Past performance is not an indicator of future performance. The Gross of fees do not reflect and net of fees do reflect commissions and costs incurred on the issue and redemption, or purchases and sale, of units. If the performance is calculated on the basis of Gross/net asset values that are not denominated in the accounting currency of the collective investment scheme, its value may rise or fall as a result of currency fluctuations.

The Fund was launched 29 April 2016 following the merger by absorption of MSCI World Financials Index which had an equivalent and comparable investment policy and risk profile. Performance returns prior to May 2016 reflects the past performance of SSGA Financials Index Equity Fund I USD Shares.

When the Fund is closed according to its official Net Asset Value (NAV) calendar but, nonetheless, a significant portion of the underlying security prices can be determined, a Technical NAV is calculated. Past Performance indicated herein has therefore been calculated using a Technical NAV when required, as well as the official NAV of the Fund as at each other business day for the relevant period.

Calendar year inception performance returns will be partial for the year where the inception date for either the Fund in question or the historic performance-linked Fund (whichever is the earliest) falls within that period.
