A separate pool of assets and separate accounting records are maintained for each Subfund.

The figures presented in this report relate to the period from 1 October 2018 to 31 March 2019. They should not necessarily be taken as an indication of the future development of the Subfunds.

¹⁾ Not authorized in Hong Kong and not available to the public of Hong Kong.

Subscriptions are only valid if made on the basis of the current Prospectus, the Articles of Incorporation, the Key Investor Information Document supplemented by the latest available audited Annual Report. If the latest Annual Report was published more than eight months ago, then the most recent Semi-Annual Report must also be made available.

The Prospectus, the Articles of Incorporation, the Key Investor Information Document as well as the respective Annual and Semi-Annual Reports can be obtained at the registered office of the Company or from the Management Company, the Custodian and each Paying and Information Agent without charge.

Some transactions conducted in the reporting period do no longer appear in the Investment Portfolio. The Statement of Changes in the composition of the securities portfolio during the reference period is available free of charge on request at the registered office of the Company and at the representatives where the Subfunds are distributed.

¹⁾ In the case of liquidation/merger the performance until the liquidation/merger date is shown.

The calculation is based on the net asset value per share (excluding sales charge), assuming distributions, if any, were reinvested. The performance is calculated according to the method recommended by the German BVI (Bundesverband Investment und Asset Management e.V.).

Past performance is no indication of current or future performance.

The performance data do not take account of the commissions and costs incurred on the issue and redemption of shares.

Economic situation and capital market in the reporting period/outlook

Declining global economy, yet relatively robust situation on the financial markets

In the six months under review at the end of March 2019, there were increasing signs of a slowdown in the global economy. This was reflected in particular in the slowdown in growth in China, to which the trade conflict with the USA also contributed to a certain extent. Interim interest and inflation concerns recovered in this environment.

In the USA, consumer confidence and sentiment in the industry suffered, and job creation slowed noticeably. In Japan, sentiment in the manufacturing industry also deteriorated due to a decline in new orders, especially in the mechanical engineering sector. Businesses and consumers in the Eurozone also viewed the economic outlook with great scepticism. There was no consistent trend in emerging markets. However, even the most dynamic emerging economies in Asia were unable to escape the global economic slowdown.

Against this background, the central banks of developed countries announced a cautious monetary policy course. Although a minor increase in interest rates was still taking place in the USA, further tightening measures were postponed for the time being. The European Central Bank maintained its zero interest rate policy and announced that it would grant additional long-term loans to banks on favourable terms. The Bank of England and the Japanese Federal Reserve also left their interest rates unchanged.

Equity markets: Increased price fluctuations at times, large regional differences

Despite slowing momentum in the global economy, the situation on most major stock exchanges has tended to remain stable. In detail, there were some significant differences at the regional level, which reflected local conditions and influences.

Although the US stock market initially saw a noticeable decline in dollar terms, it later rebounded as the central bank announced a break in its rate hikes. Thanks to the appreciation of the dollar, investors from the Euro area were able to achieve a slight gain in the broad American market.

The Japanese stock market suffered somewhat more severely, reflecting Japan's pronounced dependence on world trade and worries about ongoing conflicts over import tariffs.

Overall, prices on the European stock market remained roughly stable. For example, British and French stocks lost only marginal value, while Italy posted solid price gains despite recessionary concerns. One exception was German stock exchanges, which suffered from selling pressure given the downward prospects for growth.

In the emerging markets, China's stock market was particularly strong in the Asian region, with particularly strong price gains. By contrast, prices in Eastern Europe stagnated on average. In Latin America, a booming stock market in Brazil faced a strong negative investor sentiment in Mexico.

Volatility - i.e. the fluctuation of share price movements - increased significantly at the turn of the year 2018/2019. This reflected interim interest and economic concerns, which, however, largely recovered in the course of the first quarter.

Interest-bearing investments: mostly positive results

On the international bond markets, mainly positive investment results were received. This was due to declining inflation expectations and announcements by the leading central banks to refrain from raising interest rates for the time being. In this environment, market yields on interest-bearing securities tended to decline.

In the money markets and short-term sectors, current yields in most developed countries were close to zero as a result of central banks' very low or sometimes negative policy rates. For longer-duration government bonds from the US and Europe, the decline in yields was accompanied by corresponding price gains. In a weaker form, this trend was also observed in high-quality corporate papers. By contrast, high-yield bonds achieved only comparatively small increases in value. In this segment, recurring prices were often offset by current returns, reflecting the gloomy economic environment and heightened investor scepticism about heavily indebted companies.

In general, non-currency-hedged assets in the USA, in Euro terms, benefited from the appreciation of the dollar.

Interest-bearing securities from emerging markets developed quite differently according to different local circumstances. In general, bonds from regions with moderate debt and continued solid economic growth, such as the Asia-Pacific region, benefited from increased interest from income-oriented international investors. In particular, this benefited emerging market debt denominated in global reserve currencies such as the US dollar. However, emerging market securities denominated in local currencies also performed well overall, although negative currency effects arose in individual countries suffering from domestic tensions and economic difficulties, such as Turkey.

In the Combined Financial Statements of the Company, cross-subfunds investments were not eliminated. At year-end date, the total of cross-subfunds investments amounts to EUR 1,422,881,988.90 and therefore total combined NAV at year-end without cross-investments would amount to EUR 90,500,044,742.62.

The Financial Statements of the Subfunds presented on pages 72 to 1260 combine to form the Company's Financial Statements, which are shown above. The accompanying notes form an integral part of these financial statements.

Statement of Changes in Net Assets

for the period from 01/10/2018 to 31/03/2019

	01/10/2018–31/03/2019	01/10/2017–30/09/2018

Valuation of Assets

The value of the assets held by the Subfunds is determined as follows:

- a) Cash, term deposits and similar assets are valued at their face value plus interest. If there are significant changes in market conditions, the valuation may be made at realisation price if the Company can cancel the investment, the cash or similar assets at any time; the realisation price in this sense corresponds to the sales price or the value that must be paid upon cancellation to the Company.
- b) Investments that are listed or traded on an exchange are valued based on the latest available trade price on the stock exchange which constitutes in principle the principal market for this investment.
- c) Investments traded on another regulated market are valued at the latest available trade price.
- d) Securities and money-market instruments whose latest available trade prices do not correspond to appropriate market prices, as well as securities and money-market instruments not officially listed or traded on an exchange or on another regulated market, and all other assets, are valued on the basis of their probable sales price, determined prudently and in good faith.
- e) Claims for reimbursement from securities lending are valued at the respective market value of the securities and money-market instruments lent.
- f) The liquidation proceeds of futures, forward foreign exchange or options contracts not traded on exchanges or on other regulated markets means their net liquidating value determined, pursuant to the policies established by

the Board of Directors, on the basis of calculations consistently applied for all types of contracts. The liquidation proceeds of futures, forward or options contracts, traded on exchanges or on other regulated markets, are based upon the latest available trade price of these contracts on exchanges and regulated markets on which the particular futures, forward or options contracts are traded by the Company. If futures, forward or options contracts cannot be settled on the day with respect to which net assets are being determined, the basis for determining the liquidating value of such contract is such a value as the Board of Directors may deem fair and reasonable.

- g) Interest-rate swaps are valued at their market value by reference to the applicable interest-rate curve.
- h) Index and financial instrument-related swaps are valued at their market value, established by reference to the applicable index or financial instrument. The valuation of the index or financial instrument-related swap agreement is based upon the market value of such swap transaction established in good faith pursuant to procedures established by the Board of Directors.
- i) Target Fund Shares/Units in undertakings for collective investment in transferable securities ("UCITS") or undertakings for collective investment ("UCI") are valued at the latest redemption price determined and obtainable.

Income recognition

Interest income is accrued daily. Bank interest income is recognised on an accrual basis. Dividend income is accrued on the ex-dividend date. This income is shown net of any withholding taxes.

RMB or Chinese Renminbi refers to the official currency of the People's Republic of China. Unless the context otherwise requires, the term RMB refers to offshore Chinese Renminbi ("CNH") and not to onshore Chinese Renminbi ("CNY"). CNH

represents the exchange rate of Chinese Renminbi that is traded offshore in Hong Kong or markets outside the People's Republic of China.

All-in-Fee

The Company pays all costs to be borne by the respective Subfund from the assets of that Subfund:

The Company pays a fee ("All-in-Fee") to the Management Company from the assets of the respective Subfund, unless this fee is charged directly to the Shareholder under the terms of a particular Share Class.

Fees for the Investment Managers used by the Management Company are paid by the Management Company from its All-in-Fee and, if applicable, from its performance related fee.

Provided that it is not charged directly to the Shareholder under the terms of a particular Share Class, the All-in-Fee is charged monthly in arrears on a pro rata basis on the average daily Net Asset Value of the respective Share Class of a Subfund. The amount of the All-in-Fee charged is listed thereafter.

In return for the payment of the All-in-Fee the Management Company releases the Company from the following, conclusive enumerated commissions and expenditures:

- Management and central administration agent fees;
- Distribution fees;
- the administration and custody fee of the Depositary;
- the fee of the Registrar and Transfer Agent;
- costs of the preparation (including translation) and dissemination of the Prospectus, Key Investor Information, Articles of Incorporation as well as annual, semi-annual and, if any, interim reports and other reports and notifications to Shareholders;
- costs of publishing the Prospectus, Key Investor Information, Articles of Incorporation, annual, semi-annual and, if any, interim reports, other reports and notifications to Shareholders,

tax information, as well as Subscription and Redemption Prices, and official announcements made to the Shareholders;

– costs of auditing the Company and its Sub-Funds by the auditor;

– costs of registering the Shares for public distribution and/or the maintenance of such registration;

– costs of preparing share certificates and, if any, coupons and coupon renewals;

– paying agent and information agent fees;

– costs of assessing the Sub-Funds by nationally and internationally recognised rating agencies;

– expenses in connection with the establishment of a Sub-Fund;

– costs related to the use of index names, in particular licence fees;

– costs and fees incurred by the Company and by third parties authorised by the Company relating to the acquisition, use and maintenance of in-house or third-party computer systems used by Investment Managers and Investment Advisors;

– costs related to obtaining and maintaining a status authorising the direct investment in assets in a country or to act directly as a contracting partner in markets in a country;

– costs and expenses by the Company, the Depositary and third parties authorised by the Company or the Depositary in connection with monitoring of investment limits and restrictions;

– costs for calculating the risk and performance figures and the calculation of performance-related fees for the Management Company by third parties appointed to do so;

– costs related to obtaining information about general Shareholders' meetings of companies or about other meetings of the owners of assets as well as costs related to direct participation or participation through authorised third parties in such meetings;

– postage, telephone, fax and telex fees.

It has been decided to set the performance fee rate at zero percent for these share classes.

Performance Fee

The Management Company may charge a performance-related fee to Subfund assets for selected Subfunds for their management, provided that this fee is not charged directly to the shareholder in the framework of a special share class. The performance-related fee will be calculated in accordance with the method described in the current sales prospectus.

According to the current prospectus a performance fee is foreseen for the following share classes:

- Allianz Asian Small Cap Equity AT (USD), IT (USD);

- Allianz Credit Opportunities IT (EUR);

- Allianz Discovery Europe Opportunities A (EUR), AT (EUR), I (EUR), I2 (H2-JPY), IT (EUR), P (EUR), PT (H2-GBP), RT (EUR);

- Allianz Discovery Europe Strategy A (EUR), AT (EUR), AT (H2-SEK), I (EUR), IT (EUR), IT (H2-SEK), P (EUR), PT (H2-CHF), R (EUR), RT (EUR);

Retrocession of Management Fees

The investment management fees of certain underlying funds, in which some Subfunds invest, are partially or totally rebated by the investment managers of such underlying funds which have entered into agreements with Allianz Global Investors GmbH. Those amounts have been classified under caption other Income.

If a Subfund acquires shares of a UCITS or UCI which is directly or indirectly managed by the same investment manager or by another investment manager with which the Company is linked by common management or control, or by a substantial direct or indirect participation according to Part I of the Luxembourg Law of 17 December 2010 on Undertakings for Collective Investment then neither the Company nor the associated investment manager may charge fees for the subscription or redemption of units. In the case of the previous sentence, the Company will also reduce its share of the All-in-Fee for the part of units in such linked UCITS or UCI by the respective actual calculated fixed management fee of the

UCITS or UCI acquired. However, a decrease does not occur with respect to such linked UCITS or UCI as far as a reimbursement of this actually calculated fixed management fee is made in favour of the respective Subfund.

Securities Prices

In accordance with the Prospectus, the net asset values have been calculated by reference to the valuation day which might differ from their value on a dealing day.

The financial statements presented in this report have been prepared on the basis of the latest calculated net asset values in the period.

Fair Value Pricing

A fair value pricing model is used for several Subfunds. A fair value pricing model means that the value of certain assets will be adjusted to more accurately reflect their fair value based upon certain criteria. Such adjustments may occur during monitoring periods as defined by the Board of Directors from time to time, if a single country equity risk exposure (excluding equity exposure held via target funds) of a Subfund reaches or exceeds a certain trigger level, as defined by the Board of Directors from time to time, on the first Valuation Day of the respective monitoring period and, at the respective Subfund's deadline for receipt of applications, the main stock exchange of the respective country is already closed during normal course of business. If the aforementioned conditions are fulfilled the value of Subfund's assets which form part of the respective single country equity risk exposure based on the closing prices of the relevant country's main stock exchange is compared to their estimated value at the moment when the Subfund's Net Asset Value is calculated; the estimation is based on the movement of index orientated instruments since the close of business of the respective country's main stock exchange. If such comparison leads to a deviation in Subfunds estimated Net Asset Value by, at least, a certain trigger level, as defined by the Board of Directors from time to time, the Subfund's Net Asset Value will be adjusted accordingly to the extent that the unadjusted value would not represent their actual value.

Soft Commission Agreements/Commission Sharing Arrangements

Soft Commission Agreements/Commission Sharing Arrangements have been undertaken in respect of the Company.

The Company may pay, or be responsible for payment of, soft commissions only insofar as:

- a) the Management Company and/or the Investment Managers, as the case may be, act at all times in the best interest of the Company and the shareholders when entering into soft commission arrangements;
- b) the goods and/or services provided by the broker dealers relate directly to the activities of the Management Company and/or the Investment Managers, as the case may be, and such activities are of demonstrable benefits to the Shareholders; and
- c) any such soft commission is paid by the Management Company and/or the Investment Managers, as the case may be, to broker-dealers which are corporate entities and not individuals.

During the Company's fiscal year, services which are paid for through or by soft commissions were in majority limited to research, market analysis as well as data and quotation services.

Transactions with Connected Parties

The Company has entered into agreements with the Management Company under which management and performance fees are payable.

Information on the management fee rates charged to the Subfunds is shown in the table on pages 1266-1279. Further details on fees payable by the Company can be found in the current prospectus.

As at 31 March 2019, the Company held investments into other funds that were managed by the Management Company or other companies belonging to the same group as the Management Company. There were no transactions with connected brokers during the fiscal year.

Collateral Management

For some Subfunds, the Management Company has implemented collateral management processes to mitigate counterparty risks with OTC-counterparties. OTC-transactions are effected on the basis of standardised contracts that also provide for respective requirements in relation to accepted type of eligible collateral and discounts for collateral valuation ("haircuts"). The collateral management is performed by collateral managers, normally the respective investment manager of the Subfund.

Swing pricing

A Subfund may suffer reduction of the Net Asset Value per share due to investors purchasing, selling and/or switching in and out of shares of a Subfund at a price that does not reflect the dealing costs associated with this Subfund's portfolio trades undertaken by the Investment Manager to accommodate cash inflows or outflows. In order to reduce this impact and to protect shareholders' interests, a swing pricing mechanism may be adopted by the Company as part of the general valuation policy. According to the prospectus swing pricing is foreseen for the following funds: Allianz Convertible Bond, Allianz Emerging Markets Local Currency Bond, Allianz Emerging Markets Select Bond, Allianz Emerging Markets Short Duration Defensive Bond, Allianz Euro Credit SRI, Allianz Euro Government Bond, Allianz Euro High Yield Bond, Allianz Euro High Yield Defensive, Allianz Euro Investment Grade Bond Strategy, Allianz Euro Subordinated Financials, Allianz German Small and Micro Cap, Allianz Global Aggregate Bond, Allianz Global Credit, Allianz Global Financials, Allianz Global Floating Rate Notes Plus, Allianz Global Government Bond, Allianz Global High Income Short Duration, Allianz Global High Yield, Allianz Global Multi-Asset Credit, Allianz Japan Smaller Companies Equity, Allianz Selective Global High Yield, Allianz SGD Income, Allianz Short Duration Global Bond, Allianz Short Duration Global Real Estate Bond, Allianz Target Maturity Global Bond II, Allianz Target Maturity Global Bond III. The extent of such adjustment will be reset by the Company on a periodic basis to reflect an approximation of current dealing and other costs. Such price adjustment may vary from Subfund to Subfund and will not exceed 3 % of the original Net Asset Value per share. The price adjustment will be available on request from the Management Company at (i) its registered office and/or (ii) on the webpage <https://regulatory.allianzgi.com>. As at 31 March 2019 none of the NAVs of the above mentioned Subfunds was swung.

TBA (to be announced) Securities

TBA positions refer to the common trading practice in the mortgage-backed securities market in which a commitment to buy or sell a mortgage backed security (issued by Ginnie Mae, Fannie Mae or Freddie Mac) for a fixed future price at a future date is given. At the time of purchase of a TBA, the exact underlying pool of mortgages that is to be delivered is not known, but the main characteristics are specified. Such transactions are entered into with financial institutions specialised in such transactions.

Although the Subfund may enter into TBA purchase commitments with the intention of acquiring securities, the Subfund may also close a position prior to settlement by entering into an opposite transaction in order to fix the economical result of the initial transaction.

In the period under review the Subfunds did not enter in such transactions.

Note for investors in the Federal Republic of Germany

All payments to shareholders (redemption proceeds, any dividends and other payments) can be made through the German Paying Agent listed in the "Directory". Applications for redemption and conversion may be submitted through the German Paying Agent.

With respect to sales in the Federal Republic of Germany, the Subscription, the Redemption and, if applicable, Conversion prices are published on the website <https://de.allianzgi.com>. Any announcements to investors are published on the website <https://de.allianzgi.com>. For selected share classes (e.g. share classes exclusively for institutional investors or share classes whose bases of taxation are not published in the Federal Republic of Germany) publication can be performed on one of the websites <https://regulatory.allianzgi.com> or <https://lu.allianzgi.com>.

In addition, in accordance with § 298 paragraph 2 of the German Capital Investment Code a durable medium within the meaning of § 167 of the German Capital Investment Code is used to inform investors in the Federal Republic of Germany in the following cases:

- Suspension of the redemption of Shares in a Subfund,
- Termination of the management of the Company/a Subfund or liquidation of the Company/a Subfund,
- Amendments to the terms and conditions that are not reconcilable with previous investment principles, affect material investor rights, or concern fees or expense reimbursements payable from a Subfund, including background information on the amendments and the rights of investors,
- In the case of a merger of a Subfund with another fund, the merger information in accordance with Article 43 of Directive 2009/65/EC, In the case of conversion of a Subfund into a feeder fund or, if applicable, changes to a master fund, the information to be prepared in accordance with Article 64 of Directive 2009/65/EC.

The prospectus, key investor information, Articles of Incorporation, current annual and semi-annual reports, subscription, redemption and, if applicable, conversion prices, and the additional documentation listed under "Available Documentation" may be obtained in hard copy without charge from the Information Agent listed in the "Directory" and on the website <https://de.allianzgi.com>. For selected Share Classes (e.g. Share Classes intended exclusively for institutional investors or Share Classes for which no bases of taxation are published in the Federal Republic of Germany), the information may be published on one of the following websites: <https://regulatory.allianzgi.com> or <https://lu.allianzgi.com>. The depositary agreement is available for inspection without charge at the offices of the Information Agent.

Neither the Management Company, the Depositary, the Registrar and Transfer Agent, the Distributor nor the Paying and Information Agents are liable for errors or omissions in the published prices.

US High Yield and Allianz US Short Duration High Income Bond in the Republic of Austria has been registered with the Finanzmarktaufsicht (Vienna) pursuant to section 140 InvFG. Allianz Investmentbank AG will act as paying and representation agent in Austria according to Section 141 Para 1 InvFG. Redemption applications for Shares of the above Sub-Funds can be submitted to the Austrian Paying and Information Agent. In addition, all necessary investor information can be obtained without charge at the Austrian Paying and Information Agent, such as the Prospectus and KIID, the Articles of Incorporation, the annual and semi-annual reports as well as the subscription, redemption and conversion prices. It is recommended to the investors to check before the acquisition of shares of the Sub-Funds if for the respective share class the required fiscal data are published via Oesterreichische Kontrollbank AG.

Redemption applications for shares of the above Subfunds can be submitted to the Austrian Paying and Information Agent.

In addition, all necessary investor information can be obtained without charge at the Austrian Paying and Information Agent, such as the Prospectus and Key Investor Information, the Articles of Incorporation, the annual and semi-annual reports as well as the subscription, redemption and conversion prices.

It is recommended to the investors to check before the acquisition of shares of the Subfunds if for the respective share class the required fiscal data are published via Oesterreichische Kontrollbank AG.

Note for Investors in the United Kingdom (Unaudited)

In relation to all Funds, the Unit Trust has received the necessary authorisations that the Shares may be offered for sale in the United Kingdom.

UK Distributor and Facilities Agent

The name and address of the UK Distributor and Facilities Agent is listed in the Directory.

All payments to Unitholders (proceeds of redemption, any distributions and other payments) can be made through the UK Distributor and Facilities Agent.

In addition to the procedures set out in the "Administration of the Trust" section of the Prospectus, any person wishing to purchase Units or any Unitholders wishing to have all or any of their Units redeemed or converted may also apply in writing to the UK Distributor and Facilities Agent and should include the duly completed application or redemption or conversion request form as appropriate or such other written notification specified by the UK Distributor and Facilities Agent.

Furthermore, the Subscription and Redemption Prices can be obtained from the UK Distributor and Facilities Agent and shall be published on a website address specified in the Prospectus. Any person who has a complaint to make about the operation of the scheme can submit the complaint to the UK Distributor and Facilities Agent.

Any complaints may be sent to The Complaints Officer at the address of the UK Distributor and Facilities Agent. A copy of the complaints process leaflet of the UK Distributor and Facilities Agent is available on request. Eligible complainants may also refer their complaint to the Financial Ombudsman Service if they are not satisfied with the final response from the UK Distributor and Facilities Agent.

UK Reporting Status Units

The Unit Trust currently intends to apply in respect of each accounting period for certification of certain Classes of Units in the Funds as reporting Classes of Units for UK tax purposes ("UK Reporting Status"). However, no guarantee can be given that such certification will be obtained.

The UK Retail Distribution Review (RDR)

Intermediaries that are regulated by the UK's Financial Conduct Authority (FCA) or are a UK branch of a regulated entity in a member state of the EEA are from 31 December 2012 subject to the FCA's RDR rules in relation to investment advice that they provide to retail clients.

In accordance with the RDR rules, any intermediary distributing funds who (i) is subject to these rules and (ii) who provides personal recommendations or advice to retail clients located in the UK, shall not be entitled to receive any commission from the fund provider in respect of any investment made after 31 December 2012 on behalf of, or related services provided to, such retail clients.

Any potential investor who is subject to the RDR rules and who provides personal recommendations or advice to retail clients located in the UK is therefore obliged to ensure that it only invests in appropriate unit classes on behalf of its clients.

The above summary does not purport to be a comprehensive description of all the considerations that may be relevant to an investor with regard to RDR. Potential investors are strongly recommended to contact their own legal advisers in this respect.

Available Documentation

The Prospectus, the Key Investor Information Document, the Trust Deed, the annual and semi-annual reports as well as the material contracts referred to in this Prospectus, together with the UCITS Regulations and the Central Bank Regulations, can be inspected, free of charge, at or obtained from the UK Distributor and Facilities Agent.

Note for investors in Switzerland

1. Representative and Paying Agent in Switzerland

BNP Paribas Securities Services, Paris, Succursale de Zurich, Selnaustrasse 16, CH-8002 Zurich, is Representative and Paying Agent in Switzerland for the shares distributed in Switzerland.

2. Place where the Relevant Documents may be obtained

The Prospectus, the Articles of Incorporation, the Key Investor Information as well as the Annual and Semi-Annual reports as well as the details of the changes in portfolio composition during the period under review may be obtained without charge from the Representative in Switzerland.

3. Publications

Publications in Switzerland are made on www.fundinfo.com. In Switzerland, Subscription and Redemption Prices together and/or the Net Asset Value (with the indication "commissions excluded") of the Shares are published daily on www.fundinfo.com.

4. Payment of retrocessions and rebates

Retrocessions:

The Management Company and its agents may pay retrocessions as remuneration for distribution activity in respect of shares in or from Switzerland. This remuneration may be deemed payment for the following services in particular:

- setting up processes for subscribing, holding and safe custody of the shares;
- keeping a supply of marketing and legal documents, and issuing the said documents;
- forwarding or providing access to legally required publications and other publications;
- performing due diligence delegated by the Management Company in areas such as money laundering, ascertaining client needs and distribution restrictions;
- mandating an authorised auditor to check compliance with certain duties of the Distributor, in particular with the

Guidelines on the Distribution of Collective Investment Schemes issued by the Swiss Funds & Asset Management Association SFAMA;

- operating and maintaining an electronic distribution and/or information platform;
- clarifying and answering specific questions from investors pertaining to the investment product or the Management Company or the Sub-Investment Manager;
- drawing up fund research material;
- central relationship management;
- subscribing for shares as a "nominee" for several clients as mandated by the Management Company;
- training client advisors in collective investment schemes;
- mandating and monitoring additional distributors.

Retrocessions are not deemed to be rebates even if they are ultimately passed on, in full or in part, to the investors.

The recipients of the retrocessions must ensure transparent disclosure and inform the investor, unsolicited and free of charge, about the amount of remuneration they may receive for distribution.

On request, the recipients of retrocessions must disclose the amounts they actually receive for distributing the collective investment schemes of the investors concerned.

Rebates:

In the case of distribution activity in or from Switzerland, the Management Company and its agents may, upon request, pay rebates directly to investors. The purpose of rebates is to reduce the fees or costs incurred by the investor in question.

Rebates are permitted provided that:

- they are paid from fees received by the Management Company and therefore do not represent an additional charge on the fund assets;

- they are granted on the basis of objective criteria;
- all investors who meet the objective criteria and demand rebates are also granted these within the same timeframe and to the same extent.

The objective criteria for the granting of rebates by the Management Company are:

- the volume subscribed by the investor or the total volume they hold in the collective investment scheme or, where applicable, in the product range of the promoter;
- the amount of the fees generated by the investor;
- the investment behaviour shown by the investor (e.g. expected investment period);
- the investor's willingness to provide support in the launch phase of a collective investment scheme.

At the request of the investor, the Management Company must disclose the amounts of such rebates free of charge.

5. Place of Performance and Jurisdiction

The place of performance and jurisdiction for shares distributed in Switzerland is at the registered office of the Representative in Switzerland.

Ongoing charges

The Ongoing Charges are costs incurred by the Subfunds (or the respective Share Classes) during the preceding financial year (excluding transaction costs) and are expressed as a ratio of the average volume of the Subfunds (or of the average volume of the respective Share Classes) (“Ongoing Charges”). In addition to the All-in-Fee as well as the Taxe d’Abonnement, all other costs are considered except for the incurred transaction costs and any performance-related fees. Costs incurred will not be subject to cost compensation. If a Subfund invests more than 10 % of its assets in other UCITS or UCI that publish Ongoing Charges, the Ongoing Charges of these other UCITS or UCI are taken into consideration when calculating Ongoing Charges for the Subfund (synthetic); however, if these UCITS or UCI do not publish their own Ongoing Charges, then it is not possible to take the Ongoing Charges of the other

UCITS or UCI into consideration when calculating Ongoing Charges.

If a Swiss registered Subfund invests more than 10 % of its assets in other UCITS or UCI that publish Ongoing Charges, the Ongoing Charges of these other UCITS or UCI are taken into consideration when calculating Ongoing Charges for the Subfund (synthetic); however, if these UCITS or UCI do not publish their own Ongoing Charges, then it is not possible to take the Ongoing Charges of the other UCITS or UCI into consideration when calculating Ongoing Charges. If such a Subfund does not invest more than 10 % of its assets in other UCITS or UCI, any costs that may be incurred at the level of these UCITS or UCI are not taken into consideration. These Ongoing Charges have been calculated in accordance with the guidelines issued by the Swiss Funds and Asset Management Association (SFAMA).
