GENERAL INFORMATION CONT/D

The following information is derived from and should be read in conjunction with the full text and definitions section of the prospectus of Xtrackers (IE) plc, as amended and supplemented from time to time (the "Prospectus"). Capitalised terms used herein shall have the same meaning as capitalised terms used in the Prospectus unless otherwise defined herein.

Xtrackers (IE) plc (the "Company") is an investment company with variable capital incorporated on 17 November 2004, authorised and regulated by the Central Bank of Ireland (the "Central Bank") under the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011, as amended, and under the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1) (Undertakings for Collective Investment in Transferable Securities) Regulations 2026 (together the "UCITS Regulations").

The Company is structured as an open-ended umbrella fund with segregated liability between the Funds. Shares representing interests in different Funds may be issued from time to time by the Directors without prior consent by the Central Bank. Shares of more than one Class may be issued in relation to a Fund. All Shares of each Class will rank pari passu save as provided for in each relevant Supplement to the Prospectus.

At the end of the financial period, the Company comprised 130 active Funds (31 December 2025: 122 active Funds).

Net Asset Value

The Net Asset Value ("NAV") of a Fund of the Company shall be presented in the currency in which the Shares are designated or in such other currency as the Directors may determine either generally or in relation to a particular Class or in a specific case, and shall be calculated by ascertaining the value of the assets of the Fund and deducting from such value the liabilities of the Fund (excluding shareholders equity) as at the NAV Date.

The NAV of the Company shall be presented in the currency in which the Shares are designated or in such other currency as the Directors may determine and shall be calculated by ascertaining the value of the assets of the Funds and deducting from such value the liabilities of the Funds (excluding shareholders equity) along with any cross investments between Funds in the Company as at the NAV Date.

The NAV per Share of a Fund will be calculated by dividing the NAV of the Fund by the number of Shares in the Fund then in issue or deemed to be in issue as at the NAV Date and rounding the result mathematically to four decimal places or such other number of decimal places as may be determined by the Directors from time to time.

In the event the Shares of any Fund are further divided into more than one Class, the NAV per Class shall be determined by notionally allocating the NAV of the Fund amongst the Classes making such adjustments for subscriptions, repurchases, fees, dividends accumulation or distribution of income and the expenses, liabilities or assets attributable to each such Class (including the gains/losses on and costs of financial instruments employed for currency hedging between the currencies in which the assets of the Fund are designated and the designated currency of the Class, which gains/losses and costs shall accrue solely to that Class) and any other factor differentiating the Classes as appropriate. The NAV of the Fund, as allocated between each Class, shall be divided by the number of Shares of the relevant Class which are in issue or deemed to be in issue and rounding the result mathematically to four decimal places as determined by the Directors or such other number of decimal places as may be determined by the Directors from time to time.

GENERAL INFORMATION CONT/D

Dealing

All Funds deal on every Transaction Day as set out and defined in the Prospectus (unless otherwise defined in the Supplement to the Prospectus for the relevant Fund).

Applications must be received by the State Street Fund Services (Ireland) Limited (the "Administrator") before the Cut-off Time on the relevant Transaction Day as specified in the relevant Supplement to the Prospectus.

Applications should be addressed to the Administrator:

State Street Fund Services (Ireland) Limited

Dublin 2
Ireland
Tel: *353-1-776 8000*
Fax: *353-1-776 8491*

GENERAL INFORMATION CONT/D

Tracking Error and Tracking Difference

Funds which track an index are subject to tracking error risks which may result in the value and performance of the Shares not tracking exactly the value and performance of the corresponding Index. The tracking error is defined as the volatility (as measured by the standard deviation) of the difference between the return of the Fund and the return of its Index, on an annual basis (the "Tracking Error"). It should be differentiated from the tracking difference, which is simply the difference between the return of the Fund and the return of its Index, on an annual basis or another given period of time (the "Tracking Difference"). The Tracking Difference indicates the extent to which a Fund has outperformed or underperformed its Index on an annual basis or another given period of time. In contrast, the Tracking Error measures how consistently the Fund return matches its Index on an annual basis. The anticipated level of Tracking Error, in normal market conditions, is disclosed for each Fund in the Supplements (please see the "Description of the Shares" section of the relevant Supplement). For Funds with Currency Hedged Share Classes, the anticipated tracking error disclosed represents the tracking error of the unhedged Share Classes against the relevant Fund's Reference Index (which is also unhedged), where applicable. Tracking Error may also be impacted by the Investment Manager seeking to ensure compliance with the CCW Policy and any other ESG commitments as described under the heading "Sustainability-Related Disclosures under SFDR and EU Taxonomy Regulation" section. Investors' attention is drawn to the fact that these figures are only estimates of the Tracking Error level in normal market conditions and should not be understood as strict limits. Tracking Error and Tracking Difference for the financial period to date is outlined in the Fund Performance Supplemental Data on pages 1592 to 1596 for the relevant Funds where they apply.

INVESTMENT MANAGER'S REPORT

Market Commentary

Global equity markets recovered strongly in second quarter of 2026, reversing their first-quarter decline, as corporate earnings remained resilient and investor sentiment improved amid easing concerns around geopolitical conflict. The MSCI World Index rose 13.9% during Q2 2026, its strongest quarterly gain since 2021. For the first half of 2026, the MSCI World Index advanced 10.0%, while the MSCI Emerging Markets Index gained 24.0%. Most developed markets delivered positive returns, with emerging markets performance led by Korea and Taiwan. In fixed income markets, sovereign yields increased in the U.S., U.K., Japan, and Brazil, while Chinese government bond yields declined. Credit spreads remained broadly stable or tightened modestly across major U.S. and European corporate bond markets.

EQUITY

United States (U.S.):
U.S. equities delivered strong returns in the first half of 2026, supported by resilient economic growth, solid corporate earnings, and continued investor interest in technology and AI-related themes. Equity market sentiment was further supported by the successful IPO of SpaceX (SPCX), one of the largest public offerings on record, highlighting strong investor appetite for growth and technology-related themes. For the first half of 2026, S&P 500 Index rose 10.2%. Sector performance was led by Industrials (+20.2%), Information Technology (+19.8%), and Energy (+19.7%), while Financials (–1.3%) and Consumer Discretionary (–0.8%) lagged. Overall gains were driven by cyclical and growth sectors, although performance varied across the market.

United Kingdom (U.K.):
U.K. equities advanced amid easing inflationary pressures and a gradually improving economic backdrop. Performance was supported by few heavy weights in Financials and Industrial sectors. U.K. equities posted a positive first-half return, with the FTSE 100 Index rising +7.6% during the first half of 2026. The index advanced over the period but lagged the broader European benchmarks, including the STOXX Europe 600 and EURO STOXX Index.

Eurozone:
Eurozone equities gained in the first half of 2026, supported by improving economic activity and resilient corporate earnings. The STOXX Europe 600 rose 11.0%, while the EURO STOXX Index gained 12.4%. Performance varied across countries, with Italy's FTSE MIB advancing 18.2% and Spain's IBEX 35 rising 14.6%, while France's CAC 40 gained 5.7% and Germany's DAX increased 2.1%. Within the STOXX Europe 600, Technology (+26.6%), Oil & Gas (+23.3%), and Basic Resources (+18.0%) were the strongest sectors, while Automobiles & Parts (–14.9%) and Personal & Household Goods (–5.0%) were the weakest performers.

Japan:
Japanese equities performed strongly in the first half of 2026, supported by a weaker yen, improving domestic economic conditions, ongoing corporate governance reforms, and continued foreign investor inflows. The TOPIX Index rose 18.6% in local currency terms. Performance was led by Non-ferrous Metals (+96.0%), Glass (+58.7%), and Electrical Appliances (+47.6%), while Transportation Equipment (–11.8%), Land Transportation (–6.1%), and Real Estate (–2.6%) lagged. Gains were driven by strong performance in materials and industrial sectors, although returns varied significantly across industries.

Emerging Markets (EM):
Emerging market equities outperformed developed markets in the first half of 2026, with the MSCI Emerging Markets Index rising 24.0%. Gains were driven by strong performance in technology-focused markets, particularly Korea and Taiwan. For the first half of 2026, Korea's KOSPI surged 102.4%, while MSCI Taiwan gained 64.8%. Elsewhere, Brazil's Ibovespa rose 6.8%. In contrast, MSCI China declined 14.3% and India's BSE Sensex fell 9.4%, highlighting the wide variation in performance across emerging markets due to differing economic and policy conditions.

INVESTMENT MANAGER'S REPORT cont/d

Market Commentary cont/d

FIXED INCOME

United States (U.S.):
U.S. fixed income markets remained focused on the outlook for Federal Reserve's policy amid moderating growth and persistent inflation. At its June meeting, the Federal Reserve left interest rates unchanged and removed its easing bias. The Federal Open Market Committee remained divided, with most participants favouring either a rate hike or no change in 2026. Federal Reserve's Chair Kevin Warsh emphasized its dual mandate, noted limited support for a rate cut, and announced reviews of the Federal Reserve's communications, balance sheet, data, productivity, labour market, and inflation frameworks. Treasury yields moved higher during the first half of 2026, with the 2-year yield rising 70 bps to 4.18% and the 10-year yield increasing 29.7 bps to 4.47%. Credit conditions remained supportive, as investment-grade and high-yield spreads tightened modestly with U.S. investment-grade spreads ending at 73.5 bps (–3.9 bps) and high-yield spreads at 264.4 bps (–3.7 bps). Corporate bond issuance was strong, with first-half issuance exceeding USD 1 trillion.

United Kingdom (U.K.):
U.K. fixed income markets faced a weakening economic backdrop in the first half of 2026. In June, the U.K. composite PMI fell to 49.4, a 14-month low, while the services PMI declined to 48.7, its lowest level in 41 months, highlighting a loss of economic momentum. At the same time, political developments increased focus on the U.K.'s fiscal outlook. The Bank of England kept interest rates unchanged and maintained a cautious stance, emphasizing that policymakers remained prepared to act if inflation pressures persisted. U.K. gilt yields moved higher over the period as markets reassessed the outlook for monetary policy and economic growth. The 10-year gilt yield rose 28.1 bps to 4.76%, while the 2-year yield increased 43.4 bps to 4.15%, reflecting a more pronounced repricing at the front end of the yield curve.

Eurozone:
Eurozone fixed income markets were influenced by the European Central Bank's (ECB) shift towards tighter monetary policy during the first half of 2026. At its June meeting, the ECB raised its key policy rates by 25 basis points, bringing the deposit facility rate to 2.25%, marking its first rate increase in almost three years. The decision was driven by persistent inflation, with headline inflation at 3.2% and core inflation at 2.5% in May 2026. The ECB also revised its 2026 inflation forecast higher to 3.0% while lowering its GDP growth forecast to 0.8%. Sovereign yield movements were mixed across the Eurozone. During the first half of 2026, Germany's 2-year yield rose 40.4 bps to 2.52%, while the 10-year Bund yield ended broadly unchanged at 2.86%. France's 10-year yield increased 8.9 bps to 3.65%, and Italy's 10-year yield rose 8.1 bps to 3.63%. Credit market conditions remained stable, with euro investment-grade spreads ending at 79.0 bps (+0.9 bps) and euro high-yield spreads tightening to 259.9 bps (–4.0 bps).

Japan:
Japanese fixed income markets were shaped by further monetary policy normalization during the first half of 2026. At its June meeting, the Bank of Japan (BOJ) raised its policy rate from 0.75% to 1.0%, the highest level since 1995. The decision reflected the BoJ's view that the risk of a significant economic slowdown had diminished compared with earlier in the year. Japanese government bond yields moved higher over the period, led by the long end of the curve. During the first half of 2026, the 10-year yield rose 61.4 bps to 2.67%, while the 2-year yield increased 18.6 bps to 1.35%. The larger rise in longer-dated yields reflected stronger upward pressure on long-term interest rates as markets adjusted to the prospect of further policy normalization.

Emerging Markets (EM):
Emerging market fixed income markets saw divergent performance in the first half of 2026 as inflation, growth, and monetary policy trends varied across countries. The Bloomberg Emerging Market Sovereign Index yield rose 23.5 bps to 6.12%, reflecting mixed regional outcomes. China moved in the opposite direction to many other markets, with the PBoC conducting its first-ever overnight reverse repo operation to ease quarter-end liquidity conditions. Chinese government bond yields declined, with the 10-year yield falling 11.8 bps to 1.73% and the 2-year yield declining 13.1 bps to 1.23%. Elsewhere, yields moved higher as markets responded to local inflation and policy conditions. India's 10-year government bond yield rose 13.1 bps to 6.72%, while Brazil experienced a more pronounced repricing, with the 10-year yield increasing 60.9 bps to 14.34% and the 2-year yield rising 77.7 bps to 14.04%.

Profit for the financial period after tax		16,295,895,867
Net increase in net assets attributable to holders of redeemable participating shares		16,295,895,867

The notional foreign currency translation amount arises from the retranslation of the net assets at the beginning of the financial period using the exchange rate as at 31 December 2025 and amounts to €3,845,502,241. The notional foreign currency translation amount is part of the total increase in net assets attributable to holders of redeemable participating shares that reconciles to the total movement reported in the Statement of Changes in Net Assets Attributable to Holders of Redeemable Participating Shares. The notional foreign currency translation amount is not repeated above for presentation purposes but is part of other comprehensive income of the Company, resulting in total comprehensive income of the Company for the financial period ending 30 June 2026 being €20,141,398,108. The monthly average rate for the financial period is applied to income statement items and share transactions.

There are no recognised gains and losses other than those dealt with in the Statement of Comprehensive Income.

All amounts arose from continuing operations.

The accompanying notes on pages 1366 to 1440 form an integral part of these financial statements.

The foreign currency translation amount arises from the retranslation of the net assets at the beginning of the financial period using the exchange rate as at 31 December 2024 and amounts to €(13,120,297,152). The foreign currency translation amount is part of the total increase in net assets attributable to holders of redeemable participating shares that reconciles to the total movement reported in the Statement of Changes in Net Assets Attributable to Holders of Redeemable Participating Shares. The foreign currency translation amount is not repeated above for presentation purposes but is part of other comprehensive income of the Company, resulting in total comprehensive income of the company for the financial period ending 30 June 2025 being €(4,774,508,790). The monthly average rate for the financial period is applied to income statement items and share transactions.

There are no recognised gains and losses other than those dealt with in the Statement of Comprehensive Income.

All amounts arose from continuing operations.

The accompanying notes on pages 1366 to 1440 form an integral part of these financial statements.
