TERMS OF THE SHARES REPRESENTING INTERESTS IN THE FUND

Investment Objective

The investment objective of the Fund is to track the performance before fees and expenses of the Underlying Asset, which is the NASDAQ-100 Index (the “**Reference Index**”). The Reference Index is designed to reflect the performance of shares of companies from 100 of the largest US and international non-financial stocks listed on the NASDAQ Stock Market. Further information on the Reference Index is contained under "General Description of the Underlying Asset".

Investment Policy

In order to seek to achieve the investment objective, the Fund will adopt a Direct Investment Policy. There is no assurance that the investment objective of the Fund will actually be achieved.

The Fund will aim to replicate or track, before fees and expenses, the performance of the Reference Index by holding a portfolio of equity securities that comprises all, or a substantial number of, the securities comprised in the Reference Index (the “**Underlying Securities**”). The Fund is managed according to a passive approach and is a Full Replication Fund (as described in the Prospectus under the heading "*Direct Investment Funds following a passive approach*"). Full disclosure on the composition of the Fund's portfolio will be available on a daily basis at www.Xtrackers.com.

The Underlying Securities are listed or traded on markets and exchanges which are set out at Appendix I of the Prospectus, with the Underlying Securities being bought by the Fund from any broker or counterparty who trades on the markets and exchanges listed at Appendix I of the Prospectus.

As further described in the 'Efficient Portfolio Management and Financial Derivative Instruments' section below and in the Prospectus, the Fund may also invest in securities which are not constituents of the Reference Index and/or financial derivative instruments (“**FDIs**”) related to a constituent or constituents of the Reference Index, for efficient portfolio management purposes, where such securities and/or FDIs would achieve a risk and return profile similar to that of the Reference Index, a constituent of the Reference Index or a sub-set of constituents of the Reference Index.

The Fund may invest in ancillary liquid assets which will include secured and/or unsecured deposits, and/or units or shares of other UCITS or other collective investment schemes which pursue a money market/cash strategy or which are related to the Reference Index or constituents of the Reference Index.

The investments and liquid assets the Fund may hold on an ancillary basis will, together with any fees and expenses, be valued by the Administrator on each Valuation Day in order to determine the Net Asset Value of the Fund in accordance with the rules set out in the Prospectus.

The value of the Fund's Shares is linked to the Reference Index, the performance of which may rise or fall. Hence, investors should note that the value of their investment could fall as well as rise and they should accept that there is no guarantee that they will recover their initial investment. The return that Shareholders will receive will be dependent on the performance of the Reference Index.

The Fund will have no Final Repurchase Date. However, the Directors may decide to terminate the Fund in accordance with the terms set out in the Prospectus and/or the Articles of Association.

Such information may change from time to time and details of the changes will appear on that website.

General Description of the Reference Index

The Reference Index is administered by Nasdaq, Inc. (the "**Index Administrator**").

The Reference Index is a free float-adjusted market capitalisation weighted index reflecting the performance of shares of companies from 100 of the largest US and international non-financial stocks listed on the NASDAQ Stock Market, which must comply with certain eligibility and liquidity criteria including that the constituents are classified as a non-financial company according to FTSE International Limited's Industry Classification Benchmark (ICB). Further information in relation to the eligibility and liquidity criteria can be found on <https://indexes.nasdaqomx.com/>

The Reference Index composition is reviewed on an annual basis and rebalanced on a quarterly basis. It may also be rebalanced at other times where it is determined to be necessary to maintain the integrity of the Reference Index.
