Key Risks

The Fund follows a rules-based strategy which will deviate from the overall market or parent index. Your investment is likely to be less diversified and there is no guarantee that the index's 'rules-based' strategy will be achieved. The value of your investment may go down as well as up and past performance does not predict future returns. Investor capital may be at risk up to a total loss. The Fund is exposed to market movements in a single country or region which may be adversely affected by political or economic developments, government action or natural events that do not affect a fund investing in broader markets. The value of an investment in shares will depend on a number of factors including, but not limited to, market and economic conditions, sector, geographical region and political events

About Xtrackers by DWS

DWS Xtrackers Exchange Traded Funds (ETFs) initially launched in 2007 as a specialist in swap-based index replication. Following a period of rapid growth, the Xtrackers ETF platform subsequently evolved into one of Europe’s largest providers of physical replication ETFs. We have continually developed our ETFs to provide investors with a comprehensive set of quality investment tools for efficient portfolio allocation.

Today Xtrackers ETFs are listed on eleven stock exchanges globally and have over EUR 282 billion¹ in UCITS assets under management (AUM) making Xtrackers one of the largest European-headquartered provider of ETFs by AUM².

There are over 250 Xtrackers ETFs available, covering a wide range of asset classes and investment exposures.

Xtrackers central tenet is to provide a broad range of efficient, high quality index trackers for our investors.
