

Allianz Europe Small Cap Equity - WT - EUR

Equity fund for smaller European companies

Investors should note that, relative to the expectations of the Autorité des Marchés Financiers, this fund presents disproportionate communication on the consideration of non-financial criteria in its management.

Investment Objective

The fund concentrates on small capitalised companies registered in Europe (ex Turkey and Russia). Sustainability aspects are taken into account by the fund management. For more information on the investment strategy, the permissible asset classes and the sustainability approach, please refer to the sales prospectus. Its investment objective is to attain capital growth over the long term.

FOR FUND DISTRIBUTORS AND PROFESSIONAL INVESTORS ONLY

- 1) Calculated at the net asset value, excl. front-end load, distributions reinvested. Calculation according to method as defined by BVI, the German Fund Companies Association. **Any front-end loads reduce the capital employed and the performance.** All performance data since 15/09/2009 of Allianz Europe Small Cap Equity - WT - EUR prior to the launch date, 05/06/2012 refer to another share class of the same investment fund. All performance data from 02/01/2002 to 15/09/2009 refer to another investment fund. This does not imply that Allianz Europe Small Cap Equity - WT - EUR will experience a similar performance in the future. All share classes/investment funds mentioned above are based on the same investment objectives and strategies as well as risk profiles and fee structures. Past performance does not predict future returns
- 2) Benchmark history: until 30/01/2013 EUROMONEY SMALLER EUROPEAN COMPANIES RETURN NET IN EUR
- 3) This fund has been classified as an Article 8 under SFDR: EU Sustainable Finance Disclosure Regulation. Information accurate at time of publishing. Investors should take into account all the characteristics and/ or objectives of the fund as described in its prospectus and Key Investor Document (regulatory.allianzgi.com).
- 4) The Sharpe ratio states the relationship between the return generated by the fund and the investment risk. The fund's excess return versus the risk-free market rate is compared to volatility. Negative values are not meaningful.
- 5) Volatility measures the fluctuation range of the fund's performance over a specified period of time.
- 6) Measure of the proportion of fund assets that is invested differently from the benchmark.
- 7) The dividend yield corresponds to the expected dividend divided by the current price of the share, expressed as a percentage. (eDiv/share price) where: eDiv = product of the last dividend payment and the number of expected dividend payments per year (e.g. the expected dividend for a share with quarterly dividend payment corresponds to the dividend for the last quarter times four). The dividend yield depends both on the amount of the dividend and the current price of the share. Both these key variables may be subject to constant change. The dividend yield is only a snapshot based on the current amount of the dividend and the current share price; **as a result, it is not suitable as an indicator of the future performance of an equity fund.**
- 8) This is for guidance only and not indicative of future allocation.
- 9) Securities mentioned in this document are for illustrative purposes only and do not constitute a recommendation or solicitation to buy or sell any particular security. These securities will not necessarily be comprised in the portfolio by the time this document is disclosed or at any other subsequent date.
- 10) The all-in fee includes the expenses previously called management, administration and distribution fees. Any payment of a trail fee by the management company to a distribution partner will be effected from the all-in fee.
- 11) TER generally: Total cost (except transaction costs) charged to the fund during the last financial year. TER for funds-of-funds: The costs incurred by the fund itself (except transaction costs). Since the fund held other investment units ("target funds") in the reporting period, further costs, charges and fees may have been incurred at the level of the target fund.

Disclaimer

Investing involves risk. The value of an investment and the income from it may fall as well as rise and investors might not get back the full amount invested. Allianz Europe Small Cap Equity is a sub-fund of Allianz Global Investors Fund SICAV, an open-ended investment company with variable share capital organised under the laws of Luxembourg. The value of the units/shares which belong to the Unit/Share Classes of the Sub-Fund that are denominated in the base currency may be subject to a strongly increased volatility. The volatility of other Unit/Share Classes may be different. Past performance does not predict future returns. If the currency in which the past performance is displayed differs from the currency of the country in which the investor resides, then the investor should be aware that due to the exchange rate fluctuations the performance shown may be higher or lower if converted into the investor's local currency.
