

# SPDR® S&P® U.S. Dividend Aristocrats EUR Hdg UCITS ETF (Dist)

## Fund Objective

The objective of the Fund is to track the U.S. equity market performance of certain high dividend-yielding equity securities.

## Index Description

The S&P High Yield Dividend Aristocrats EUR Dynamic Hedged Index represents a close estimation of the performance that can be achieved by hedging the currency exposure of its parent index, the S&P High Yield Dividend Aristocrats Index, to EUR. The index is 100% hedged to EUR on a monthly basis, by selling USD forward at one-month forward rates. The S&P High Yield Dividend Aristocrats EUR Dynamic Hedged Index includes a mechanism that aims to ensure that the index does not become over-hedged beyond 105%, or under-hedged below 95%, of the parent index currency exposure, whereby if either threshold is breached, an intra-month adjustment to the index is triggered to reset the hedge ratio to 100% after the close of the following business day.

## Tax Status

As standard, State Street Investment Management aims to meet all applicable tax reporting requirements for all of the SPDR ETFs in the following countries. Applications are made throughout the year depending on the time scale required by each local tax authority: UK, Germany, Austria, Switzerland.

## Fact Sheet Equity

Past performance is not an indicator of future performance. The Gross of fees do not reflect and net of fees do reflect commissions and costs incurred on the issue and redemption, or purchases and sale, of units. If the performance is calculated on the basis of Gross/net asset values that are not denominated in the accounting currency of the collective investment scheme, its value may rise or fall as a result of currency fluctuations.

When the Fund is closed according to its official Net Asset Value (NAV) calendar but, nonetheless, a significant portion of the underlying security prices can be determined, a Technical NAV is calculated. Past Performance indicated herein has therefore been calculated using a Technical NAV when required, as well as the official NAV of the Fund as at each other business day for the relevant period. Calendar year inception performance returns will be partial for the year where the inception date for either the Fund in question or the historic performance-linked Fund (whichever is the earliest) falls within that period.
