Notes to the Financial Statements for the financial period ended 30 September 2025

1. MATERIAL ACCOUNTING POLICIES

The condensed interim financial statements as at 30 September 2025 are unaudited. We note that the statutory auditor's report in the audited year end financial statements as at 31 March 2025 was unqualified.

The material accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied throughout the financial periods.

(a) Basis of preparation

These condensed unaudited interim financial statements of the Company for the financial period ended 30 September 2025, have been prepared in accordance with International Accounting Standard 34 ("IAS 34") "Interim Financial Reporting" issued by Financial Reporting Council and the UCITS Regulations.

These condensed unaudited financial statements should be read in conjunction with the Company's annual audited Financial Statements for the financial year ended 31 March 2025 which have been prepared in accordance with International Financial Reporting Standards ("IFRS") as adopted by the European Union ("EU"), the interpretations adopted by International Accounting Standard Board ("IASB") and Irish statute comprising the Companies Act 2014, the UCITS Regulations and the Central Bank (Supervision And Enforcement) Act 2013 (Section 48(1) (Undertakings For Collective Investment In Transferable Securities) Regulations 2019) (the "Central Bank UCITS Regulations").

The condensed unaudited interim financial statements have been prepared on a going concern basis as the Directors are of the view that the Fund can continue in operational existence for at least twelve months from the date of approval of these financial statements (the period of assessment) and under the historical cost convention as modified by the revaluation of certain financial assets and financial liabilities (including derivative financial instruments) held at fair value through profit and loss.

The Directors anticipate the financial assets will continue to generate enough cash flows on an ongoing basis to meet the Company's liabilities as they fall due. In making this assessment, the Directors considered the potential impact of the Russia/Ukraine conflict on the Company's business over the period of assessment.

(b) Accounting policies

The accounting policies and methods of calculation applied in these condensed interim financial statements are consistent with those applied in the audited financial statements for the financial year ended 31 March 2025.

Changes to significant accounting policies are described below.

New standards, amendments and interpretations issued and effective for the financial period beginning 1 April 2025

The following new and amended standards and interpretations are not expected to have a material impact on the Company's financial statements:

Amendments to IAS 21 - Lack of Exchangeability. The amendments are effective for reporting periods beginning on or after 1 January 2025.

There are no other new standards, interpretations or amendments to existing standards that are issued and effective that would be expected to have a material impact on any of the Company's financial statements. The standards/amendments that became effective in the current period have been listed and also since they are effective already, impact should generally be known.

New standards, amendments and interpretations issued but not effective for the financial period beginning 1 April 2025

The following new and amended standards and interpretations are not expected to have a material impact on the Company's financial statements:

IFRS 18 - Presentation and Disclosure in Financial Statements. The standard is effective for reporting periods beginning on or after 1 January 2027.

IFRS 19 - Subsidiaries without Public Accountability: Disclosures. The standard is effective for reporting periods beginning on or after 1 January 2027.

Amendments to IFRS 9 and IFRS 7 - Amendment to the Classification and Measurement of Financial Instruments. The amendments are effective for reporting periods beginning on or after 1 January 2026.

There are no other new standards, interpretations or amendments to existing standards that are not yet effective that would be expected to have a material impact on any of the Company's financial statements.

Estimates policy

The preparation of the condensed unaudited interim financial statements requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expenses. Actual results may differ from these estimates.

In preparing these condensed unaudited interim financial statements, the significant judgements made by management in applying the Company's accounting policies and the key sources of estimation uncertainty were the same as those applied to the audited financial statements for the financial year ended 31 March 2025.

Notes to the Financial Statements for the financial period ended 30 September 2025 (continued)

1. MATERIAL ACCOUNTING POLICIES (CONTINUED)

(b) Accounting policies (continued)

Comparative figures

In accordance with IAS 34, comparative figures are for the previous interim period ended 30 September 2024, and as at the previous year end date 31 March 2025.

2. TAXATION

The Company qualifies as an investment undertaking as defined in Section 739B of the Taxes Consolidation Act 1997, as amended. Under current Irish law and practice, the Company is not liable to Irish tax in respect of its income and gains, other than on the occurrence of a chargeable event. Generally a chargeable event arises on any distribution, redemption, repurchase, cancellation, transfer of shares or on the ending of a "Relevant Period". A "Relevant Period" being an eight year period beginning with the acquisition of the shares by the Shareholder and each subsequent period of eight years beginning immediately after the preceding Relevant Period.

A chargeable event does not include:

- i) Any transactions in relation to shares held in a recognised clearing system as designated by order of the Revenue Commissioners of Ireland; or
- ii) An exchange of shares representing one Fund for another Fund of the Company; or
- iii) An exchange of shares arising on a qualifying amalgamation or reconstruction of the Company with another Fund; or
- iv) Certain exchanges of shares between spouses and former spouses.

No tax will arise on the Company in respect of chargeable events relating to:

- i) A Shareholder who is neither Irish resident nor ordinarily resident in Ireland for tax purposes, at the time of the chargeable event, provided appropriate valid declarations in accordance with the provisions of the Taxes Consolidation Act, 1997, as amended, are held by the Company;
- ii) Certain exempted Irish tax resident Shareholders who have provided the Company with the necessary signed statutory declarations; or
- iii) Any transaction (which might otherwise be a chargeable event) in relation to shares held in a recognised clearing system as designated by order of the Irish Revenue Commissioners.

Dividend income, interest and capital gains (if any) received on investments made by the Company may be subject to withholding taxes imposed by the country from which the investments income/gains are received and such taxes may not be recoverable by the Company or its Shareholders.

3. FEES & EXPENSES

All of the fees and expenses payable in respect of a Fund are paid as one single fee. This is referred to as the "Total Expense Ratio" or "TER". The TER does not include extraordinary costs and expenses, or certain transaction costs.

After deduction and payment of Directors' and the auditors' fees and expenses, (which are included in TER), the balance of the TER is paid to the Investment Manager, and the Investment Manager is then responsible for the payment of all operational expenses of the Company. This includes, but is not limited to, fees and expenses of the Investment Manager, Depositary, Administrator, Transfer Agency and Company Secretary. The Investment Manager may pay part or all of its fees to any person that invests in or provides services to the Company or in respect of any Fund.

The Investment Manager will also be responsible for the payment of the following fees and expenses:

- i) the cost of listing and maintaining a listing of shares on any Listing Stock Exchange;
- ii) the cost of convening and holding Directors' and Shareholders' meetings;
- iii) professional fees and expenses for legal and other consulting services;
- iv) the costs and expenses of preparing, printing, publishing and distributing Prospectuses, Supplements, annual and semi-annual reports and other documents to current and prospective Shareholders;
- v) the costs and expenses arising from any licensing or other fees payable to any Index Provider or other licensor of intellectual property, trademarks or service marks used by the Company;
- vi) the costs and expenses of any investment adviser appointed by the Investment Manager; and
- vii) such other costs and expenses (excluding non-recurring and extraordinary costs and expenses) as may arise from time to time and which have been approved by the Directors as necessary or appropriate for the continued operation of the Company or of any Fund.

The TER is calculated and accrued daily from the Net Asset Value ("NAV") of each Fund and is payable monthly in arrears. The annual TER of each Fund of the Company is as listed in the table below and overleaf. If a Fund's expenses exceed the TER outlined below in relation to operating the Funds, the Investment Manager will cover any shortfall from its own assets.

4. SHARE CAPITAL

The authorised share capital of the Company is 500,000,000,002 (five hundred billion and two) shares of no par value divided into two subscriber shares of no par value and 500,000,000,000 (five hundred billion) shares of no par value. The Directors are empowered to issue up to all of the shares of the Company on such terms as they think fit.

The subscriber shares entitle the holders to attend and vote at general meetings of the Company but do not entitle the holders to participate in the profits or assets of the Company, except for a return of capital on winding-up. The subscriber shares do not form part of the net assets of the Funds or the Company and are disclosed by way of this note only.

The shares (other than the subscriber shares) entitle the holders to attend and vote at general meetings of the Company and to participate equally (subject to any differences between fees, charges and expenses applicable to different classes) in the profits and assets of the Fund to which the shares relate.

Share capital transactions (number of shares) in the Funds for the financial period ended 30 September 2025 and financial year ended 31 March 2025 were as follows:

5. RELATED PARTIES

Entities with joint control

In the opinion of the Directors, the Management Company, the Investment Manager, Global Distributor, Sub-Distributor, the Sub-Investment Managers, Administrator, Transfer Agent and Registrar, Directors of the Management Company, Depositary and Securities Lending Agent are all related parties to the Company. Please refer to Note 3, Fees and Expenses, for an explanation of the fee structure of the Company. All transactions were entered into in the normal course of business.

Directors

The Directors are entitled to receive fees and expenses, which form part of the TER rates as set out in Note 3. Total Directors' fees for the financial period amounted to USD 72,522 (30 September 2024: USD 68,293) of which USD Nil (31 March 2025: USD Nil) was payable at the financial period end.

Notes to the Financial Statements for the financial period ended 30 September 2025 (continued)

5. RELATED PARTIES (CONTINUED)

Ms. Kathleen Gallagher did not receive any Director fees for the financial period ended 30 September 2025 and 30 September 2024.

Mr. Eric Linnane did not receive any Director fees for the financial period ended 30 September 2025.

The interests of the Directors in related parties are as follows:

Eric Linnane is also a Managing Director of State Street Global Advisors Europe Limited and Head of Operations in Ireland.

Ms. Kathleen Gallagher is a Managing Director at State Street Investment Management and is Head of Australia and Head of ETF Model Portfolios in EMEA and APAC for the SPDR business.

The interests of the Directors of the Management Company in related parties are as follows:

Ann Prendergast is an Executive Vice President and Head of the Europe, Middle East and Africa (EMEA) region for State Street Investment Management.

Marie-Anne Heeren is a Senior Managing Director and Head of the State Street Investment Management Institutional Client Group for Europe. Ms. Heeren is also Branch Manager for State Street Global Advisors Europe Limited's Belgian Branch.

Scott Sanderson is also a Managing Director and the Chief Financial Officer (CFO) for State Street Investment Management in EMEA.

The Company has appointed State Street Global Advisors Europe Limited (the "Management Company") to be responsible for the day-to-day management of its affairs subject to the overall supervision of the Board. The Management Company is responsible for the investment management of the assets of the Company. State Street Global Advisors Limited, State Street Global Advisors Trust Company and State Street Global Advisors Singapore Limited are Sub-Investment Managers for the Company.

The Management Company is also responsible for the administration of the Company and the implementation of the Company's and Funds' distribution and marketing policy.

Related Parties Transactions

Notes to the Financial Statements for the financial period ended 30 September 2025 (continued)

7. SOFT COMMISSION ARRANGEMENTS AND DIRECTED BROKERAGE

Neither the Company nor the Investment Manager or Sub-Investment Manager have entered into any soft commission arrangements or directed brokerage services with respect to the Company for the financial period end 30 September 2025 (31 March 2025: Nil).

8. EFFICIENT PORTFOLIO MANAGEMENT

The Funds may, for the purpose of efficient portfolio management and in accordance with the conditions and limits imposed by the Central Bank, use financial derivative instruments ("FDIs") including warrants, futures and forward foreign currency exchange contracts including non-deliverable forwards ("NDFs"). Efficient portfolio management means investment decisions involving transactions that are entered into for one or more of the following specific aims: the reduction of risk, the reduction of cost or the generation of additional capital or income for a Fund with an appropriate level of risk, taking into account the risk profile of the Fund. In particular, FDIs may be used for the purpose of minimising tracking error, i.e., the risk that the Fund return varies from the Index return.

To the extent that the Investment Manager, on behalf of a Fund, uses FDIs, there may be a risk that the volatility of the Fund may increase. It is expected that the volatility level of each Fund will be closely correlated with the volatility of the Index. Investors should note that there can be no assurance that the historical volatility levels of the Index will continue to be observed in the future or that the Fund will have a similar volatility level, and that therefore there is a risk that the Fund volatility may be relatively high when compared to other investments and may change significantly over time and an investment in the Fund may not be appropriate for all investors. That notwithstanding, each Fund is not expected to have an above average risk profile as a result of its use of or investment in FDIs. FDIs will be used within the limits stipulated by the Central Bank and positions taken for hedging purposes will not be allowed to exceed materially the value of the assets that they seek to offset. Accordingly, although FDIs will be inherently leveraged, the primary purpose of the use of FDIs is to reduce tracking error, and while the Fund will be leveraged as a result of its investments in FDIs, such leverage will not exceed 100% of the Fund's total NAV. The Fund's leverage is measured in accordance with the commitment approach.

The Funds, subject to the restrictions imposed on the use of FDIs described above and by the UCITS Regulations, may buy and sell futures contracts to either create exposure or reduce exposure to various securities included in the Index or to reduce certain aspects of risk inherent in specific trades. Futures contracts are agreements to buy or sell a fixed amount of a bond or currency at a fixed date in the future. Futures contracts are exchange-traded instruments and their dealing is subject to the rules of the exchanges on which they are dealt. Forward foreign currency exchange contracts may be used for efficient portfolio management

purposes. For example, forward foreign currency exchange contracts may be used to manage currency exposures represented in the Index. Non-deliverable forward foreign currency exchange contracts may be used for the same reasons. They differ from standard forward foreign currency exchange contracts in that at least one of the currencies in the transaction is not permitted to be delivered in settlement of any profit or loss resulting from the transaction. Typically, profit or loss in this case will be delivered in U.S. Dollars or Euros.

The Funds enter into futures contracts, forward foreign currency exchange contracts and securities lending for efficient portfolio management purposes. The gains/(losses) associated with each financial derivative instrument are included within net changes in fair value of financial assets and liabilities at fair value through profit and loss in the Statement of Comprehensive Income. The counterparties to the FDIs are identified on the relevant Schedule of Investments.

Please refer to Note 10 for further details on securities lending.

9. FAIR VALUATION HIERARCHY

Fair valuation hierarchy

IFRS 7 requires the Company to classify fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements.

The fair value hierarchy has the following levels as defined under IFRS 7:

Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (as prices) or indirectly (derived from prices).

Level 3 - Inputs for the asset or liability that are not based on observable market data (unobservable inputs).

Furthermore, for those instruments which have significant unobservable inputs (Level 3), the amendment requires disclosures on the transfers into and out of Level 3, a reconciliation of the opening and closing balances, total gains and losses for the period/year split between those recognised in the Statement of Comprehensive Income, purchases, sales issues and settlements, and a sensitivity analysis of assumptions used in determining the fair value of Level 3 positions.

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in

Notes to the Financial Statements for the financial period ended 30 September 2025 (continued)

9. FAIR VALUATION HIERARCHY (CONTINUED)

its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a Level 3 measurement. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgement, considering factors specific to the asset or liability.

The determination of what constitutes 'observable' requires significant judgement by the Company. The Company considers observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

For each class of assets and liabilities not measured at fair value in the Statement of Financial Position but for which fair value is disclosed, IFRS 13 requires the Company to disclose the level within the fair value hierarchy which the fair value measurement would be categorised and a description of the valuation technique and inputs used in the technique. Assets and liabilities not carried at fair value are carried at amortised cost; their carrying values are a reasonable approximation of fair value.

Cash and cash equivalents and cash held as collateral with brokers are categorised as Level 1.

All receivable and payable balances are categorised as Level 2.

The following tables analyse within the fair value hierarchy the Company's financial assets and liabilities measured at fair value at 30 September 2025 and 31 March 2025.

30 September 2025

Level Change	Fund	Securities
1 to 3	SPDR FTSE U.K. All Share UCITS ETF	John Wood Group PLC Petrofac Ltd.
	SPDR MSCI All Country World Investable Market UCITS ETF	TELUS Corp. West African Resources Ltd.
	SPDR MSCI All Country World UCITS ETF	TELUS Corp. Tianshui Huatian Technology Co. Ltd.
	SPDR MSCI Emerging Markets Small Cap UCITS ETF	ANE Cayman, Inc.

The Level 3 securities are generally equity securities that have been fair valued using the market approach. The unobservable input is typically a discount to the last available price, with a discount range of 0% to 100%. The Company considers that these valuations were valid and that an assessment of reasonably possible alternatives would not materially differ.

Investments whose values are based on quoted market prices in active markets, and therefore classified within Level 1, include active listed equities, rights, warrants and exchange traded derivatives. The Company does not adjust the quoted price for these instruments.

Financial instruments that trade in markets that are not considered to be active but are valued based on quoted market prices, dealer quotations or alternative pricing sources supported by observable inputs are classified within Level 2. These include, bonds and over the counter derivatives. As Level 2 investments include positions that are not traded in active markets and/or are subject to transfer restrictions, valuations may be adjusted to reflect liquidity and/or non-transferability, which are generally based on available market information.

Investments classified within Level 3 have significant unobservable inputs, as they trade infrequently.

Transfers between levels of the fair value hierarchy are deemed to have occurred at the end of the financial year. There were transfers between levels during the reporting period as detailed in the table below.

The transfers between level 1, level 2 and level 3 were primarily due to the availability of quoted market prices, dealer quotations or alternative pricing sources supported by observable inputs.

There were no other funds with transfers between fair value levels in the fair value hierarchy.

Sensitivity of Level 3 asset measured at fair value to changes in assumptions

The results of using reasonably possible alternative assumptions for valuing the Level 3 assets may result in the fair value estimate and recoverability of the assets being subject to uncertainty and a range of possible outcomes are likely. Such differences, if any, may have a material effect on the overall portfolio as at 30 September 2025 or as at 31 March 2025.

If the value of level 3 securities increased/(decreased) by 5%, the effect on the NAV as at 30 September 2025 would be as follows:

- SPDR Bloomberg Euro High Yield Bond UCITS ETF: EUR 17,638 (31 March 2025: EUR Nil)

- SPDR Dow Jones Global Real Estate UCITS ETF: USD 197 (31 March 2025: USD Nil)

- SPDR FTSE U.K. All Share UCITS: GBP 1,153 (31 March 2025: GBP 911)

10. SECURITIES LENDING

During the financial period some of the Funds engaged in securities lending, subject to the conditions and within the limits from time to time laid down by the Central Bank and the Prospectus pursuant to the securities lending agreement dated 27 October 2023 between the Investment Manager and State Street Bank and Trust Company, (the "Securities Lending Agent").

The maximum lending thresholds for the Funds is 40% for Equity Funds and 70% for Fixed Income Funds.

The Securities Lending Agent has been appointed for the purposes of lending securities to brokers, dealers and other financial institutions. In lending their securities, the Funds will receive income while retaining the securities' potential for capital appreciation and depreciation. The securities lending income was split between the Funds and the Securities Lending Agent in a ratio of 75:25 in favour of the Funds.

The Company receives securities as non-cash collateral, for a value in excess of the market value of the securities loaned.

The Securities Lending Agent monitors the value of the securities loaned and additional non-cash collateral is obtained, if necessary.

As at 30 September 2025 and 31 March 2025 the income earned, by the Funds, for securities on loan, the total value of outstanding securities on loan and the value of non-cash collateral received by the relevant Funds is disclosed separately below.

11. SEGMENT INFORMATION

IFRS 8 Operating Segments (“IFRS 8”) requires a “management approach”, under which segment information is presented on the same basis as that used for internal reporting purposes.

The Management Company is charged with the overall governance of the Company in accordance with the Prospectus. The Directors have appointed State Street Global Advisors Europe Limited as the Management Company. State Street Global Advisors Europe Limited is considered the Chief Operating Decision Maker for the purposes of IFRS 8.

The Management Company makes the strategic resource allocations on behalf of the Funds. The Management Company is responsible for each Fund’s entire portfolio and considers each Fund to be a single operating segment. The Management Company’s asset allocation decisions are based on a single, integrated investment strategy, to deliver the performance of the relevant Reference Index of each Fund, and each Fund’s performance is evaluated by reference to the relevant Reference Index.

The Funds have no assets classified as non-current assets. Each Fund’s investments expose it to the performance of the relevant Reference Index.

The Funds have highly diversified portfolios of investments, and no single investment accounts for a significant portion of the Company’s income.

Products and services

All of the Company’s revenues are derived from one product grouping, namely the portfolio securities and derivative instruments invested in by the Funds in order to track the performance of their respective indices.

Geographical areas

The Company does not separately monitor revenues from different geographical areas. However, by their nature of tracking indices which represent specific markets in specific regions, each Fund’s revenue may be considered as being attributed to the region stated in its investment objective.

Major customers

As the Company is an investment company, its distinct major customers are the institutional investors who make the primary market for the Funds’ shares.

The investments are allocated across fifty five distinct Funds which each have a separate Schedule of Investments.

The financial result and financial position of each segment are equivalent to the financial statements of each Fund.

12. EXCHANGE RATES

The exchange rates used to convert (where relevant) a Fund’s balances denominated in foreign currencies to the Company’s presentation currency in USD at the financial period/year end were as follows:

13. SEASONAL AND CYCLICAL CHANGES

The Company is not subject to seasonal or cyclical changes.

14. RECONCILIATION TO THE PUBLISHED NET ASSET VALUE

SPDR MSCI EM Asia UCITS ETF, SPDR MSCI Emerging Markets Small Cap UCITS ETF and SPDR MSCI Emerging Markets UCITS ETF can be exposed to Brazilian and Indian equities. In accordance with IFRS, the Fund must recognise a provision for potential capital gains tax payable taking into consideration the unrealised positions not reflected in the published NAV at financial year end.

These adjustments have led to the below difference between the published net assets attributable to holders of redeemable participating shares and the net assets attributable to holders of redeemable participating shares in accordance with IFRS as at 31 March 2025. There were no such adjustments as at 30 September 2025.

SPDR MSCI EM Asia UCITS ETF	31 March 2025
	USD
Published Net Assets Attributable to holders of redeemable participating shares	883,489,997
Subtract: adjustments	(10,548,754)

Eric Linnane has been appointed as a Director of the Company effective from 10 June 2025.

A shareholder notice was issued on 18 June 2025 to advise of the index tracking strategy change in relation to SPDR J.P. Morgan Saudi Arabia Aggregate Bond UCITS ETF effective 25 June 2025.

Notes to the Financial Statements for the financial period ended 30 September 2025 (continued)

15. SIGNIFICANT EVENTS DURING THE FINANCIAL PERIOD (CONTINUED)

State Street Global Advisors is now State Street Investment Management. Effective June 30, 2025, State Street Global Advisors began operating under the marketing name State Street Investment Management. This change does not affect the legal name or structure of the Management Company, Investment Manager and Global Distributor, State Street Global Advisors Europe Limited, or the management of the Fund(s).

Russia/Ukraine conflict

The Russia/Ukraine conflict started on 24 February 2022. In response, the international community imposed blocking sanctions on individuals, corporations and the Russian Central Bank. Prices of Russian and Ukrainian securities declined significantly following the beginning of the conflict. The Directors have made an assessment regarding the potential impact of the Russia/Ukraine conflict on the funds. The on-going nature of the war means that it remains unclear however what the longer-term impact of this action will be on portfolio positions within the Company. Russian securities holdings of Funds as at 30 September 2025 were valued at zero.

There have been no other significant events affecting the Company during the financial period.

16. SIGNIFICANT EVENTS POST THE FINANCIAL PERIOD END

Updated Prospectus was noted by the CBI as at 10 October 2025 to include Security Lending wording updates.

There have been no other significant events affecting the Company since the financial period end.

17. APPROVAL OF ACCOUNTS

The financial statements were approved by the Board of Directors on 21 November 2025.

Appendix I

Securities Financing Transactions Regulations

Securities Lending

The following table details the value of securities on loan as a proportion of the Funds' total lendable assets and NAV as at 30 September 2025. Total lendable assets represents the aggregate value of assets forming part of the Funds' securities lending programme. This excludes any assets held by the Funds that are not considered lendable due to any market, regulatory, investment or other restriction.

Collateral

The Funds engage in activities which may require collateral to be provided to a counterparty ("collateral posted") or may hold collateral received ("collateral received") from a counterparty.

The following table provides an analysis by currency of the underlying non-cash collateral received by way of title transfer collateral arrangement by the Funds, in respect of securities lending transactions, as at 30 September 2025.

Securities Financing Transactions Regulations (continued)

Collateral (continued)

The following tables provides an analysis of the maturity tenor of cash and non-cash collateral received by way of title transfer collateral arrangement by the Funds in respect of securities lending transactions as at 30 September 2025.

All collateral with a maturity tenor are bond holdings with an investment grade rating. The open transactions are equity holdings and no credit ratings apply.

The Company has collateral both bilaterally (State Street Bank and Trust) and via tri-party agents (Bank of New York and JP Morgan Chase Bank). In the case of Bank of New York and JP Morgan Chase Bank agents, State Street Bank and Trust delegates some collateral management duties to these tri-party agents. In all cases the Depositary has delegated collateral management duties to State Street Bank and Trust. State Street Bank and Trust is then permitted to further delegate responsibilities to triparty agents if they see fit.

Appendix II - Schedule of Significant Portfolio Changes

Listed below are the largest cumulative investment purchases and sales during the financial period ended 30 September 2025 in excess of 1% of total purchases and in excess of 1% of total sales. At a minimum the largest 20 purchases and 20 sales must be given or all purchases and sales if less than 20.
