10% of the number of Shares of a particular Fund outstanding on any Dealing Day, until all the Shares of the Fund to which the original request related have been redeemed.

Notes to the Financial Statements for the financial year ended 31 March 2025 (continued)

11. FINANCIAL RISKS (CONTINUED)

Liquidity risk (continued)

Redemption of Shares In-Kind

Each Fund will allow Shareholders to redeem Shares in-kind on each Dealing Day, unless specified otherwise in the Relevant Supplement. In this context, "in-kind" means that, with the consent of the Shareholder, rather than delivering cash proceeds in respect of a redemption, the Company will deliver securities or a combination of cash and securities, provided that the asset allocation is subject to the approval of the Depositary. Redemption requests must be received by the Administrator before the dealing deadline on the relevant Dealing Day. Where a Shareholder requests redemption of Shares in a Fund representing 5% or more of the Net Asset Value, the Management Company may determine in its sole discretion to provide the redemption in-kind. The assets to be transferred shall be selected at the discretion of the Management Company, subject to the approval of the Depositary and taken at their value used in determining the redemption price of the Shares being so repurchased. In this event the Management Company will, if requested, sell the assets on behalf of the Shareholder at the Shareholder's expense and give the Shareholder cash. Such distributions will not materially prejudice the interests of the remaining Shareholders. The costs of any such disposal shall be borne by the redeeming Shareholder.

Temporary Suspension of Dealings

The Directors may at any time, with prior notification to the Depositary, temporarily suspend the issue, valuation, sale, purchase, redemption or conversion of Shares of any Fund, or the payment of redemption proceeds, during:

a) any period when any Recognised Market on which a substantial portion of the investments for the time being comprised in the Company are quoted, listed or dealt in is closed (otherwise than for ordinary holidays) or suspended;

b) any period when, as a result of political, military, economic or monetary events or other circumstances beyond the control, responsibility and power of the Directors the disposal or valuation of investments be affected;

c) any breakdown in the means of communication normally employed in determining the value of any investments be promptly or accurately ascertained;

d) any period when the Company is unable to repatriate funds for the purposes of making redemption payments or during which the realisation of investments be effected at normal prices or normal rates of exchange;

e) any period when, as a result of adverse market conditions, the payment of redemption proceeds may, in the opinion of the Directors, have an adverse impact on the Company or the remaining Shareholders in the Company; and

f) any period when the Directors determine that it is in the best interests of the Shareholders to do so

Each Fund's financial liabilities comprise unrealised losses on forward foreign currency exchange contracts, payables for investments purchased, distributions payable, futures, bank overdraft, net assets attributable to holders of redeemable participating shares, capital stock and accrued expenses. All have a maturity of not greater than six months at 31 March 2025 and 31 March 2024.

Global Exposure

Per the UCITS Regulations, and as part of the risk management and reporting requirements, the global exposure of the Funds must be monitored and measured in accordance with the regulatory requirements. In accordance with the regulatory requirements, global exposure can be calculated in two ways, either:

- i) the Commitment Approach that calculates the incremental exposure generated by the instruments held in the Funds; or
- ii) Value at Risk ("VaR"), where complex investment strategies are used. The VaR measure estimates the potential loss of the portfolio over a pre-defined period of time given a specified confidence level. The VaR methodology is a statistical measurement that produces a single aggregate result for the overall portfolio, taking into consideration the market volatilities of all the markets and assets as well as their correlations allowing for offsetting across different assets and markets.

The Funds use the commitment approach to measure global exposure.

12. FAIR VALUE HIERARCHY

Fair value hierarchy

IFRS 7 requires the Company to classify fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements.

The fair value hierarchy has the following levels as defined under IFRS 7:

Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (as prices) or indirectly (derived from prices).

Level 3 - Inputs for the asset or liability that are not based on observable market data (unobservable inputs).

Notes to the Financial Statements for the financial year ended 31 March 2025 (continued)

12. FAIR VALUE HIERARCHY (CONTINUED)

Furthermore, for those instruments which have significant unobservable inputs (Level 3), IFRS 13 requires disclosures on the transfers into and out of Level 3, a reconciliation of the opening and closing balances, total gains and losses for the year split between those recognised in the Statement of Comprehensive Income, purchases, sales issues and settlements, and a sensitivity analysis of assumptions used in determining the fair value of Level 3 positions.

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a Level 3 measurement. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgement, considering factors specific to the asset or liability.

The determination of what constitutes 'observable' requires significant judgement by the Company. The Company considers observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

For each class of assets and liabilities not measured at fair value in the Statement of Financial Position but for which fair value is disclosed, IFRS 13 requires the Company to disclose the level within the fair value hierarchy which the fair value measurement would be categorised and a description of the valuation technique and inputs used in the technique. Assets and liabilities not carried at fair value are carried at amortised cost; their carrying values are a reasonable approximation of fair value.

Cash and cash equivalents and cash held as collateral with brokers are categorised as Level 1.

All receivable and payable balances are categorised as Level 2.

The following tables analyse within the fair value hierarchy the Company's financial assets and liabilities measured at fair value at 31 March 2025 and 31 March 2024.

The Level 3 securities are generally equity securities that have been fair valued using the market approach. The unobservable input is typically a discount to the last available price, with a discount range of 0% to 100%. The Company considers that these valuations were valid and that an assessment of reasonably possible alternatives would not materially differ.

Investments whose values are based on quoted market prices in active markets, and therefore classified within Level 1, include active listed equities, rights, warrants and exchange traded derivatives. The Company does not adjust the quoted price for these instruments.

Financial instruments that trade in markets that are not considered to be active but are valued based on quoted market prices, dealer quotations or alternative pricing sources supported by observable inputs are classified within Level 2. These include, bonds and

12. FAIR VALUE HIERARCHY (CONTINUED)

Level 3 Reconciliation (continued)

over the counter derivatives. As Level 2 investments include positions that are not traded in active markets and/or are subject to transfer restrictions, valuations may be adjusted to reflect liquidity and/or non-transferability, which are generally based on available market information.

Investments classified within Level 3 have significant unobservable inputs, as they trade infrequently.

2 to 3	SPDR MSCI Emerging Markets Small Cap UCITS ETF	Redco Properties Group Ltd
		Home Reit PLC

Sensitivity of Level 3 asset measured at fair value to changes in assumptions

The results of using reasonably possible alternative assumptions for valuing the Level 3 assets may result in the fair value estimate and recoverability of the assets being subject to uncertainty and a range of possible outcomes are likely. Such differences, if any, may have a material effect on the overall portfolio as at 31 March 2025 or as at 31 March 2024.

Transfers between levels of the fair value hierarchy are deemed to have occurred at the end of the financial year. There were transfers between levels during the reporting period as detailed in the table below.

The transfers between level 1, level 2 and level 3 were primarily due to the availability of quoted market prices, dealer quotations or alternative pricing sources supported by observable inputs. There were no other funds with transfers between fair value levels in the fair value hierarchy.

If the value of level 3 securities increased/(decreased) by 5%, the effect on the NAV as at 31 March 2025 would be as follows:

- SPDR FTSE U.K. All Share UCITS ETF: GBP 911 (31 March 2024: GBP 1,927)

Notes to the Financial Statements for the financial year ended 31 March 2025 (continued)

12. FAIR VALUE HIERARCHY (CONTINUED)

13. SECURITIES LENDING

During the financial year some of the Funds engaged in securities lending, subject to the conditions and within the limits from time to time laid down by the Central Bank and the Prospectus pursuant to the securities lending agreement dated 27 October 2023 between the Investment Manager and State Street Bank and Trust Company, (the "Securities Lending Agent").

The maximum lending thresholds for the Funds is 40% for Equity Funds and 70% for Fixed Income Funds.

The Securities Lending Agent has been appointed for the purposes of lending securities to brokers, dealers and other financial institutions. In lending their securities, the Funds will receive income while retaining the securities' potential for capital appreciation and depreciation. The securities lending income was split between the Funds and the Securities Lending Agent in a ratio of 75:25 in favour of the Funds.

The Company receives securities as non-cash collateral, for a value in excess of the market value of the securities loaned.

The Securities Lending Agent monitors the value of the securities loaned and additional non-cash collateral is obtained, if necessary.

As at 31 March 2025 and 31 March 2024 the income earned, by the Funds, for securities on loan, the total value of outstanding securities on loan and the value of non-cash collateral received by the relevant Funds is disclosed separately below.

14. SEGMENT INFORMATION

IFRS 8 Operating Segments (“IFRS 8”) requires a “management approach”, under which segment information is presented on the same basis as that used for internal reporting purposes.

The Management Company is charged with the overall governance of the Company in accordance with the Prospectus. The Directors have appointed State Street Global Advisors Europe Limited as the Management Company. State Street Global Advisors Europe Limited is considered the Chief Operating Decision Maker for the purposes of IFRS 8.

The Management Company makes the strategic resource allocations on behalf of the Funds. The Management Company is responsible for each Fund’s entire portfolio and considers each Fund to be a single operating segment. The Management Company’s asset allocation decisions are based on a single, integrated investment strategy, to deliver the performance of the relevant Reference Index of each Fund, and each Fund’s performance is evaluated by reference to the relevant Reference Index.

The Funds have no assets classified as non-current assets. Each Fund’s investments expose it to the performance of the relevant Reference Index.

Notes to the Financial Statements for the financial year ended 31 March 2025 (continued)

14. SEGMENT INFORMATION (CONTINUED)

The Funds have highly diversified portfolios of investments, and no single investment accounts for a significant portion of the Company's income.

Products and services

All of the Company's revenues are derived from one product grouping, namely the portfolio securities and derivative instruments invested in by the Funds in order to track the performance of their respective indices.

Geographical areas

The Company does not separately monitor revenues from different geographical areas. However, by their nature of tracking indices which represent specific markets in specific regions, each Fund's revenue may be considered as being attributed to the region stated in its investment objective.

Major customers

As the Company is an investment company, its distinct major customers are the institutional investors who make the primary market for the Funds' shares.

The investments are allocated across fifty five distinct Funds which each have a separate Schedule of Investments.

The financial result and financial position of each segment are equivalent to the financial statements of each Fund.

15. EXCHANGE RATES

The exchange rates used to convert (where relevant) a Fund's balances denominated in foreign currencies to the Company's presentation currency in USD at the financial year end were as follows:

Notes to the Financial Statements for the financial year ended 31 March 2025 (continued)

15. EXCHANGE RATES (CONTINUED)

The average exchange rates for the financial year ended 31 March 2025 and 31 March 2024 used to convert (where relevant) a Fund's functional currency to the Company's presentation currency in USD were as follows:

	31 March 2025 USD	31 March 2024 USD
British Pound	0.78307	0.79505
Euro	0.93299	0.92264
Japanese Yen	152.43583	145.39625

16. COMPARATIVE YEAR

The comparative amounts in these financial statements are for the financial year ended 31 March 2024.

17. RECONCILIATION TO THE PUBLISHED NET ASSET VALUE

SPDR MSCI EM Asia UCITS ETF, SPDR MSCI Emerging Markets Small Cap UCITS ETF and SPDR MSCI Emerging Markets UCITS ETF can be exposed to Brazilian and Indian equities. In accordance with IFRS, the Fund must recognise a provision for potential capital gains tax payable taking into consideration the unrealised positions not reflected in the published NAV at financial year end.

These adjustments have led to the below difference between the published net assets attributable to holders of redeemable participating shares and the net assets attributable to holders of redeemable participating shares in accordance with IFRS as at 31 March 2025 and 31 March 2024.

Furthermore, the last pre-year end dealing net asset value differs from the net asset value per the financial statements for certain Funds. The last pre-year end Valuation Point for the Funds' was 28 March 2024, due to an Irish bank holiday (Good Friday) on 29 March 2024. A limited number of markets were open globally on 29 March 2024. The prices of certain securities held by certain Funds which were priced on markets open on 29 March 2024 have been amended to reflect the most up-to-date price at year end in these financial statements. These adjustments have led to difference between the published net assets attributable to holders of redeemable participating shares and the net assets attributable to holders of redeemable participating shares in accordance with IFRS as at 31 March 2024.

The KRW denominated dividends accounted for in the 27 December 2023 published NAV per share of the SPDR S&P Emerging Markets Dividend Aristocrats UCITS ETF was identified to be incorrect and the correction was made in the 22 May 2024 published NAV per share. The KRW denominated dividends have been correctly adjusted in prior year financial statements as at 31 March 2024.

Furthermore, a significant number of the Company's Funds commenced securities lending activities during the financial year ended 31 March 2024. Accruals of securities lending income was not completed correctly for these Funds in that period and as a result securities lending income from 09 November 2023 to 27 May 2024 was accounted for in the 23 May 2024 published NAV per share. The portion of securities lending income relevant for the financial period/year end has been adjusted for in the prior year financial statements.

These adjustments have led to the below difference between the published net assets attributable to holders of redeemable participating shares and the net assets attributable to holders of redeemable participating shares in accordance with IFRS as at 31 March 2025 and 31 March 2024.

SPDR MSCI EM Asia UCITS ETF	31 March 2025 USD

Russia/Ukraine conflict

The Russia/Ukraine conflict started on 24 February 2022. In response, the international community imposed blocking sanctions on individuals, corporations and the Russian Central Bank. Prices of Russian and Ukrainian securities declined significantly following the beginning of the conflict. The Directors have made an assessment regarding the potential impact of the Russia/Ukraine conflict on the funds. The on-going nature of the war means that it remains unclear however what the longer-term impact of this action will be on portfolio positions within the Company. Russian securities holdings of Funds as at 31 March 2025 were valued at zero.

There have been no other significant events affecting the Company since the financial year end.

19. SIGNIFICANT EVENTS SINCE THE FINANCIAL YEAR END

An updated Prospectus was issued on 1 April 2025.

Notes to the Financial Statements for the financial year ended 31 March 2025 (continued)

Collateral

The Funds engage in activities which may require collateral to be provided to a counterparty ("collateral posted") or may hold collateral received ("collateral received") from a counterparty.

The following table provides an analysis by currency of the underlying non-cash collateral received by way of title transfer collateral arrangement by the Funds, in respect of securities lending transactions, as at 31 March 2025.

The Company has collateral both bilaterally (State Street Bank and Trust) and via tri-party agents (Bank of New York and JP Morgan Chase Bank). In the case of Bank of New York and JP Morgan Chase Bank agents, State Street Bank and Trust delegates some collateral management duties to these tri-party agents. In all cases the Depositary has delegated collateral management duties to State Street Bank and Trust. State Street Bank and Trust is then permitted to further delegate responsibilities to triparty agents if they see fit.

Appendix II Remuneration Policy (unaudited)

Remuneration

State Street Corporation (“SSC”), and its direct and indirect subsidiaries (together with the State Street Corporation hereafter referred to as “State Street”) operate a group-wide compensation strategy including a remuneration policy that applies to all State Street entities globally. State Street Global Advisors Europe Limited (“SSGAEL”) is the Management Company, Investment Manager and Global Distributor of SPDR ETFs Europe I Plc and delegates certain activities in respect of the investment management and risk management to SSGA Limited, SSGA Singapore and SSGA Trust Company (“Investment Managers”). As State Street subsidiaries, the Investment Managers are fully integrated into State Street’s group-wide compensation strategy and subject to the global and regional governing body structure of State Street to provide appropriate and effective control of the remuneration arrangements (incl. compliance with the relevant remuneration regulations) across the State Street group of affiliated entities. Under its publicly available charter, the Human Resources Committee (“HRC”) of SSC oversees all of State Street’s compensation plans, policies, and programs in which senior executives participate and incentive, retirement, welfare and equity plans in which certain other employees of SSC participate. It also oversees the alignment of the incentive compensation arrangements with the State Street’s financial safety and soundness consistent with applicable related regulatory rules and guidance. The HRC approves the overall allocation of the Incentive Compensation (“IC”) Plan pool. The CEO allocates IC pools to business units and corporate functions based upon a variety of factors, which may include budget performance, achievement of key goals and other considerations. The final expenditure and overall allocation between current and deferred awards is then reviewed by the HRC prior to payment.

State Street also has separate UK and SSGAEL Remuneration Committees in place with the primary duties to:

- review the remuneration policy applicable to employees, management and Identified Staff of the Investment Managers and oversee its implementation
- oversee compliance with any applicable remuneration regulations
- review and endorse remuneration decisions related to Identified Staff and consider recommendations for ex-post risk adjustment of Identified Staff

State Street operates an annually reviewed global remuneration policy document (supplemented by any relevant addenda by jurisdiction or regulatory regime), which documents State Street’s existing remuneration framework. This policy is intended to comply with applicable remuneration regulatory requirements including, but not limited to, those contained in the CRD, UCITS V and AIFMD, and will be interpreted and administered accordingly. State Street’s remuneration policies and practices apply on a global basis to all employees of the State Street group (incl. the Investment Managers). The key principles that align State Street’s remuneration system with the business strategy are as follows:

- We emphasise total rewards
- We target the aggregate annual value of our Total Rewards Program to be competitive with our business peers
- We unequivocally support equal pay for work of equal value
- Funding for our Total Rewards Program is subject to affordability and is designed to be flexible based on corporate performance
- We differentiate pay based on performance
- We align employees’ interests with Shareholders’ interests
- Our compensation plans are designed to comply with applicable regulations and related guidance, including prohibiting incentives to take excessive risks

Given our process of structured discretion in determining incentive pool funding and individual award decisions, the deferral of incentive compensation, and the availability of ex-ante and ex-post adjustments, such as forfeitures and clawbacks, our compensation system is appropriately risk-sensitive and links current decisions and actions to future risk outcomes.

State Street operates a fully flexible, discretionary bonus policy (i.e. the amount of individual variable pay may fluctuate significantly from one year to the next, depending on performance and the other factors described below, and even could be reduced to zero for any given year). The discretionary bonus policy is structured so as to achieve a balance between fixed and variable components, but also includes specific maximum pay ratios where required by local regulations. A number of employees in sales participate in Structured Incentive Plans, which aim to bring the variable compensation granted to plan participants into line with the revenues they generate as well as taking into account non-financial qualitative performance indicators. All such participants receive sufficiently high fixed compensation. Variable compensation is assigned on an individual basis by way of a review of both quantitative and qualitative factors.

Appendix II Remuneration Policy (unaudited) (continued)

Remuneration (continued)

Total amount of remuneration paid by the Investment Manager for the year ended 31/03/2025¹

Fixed remuneration (in € k)	193,134
Variable remuneration (in € k)	197,212
Total remuneration (in € k)	390,346
Number of beneficiaries	1,429
Performance fee paid directly by the UCITS	n/a

Aggregate amount of remuneration (in \$ k)

Senior Management of SSGAEL ²	225
Identified Staff	215,108

¹Disclosure is based on the remuneration of the entire staff of the legal entity of the investment managers, indicating the number of beneficiaries.

²Represents remuneration paid to independent directors (Directors of SSGAEL who are also employees of the Investment Manager do not receive remuneration in their capacity as board members).

More details regarding State Street's remuneration approach including (but not limited to) information on the decision-making process to determine the remuneration policy, its basic characteristics and the linkage between pay and performance, are published separately in State Street's Proxy Statement at www.statestreet.com and the remuneration section of the Investment Manager's UK Pillar 3 disclosure at [ssgal-pillar-3-disclosure.pdf](#). In light of State Street's group-wide compensation strategy, the qualitative remuneration information included in the UK Pillar 3 disclosure equally apply to State Street employees outside the UK and the Investment Managers' employees.

Appendix III - Schedule of Significant Portfolio Changes (unaudited)

Listed below are the largest cumulative investment purchases and sales during the financial year ended 31 March 2025 in excess of 1% of total purchases and in excess of 1% of total sales. At a minimum the largest 20 purchases and 20 sales must be given or all purchases and sales if less than 20.

Appendix IV SFDR and Taxonomy Regulation Disclosures (unaudited)

The European Union's ("EU") Sustainable Finance Disclosures Regulation (Regulation EU/2019/2088) ("SFDR") requires the SSGA SPDR ETFs Europe I plc to provide transparency on how sustainability considerations are integrated into the investment process with respect to each of the Funds. The EU's Regulation on the Establishment of a Framework to Facilitate Sustainable Investment (Regulation EU/2020/852) (the "Taxonomy Regulation") requires the SSGA SPDR ETFs Europe I plc to provide additional disclosure with respect to each of the Funds in order to enhance transparency and to provide for objective comparison of financial products regarding the proportion of such financial products' investments that contribute to environmentally sustainable economic activities, noting that the scope of environmentally sustainable economic activities, as prescribed in the Taxonomy Regulation, is narrower than the scope of sustainable investments under SFDR. Please see the Relevant Supplement for the disclosures for each Fund required under SFDR and the Taxonomy Regulation.

Funds that are SFDR Article 6 financial products

With respect to the Funds included in the table below the investments underlying each of these Funds do not take into account the EU criteria for environmentally sustainable economic activities.

Funds that are SFDR Article 8 financial products

With respect to the Funds included in the table below, these Funds follow the requirements of Article 8 of SFDR as they promote, among other characteristics, environmental or social characteristics, or a combination of those characteristics and the companies in which the Fund invests in exhibit good governance.

SPDR Bloomberg SASB 0-3 Year Euro Corporate ESG UCITS ETF
SPDR Bloomberg SASB U.S. Corporate ESG UCITS ETF
SPDR Bloomberg SASB U.S. High Yield Corporate ESG UCITS ETF
SPDR S&P 500 Leaders UCITS ETF
SPDR S&P Euro Dividend Aristocrats Screened UCITS ETF
SPDR S&P Global Dividend Aristocrats Screened UCITS ETF
SPDR S&P U.S. Dividend Aristocrats Screened UCITS ETF

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Product name: SPDR Bloomberg 0-3 Year Euro Corporate Scored UCITS ETF (the "Fund")
Legal entity identifier: 549300ZOZNY8CER0YP19

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?	
<input checked="" type="radio"/> <input type="checkbox"/> Yes	<input checked="" type="radio"/> <input type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ____% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy 	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ____% of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ____%	<input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

Sustainability indicators

measure how the environmental or social characteristics promoted by the financial product are attained.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and social factors promoted by the Fund are those which contribute to the R-Factor™ scores applied to index constituents including the Bloomberg SASB Scored Euro Corporate 0-3 year Ex-Controversies Select Index (the "Index"), which are a function of an assessment and rating by the Index provider of various environmental, social and governance characteristics for companies in the index universe.

In addition, the Index excludes issuers that are tagged with extreme event controversies, controversial weapons, United Nations Global Compact principles ("UNGC") violations, civilian firearms, thermal coal extraction and tobacco companies.

The Fund seeks to track the Index with a potential variation of up to 1% annually under normal market conditions. The 1 year tracking error as of 31 March 2025 was 0.04%. The Fund's tracking error is in line with expectations.

How did the sustainability indicators perform?

The following table provides information on the performance of the sustainability indicators in the period.

Climate Metric	Year-end value
Brown Revenues	3.89%
Potential Emissions (ktCO2-eq per \$mn invested)	0.47%
Green Bonds	9.82%
Carbon Risk Rating	56.99
Implied Temperature Rise (°C)	1.97

...and compared to previous periods?

The measurement of the attainment of the environmental and social characteristics promoted by the Fund has not changed from the previous period.

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

The Fund does not commit to making sustainable investments within the meaning of the SFDR or the Taxonomy Regulation.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The Fund does not commit to investing in sustainable investments.

— How were the indicators for adverse impacts on sustainability factors taken into account?

N/A

— Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

N/A

Principal adverse impacts

are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Fund pursued a reduction of negative externalities caused by the underlying investments and in that context considered Principal Adverse Impacts (“PAI”) on sustainability factors in the application of the Index exclusions. Specifically, the Index considered

- Violations of UN Global Compact Principles
- Exposure to controversial weapons

What were the top investments of this financial product?

Largest investments	Sector	% Assets	Country
BANCO SANTANDER SA	BANKING	0.68%	SPAIN
GENERALI	INSURANCE	0.64%	ITALY
KBC GROUP NV	BANKING	0.63%	BELGIUM
PERNOD RICARD SA	CONSUMER_NON_CYCLICAL	0.63%	FRANCE
INMOBILIARIA COLONIAL SO	REITS	0.63%	SPAIN
BANCO BILBAO VIZCAYA ARG	BANKING	0.63%	SPAIN
INTESA SANPAOLO SPA	BANKING	0.63%	ITALY
ING BANK NV	BANKING	0.62%	NETHERLANDS (THE)
SIEMENS FINANCIERINGSMAT	CAPITAL_GOODS	0.62%	NETHERLANDS (THE)
TELEPERFORMANCE	TECHNOLOGY	0.62%	FRANCE

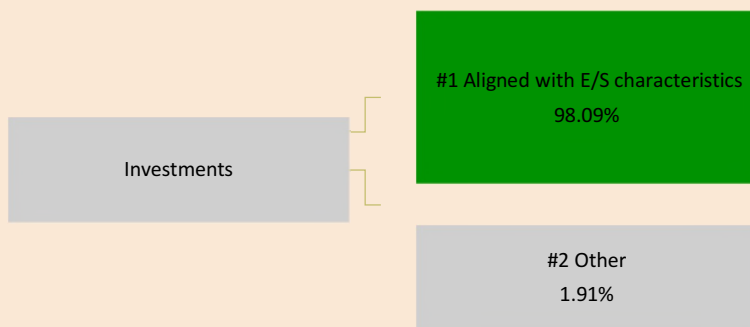

What was the proportion of sustainability-related investments?

See below – The Fund does not commit to making sustainable investments within the meaning of the SFDR or the Taxonomy Regulation.

Asset allocation describes the share of investments in specific assets.

● What was the asset allocation?

98.09% of the Fund's assets were invested in securities which are #1 Aligned with the environmental and social characteristics as outlined in the table below. 1.91% of the assets, consisting of cash as well as cash equivalents were classified under #2 Other in the below table and will not be aligned with the promoted environmental and social characteristics.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste arrangement rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The Fund does not currently commit to investing in any “environmentally sustainable investment” within the meaning of the Taxonomy Regulation.

Did the financial product invest in fossil gas and/or nuclear energy related activities that comply with the EU Taxonomy¹

Yes:

In fossil gas

In nuclear energy

No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective – see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

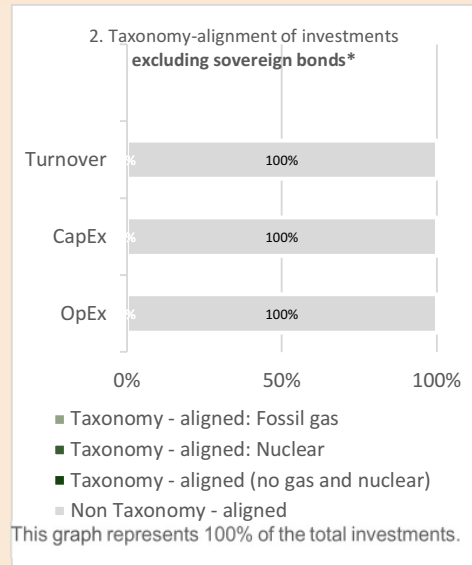

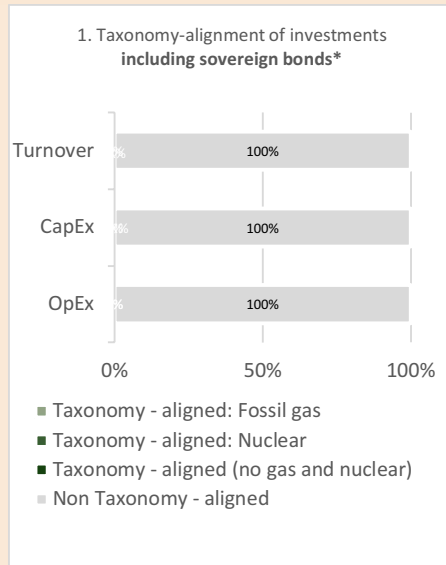

Taxonomy-aligned activities are expressed as a share of:

-turnover reflecting the share of revenue from green activities of investee companies.

-capital expenditure (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.

-operational expenditure (OpEx) reflecting the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

● **What was the share of investments made in transitional and enabling activities?**

As the Fund does not commit to invest any “environmentally sustainable investment” within the meaning of the Taxonomy Regulation, the minimum share of investments in transitional and enabling activities within the meaning of the Taxonomy Regulation is therefore also set at 0%.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

The percentage of investments that were aligned with the EU Taxonomy did not change compared with previous reference periods.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The Fund promotes environmental and social characteristics but does not commit to making any environmentally sustainable investments. As a consequence, the Fund does not commit to a minimum share of sustainable investments with an environmental objective that are not aligned with the EU Taxonomy.

What was the share of socially sustainable investments?

N/A

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The Fund held 1.91% of its assets in cash or cash equivalents, including financial derivative instruments employed for efficient portfolio management, hedging or liquidity management purposes, at the Investment Manager’s discretion, which would be classified under #2 Other in the above table. Given the nature of cash or cash equivalents or including financial derivative instruments employed for efficient portfolio management, hedging or liquidity management purposes, such assets will not be aligned with environmental and social characteristics nor will there be any environmental or social safeguards in place.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Fund tracks the performance of the Index (or any other index determined by the Directors from time to time to track substantially the same market as the Index) as closely as possible, while seeking to minimise as far as possible the tracking difference between the Fund’s performance and that of the Index.

The investment policy of the Fund is to track the performance of the Index. At least 90% of the Fund’s assets are invested in securities that are constituents of the Index, while the Index provider applies ESG ratings on all the Index constituents. Environmental and social characteristics are promoted via the adoption of screens to exclude securities related to certain sectors, companies or practices, based on specific ESG criteria, and best in class based on ESG performance relative to investment universes and/or industry peers when assessed against objective criteria within the Index.

The Index methodology provides for monthly review and rebalance.

Companies deemed not in violation by the Index provider of the UNGC principles are considered to exhibit good governance. For information on the methodologies used in the construction of the Index and further information on the exclusion criteria and data sources, please refer to Bloomberg’s index methodology description which can be found at the following link: <https://www.bloomberg.com/professional/product/indices/bloomberg-barclays-indices>

How did this financial product perform compared to the reference benchmark?

The following table provides information on the performance financial product compared to the reference benchmark in the period.

Climate Metric	Fund year-end value	Reference benchmark year-end value	Difference
Brown Revenues	3.89%	3.98%	-0.08%
Potential Emissions (ktCO2-eq per \$mn invested)	0.47%	0.47	0.00
Green Bonds	9.82%	9.56%	0.26%
Carbon Risk Rating	56.99	57.01	-0.03

Implied Temperature Rise (°C)	1.97	1.95	0.02
-------------------------------	------	------	------

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

● **How does the reference benchmark differ from a broad market index?**

The Index is based on the Bloomberg Euro Corporate 0-3 Year Index, its parent index which captures market performance of the short-dated, fixed-rate, investment-grade Euro-denominated corporate bond market.

The Fund's reference benchmark (i.e., Bloomberg SASB Scored Euro Corporate 0-3 year Ex-Controversies Select Index) is an investment grade, fixed-rate, Euro denominated benchmark that optimizes its R-Factor™ score, an environmental, social and governance ("ESG") rating, provided by State Street Global Advisors®. The Index selects securities eligible for the Euro Corporate Index, then aims to exclude certain issuers based on their ESG characteristics considering both their ESG rating and their involvement in certain controversial business activities as outlined in the Index methodology.

● **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**

The Index methodology provides for monthly review and rebalance.

The investment policy of the Fund is to track the performance of the Index. At least 90% of the Fund's assets are invested in securities that are constituents of the Index, while the Index provider applies ESG ratings on all the Index constituents.

Environmental and social characteristics are promoted via the adoption of screens to exclude securities related to certain sectors, companies or practices, based on specific ESG criteria, and best in class based on ESG performance relative to investment universes and/or industry peers when assessed against objective criteria within the Index. In addition, the Index excludes issuers that are tagged with extreme event controversies, controversial weapons, United Nations Global Compact principles ("UNGC") violations, civilian firearms, thermal coal extraction and tobacco companies.

● **How did this financial product perform compared with the broad market index?**

The Fund returned 4.56% on a gross of fees basis, underperforming the broad market index performance of 5.02% by 46 basis points. The Fund returned 4.32% on a net of fees basis during the Reporting Period. The investment policy of the Fund is to track the performance of the Index as closely as possible while seeking to minimise as far as possible the tracking difference between the Sub-Fund's performance and that of the Index. It is not expected that the Fund will track the broad market index.

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Product name: SPDR Bloomberg U.S. Corporate Scored UCITS ETF (the "Fund")
Legal entity identifier: 549300D9O5F5P2DTYB19

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

<input checked="" type="radio"/> <input type="checkbox"/> Yes	<input checked="" type="radio"/> <input type="radio"/> <input checked="" type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ____% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> It made sustainable investments with a social objective: ____%	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ____% of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective <input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

Sustainability indicators

measure how the environmental or social characteristics promoted by the financial product are attained.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and social factors promoted by the Fund are those which contribute to the R-Factor™ scores applied to index constituents including the Bloomberg SASB Scored US Corporate Ex-Controversies Select Index (the "Index"), which are a function of an assessment and rating by the Index provider of various environmental, social and governance characteristics for companies in the index universe.

In addition, the Index excludes issuers that are tagged with extreme event controversies, controversial weapons, United Nations Global Compact principles ("UNGC") violations, civilian firearms, thermal coal extraction and tobacco companies.

The Fund seeks to track the Index with a potential variation of up to 1% annually under normal market conditions. The 1 year tracking error as of 31 March 2025 was 0.06%. The Fund's tracking error is in line with expectations.

How did the sustainability indicators perform?

Climate Metric	Year-end value
Brown Revenues	5.17%
Potential Emissions (ktCO2-eq per \$mn invested)	0.23
Green Bonds	3.14%
Carbon Risk Rating	60.94
Implied Temperature Rise (°C)	2.12

...and compared to previous periods?

The measurement of the attainment of the environmental and social characteristics promoted by the Fund has not changed from the previous period.

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

The Fund does not commit to making sustainable investments within the meaning of the SFDR or the Taxonomy Regulation.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The Fund does not commit to investing in sustainable investments.

— How were the indicators for adverse impacts on sustainability factors taken into account?

N/A

— Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

N/A

Principal adverse impacts

are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Fund pursued a reduction of negative externalities caused by the underlying investments and in that context considered Principal Adverse Impacts (“PAI”) on sustainability factors in the application of the Index exclusions. Specifically, the Index considered

- Violations of UN Global Compact Principles
- Exposure to controversial weapons

What was the proportion of sustainability-related investments?

See below – The Fund does not commit to making sustainable investments within the meaning of the SFDR or the Taxonomy Regulation.

● What was the asset allocation?

99.49% of the Fund's assets were invested in securities which are #1 Aligned with the environmental and social characteristics as outlined in the table below. 0.51% of the assets, consisting of cash as well as cash equivalents were classified under #2 Other in the below table and will not be aligned with the promoted environmental and social characteristics.

Asset allocation describes the share of investments in specific assets.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The Fund does not currently commit to investing in any “environmentally sustainable investment” within the meaning of the Taxonomy Regulation.

Did the financial product invest in fossil gas and/or nuclear energy related activities that comply with the EU Taxonomy¹

Yes:

In fossil gas

In nuclear energy

No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective – see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

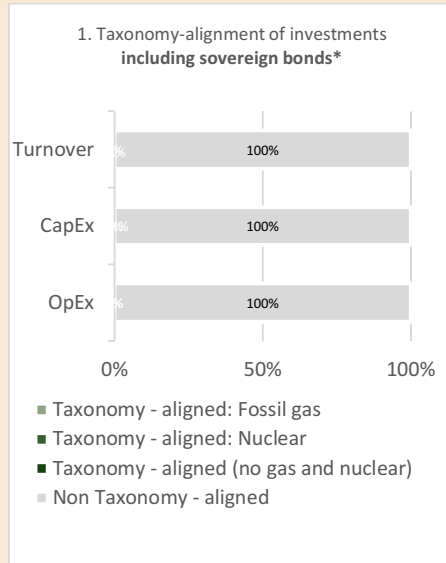

Taxonomy-aligned activities are expressed as a share of:

-turnover reflecting the share of revenue from green activities of investee companies.

-capital expenditure (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.

-operational expenditure (OpEx) reflecting the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

● **What was the share of investments made in transitional and enabling activities?**

As the Fund does not commit to invest any “environmentally sustainable investment” within the meaning of the Taxonomy Regulation, the minimum share of investments in transitional and enabling activities within the meaning of the Taxonomy Regulation is therefore also set at 0%.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

The percentage of investments that were aligned with the EU Taxonomy did not change compared with previous reference periods.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The Fund promotes environmental and social characteristics but does not commit to making any environmentally sustainable investments. As a consequence, the Fund does not commit to a minimum share of sustainable investments with an environmental objective that are not aligned with the EU Taxonomy.

What was the share of socially sustainable investments?

N/A

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The Fund held 0.51% of its assets in cash or cash equivalents, including financial derivative instruments employed for efficient portfolio management, hedging or liquidity management purposes, at the Investment Manager’s discretion, which would be classified under #2 Other in the above table. Given the nature of cash or cash equivalents or including financial derivative instruments employed for efficient portfolio management, hedging or liquidity management purposes, such assets will not be aligned with environmental and social characteristics nor will there be any environmental or social safeguards in place.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Fund tracks the performance of the Index (or any other index determined by the Directors from time to time to track substantially the same market as the Index) as closely as possible, while seeking to minimise as far as possible the tracking difference between the Fund’s performance and that of the Index.

The investment policy of the Fund is to track the performance of the Index. At least 90% of the Fund’s assets are invested in securities that are constituents of the Index, while the Index provider applies ESG ratings on all the Index constituents.

Environmental and social characteristics are promoted via the adoption of screens to exclude securities related to certain sectors, companies or practices, based on specific ESG criteria, and best in class based on ESG performance relative to investment universes and/or industry peers when assessed against objective criteria within the Index.

The Index methodology provides for monthly review and rebalance.

Companies deemed not in violation by the Index provider of the UNGC principles are considered to exhibit good governance. For information on the methodologies used in the construction of the Index and further information on the exclusion criteria and data sources, please refer to Bloomberg’s index methodology description which can be found at the following link:

What was the proportion of sustainability-related investments?

See below – The Fund does not commit to making sustainable investments within the meaning of the SFDR or the Taxonomy Regulation.

Asset allocation describes the share of investments in specific assets.

● What was the asset allocation?

99.05% of the Fund's assets were invested in securities which are #1 Aligned with the environmental and social characteristics as outlined in the table below. 0.95% of the assets, consisting of cash as well as cash equivalents were classified under #2 Other in the below table and will not be aligned with the promoted environmental and social characteristics.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

In which economic sectors were the investments made?

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The Fund does not currently commit to investing in any “environmentally sustainable investment” within the meaning of the Taxonomy Regulation.

Did the financial product invest in fossil gas and/or nuclear energy related activities that comply with the EU Taxonomy¹

Yes:

In fossil gas

In nuclear energy

No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective – see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

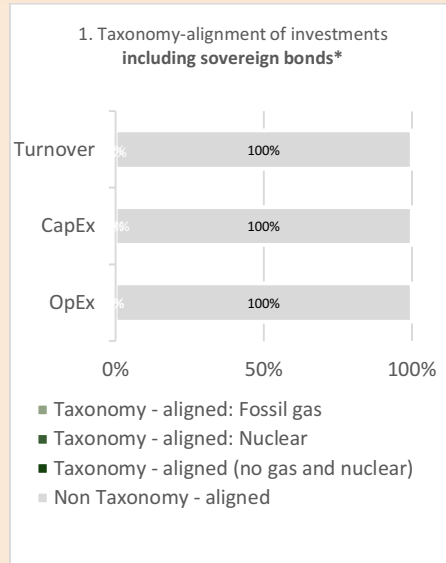

Taxonomy-aligned activities are expressed as a share of:

-turnover reflecting the share of revenue from green activities of investee companies.

-capital expenditure (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.

-operational expenditure (OpEx) reflecting the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

● **What was the share of investments made in transitional and enabling activities?**

As the Fund does not commit to invest any “environmentally sustainable investment” within the meaning of the Taxonomy Regulation, the minimum share of investments in transitional and enabling activities within the meaning of the Taxonomy Regulation is therefore also set at 0%.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

The percentage of investments that were aligned with the EU Taxonomy did not change compared with previous reference periods.

● **What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

The Fund promotes environmental and social characteristics but does not commit to making any environmentally sustainable investments. As a consequence, the Fund does not commit to a minimum share of sustainable investments with an environmental objective that are not aligned with the EU Taxonomy.

What was the share of socially sustainable investments?

N/A

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The Fund held 0.95% of its assets in cash or cash equivalents, including financial derivative instruments employed for efficient portfolio management, hedging or liquidity management purposes, at the Investment Manager’s discretion, which would be classified under #2 Other in the above table. Given the nature of cash or cash equivalents or including financial derivative instruments employed for efficient portfolio management, hedging or liquidity management purposes, such assets will not be aligned with environmental and social characteristics nor will there be any environmental or social safeguards in place.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Fund tracks the performance of the Index (or any other index determined by the Directors from time to time to track substantially the same market as the Index) as closely as possible, while seeking to minimise as far as possible the tracking difference between the Fund’s performance and that of the Index.

The investment policy of the Fund is to track the performance of the Index. At least 90% of the Fund’s assets are invested in securities that are constituents of the Index, while the Index provider applies ESG ratings on all the Index constituents.

Environmental and social characteristics are promoted via the adoption of screens to exclude securities related to certain sectors, companies or practices, based on specific ESG criteria, and best in class based on ESG performance relative to investment universes and/or industry peers when assessed against objective criteria within the Index.

The Index methodology provides for monthly review and rebalance.

Companies deemed not in violation by the Index provider of the UNGC principles are considered to exhibit good governance. For information on the methodologies used in the construction of the Index and further information on the exclusion criteria and data sources, please refer to Bloomberg’s index methodology description which can be found at the following link:

<https://www.bloomberg.com/professional/product/indices/bloomberg-barclays-indices>

How did this financial product perform compared to the reference benchmark?

The following table provides information on the performance financial product compared to the reference benchmark in the period.

Climate Metric	Fund year-end value	Reference benchmark year-end value	Difference
Brown Revenues	8.87%	7.80%	1.07%
Potential Emissions (ktCO ₂ -eq per \$mn invested)	1.37	0.74	0.62
Green Bonds	0.94%	1.00	-0.06%
Carbon Risk Rating	50.09	50.14	-0.04
Implied Temperature Rise (°C)	3.00	2.87	0.13

● **How does the reference benchmark differ from a broad market index?**

The Index is based on the Bloomberg US Corporate High Yield Bond Index, its parent index which captures market performance of the fixed-rate, US dollar-denominated high yield bond market.

The Fund's reference benchmark (i.e., Bloomberg SASB Scored US Corporate High Yield Ex-Controversies Select Index) is a fixed-rate, U.S. Dollar denominated benchmark that optimizes its R-Factor™ score, an environmental, social and governance ("ESG") rating, provided by State Street Global Advisors®. The Index selects securities eligible for the Bloomberg US Corporate High Yield Bond Index, then aims to exclude certain issuers based on their ESG characteristics considering both their ESG rating and their involvement in certain controversial business activities as outlined in the Index methodology.

● **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**

The Index methodology provides for monthly review and rebalance.

The investment policy of the Fund is to track the performance of the Index. At least 90% of the Fund's assets are invested in securities that are constituents of the Index, while the Index provider applies ESG ratings on all the Index constituents.

Environmental and social characteristics are promoted via the adoption of screens to exclude securities related to certain sectors, companies or practices, based on specific ESG criteria, and best in class based on ESG performance relative to investment universes and/or industry peers when assessed against objective criteria within the Index.

In addition, the Index excludes issuers that are tagged with extreme event controversies, controversial weapons, United Nations Global Compact principles ("UNGC") violations, civilian firearms, thermal coal extraction and tobacco companies.

● **How did this financial product perform compared with the broad market index?**

The Fund returned 9.29% on a gross of fees basis, outperforming the broad market index performance of 7.67% by 162 basis points. The Fund returned 8.96% on a net of fees basis during the Reporting Period. The investment policy of the Fund is to track the performance of the Index as closely as

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

possible while seeking to minimise as far as possible the tracking difference between the Sub-Fund's performance and that of the Index. It is not expected that the Fund will track the broad market index.

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Product name: SPDR S&P 500 Leaders UCITS ETF 5493003SR7FPZA8MG346 (the "Fund") **Legal entity identifier:**

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes
 No

<input type="checkbox"/> It made sustainable investments with an environmental objective: ____% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> It made sustainable investments with a social objective: ____%	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ____% of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective <input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments
---	--

Sustainability indicators

measure how the environmental or social characteristics promoted by the financial product are attained.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and social factors promoted by the Fund are those which contribute to the S&P DJI ESG scores, which are a function of an assessment and rating by the provider of the S&P 500 Scored & Screened Leaders Index (the "Index"), of various environmental, social and governance characteristics for companies in the index universe.

For more information on S&P DJI ESG scores, please refer to the S&P DJI ESG Scores Methodology:

https://portal.s1.spglobal.com/survey/documents/spglobal_esg_scores_methodology.pdf. In addition, the index excludes securities based on their ESG characteristics, considering both their ESG rating and their involvement in certain controversial business activities as outlined in the Index methodology.

The Fund seeks to track the Index with a potential variation of up to 1% annually under normal market conditions. The 1 year tracking error as of 31 March 2025 was 0.02%. The Fund's tracking error is in line with expectations.

How did the sustainability indicators perform?

The following table provides information on the performance of the sustainability indicators in the period.

Climate Metric	Year-end value
Green Revenues	14.31%
Brown Revenues	4.27%
Potential Emissions (ktCO2-eq per \$mn invested)	0.36
Carbon Risk Rating	68.04
Implied Temperature Rise (°C)	2.61

...and compared to previous periods?

The measurement of the attainment of the environmental and social characteristics promoted by the Fund has not changed from the previous period.

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

The Fund does not commit to making sustainable investments within the meaning of the SFDR or the Taxonomy Regulation.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The Fund does not commit to investing in sustainable investments.

How were the indicators for adverse impacts on sustainability factors taken into account?

N/A

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters,

respect for human rights, anti-corruption and anti-bribery matters.

— Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

N/A

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Fund pursued a reduction of negative externalities caused by the underlying investments and in that context considered Principal Adverse Impacts (“PAI”) on sustainability factors in the application of the Index exclusions. Specifically, the Index considered

- Violations of UN Global Compact Principles
- Exposure to controversial weapons

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The Fund does not currently commit to investing in any 'environmentally sustainable investment' within the meaning of the Taxonomy Regulation.

Did the financial product invest in fossil gas and/or nuclear energy related activities that comply with the EU Taxonomy¹

Yes:

In fossil gas In nuclear energy

No

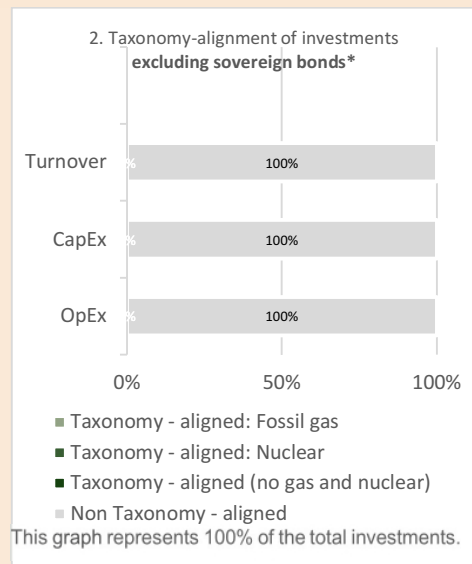

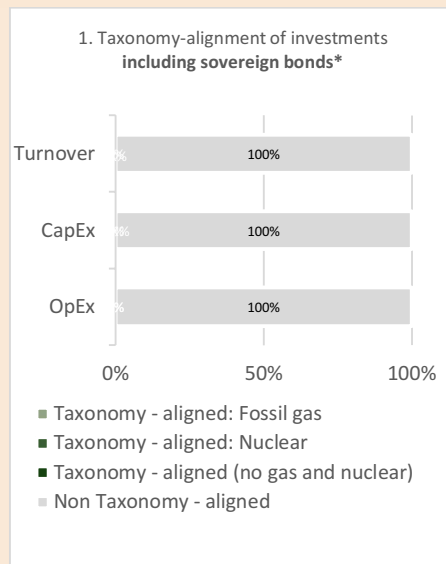

Taxonomy-aligned activities are expressed as a share of:

-turnover reflecting the share of revenue from green activities of investee companies.

-capital expenditure (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.

-operational expenditure (OpEx) reflecting the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective – see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under Regulation (EU) 2020/852.

● **What was the share of investments made in transitional and enabling activities?**

As the Fund does not commit to invest any “environmentally sustainable investment” within the meaning of the Taxonomy Regulation, the minimum share of investments in transitional and enabling activities within the meaning of the Taxonomy Regulation is therefore also set at 0%.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

The percentage of investments that were aligned with the EU Taxonomy did not change compared with previous reference periods.

● **What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

The Fund promotes environmental and social characteristics but does not commit to making any environmentally sustainable investments. As a consequence, the Fund does not commit to a minimum share of sustainable investments with an environmental objective that are not aligned with the EU Taxonomy.

● **What was the share of socially sustainable investments?**

N/A

● **What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?**

The Fund held 0.18% of its assets in cash or cash equivalents, including financial derivative instruments employed for efficient portfolio management, hedging or liquidity management purposes, at the Investment Manager’s discretion, which would be classified under #2 Other in the above table. Given the nature of cash or cash equivalents or including financial derivative instruments employed for efficient portfolio management, hedging or liquidity management purposes, such assets will not be aligned with environmental and social characteristics nor will there be any environmental or social safeguards in place.

● **What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

The environmental and social factors promoted by the Fund are those which contribute to the S&P DJI ESG scores, which are a function of an assessment and rating by the provider of the Index, of various environmental, social and governance characteristics for companies in the index universe. For more information on S&P DJI ESG scores, please refer to the S&P DJI ESG Scores Methodology: https://portal.s1.spglobal.com/survey/documents/spglobal_esg_scores_methodology.pdf. In addition, the index excludes securities based on their ESG characteristics, considering both their ESG rating and their involvement in certain controversial business activities as outlined in the Index methodology.

The investment policy of the Fund is to track the performance of the Index. At least 90% of the Fund’s assets are invested in securities that are constituents of

the Index and aligned with environmental and / or social characteristics, while the Index provider applies ESG ratings on all the Index constituents.

The Index methodology provides for ongoing review and annual rebalance, at which time the Standard Index is screened for the ESG exclusions criteria outlined above.

Companies deemed by the Index provider to be compliant with the United Nations Global Compact are considered to exhibit good governance.

For more information, please refer to the index methodology:

<https://www.spglobal.com/spdji/en/methodology/article/sp-scored-screened-leaders-indices-methodology/>

How did this financial product perform compared to the reference benchmark?

The following table provides information on the performance financial product compared to the reference benchmark in the period.

Climate Metric	Fund year-end value	Reference benchmark year-end value	Difference
Green Revenues	14.31%	14.31%	0.00%
Brown Revenues	4.27%	4.27%	0.00%
Potential Emissions (ktCO ₂ -eq per \$mn invested)	0.36	0.36	0.00
Carbon Risk Rating	68.04	68.04	0.00
Implied Temperature Rise (°C)	2.61	2.61	0.00

● **How does the reference benchmark differ from a broad market index?**

The Index is based on the S&P 500 Index, its parent index which captures of the top 500 companies in the U.S. equity market by market capitalisation.

The Fund's reference benchmark (i.e., S&P 500 Scored & Screened Leaders Index) aims to reflect the performance of a sub-set of equity securities of companies within the parent index while excluding securities based on their ESG characteristics, considering both their ESG rating and their involvement in certain controversial business activities as outlined in the Index methodology.

● **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**

The Index methodology provides for ongoing review and annual rebalance, at which time the Standard Index is screened for the ESG exclusions criteria outlined above.

The investment policy of the Fund is to track the performance of the Index. At least 90% of the Fund's assets are invested in securities that are constituents of the Index and aligned with environmental and / or social characteristics, while the Index provider applies ESG ratings on all the Index

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social

characteristics that they promote.

constituents. the index excludes securities based on their ESG characteristics, considering both their ESG rating and their involvement in certain controversial business activities as outlined in the Index methodology.

● ***How did this financial product perform compared with the broad market index?***

The Fund returned 6.55% on a gross of fees basis, underperforming the broad market index performance of 7.82% by 1.27%. The Fund returned 6.52% on a net of fees basis during the Reporting Period. The investment policy of the Fund is to track the performance of the Index as closely as possible while seeking to minimise as far as possible the tracking difference between the Sub-Fund's performance and that of the Index. It is not expected that the Fund will track the broad market index.

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The SPDR S&P Euro Dividend Aristocrats Screened UCITS ETF is an index fund tracking the performance of the S&P Euro High Yield Dividend Aristocrats Screened Index (the "Index"). The Index has been designated for the purpose of attaining the environmental and social characteristics promoted by the Fund. The Index represents the performance of certain high dividend-yielding equity securities issued by companies from within the Eurozone while excluding certain stocks based on their ESG characteristics considering both their ESG rating, and their involvement in certain controversial business activities as outlined in the Index methodology.

The Fund seeks to track the Index with a potential variation of up to 1% annually under normal market conditions. The 1 year tracking error as of 31 March 2025 was 0.23%. The Fund's tracking error is in line with expectations.

How did the sustainability indicators perform?

The following table provides information on the performance of the sustainability indicators in the period.

Climate Metric	Year-end value
Green Revenues	6.36%
Brown Revenues	2.82%
Potential Emissions (ktCO2-eq per \$mn invested)	0.00
Carbon Risk Rating	64.45
Implied Temperature Rise (°C)	1.57

...and compared to previous periods?

The measurement of the attainment of the environmental and social characteristics promoted by the Fund has not changed from the previous period.

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

The Fund does not commit to making sustainable investments within the meaning of the SFDR or the Taxonomy Regulation.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The Fund does not commit to investing in sustainable investments.

— How were the indicators for adverse impacts on sustainability factors taken into account?

N/A

— Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

N/A

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Fund pursued a reduction of negative externalities caused by the underlying investments and in that context considered Principal Adverse Impacts (“PAI”) on sustainability factors in the application of the Index exclusions. Specifically, the Index considered

- Violations of UN Global Compact Principles
- Exposure to controversial weapons

What were the top investments of this financial product?

Largest investments	Sector	% Assets	Country
ALLIANZ SE REG	FINANCIALS	5.15%	GERMANY

What was the proportion of sustainability-related investments?

See below – The Fund does not commit to making sustainable investments within the meaning of the SFDR or the Taxonomy Regulation.

Asset allocation describes the share of investments in specific assets.

● What was the asset allocation?

99.33% of the Fund's assets were invested in securities which are #1 Aligned with the environmental and social characteristics as outlined in the table below. 0.67% of the assets, consisting of cash as well as cash equivalents were classified under #2 Other in the below table and will not be aligned with the promoted environmental and social characteristics.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

In which economic sectors were the investments made?

CONSTRUCTION MATERIALS	1.29%
CONTAINERS & PACKAGING	0.97%
PAPER & FOREST PRODUCTS	4.58%
CONSUMER STAPLES	7.89%

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste arrangement rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

CONSUMER STAPLES DISTRIBUTION & RETAIL	3.48%
FOOD PRODUCTS	1.85%

INDUSTRIAL REITS	1.13%
CONSUMER DISCRETIONARY	0.64%
TEXTILES, APPAREL & LUXURY GOODS	0.64%

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The Fund does not currently commit to investing in any 'environmentally sustainable investment' within the meaning of the Taxonomy Regulation.

Did the financial product invest in fossil gas and/or nuclear energy related activities that comply with the EU Taxonomy¹

Yes:

In fossil gas

In nuclear energy

No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective – see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

-turnover reflecting the share of revenue from green activities of investee companies.

-capital expenditure (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.

-operational expenditure (OpEx) reflecting the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of investments made in transitional and enabling activities?

As the Fund does not commit to invest any “environmentally sustainable investment” within the meaning of the Taxonomy Regulation, the minimum share of investments in transitional and enabling activities within the meaning of the Taxonomy Regulation is therefore also set at 0%.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

The percentage of investments that were aligned with the EU Taxonomy did not change compared with previous reference periods.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The Fund promotes environmental and social characteristics but does not commit to making any environmentally sustainable investments. As a consequence, the Fund does not commit to a minimum share of sustainable investments with an environmental objective that are not aligned with the EU Taxonomy.

What was the share of socially sustainable investments?

N/A

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The Fund held 0.67% of its assets in cash or cash equivalents, including financial derivative instruments employed for efficient portfolio management, hedging or liquidity management purposes, at the Investment Manager's discretion, which would be classified under #2 Other in the above table. Given the nature of cash or cash equivalents or including financial derivative instruments employed for efficient portfolio management, hedging or liquidity management purposes, such assets will not be aligned with environmental and social characteristics nor will there be any environmental or social safeguards in place.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Fund is an index fund tracking the performance of the Index. The Index has been designated for the purpose of attaining the environmental and social characteristics promoted by the Fund. The Index represents the performance of certain high dividend-yielding equity securities issued by companies from within the Eurozone while excluding certain stocks based on their ESG characteristics considering both their ESG rating, and their involvement in certain controversial business activities as outlined in the Index methodology.

The investment policy of the Fund is to track the performance of the Index. At least 90% of the Fund's assets are invested in securities that are constituents of the Index and aligned with environmental and / or social characteristics, while the Index provider applies ESG ratings on all the Index constituents.

The Index excludes at least 20% of the least well-rated securities compared to the Standard Index universe, so it is therefore expected that the Fund's resulting ESG rating will be higher than the ESG rating of a fund tracking the Standard Index.

The Index methodology provides for quarterly review and rebalance.

Companies deemed not in violation by the Index provider of the UNGC principles are considered to exhibit good governance. For information on the methodologies used in the construction of the Index and further information on the exclusion criteria and data sources, please refer to S&P's index methodology description which can be found at the following link: <https://www.spglobal.com/spdji/en/methodology/article/sp-dividend-aristocrats-screened-indices-methodology/>

How did this financial product perform compared to the reference benchmark?

The following table provides information on the performance financial product compared to the reference benchmark in the period.

Climate Metric	Fund year-end value	Reference benchmark year-end value	Difference
Green Revenues	6.36%	6.36%	0.00%
Brown Revenues	2.82%	2.82%	0.00%
Potential Emissions	0.00	0.00	0.00

Carbon Risk Rating	64.45	64.45	0.00
Implied Temperature Rise (°C)	1.57	1.57	0.00

● **How does the reference benchmark differ from a broad market index?**

The Index is based on the S&P Euro High Yield Dividend Aristocrats Index, its parent index which measures the performance of certain high dividend-yielding equity securities issued by companies from within the Eurozone.

The Fund's reference benchmark (i.e., S&P Euro High Yield Dividend Aristocrats Screened Index) measures the performance of high dividend-yielding equity securities issued by companies from within the Eurozone that meet the eligibility criteria defined in the S&P Euro High Yield Dividend Aristocrats Index, "the Standard Index". In addition, the Index aims to exclude certain stocks based on their ESG characteristics considering both their ESG rating, and their involvement in certain controversial business activities as outlined in the index methodology. The remaining securities are then weighted according to the size of their dividend.

● **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**

The Index methodology provides for quarterly review and rebalance.

The investment policy of the Fund is to track the performance of the Index. At least 90% of the Fund's assets are invested in securities that are constituents of the Index and aligned with environmental and / or social characteristics, while the Index provider applies ESG ratings on all the Index constituents.

The Index excludes at least 20% of the least well-rated securities compared to the Standard Index universe, so it is therefore expected that the Fund's resulting ESG rating will be higher than the ESG rating of a fund tracking the Standard Index.

● **How did this financial product perform compared with the broad market index?**

The Fund returned 15.49% on a gross of fees basis, outperforming the broad market index performance of 13.38% by 2.11%. The Fund returned 15.15% on a net of fees basis during the Reporting Period. The investment policy of the Fund is to track the performance of the Index as closely as possible while seeking to minimise as far as possible the tracking difference between the Sub-Fund's performance and that of the Index. It is not expected that the Fund will track the broad market index.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators

measure how the environmental or social characteristics promoted by the financial product are attained.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The SPDR S&P Global Dividend Aristocrats ESG UCITS ETF is an index fund tracking the performance of the S&P Global Dividend Aristocrats Screened Quality Income Index (the "Index"). The Index has been designated for the purpose of attaining the environmental and social characteristics promoted by the Fund. The Index represents the performance of certain high-yielding stocks from developed and emerging markets around the world while excluding certain stocks based on their ESG characteristics considering both their ESG rating, and their involvement in certain controversial business activities as outlined in the Index methodology.

The Fund seeks to track the Index with a potential variation of up to 1% annually under normal market conditions. The 1 year tracking error as of 31 March 2025 was 0.14%. The Fund's tracking error is in line with expectations.

● **How did the sustainability indicators perform?**

The following table provides information on the performance of the sustainability indicators in the period.

Climate Metric	Year-end value
Green Revenues	6.33%
Brown Revenues	16.64%
Potential Emissions (ktCO ₂ -eq per \$mn invested)	0.25
Carbon Risk Rating	54.33
Implied Temperature Rise (°C)	2.46

● **...and compared to previous periods?**

The measurement of the attainment of the environmental and social characteristics promoted by the Fund has not changed from the previous period.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

The Fund does not commit to making sustainable investments within the meaning of the SFDR or the Taxonomy Regulation.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

The Fund does not commit to investing in sustainable investments.

— How were the indicators for adverse impacts on sustainability factors taken into account?

N/A

— Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Sustainability indicators

measure how the environmental or social characteristics promoted by the financial product are attained.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The SPDR S&P U.S. Dividend Aristocrats ESG UCITS ETF is an index fund tracking the performance of the S&P High Yield Dividend Aristocrats Screened Index (the "Index"). The Index has been designated for the purpose of attaining the environmental and social characteristics promoted by the Fund. The Index represents the performance of certain high-yielding stocks from the U.S. equity market while excluding certain stocks based on their ESG characteristics considering both their ESG rating, and their involvement in certain controversial business activities as outlined in the Index methodology.

The Fund seeks to track the Index with a potential variation of up to 1% annually under normal market conditions. The 1 year tracking error as of 31 March 2025 was 0.06%. The Fund's tracking error is in line with expectations.

● **How did the sustainability indicators perform?**

The following table provides information on the performance of the sustainability indicators in the period.

Climate Metric	Year-end value
Green Revenues	4.26%
Brown Revenues	13.94%
Potential Emissions (ktCO ₂ -eq per \$mn invested)	1.09
Carbon Risk Rating	52.98
Implied Temperature Rise (°C)	2.47

● **...and compared to previous periods?**

The measurement of the attainment of the environmental and social characteristics promoted by the Fund has not changed from the previous period.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

The Fund does not commit to making sustainable investments within the meaning of the SFDR or the Taxonomy Regulation.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

The Fund does not commit to investing in sustainable investments.

— How were the indicators for adverse impacts on sustainability factors taken into account?

N/A

— Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

N/A

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Fund pursued a reduction of negative externalities caused by the underlying investments and in that context considered Principal Adverse Impacts (“PAI”) on sustainability factors in the application of the Index exclusions. Specifically, the Index considered

- Violations of UN Global Compact Principles
- Exposure to controversial weapons

What were the top investments of this financial product?

Largest investments	Sector	% Assets	Country
BEST BUY CO INC	CONSUMER DISCRETIONARY	2.90%	UNITED STATES OF AMERICA (THE)
T ROWE PRICE GROUP INC	FINANCIALS	2.53%	UNITED STATES OF AMERICA (THE)

What was the proportion of sustainability-related investments?

See below – The Fund does not commit to making sustainable investments within the meaning of the SFDR or the Taxonomy Regulation.

Asset allocation describes the share of investments in specific assets.

● What was the asset allocation?

99.65% of the Fund's assets were invested in securities which are #1 Aligned with the environmental and social characteristics as outlined in the table below. 0.35% of the assets, consisting of cash as well as cash equivalents were classified under #2 Other in the below table and will not be aligned with the promoted environmental and social characteristics.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

In which economic sectors were the investments made?

Sector / Sub-sector	% Allocation
CONSUMER STAPLES	18.78%
BEVERAGES	3.58%

DISTRIBUTORS	1.18%

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste arrangement rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

HOTELS, RESTAURANTS & LEISURE	1.01%

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The Fund does not currently commit to investing in any 'environmentally sustainable investment' within the meaning of the Taxonomy Regulation.

Did the financial product invest in fossil gas and/or nuclear energy related activities that comply with the EU Taxonomy¹

Yes:

In fossil gas

In nuclear energy

No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective – see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

-turnover reflecting the share of revenue from green activities of investee companies.

-capital expenditure (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.

-operational expenditure (OpEx) reflecting the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

● **What was the share of investments made in transitional and enabling activities?**

As the Fund does not commit to invest any “environmentally sustainable investment” within the meaning of the Taxonomy Regulation, the minimum share of investments in transitional and enabling activities within the meaning of the Taxonomy Regulation is therefore also set at 0%.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

The percentage of investments that were aligned with the EU Taxonomy did not change compared with previous reference periods.

● **What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

The Fund promotes environmental and social characteristics but does not commit to making any environmentally sustainable investments. As a consequence, the Fund does not commit to a minimum share of sustainable investments with an environmental objective that are not aligned with the EU Taxonomy.

● **What was the share of socially sustainable investments?**

N/A

● **What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?**

The Fund held 0.35% of its assets in cash or cash equivalents, including financial derivative instruments employed for efficient portfolio management, hedging or liquidity management purposes, at the Investment Manager's discretion, which would be classified under #2 Other in the above table. Given the nature of cash or cash equivalents or including financial derivative instruments employed for efficient portfolio management, hedging or liquidity management purposes, such assets will not be aligned with environmental and social characteristics nor will there be any environmental or social safeguards in place.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Fund is an index fund tracking the performance of the Index. The Index has been designated for the purpose of attaining the environmental and social characteristics promoted by the Fund. The Index represents the performance of certain high-yielding stocks from the U.S. equity market while excluding certain stocks based on their ESG characteristics considering both their ESG rating, and their involvement in certain controversial business activities as outlined in the Index methodology.

The investment policy of the Fund is to track the performance of the Index. At least 90% of the Fund's assets are invested in securities that are constituents of the Index and aligned with environmental and / or social characteristics, while the Index provider applies ESG ratings on all the Index constituents.

The Index excludes at least 20% of the least well-rated securities compared to the Standard Index universe, so it is therefore expected that the Fund's resulting ESG rating will be higher than the ESG rating of a fund tracking the Standard Index.

The Index methodology provides for quarterly review and rebalance.

Companies deemed not in violation by the Index provider of the UNGC principles are considered to exhibit good governance. For information on the methodologies used in the construction of the Index and further information on the exclusion criteria and data sources, please refer to S&P's index methodology description which can be found at the following link: <https://www.spglobal.com/spdji/en/documents/methodologies/methodology-sp-ss-leaders-indices.pdf>

How did this financial product perform compared to the reference benchmark?

The following table provides information on the performance financial product compared to the reference benchmark in the period.

Climate Metric	Fund year-end value	Reference benchmark year-end value	Difference
Green Revenues	4.26%	4.25%	0.01%
Brown Revenues	13.94%	13.94%	0.00%
Potential Emissions	1.09	1.09	0.00

(ktCO2-eq per \$mn invested)			
Carbon Risk Rating	52.98	52.98	0.00
Implied Temperature Rise (°C)	2.47	2.47	0.00

● **How does the reference benchmark differ from a broad market index?**

The Index is based on the S&P High Yield Dividend Aristocrats Index, its parent index which measures the U.S. equity market performance of certain high dividend-yielding equity securities.

The Fund's reference benchmark (i.e., S&P High Yield Dividend Aristocrats Screened Index) measures the performance of high-yielding stocks from the U.S. equity market that meet the eligibility criteria defined in the S&P High Yield Dividend Aristocrats Index, "the Standard Index". In addition, the Index aims to exclude certain stocks based on their ESG characteristics considering both their ESG rating, and their involvement in certain controversial business activities as outlined in the index methodology. The remaining securities are then weighted according to the size of their dividend.

● **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**

The Index methodology provides for quarterly review and rebalance.

The investment policy of the Fund is to track the performance of the Index. At least 90% of the Fund's assets are invested in securities that are constituents of the Index and aligned with environmental and / or social characteristics, while the Index provider applies ESG ratings on all the Index constituents.

The Index excludes at least 20% of the least well-rated securities compared to the Standard Index universe, so it is therefore expected that the Fund's resulting ESG rating will be higher than the ESG rating of a fund tracking the Standard Index.

● **How did this financial product perform compared with the broad market index?**

The Fund returned 0.93% on a gross of fees basis, outperforming the broad market index performance of 5.41% by 4.48%. The Fund returned 0.57% on a net of fees basis during the Reporting Period. The investment policy of the Fund is to track the performance of the Index as closely as possible while seeking to minimise as far as possible the tracking difference between the Sub-Fund's performance and that of the Index. It is not expected that the Fund will track the broad market index.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.
