Fidelity Funds

Introduction

Fidelity Funds (the "Company") is an open-ended investment company established in Luxembourg as a société d'investissement à capital variable ("SICAV"). It has an umbrella structure and its assets are held in a number of different funds ("sub-funds"). Each sub-fund is a separate portfolio of securities and other assets managed in accordance with specific investment objectives. Separate classes of shares in the Company (the "Shares") are issued in relation to the sub-funds. Each sub-fund provides an investment opportunity in professionally managed pools of securities in different geographical areas and currencies, with the investment objective of capital growth, income or a balance between capital growth and income.

Shares are authorised for sale in a number of jurisdictions and may be listed on the Luxembourg Stock Exchange's Euro MTF market. However, shares in the Reserved Funds and the Institutional Reserved Funds are not presently listed. Further information on the stock exchange listings can be found on https://www.bourse.lu/official list or may be obtained from the Management Company upon request.

Swiss investors are advised that with the exception of the Asia Pacific Multi Asset Growth & Income Fund, Greater China Fund II, Greater China Multi Asset growth & Income Fund, the Institutional Target Funds, Institutional European Larger Companies Fund, Multi Asset Target Income 2024 Fund, Sustainable Asia Equity II Fund, the present sub-funds of the Company have been authorised by the Swiss Financial Market Supervisory Authority for distribution in Switzerland.

Board of Directors

The Directors of the Company as at 31 October 2023 are listed on page 3. Eight of the ten Directors serving as at 31 October 2023 are considered non-executive Directors, three of whom are considered by the Board to be independent of the Investment Manager and free from any other relationship which could materially interfere with the exercise of their independent judgment.

There have been no changes to the Board of the Management Company during the period to 31 October 2023.

Conducting Officers

As at 31 October 2023 the Conducting Officers appointed by FIL Investment Management (Luxembourg) S.A. ("FIMLUX") were as listed on page 3.

This Semi-Annual Report of the Company does not constitute an offer of Shares. Shares are offered on the basis of the information contained in the current Prospectus (and the documents referred to within it) supplemented by the last available Annual Report of the Company and any subsequently published Semi-Annual Report. Copies of the current Prospectus, latest Annual and Semi-Annual Reports and Portfolio Changes for the Company are available free of charge from the registered office of the Company or from any of the companies registered as distributors of the Company, or, for investors in Switzerland, from the Representative of the Company in Switzerland.

This Semi-Annual Report has been approved for circulation in the United Kingdom by FIL Investments International, UK distributor of the Company, authorised and regulated in the UK by the Financial Conduct Authority.

Investment Manager's Report*

Equity Markets

Global equities, as measured by the MSCI World Index, generated negative returns in US dollar terms over the six-month period to the end of October 2023. Markets were positive in the first half of the period. Moderating inflation in developed markets heightened expectations for less restrictive monetary policies going forward, as central banks in major developed economies slowed the pace of interest rate hikes. Sentiment also received support as healthy corporate earnings and resilient economic data, including robust US GDP growth, raised hopes for a soft landing in the global economy. However, markets came under pressure in the second half as inflation remained higher than target levels, which led major central banks to retain their hawkish stance and reinforce higher for longer views on interest rates. Slowing growth in China, followed by weak macroeconomic data and renewed stress in its real estate sector kept markets muted. Towards the end of the period, the tragic events that unfolded in the Middle East also dampened sentiment as concerns over the conflict spreading across the region kept investor cautious.

Source: Refinitiv DataStream, Total Returns (%), USD, 30.04.2023 - 31.10.2023

Against this global backdrop, Pacific ex-Japan and European equities declined the most, while US equities ended in positive territory. Emerging market equities also ended lower, driven by the sluggish recovery in China. From a sector perspective, utilities and consumer staples companies were among the key laggards, while information technology (IT) and energy stocks gained. Overall, returns in US dollar terms were weighed down by its appreciation against the yen, euro and sterling.

European equities delivered negative returns. At the start of the period, investors were encouraged by positive corporate results and markets remained buoyant, even as reports of slowing growth in China continued. European equities saw some major rotations in the third quarter, as investors focused on interest rate decisions by most major central banks. Inflationary pressures persisted over the third quarter, and the focus shifted to how long the restrictive policy stance will last, with 'higher for longer' emerging as the likely strategy of some central banks. In October, sentiment remained fragile amid a disappointing earnings season, elevated interest rates and geopolitical tensions. Central banks, including the European Central Bank (ECB) stopped raising rates. Investors now believe the hiking cycle is over, with only a small probability of further action from the US Federal Reserve (Fed) and the Bank of England (BoE).

UK equities declined sharply over the period as a slew of challenges, primarily the direction of interest rates, kept investors on edge. Although inflationary pressures continued to moderate, they remained at an elevated level in the UK, prompting the BoE to aggressively raise rates to 5.25% in August. However, subsequent signs of slowing inflation allowed the central bank to keep rates unchanged in September after 14 successive rate hikes. While further short-term rate rises may be limited, investors are increasingly accepting that interest rates may remain around these levels rather than being swiftly reduced. Elsewhere, weak economic data from China added to market uncertainty. Towards the end of the period, the conflict between Israel and Gaza triggered fears of a wider contagion in the Middle East and led to a surge in volatility. Against this backdrop, company size continued to be a significant driver of returns, as large-cap stocks underperformed their smaller counterparts.

US equity markets rose over the six months under review. A cautious mood prevailed at the start of the period, on concerns that the US would breach its debt ceiling. This was ultimately resolved in June, when the US Senate approved a bill to raise the debt ceiling to avoid a default on federal government debt. Markets were supported by largely positive second quarter earnings, before declining in early August, after credit rating agency Fitch lowered the US government's long-term debt rating to AA+ from AAA due to concerns over fiscal and governance-related issues. Rising oil prices, strength in US bond yields and concerns over a government shutdown triggered a sell-off towards the end of the third quarter. October started on a weak note, as a sharp surge in bond yields, the unfolding conflict and tragic events in Israel and Gaza, and subdued corporate earnings dampened overall sentiment From a sector perspective, communication services, IT and consumer discretionary were the strongest performers, while utilities, real estate and consumer staples were the biggest decliners.

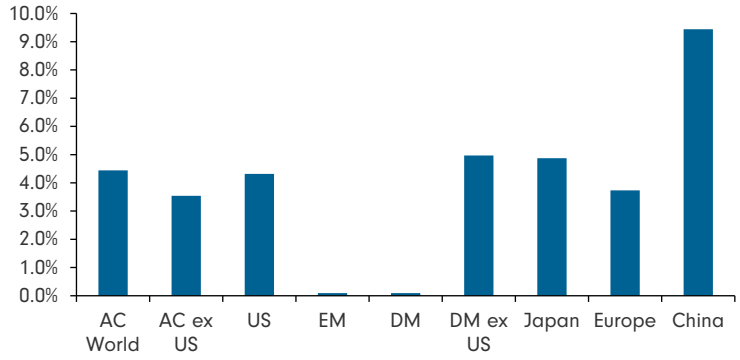
The Japanese equity market climbed to a multi-decade high during the period in local currency terms, but declined in US dollar terms. Extended buying by overseas investors drove share price gains. Market participants were encouraged by a steady stream of corporate governance related developments, spurred by reform measures by the Tokyo Stock Exchange, and largely positive domestic earnings. The Bank of Japan's cautious policy stance and a weaker yen also supported the positive trend in share prices. Japan's currency came under broad-based pressure amid renewed monetary policy divergence, and the rise in long-term US yields pushed the yen to over ¥150 per US dollar, the lowest level in a year. Value stocks outperformed growth names over the period. At a sector level, financials, energy and utilities were among the leading gainers, while health care was the main laggard.

Investment Manager's Report*

Equities in the Pacific ex Japan region retreated, primarily due to weakness in China amid weaker-than-expected macroeconomic data and rising geopolitical tensions. Chinese and Hong Kong equities slid sharply. Technology-focused markets, including South Korea and Taiwan, also declined as these markets witnessed investor outflows. Australian equities slid in line with the broader market. In ASEAN, all countries ended in negative territory. Most countries witnessed capital outflows during the period. At a sector level, energy led gains, while health care and communication services were among the notable decliners.

Emerging markets ended in negative territory. Equities came under pressure in May, amid concerns over China's subdued economic recovery and the continued sell-off in US regional banks. Performance improved in June and July, after the Chinese government indicated that it would extend stimulus measures to support the property sector and boost consumption. The asset class declined again from August onwards as US Treasury yields reached near multi-year highs after the US Fed signalled that interest rates could remain higher for longer. Escalating tensions in the Middle East and a rise in oil prices also dented risk appetite. Meanwhile, Chinese policy makers stepped up efforts to bolster the economy and support market sentiment. All regions except Latin America posted negative returns. In commodity rich Latin America, Brazil was the best performing market, boosted by falling inflation and an interest rate cut in August. Within emerging Asia, Indonesia was the worst performer as its central bank raised policy rates in October in response to inflationary pressures. In Emerging Europe, Middle East and Africa, South Africa performed poorly as the country continued to struggle with power shortages.

Earnings outlook likely to remain muted



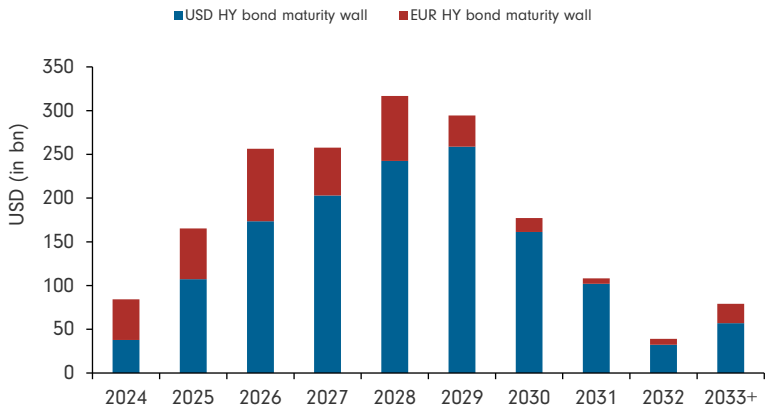
Source: IBES, Refinitiv DataStream, 31.10.2023
Data for MSCI Indices

Equity markets continue to face short-term challenges. We expect corporate revenue and earnings expectations for FY 2023 and FY 2024 to remain pressured for many companies as the price/inflation impulse fades, and underlying volume weakness shows through in many sectors. The US economy has proven more resilient than anticipated through 2023, which bolstered consumer demand. While analysts expect a rise in company profits next year, recent economic data suggests a less positive outlook. Persistent inflation could weigh on consumer demand and corporate margins, while higher inventories, rising credit card balances and declining consumer savings could further weaken economic activity. Given the need for investors to be exposed to equities to avoid missing out on potential gains, and the risk inherent in the outlook, portfolios that emphasise defensive and quality growth stocks will be better insulated against an economic contraction and will also be positioned to benefit from a soft-landing scenario.

Bond markets

Global fixed income markets posted mixed returns over the period, with corporate bonds outperforming government bonds. Following the significant market turmoil in mid-March amid the Silicon Valley Bank collapse, the second quarter started on an uncertain note, with investors contemplating the health of the financial system. However, with the closure of First Republic Bank in May, the financial turmoil looked more contained and volatility subsided significantly. Markets remained healthy on the back of strong corporate earnings and receding recession risks given healthy labour markets, resilient growth and weakening inflation data. Sentiment weakened in October as the unfolding conflict and tragic events in Israel and Gaza led to concerns about geopolitical risks in the region. Central banks maintained their 'higher for longer' interest rate stance, which led to a sell-off in sovereign bonds as yields rose. The US Fed increased interest rates by 0.25 percentage points at each of its meetings in May and July. While it paused rate hikes in September, the central bank indicated that interest rates would stay higher for longer and said that it still expects one more hike before the end of the year and fewer cuts than previously indicated next year. The 10-year US Treasury yield rose for the sixth consecutive month to close at 4.9%. The ECB raised interest rates by 0.25 percentage points in May, June, July and September as inflation remained above its target range. While the ECB kept its key interest rates unchanged at its October meeting, as widely expected, it said that a discussion on rate cuts is still premature. UK sovereign bonds were the worst hit, falling to their lowest levels since the mini-budget turmoil last October, amid several upside inflation surprises and an unexpected 0.50 percentage point interest rate hike by the BoE in June, following a 0.25% increase in May and August. However, signs of slowing inflation allowed the BoE to keep rates unchanged in September. This helped UK government bonds (Gilts) to recover, with the 10-year Gilt remaining relatively unchanged over the third quarter. In the corporate bonds space, credit spreads tightened as investors downgraded recession risks.

Refinancing risks loom amid higher rates



Source: Bloomberg, 31.10.2023

The economy is proving to be resilient. Inflation has started to fall, but we expect both labour and non-labour costs to be sticky. We believe that the monetary transmission mechanism is delayed, not broken. This means that the current policy could increasingly lead to a tightening of financial conditions. The US Fed appears to have come to the end of its tightening cycle, and the eurozone is not likely to be far behind. We have entered a 'higher for longer' interest rate environment. This comes with risks, especially with corporate maturity walls fast coming into view. At the same time, central banks could begin lowering rates rapidly if financial systems prove less resilient than they appear. The situation remains sufficiently uncertain to lead us to believe that a recession is still more likely than not.

Investments in Indian securities within India Focus Fund are made partly via a wholly-owned Mauritian subsidiary, FIL Investments (Mauritius) Limited (the "Subsidiary"), previously called Fid Funds (Mauritius) Limited. The sole objective of the Subsidiary is to carry out investment activities on behalf of the Company. FIL Investment Management (Singapore) Limited ("FIMSL") provides investment advisory and management services to the Subsidiary.FIMSL has obtained approval from the Securities and Exchange Board of India and the Reserve Bank of India to invest in India on its own behalf and on behalf of approved client accounts as a Foreign Portfolio Investor under Indian law. The Subsidiary is registered as a Foreign Portfolio Investor sub-account of FIMSL's licence and has been granted approval to invest in Indian securities. The assets and liabilities of the Subsidiary are consolidated in the Statement of Net Assets and all investments held by the Subsidiary are disclosed in the Schedule of Investments.

On 5 June 2023, Emerging Europe, Middle East and Africa Fund was reorganised with the creation of new classes of Shares to which the portfolio of Russian assets and a cash amount of USD 29,046 are allocated. The "Side Pocket" classes of Shares ("SP") disclosed on the classes of Shares launches table are closed for subscriptions and redemptions. For more details about Side Pocket please refer to the Shareholder notice released on 5 May 2023 and available on https://www.fidelity.lu/funds/fund-updates.

On 11 August 2023, Fidelity Target™ 2025 (Euro) Fund was renamed Fidelity Target™ 2025 Fund, Fidelity Target™ 2030 (Euro) Fund was renamed Fidelity Target™ 2030 Fund, Fidelity Target™ 2035 (Euro) Fund was renamed Fidelity Target™ 2035 Fund, Fidelity Target™ 2040 (Euro) Fund was renamed Fidelity Target™ 2040 Fund, Fidelity Target™ 2045 (Euro) Fund was renamed Fidelity Target™ 2045 Fund, Fidelity Target™ 2050 (Euro) Fund was renamed Fidelity Target™ 2050 Fund, Fidelity Target™ 2055 (Euro) Fund was renamed Fidelity Target™ 2055 Fund, Fidelity Target™ 2060 (Euro) Fund was renamed Fidelity Target™ 2060 Fund and Sustainable Global Health Care Fund was renamed Sustainable Healthcare Fund.

On 6 September 2023, SMART Global Defensive Fund was renamed Multi Asset Dynamic Inflation Fund.

2. Significant Accounting Policies

The financial statements are prepared in accordance with the Luxembourg legal and regulatory requirements relating to undertakings for collective investment.

Calculation of the Net Asset Value. The Net Asset Value per share of each class of shares, is calculated by determining first the proportion of the net assets of the relevant sub-fund attributable to each class of shares. Each such amount will be divided by the number of shares of the relevant class outstanding as at close of business. The Net Asset Value of each class is determined in the principal dealing currency of the respective class.

Security Valuation. Investments in financial instruments traded on any stock exchange are valued at the last available price at the time when the valuation is carried out on the principal stock exchange on which such security is traded. Financial instruments dealt on any over the counter market, short-dated debt transferable securities and money market instruments not traded on a regulated exchange or market are valued at the last available price at the time when the valuation is carried out. For Cash Funds, Money Market Instruments are valued at Mark-to-Market or Mark-to-Model where the use of mark-to-market is not possible or the market data is not of sufficient quality. All other assets are valued with prudence and in good faith by the Directors of the Company on the basis of their reasonably foreseeable sales price. All holdings owned by the Company are quoted on a regulated market, except where otherwise distinguished in a sub-fund's Schedule of Investments.

Russian Securities. Since 1 March 2022, as it became no longer possible to transact in local Russian securities, the valuations on the Russian securities held were reduced to nil.

Price Adjustment Policy. A price adjustment policy has been adopted and implemented to protect the interests of the Company's shareholders. The purpose of the price adjustment policy is to allocate the costs associated with large inflows and outflows to investors transacting that day, thereby protecting the long-term Shareholder from the worst effects of dilution. It achieves this purpose by adjusting the share class price at which deals in a sub-fund are transacted. As such, share class prices may be adjusted up or down depending on the level and type of investor transactions on a particular day within a sub-fund. In this way the existing and remaining Shareholders do not suffer an inappropriate level of dilution. The Company will only trigger an adjustment in the price when there are significant net flows likely to have a material impact on the remaining Shareholders. The adjustment will be based on the normal dealing costs for the particular assets in which a sub-fund is invested but will not exceed 2% of the price. The Board may decide to increase this adjustment limit in exceptional circumstances to protect Shareholders' interests. Once an adjustment is made to a

share class price, that price is the official price for that share class for all deals that day. As at 31 October 2023, price adjustment were made on the following sub-funds:

Sub-fund name	Class of Shares	Un-adjusted NAV per Share	Adjusted NAV per Share
Absolute Return Global Equity Fund	A-ACC Shares (USD)	10.02	10.05
Absolute Return Global Equity Fund	A-ACC Shares (EUR)	10.34	10.36

Fair Value Adjustments Policy. Fair value adjustments may be implemented to protect the interests of the Company's Shareholders against market timing practices. Accordingly if a sub-fund invests in markets that are closed for business at the time the sub-fund is valued, the Directors may, by derogation from the provisions above under security valuation, allow for the financial instruments included in a particular portfolio to be adjusted to reflect more accurately the fair value of the sub-fund's investments at the point of valuation.

Notes to the Financial Statements - continued

Bank Deposits and Cash at Banks and Brokers. All bank deposits and cash at bank and brokers amounts are carried at face value.

Investment Security Transactions. Investment security transactions are accounted for on the date securities are purchased or sold. The computation of the cost of sales of securities is made on the basis of average cost.

Futures. Futures are accounted for on the date of opening or closing of the contract. Subsequent payments are made or received by the sub-fund each day, dependent on the daily fluctuations in the value of the underlying index or security which are recorded for financial reporting purposes as unrealised gains or losses by the sub-fund. The unrealised gains or losses resulting from futures are included in the Statement of Net Assets and in the Schedule of Investments. The realised gains and losses are based on the First In – First Out method.

Forward Foreign Exchange Contracts. Forward foreign exchange contracts are valued on the basis of forward exchange rates prevailing at the closing date and applicable to the remaining period until the expiration date. The unrealised gains or losses resulting from forward foreign exchange contracts are included in the Statement of Net Assets and in the Schedule of Investments. All forwards, including those used for the hedging of share classes, are included in the Schedule of Investments.

Option Contracts. Options purchased are recorded as investments at their realisable market value; options written or sold are recorded as liabilities based on the cost to close the position. Purchased and written options are included in the Statement of Net Assets and in the Schedule of Investments. When the exercise of an option results in a cash settlement, the difference between the premium and the settlement proceeds is accounted for as a realised gain or loss. When an option expires, the premium is accounted for as a realised gain for options written or as a realised loss for options purchased.

Interest Rate, Inflation, Overnight Index & Total Return Swaps. Interest receivable and payable on interest rate, inflation, overnight index and total return swap contracts is accrued on a daily basis, and future commitments under the swap are valued at market rates. Interest rate, overnight index and total return swap contracts are disclosed in the Statement of Net Assets and in the Schedule of Investments.

Credit Default Swaps. Premiums paid and received on credit default swap contracts to buy or sell protection against a credit event are accrued on a daily basis and reflected as net income. Future commitments under the swap are valued at market rates. Credit default swap contracts are disclosed in the Statement of Net Assets and the Schedule of Investments.

Contracts for Difference. Contracts for difference are contracts entered into between a broker and the Company under which the parties agree to make payments to each other so as to replicate the economic consequences of holding a long or short position in the underlying security. Contracts for difference also mirror any corporate actions that take place. When a contract is closed, the Company records a realised gain or loss equal to the difference between the value of the contract at the time it was opened and the value at the time it was closed. The valuation of contracts for difference is based on the underlying security and they are disclosed in the Statement of Net Assets and the Schedule of Investments.

Equity Linked Notes. Equity Linked Notes are valued daily based on the price of the underlying security and are disclosed in the Statement of Net Assets and the Schedule of Investments at market value. The intermediate coupon(s) and final payment at maturity are determined by the change in value of the underlying security.

Foreign Exchange. The Directors determine the designated currency of each sub-fund. Assets and liabilities as at 31 October 2023 have been translated at the prevailing exchange rates on that date. All transactions denominated in foreign currencies during the period are translated into the subfund's designated currency at the exchange rate prevailing on the day of transaction.

Bonds in Escrow. Bonds included in the Schedule of Investments can be used as collateral against open derivative exposures. Where this is the case, bonds will be escrowed to prevent them from being traded. The following table discloses the bond's quantities in escrow per sub-funds:

Sub-fund name	Security description	Denominated quantity in escrow
Absolute Return Global Fixed Income Fund	US Treasury 5.34% 21/12/2023	52,624

Fund share Transactions. The issue and redemption price per share of each sub-fund is the Net Asset Value per share on the date of trade, subject to the price adjustment policy.

Formation Costs. All formation costs related to the launch of the Company have been amortised. Costs incurred in launching new sub-funds will be charged to current operating expenses.

Income. Dividends on equities are recognised when the security is quoted ex-dividend. Interest is accounted for on an accruals basis.

Zero Coupon Disclosure. Zero coupon bonds and zero coupon money market instruments are disclosed in the Schedule of Investments at a rate reflecting the actual return.

Combined Accounts. The combined financial statements have been presented in USD which is the Company's designated currency and represent the total financial statements of the different sub-funds. Sub-funds stated in currencies other than USD have been converted at exchange rates ruling at the period-end.

3. Co-Management of Assets

For the purpose of effective management, where the investment policies of the sub-funds so permit, the Board may choose to co-manage assets of certain sub-funds within the Fidelity Funds range. In such cases, assets of different sub-funds will be managed in common. Fractions may result from the co-management technique. The value of these fractions is based on the market value of the underlying financial instruments in the portfolio of the co-managed sub-funds at the end of the period and is included in the total market value of the portfolio. Considering the insignificance of these amounts, they have been included as "Fractions" in the Schedule of Investments.

4. Investment Management Fees and Other Transactions with the Investment Manager or its Affiliates

Pursuant to the Investment Management Agreement amended and restated on 9 July 2020, FIL Fund Management Limited ("FFML") is entitled to a monthly investment management fee and asset allocation fee, accrued daily and based on the average Total Net Assets of each sub-fund, at annual rates disclosed in the table below:

During the period ended 31 October 2023, the sub-funds invested in the following fund shares: Fidelity ILF - The Sterling Fund - A-ACC-GBP, Fidelity ILF - The US Dollar Fund - A-ACC-USD and Fidelity ILF - The Euro Fund - A-ACC-EUR which have their management fees capped at 0.25% per annum.

Performance Fees

The Investment Manager is entitled to receive a performance fee, which is calculated in relation to the net assets of classes of Shares of funds that have cash indices as Market Indices, and which is subject to a high water mark adjusted for the return of the relevant Market Index. The use of a High Water Mark is appropriate in a performance fee methodology for a class of Shares of a fund that seeks to achieve an absolute return annually. The use of a High Water Mark seeks to ensure that investors will not be charged a performance fee until any previous losses are recovered. There is no mechanism to lower the High Water Mark.

The basis for calculation of performance fees is fully explained in the Prospectus that all investors should read before investing. The relevant performance fee rates, hurdle rates and comparative indices for each sub-fund are as follows:

Sub-fund name	Performance fee	Hurdle rate	Comparative Index
Absolute Return Asian Equity Fund	15%	N/A	Secured Overnight Financing Rate
Absolute Return Global Equity Fund	15%	N/A	Secured Overnight Financing Rate
Absolute Return Multi Strategy Fund	10%	N/A	Secured Overnight Financing Rate

The following table discloses the accrued yet uncrystallised performance fees for each share class as at 31 October 2023:

Sub-fund name	Class of Shares	Class Currency	Performance Fees	% of AUM
Absolute Return Global Equity Fund	A-PF-ACC Shares (USD)	USD	47,936	0.28
Absolute Return Global Equity Fund	A-PF-ACC Shares (EUR) (EUR/USD hedged)	EUR	50,114	0.32
Absolute Return Global Equity Fund	A-PF-ACC Shares (SGD) (SGD/USD hedged)	SGD	625	0.4
Absolute Return Global Equity Fund	I-PF-ACC Shares (USD)	USD	727	0.45
Absolute Return Global Equity Fund	W-PF-ACC Shares (GBP) (GBP/USD hedged)	GBP	399	0.43
Absolute Return Global Equity Fund	Y-PF-ACC Shares (USD)	USD	138,598	0.6
Absolute Return Global Equity Fund	Y-PF-ACC Shares (EUR) (EUR/USD hedged)	EUR	23,738	0.14

During the period under review, none of the Class of Shares of Absolute Return Multi Strategy Fund and Absolute Return Asian Equity Fund were subject to performance fees.

Others

Class B Shares and Class C Shares are subject to an annual distribution fee of up to 1.00% of the Net Asset Value of the relevant class. Class D shares are subject to an annual distribution fee of up to 0.50% of the Net Asset Value of the relevant class. Class E shares are subject to an annual distribution fee of up to 0.75% of the Net Asset Value of the relevant class. These fees are accrued daily and payable quarterly to FIL Distributors. The Reserved Funds' classes of shares may only be acquired by investors who are either Undertakings for Collective Investment or investors whose assets are held in accounts managed by FIL or its affiliates. Expenses and charges, excluding investment management fees, administration expenses, government taxes and custodian fees for such classes of shares, will be charged to, and paid directly by, FIL and its affiliates. The investment management fees, administration expenses, government taxes and custodian fees for such classes of shares are charged to the sub-funds but are reimbursed in full by FIL and its affiliates.

FIL and its affiliates may waive any or all of their fees and limit the maximum level of expenses (with certain exceptions) that the sub-funds would be paying. These waivers are voluntary and may be revised at any time. In addition, FFML may from time to time bear certain expenses of the sub-funds, on a discretionary basis. Certain officers and directors of the Company are also directors, officers or employees of FIL or its affiliates.

5. Securities Lending

As at 31 October 2023, the Company lent securities having a value of USD 797,109,604 and received collateral with a market value of USD 862,822,644. During the period ended 31 October 2023, the Company paid USD 831,833 to the securities lending agents in relation to the securities lent. With respect to securities lending transactions, the Company will generally require the borrower to post collateral representing, at any time during the lifetime of the agreement, at least 105% of the total value of the securities lent. The following table discloses the breakdown of the total value of securities on loan, by sub-fund, as at 31 October 2023:

Sub-fund name	Currency	Maturity Tenor	Securities Values	% of Lendable Assets	% of AUM

6. Taxation

The Company is not liable to any Luxembourg taxes on income or on realised or unrealised capital gains, nor to any Luxembourg withholding tax. The sub-funds are subject to an annual subscription tax of 0.05% on Equity, Equity Income, Asset Allocation, Multi Asset, Bond, Fixed-Term Bond, Fidelity Lifestyle Funds and Institutional Reserved Funds Class Y Shares, 0.01% on Cash, Reserved, Class P, R, X and I Shares, and 0.00% on Index tracker Funds, calculated and payable quarterly on the Net Assets of the sub-fund on the last day of each calendar quarter.

Foreign capital gains, dividends and interest may be subject to capital gain and withholding taxes or other taxes imposed by the country of origin concerned and such taxes may not be recoverable by the Company or its Shareholders. Where there is a reasonable likelihood that a liability will crystallise, the tax payable on the unrealised gain is provided for in the NAV.

7. For UK residents only

The affairs of the Company have been conducted to ensure as far as possible that United Kingdom Reporting Fund Status will be granted for the period of these accounts with respect to the sub-funds and Share classes that are registered in the United Kingdom. With respect to UK registered sub-funds and Share classes in existence prior to the introduction of the new regime the Company has applied to the UK Inland Revenue to transition into the new regime and the UK authorities have given notice that they accept this entry. Moreover, the Company has submitted an application for the reporting funds regime for UK registered sub-funds launched during the accounting period ending 31 October 2023. It also submitted or will submit an application for new Share classes in existing or new UK registered sub-funds launched during the accounting period. Reportable income figures are generally available six months after the year end date. The distributing sub-funds and Share classes of the Company that were registered in the UK at the time have also been certified as "distributing funds" by the UK Inland Revenue authorities under the predecessor regime for all accounting periods up to 30 April 2010.

8. Equalisation

Income equalisation arrangements are applied to all share classes (accumulating and distributing), across all sub-funds. For distributing shares, these arrangements are intended to ensure that the income per Share which is distributed in respect of a distribution period is not affected by changes in the number of Shares in issue during that period. The calculation of equalisation is based on net investment income.

9. Dividend Payments

The following dividend payments were made during the period ended 31 October 2023:

Sub-fund name	Div per Share	Ex-div date
ASEAN Fund A Shares (SGD)	0.0266	01-Aug-2023

Commitments are calculated in accordance with ESMA guidelines 10/788.

12. Counterparty Exposure of Total Return Swaps

As at 31 October 2023, the total exposure by counterparty to total return swaps, calculated as the aggregation of the unrealised gain on total return swaps and unrealised loss on total return swaps, was as follows:

Sub-fund name	Currency	BNP	Merrill Lynch	Morgan Stanley
Absolute Return Global Fixed Income Fund	USD	(68,081)	(18,793)	149,918
Absolute Return Multi Strategy Fund	USD	(18,598)	(5,134)	40,953

13. Exposure of Contracts For Difference by Clearing Brokers

As at 31 October 2023, the total exposure by counterparty to contracts for difference, calculated as the aggregation of the unrealised gain on contracts for difference and unrealised loss on contracts for difference, was as follows:

Sub-fund name	Currency	Goldman Sachs	HSBC	JP.Morgan	Morgan Stanley	UBS
Absolute Return Global Equity Fund	USD	(644,240)	441,250	849,372	349,463	6,310

14. Claims for Discriminatory Withholding Taxes within the European Union

Investment funds are generally subject to local withholding taxes on receipt of cross-border payments of dividends throughout Europe. However, European Court of Justice and European Free Trade Association Court decisions support a tax discrimination claim where EU or European Economic Area ("EEA") countries impose such withholding taxes on cross-border payments at rates higher than the withholding tax imposed on dividends paid in similar situations to resident investors.

The Board of the Company has therefore authorised the filing of protective claims, based on the EU principle of the freedom of movement of capital within the EU & EEA, against countries where it is believed that withholding taxes may have been unlawfully imposed by individual EU or EEA States on dividend payments to the Company. The Board's decision has been taken exclusively to protect the position of investors in the Company.

The nature of these claims is complex and subject to each jurisdiction's local statute of limitations and procedural requirements. Consequently, these claims may be subject to lengthy litigation, and at the current time there is no certainty whether all the protective claims will ultimately be successful and whether or how much withholding tax will ultimately be recovered in each of the jurisdictions. During the period ended 31 October 2023, no reclaims were received. The Withholding tax reclaims receivable are included in the Dividend and interest receivable in the Statements of Net Assets.

15. Statement of Changes in Investments

A list for each sub-fund, specifying for each investment the total purchases and sales which occurred during the period under review, may be obtained free of charge from the Registered Office of the Company or from any of the companies registered as Distributors of the Company. It is possible to receive information about the full holdings of the sub-funds in which you invest, at any point in time during the period. This is available upon request, by contacting your usual Fidelity Representative.

16. Rates of Exchange

The USD exchange rates as at 31 October 2023 are noted below. For the Chinese Renminbi currency, please note that the offshore rate is applied. RMB is a colloquial reference to the Chinese Renminbi, which is also know internationally as the Chinese Yuan ('CNY'). Whilst the CNY is traded both onshore in China and offshore (primarily in Hong Kong SAR China), it is the same currency although currently traded at different rates. The offshore rate for trading CNY is generally referred to as 'CNH'. The CNH rate will be used when determining the value of the Shares of a fund as well as for hedging purposes and should be read as the base currency of China RMB Bond Fund in the whole report.

Currency	Exchange rate	Currency	Exchange rate
Australian dollar (AUD)	1.579904	Nigerian naira (NGN)	905.25
Brazilian real (BRL)	5.05095	Norwegian krone (NOK)	11.18455

Supplementary Information

EU Securities Financing Transactions Regulation

The Securities Financing Transactions Regulation, which came into effect on the 13 January 2017, requires further transparency regarding the use of securities financing transactions.

The Company may use total return swaps or other financial derivative instruments with similar characteristics to meet the investment objective of the Company.

The Company used contracts for difference (CFD), total return swap (TRS) and securities lending for the period ended 31 October 2023.

The top 10 counterparties are disclosed in note 5 for the securities lending, in note 12 for TRS and in note 13 for CFD.

As at 31 October 2023, there was only collateral received from collateral issuers (governments and international institutions) for securities lending as is shown in note 5.

Assets engaged in securities financing transactions as at 31 October 2023

The assets engaged, expressed in absolute value and as a proportion of the net assets, by category of securities financing transactions as at 31 October 2023 amounted to:

The assets engaged in securities lending are disclosed in note 5.

For Hong Kong residents only

Cross Trades

The Manager and/or the Investment Manager may enter into trades for the account of a Sub-Fund with: (i) the accounts of other clients managed by the Manager, the Investment Manager or its affiliates; or (ii) their house accounts (i.e., accounts owned by the Manager, the Investment Manager or any of its connected persons over which it can exercise control and influence) ("cross-trades"). Such cross-trades will only be undertaken in accordance with the relevant requirements promulgated by the relevant authorities.

For the period ended 31 October 2023, The Company did not enter into any cross trade.

Other Information

Over the period, the primary A-EUR class of the Euro STOXX 50® Fund returned -5.52% in net euro terms, while the EURO STOXX 50® Index returned -5.53%.
