SUPPLEMENT

in respect of

Janus Henderson US Enhanced Inflation Core UCITS ETF
(the "Sub-Fund")

a UCITS ETF Sub-Fund of the ICAV

Dated 1 September 2025

The Director of the ICAV, whose names appear on page 1 of the Prospectus, accept responsibility for the information contained in this Supplement. To the best of the knowledge and belief of the Directors (who have taken all reasonable care to ensure that such is the case), the information contained in this document is in accordance with the facts and does not omit anything likely to affect the import of such information.

INTERPRETATION

Save as set out below, capitalised terms shall have the same meaning herein as in the Prospectus.

Definitions	
"Business Day"	means, unless otherwise determined by the Directors and notified in advance to the Shareholders, a day (excluding Saturdays and Sundays) on which the banks in the UK and New York are open for normal business.
"Dealing Day"	means, unless otherwise determined by the Directors and notified in advance to Shareholders, each Business Day. However, some Business Days will not be Dealing Days including, but not limited to, Christmas Eve (24 December), New Year's Eve (31 December), when the markets relevant to the Index are closed, when the Directors, in their discretion, suspend the determination of the Net Asset Value and/or the subscription and/or redemption of Shares provided that there is at least two Dealing Day per month occurring at regular intervals. As further described in the "*Special Considerations and Risk Factors*" section of the Prospectus, in the event of market disruption, the Directors may determine that a Business Day is not a Dealing Day. An up-to-date dealing calendar specifying the Sub-Fund's Dealing Days will be available on: http://www.tabulaim.com/.
"Index"	means the Bloomberg US Enhanced Inflation Index.
"Index Provider"	means Bloomberg.
"Index Rebalancing Date"	the last Business Day of each calendar month (or, if any of these days is not a Business Day, the next Business Day).
"Index Value"	means the value of the Index calculated on each Business Day.
"**Initial Offer Period**"	means the period beginning at 9.00 a.m. (London time) on 18 October 2023 and terminating at 5.00 p.m. (London time) on 17 April 2024 or such other period determined by the Directors in accordance with the requirements of the Central Bank.
"Investment Manager"	means Tabula Investment Management Limited
"Minimum Dealing Size"	means in respect of the Sub-Fund the minimum number of Exchange-Traded Shares for subscription and redemption, which shall be 20,000 Shares.
"Settlement Time"	Means the second Business Day after the relevant Dealing Day or such other times as may be determined by the Directors provided that, in the case of redemptions the Settlement Time shall not be later than the tenth Business Day after the relevant Trade Cut-Off Time.
"Trade Cut-Off Time"	means, for subscriptions and redemptions of Shares, 4.30 p.m. (London time) on the relevant Dealing Day a, or such other times as may be agreed

Definitions	
	with the Directors provided that the Trade Cut-Off Time shall always precede the Valuation Point.
"**Treasury Inflation Protected Securities**" or "**TIPS**"	a US Treasury security that is indexed to inflation in order to protect investors from the negative effects of inflation.
"**Underlying Indices**"	means the indices that are combined to make the Index as described under the heading "*General Description of the Index*", being: (i) the Bloomberg U.S. Govt Inflation-Linked All Maturities Total Return Index; (ii) the Bloomberg U.S. Govt Inflation-Linked 7-10Yrs Total Return Index; and (iii) the Bloomberg U.S. Treasury 7-10 Year Total Return Index, (each an "**Underlying Index**").
"Valuation Point"	means, unless otherwise determined by the Directors and notified in advance to Shareholders, 11:00 p.m. (Irish time) on the relevant Dealing Day. Securities that are quoted, listed or traded on or under the rules of any Regulated Market shall be valued at the bid- price on the relevant Regulated Market at the Valuation Point.

INVESTMENT OBJECTIVE, STRATEGY AND POLICY

Investment Objective	The objective of the Sub-Fund is to track the performance of the Index to within an acceptable Tracking Error. **There can be no assurance that the Sub-Fund will achieve its investment objective.** **Investors should note that an investment in the Sub-Fund should not constitute a substantial proportion of an investment portfolio and may not be appropriate for all investors.**
Investment Policy	In order to achieve its investment objective, the Sub-Fund intends to invest its net assets in OTC Total Return Swaps whereby the Sub-Fund receives the return of certain of the Underlying Indices (the "Swap Agreement") in exchange for the payment to the Swap Counterparty of an agreed rate of return pursuant to an agreement in accordance with the requirements of the International Swaps and Derivatives Association together with a portfolio of US TIPS. Where the Sub-Fund invests in OTC Total Return Swaps, the Sub-Fund will invest cash received by it (from investor subscriptions or other cash paid to the Sub-Fund by one or more Swap Counterparties as profit on the OTC Total Return Swap) in both cash and non-cash Collateral Assets comprised of US TIPS with a view to seeking to achieve a return equivalent to the payments due to the Sub-Fund by the Swap Counterparty. The Sub-Fund will invest in, hold and retain cash Collateral Assets including substantial cash balances in the range of approximately 10% of its Net Asset Value to fund the margin and collateral requirements for its OTC Total Return Swap positions. The Sub-Fund will be required, under the terms of the Swap Agreement, to post margin and/or collateral to or from the relevant counterparty at regular intervals. For further detail on the Sub-Fund's use of collateral in respect of Swaps, see the section below entitled "Use of Collateral". At any one time, a portion of the Sub-Fund's assets will be invested in non-cash Collateral Assets. It is expected that the Sub-Fund's allocation to non-cash Collateral Assets will initially be in the region of 90% of its Net Asset Value. Non-cash Collateral Assets held by the Sub-Fund may, if deemed eligible pursuant to the Swap Agreement, be used as collateral or can also be sold to provide cash required for margin payments. The Sub-Fund will seek to gain part of its exposure to the performance of the Index by entering into "unfunded" OTC Total Return Swap(s) with a Swap Counterparty. Under the terms of an OTC Total Return Swap, the Sub-Fund will receive the return of the relevant Underlying Index from the Swap Counterparty in return for periodic payments from the Sub-Fund to the Swap Counterparty. As the OTC Total Return Swap(s) are "unfunded", the cash received by the Sub-Fund from investor subscriptions is retained by the Sub-Fund and invested and managed in accordance with the investment policy and investment strategy of the Sub-Fund.

	As the value of the relevant Underlying Index increases or decreases on a daily basis, the OTC Total Return Swap(s) entered into with the Swap Counterparty will record either a profit or loss for the Sub-Fund. The profit or loss arising on the OTC Total Return Swap(s) is settled between the Sub-Fund and the Swap Counterparty on a periodic basis (which may be as frequently as daily but can also be weekly or monthly). Where the Sub-Fund and the Swap Counterparty do not choose to settle the profit or loss arising on the OTC Total Return Swap on a daily basis, in order to keep counterparty exposure to a minimum and to comply with the daily margining requirements imposed by EMIR, the Sub-Fund and each relevant Swap Counterparty will transfer collateral (as described below) back and forth in amounts matching the relevant profit or loss on the OTC Total Return Swap(s) to the extent that the relevant profit or loss exceeds an agreed de-minimis amount. The ICAV will, on request, provide supplementary information to Shareholders relating to the risk management methods employed, including the quantitative limits that are applied and any recent developments in the risk and yield characteristics of the main categories of investments. The Investment Manager has risk management systems in place in respect of the Sub-Fund and the Team has significant experience in investing in OTC Total Return Swaps. Accordingly, through the use of its risk management systems, the Investment Manager will endeavour to accurately monitor the Sub-Fund's nominal value of exposures, along with the performance of the Index. In keeping with the investment objective to achieve the performance of the Index, the Investment Manager will adjust the level of exposure to OTC Total Return Swap positions in seeking to maintain 100% of the net asset value of the Fund through OTC Total Return Swaps and its holdings of US TIPS in line with Index. As further described in the 'Investment Techniques and Instruments' section in the Prospectus, the Sub-Fund may also invest in securities which are not constituents of the Index and/or financial derivative instruments (FDIs) related to a constituent of the Index, for efficient portfolio management purposes, where such securities and/or FDIs would achieve a risk and return profile similar to that of the Index, a constituent of the Index or a sub-set of constituents of the Index. The FDIs in which the Sub-Fund may invest for efficient portfolio management purposes are swaps and futures as more particularly described in the Prospectus. The securities and FDIs in which the Sub-Fund invests will be primarily listed or traded on the stock exchanges and regulated markets set out in Schedule 1 of the Prospectus although the Sub-Fund may also invest in unlisted securities in accordance with the limits set out in the UCITS Regulations.
Taxonomy-related Disclosure	The investments underlying this Sub-Fund do not take into account the EU criteria for environmentally sustainable economic activities.
Tracking Error	Tracking error will arise because of trading costs and taxes and, while there can be no assurance that it will not exceed such figure, tracking error is expected to be up to 0.5% in normal market conditions. For the avoidance of doubt, the foregoing indication of tracking error does not take into

	account the Total Expense Ratio, as described below under the heading "*Fees and Expenses*".
Description of the Index	The Index is designed to provide liquid exposure to US Treasury Inflation Protected Securities and to the US break even inflation rate.. The US break-even inflation rate is the difference between the yield of a nominal bond and the yield of an inflation-linked bond of the same maturity. The Index combines the Underlying Indices indices.The Index will be combined as follows: 100% Bloomberg US Govt Inflation-Linked All Maturities Total Return Index + (100% Bloomberg US Govt Inflation-Linked 7-10 Yrs Total Return Index – 100% Bloomberg U.S. Treasury: 7-10 Year Total Return Index). The Index is rebalanced on the Index Rebalancing Date. The Fund will bear the costs of any rebalancing trades (i.e. the costs of buying and selling securities of the Index and associated taxes and transaction costs). Additional information on the Index and the general methodology behind it is available at https://assets.bwbx.io/documents/users/iqjWHBFdfxIU/rgMLraImHdi4/v0 . Further information on the Index, including its constituents, shall be available on demand from the Investment Manager.
How will the Sub-Fund manage its leverage?	Leverage is implemented within the Index and the Sub-Fund intends to hold OTC US TIPS, Total Return Swaps and OTC US TIPS 7 -10 Year Total Return Swaps in the same ratios as the Index. Leverage in the Index is implemented such that it is rebalanced monthly based on its target weights as described under the heading "Description of the Index". The Sub-Fund does not intend to engage in borrowing. As a result, the Sub-Fund will not incur costs for leverage resulting from borrowing. Prospective investors should be aware that there are inherent risks associated with the leverage policy of the Sub-Fund, in particular, the leverage ratio achieved by the Sub-Fund and the Index on any date the Sub-Fund is rebalanced may differ. Please refer to the section of the Supplement titled "UCITS Compliance" for further information on the expected leverage of the Sub-Fund.
What impacts the performance/return of the Sub-Fund?	The performance of the Sub-Fund will depend on several factors including: i. the market value of the US Inflation bonds held by the Sub-Fund; ii. the market value of the OTC Total Return Swap and the performance of the Index; iii. gains, losses and transaction costs generated by any rebalancing of the Sub-Fund's US Inflation bond portfolio; iv. the market value of any Collateral Assets; v. any coupon income received by the Sub-Fund and not yet reinvested in US Inflation bonds; vi. fees borne by the Sub-Fund; and vii. where relevant, any hedging costs.

Investment in Collective Investment Schemes	The Sub-Fund will not invest more than 10% of its Net Asset Value in Eligible Collective Investment Schemes.
Securities Financing Transactions and Swaps	As more particularly described in the section of the Prospectus entitled "*Securities Financing Transactions and Swaps*" and as described in the section of this Supplement entitled "*Investment Policy*", the Fund may invest in OTC Total Return Swaps subject to the requirements of SFTR and in accordance with normal market practice, the Central Bank Regulations and the Central Bank rules. Subject to the limitations referred to above and in the Prospectus, up to 100 % of a Sub-Fund's assets may be the subject of an OTC Total Return Swap, although it is expected that at any time only 100% of a Sub-Fund's assets may be subject to an OTC Total Return Swap.
Dividend Policy	Certain Shares Classes of the Sub-Fund, as set out in the appendix to this Supplement, shall distribute dividends to Shareholders in accordance with the section of the Prospectus entitled "*Dividend Policy*". Dividends will be paid in cash by electronic transfer and will generally be declared as at the end of each semi-annual period. In respect of the Share Classes marked "accumulating" in the appendix to this Supplement, the ICAV does not intend to distribute dividends. Net income will be managed in accordance with the UCITS cash management limits, whereupon it will reinvested at the next Index Rebalancing Date.
Profile of a Typical Investor in the Sub-Fund	An investment in the Sub-Fund is suitable for investors who are able and willing to invest in a sub-fund with a medium to high risk grading. An investment in the Sub-Fund is intended for Financially Sophisticated Investors. Therefore the Sub-Fund is appropriate for Financially Sophisticated Investors who understand its strategy, characteristics and risks. A "Financially Sophisticated Investor" means an investor who: - has knowledge of, and investment experience in financial markets generally; and - understands and can evaluate the strategy, characteristics and risks of the Sub-Fund in order to make an informed investment decision.
Risk Factors	Investors' attention is drawn to the risk factors set out in the section of the Prospectus entitled "Special Considerations and Risk Factors".
Base Currency	USD
UCITS Compliance	For the purposes of compliance with the UCITS Regulations, the market risk of the Sub-Fund will be measured daily using the VaR methodology. In accordance with the requirements of the Central Bank, the Sub-Fund is subject to an absolute VaR limit of 20% of the Sub-Fund's Net Asset Value, based on a 20 Business Day holding period, a historical observation period of at least one year (250 Business Days), unless a shorter observation period is justified by a significant increase in price volatility, and a 99% one-tailed confidence interval. However, the absolute VaR limit is not expected to exceed 10% during normal market conditions in line with the Investment

	Manager's internal risk guidelines. VaR is a statistical methodology that seeks to predict, using historical data, the likely maximum loss that the Sub-Fund could suffer, calculated to a specific one-tailed confidence level (i.e., 99%). Leverage is calculated as the sum of the notionals of the FDI that are used and expected leverage based on normal market conditions is 100% of the Net Asset Value of the Fund but investors should note the possibility of higher leverage levels in certain circumstances. Further detail on the calculation of global exposure is set out in the financial derivative instrument risk management process of the Sub-Fund ("**RMP**"). The RMP employed enables the Investment Manager to accurately measure, monitor and manage the various risks associated with FDI, including leverage.
Relevant Stock Exchanges	Application will be made to list the Exchange-Traded Shares to Euronext Dublin (formerly the Irish Stock Exchange) for admission to the Official List and to trading on the regulated market of Euronext Dublin. Neither the admission of the Exchange-Traded Shares to the Official List, nor to trading on the regulated market of Euronext Dublin, nor the approval of the listing particulars pursuant to the listing requirements of the Euronext Dublin shall constitute a warranty or representation by Euronext Dublin as to the competence of service providers to or any other party connected with the ICAV, the adequacy of information contained in the listing particulars or the suitability of the ICAV or the Sub-Fund for investment purposes. Exchange-Traded Shares may also be listed and admitted for trading on a number of other stock exchanges (including, without limitation, the Main Market of the London Stock Exchange plc (the "**LSE**"), Borsa Italiana, SIX, BX Swiss and Xetra) but the ICAV does not warrant or guarantee that such listings will take place or continue to exist. In the event that such listings do take place, the primary list of the Exchange-Traded Shares will normally be on the main market of Euronext Dublin or the LSE (although the Exchange-Traded Shares may be primarily listed on an alternative stock exchange) and any other listings shall be secondary to the primary listing.
Publication of Share Prices	The Irish Stock Exchange trading as Euronext Dublin will be notified immediately of the Net Asset Value per Share of each relevant Exchange-Traded Share Class, which will be available on Euronext Dublin (www.ise.ie). The London Stock Exchange will be notified without delay of the Net Asset Value per Share of each relevant Exchange-Traded Share Class, which will be available on www.londonstockexchange.com. The Net Asset Value per Share of the relevant Share Classes will also be available on http://www.tabulaim.com/.
Portfolio Holdings	The portfolio holdings (for the previous day) will be published for a particular the Fund will be available daily on http://www.tabulaim.com/

FEES AND EXPENSES

The establishment costs of the Sub-Fund will be paid by the Investment Manager.

The total annual fees and operating expenses of the Sub-Fund (except for transaction charges and taxes or duty charges for portfolio re-balancing, all of which are paid separately out of the assets of the Sub-Fund) per Share class will be up to the percentage per annum of the Net Asset Value of the (the "**Total Expense Ratio**" or "**TER**") Share Class as set out in the Appendix to this Supplement.

Such fee shall accrue daily and be payable monthly in arrears to the Investment Manager. The Investment Manager will receive no further disbursement for expenses, out of pocket or otherwise from the Sub-Fund. Except for transaction charges and taxes or duty charges for portfolio re-balancing, all of which are paid separately out of the assets of the Sub-Fund, Tabula will be responsible for the payment of all fees, costs, and expenses of the Sub-Fund, including but not limited to fees and expenses paid to any sub-distributor or paying agent, Depositary, Administrator, Manager and auditors.

Fees Payable by the Investor

In addition to Duties and Charges as described in the Prospectus, a subscription fee of up to 5% of the subscription monies may be charged, at the discretion of the Directors, in respect of a subscription in the Sub-Fund and a redemption fee of up to 3% of the redemption monies may be charged in respect of a redemption of Shares in the Sub-Fund. Such fees may be retained by the Sub-Fund or remitted to the Investment Manager, sales intermediaries or other third parties.

Any fees and expenses payable out of the assets of the Sub-Fund other than those set out in this Supplement are set out in the Prospectus in the section entitled "Fees and Expenses".

SHARE CLASSES

Details of the Share Classes of the Sub-Fund are set out in the appendix hereto. The Share Classes comprise: (i) unhedged Share Classes in the Base Currency; and (ii) hedged Share Classes which hedge the foreign exchange exposure of the currency or currencies in which the underlying assets of the Sub-Fund are denominated to the currency of the relevant Share Class (each a "**Hedged Share Class**"). Further information is set out in the Prospectus in the section entitled "Currency Risk – Class Level". Shares may also be Exchange-Traded Shares or Non- Exchange Traded Shares as set out in the appendix hereto. Further information on Exchange Traded Shares and Non-Exchange Traded Shares is set out in the Prospectus in the section entitled "Investing in Shares".

SUBSCRIPTIONS AND REDEMPTIONS

In respect of the Sub-Fund, payment for subscriptions for Shares will only be accepted in cash and redemption proceeds will only be paid in cash. Unless otherwise stipulated in the appendix hereto, subscriptions and redemptions of Exchange-Traded Shares in the Sub-Fund will be subject to the Minimum Dealing Size. The Minimum Dealing Size may be waived or reduced for investors in a Share Class at the discretion of the Directors, who may delegate the exercise of such discretion to the Investment Manager.

USE OF COLLATERAL

The policy that will be applied to collateral arising from OTC derivative transactions relating to the Sub-Fund is to adhere to the requirements set out in Schedule 3 to the Prospectus. This sets out the permitted types of collateral, level of collateral required and haircut policy and, in the case of cash collateral, the re-investment policy prescribed by the Central Bank pursuant to the UCITS Regulations. The categories of collateral which may be received by the Sub-Fund include Collateral Assets. From time to time and subject to the requirements in Schedule 3, the policy on levels of collateral required and haircuts may be adjusted, at the discretion of the Investment Manager, where this is determined to be appropriate in the context of the specific counterparty, the characteristics of the asset received as collateral, market conditions or other circumstances. The haircuts applied (if any) by the Investment Manager are adapted for each class of assets received as collateral, taking into account the characteristics of the assets such as the credit standing and/or the price volatility, as well as the outcome of any stress tests performed in accordance with the requirements in Schedule 3. Each decision to apply a specific haircut, or to refrain from applying any haircut, to a certain class of assets should be justified on the basis of this policy.

If cash collateral received by the Sub-Fund is re-invested, the Sub-Fund is exposed to the risk of loss on that investment. Should such a loss occur, the value of the collateral will be reduced and the Sub-Fund will have less protection if the counterparty defaults. The risks associated with the re-investment of cash collateral are substantially the same as the risks which apply to the other investments of the Sub-Fund. For further details see the section of the Prospectus entitled “Risk Factors”.

BORROWINGS AND LEVERAGE

As of the date of this Supplement, the Sub-Fund does not have any loan capital (including term loans) outstanding or created but unissued, and no outstanding bank overdrafts, mortgages, charges, debentures or other borrowings or indebtedness in the nature of borrowing under acceptances or acceptance credits, hire purchase or finance lease commitments, guarantees or other contingent liabilities. The Sub-Fund does not intend to use leverage for investment purposes or be actively leveraged through borrowing but the Sub-Fund may enter into FDI which may be inherently leveraged.

IMPORTANT INFORMATION

Certain risks relating to the Shares are set out in the section of the Prospectus entitled *Special Considerations and Risk Factors*. In addition, Shareholders must also note the following risk considerations in relation to the Index.

Index Performance. All Shareholders in the Sub-Fund should be aware that the value of their Shares will depend on the performance of the Index. There is no assurance as to how the Index will perform in either absolute terms or in relative terms. The Index is ultimately exposed to the performance of the components underlying the Index. No assurance can be given that such components and/or the methodology itself will generate positive returns. The Index return may be lower than the actual return of the selected components. It is not possible to predict whether the level of the Index will rise or fall. The actual performance of the Index may bear little relation to its historical levels. The complete methodology of the Index is available on www.ihsmarkit.com. Before making any investment decision, investors should ensure that they have read and understood these documents and should take professional advice on the potential risks to satisfy themselves that an exposure to the Index and an investment in the Shares is suitable and appropriate for them in light of their own circumstances.

Limited Operating History. The Index has only recently been established as a tradable strategy and therefore has limited historical performance data on which to evaluate its long-term historical performance. Any back-testing or similar analysis on the Index is illustrative only and may be based on estimates or assumptions not used in determining actual levels of the Index. Because the Index is of recent origin and limited historical performance data exists with respect to it, a potential investment in the Index may involve greater risk than investing in investments linked to one or more indices with an established record of performance.

Termination of Index licence. While the ICAV has the right to use and reference the Index in connection with the Sub-Fund in accordance with the terms of the Index licence, in the event that the licence is terminated the Sub-Fund may have to be terminated in certain circumstances.
