

TABULA EUR IG BOND PARIS-ALIGNED CLIMATE UCITS ETF

(EUR) - ACCUMULATING | TABC | ISIN IE00BN4GXL63

Investment objective

The Tabula EUR IG Bond Paris-aligned Climate UCITS ETF (EUR) - Accumulating aims to track the Solactive ISS Paris Aligned Select Euro Corporate IG Index (SOLESPAB Index), less fees and expenses.

About the index

The index provides exposure to EUR-denominated IG bonds that meets the requirements for an EU Paris-aligned Benchmark and is aligned with a 1.5C Paris scenario. Data provided by ISS ESG is used to exclude issuers in violation of social norms (including the UNGC), and those involved with controversial weapons or tobacco, causing significant environmental harm or with revenues from oil, gas, coal and energy intensive electricity above certain thresholds. The index also applies a liquidity screen, targeting around 1000 bonds.

The selected bonds are weighted so as to achieve:

- Minimum 50% initial reduction in greenhouse gas emissions versus the Solactive Euro IG Index ("parent index")
- Minimum 7% annual reduction in greenhouse gas emissions
- Sector, maturity and rating exposures within strict limits versus the parent index

A detailed methodology is available in the documents section of tabulaim.com

Investment process

The ETF invests in a portfolio of corporate bonds that reflects the composition of the index as far as practicable and meets the EU criteria for Paris-aligned Benchmarks.

Key risks

- **No capital protection:** The value of your investment may go down as well as up and you may not get back the amount you invested.
- **Liquidity risk:** Lower liquidity means there are insufficient buyers or sellers to allow the Sub-Fund to sell or buy investments readily. Neither the Index provider nor the issuer make any representation or forecast on liquidity.
- **Counterparty risk:** The Sub-Fund may incur losses if any institution providing services such as safekeeping of assets or acting as a derivatives counterparty becomes insolvent.
- **ESG screening:** The environmental, social and governance screening criteria are embedded with the index selection process, which seeks to exclude bonds issued by companies involved in certain activities. The investment manager is not responsible for monitoring the screening process or confirming that all bonds which pass the screening process are issued by companies with adequate environmental, social or governance standards.
- **Credit risk:** The issuer of a financial asset held within the Fund may not pay income or repay capital to the Sub-Fund when due.
