Key Risks

The value of your investment may go down as well as up and past performance does not predict future returns. Investor capital may be at risk up to a total loss. The Fund is exposed to market movements in a single country or region which may be adversely affected by political or economic developments, government action or natural events that do not affect a fund investing in broader markets. The value of an investment in shares will depend on a number of factors including, but not limited to, market and economic conditions, sector, geographical region and political events,The Fund may have exposure to a small number of investments or have exposure to a few countries, industries, sectors of the economy or issuers. This can make the share price of the Fund fluctuate significantly.
The Fund has a focus on a single or narrow range of industry, sector or types of companies and performance may not reflect a rise in broader markets.
