Value LU2310757393 Factsheet as of 31 March 2024

This is a marketing communication. Please refer to the prospectus of the UCITS and to the KID/KIID before making any final investment decisions.

### Investment Overview

The Fund is classified as Article 9 under EU Sustainable Finance Disclosure Regulation and aims to contribute towards climate change mitigation and adaptation as considered by the Paris Climate Agreement while increasing the value of its investments over the medium to long term. The Fund pursues an actively managed investment strategy by investing in companies across all sectors worldwide that are good stewards of their impact on social and environmental development belonging to 2 categories solution providers (more than 50% of the Fund's net assets): companies deriving a majority of revenues from activities aiming at reducing carbon emissions or improving resource efficiencies, and transitioning companies: companies deriving more than 20% of revenues from activities aiming at reducing carbon emissions or improving resource efficiencies, and transitioning to solution providers or enabling solutions through adjacent products and services.

Past performance does not predict future returns.

What are the Risks?

The Fund does not offer any capital guarantee or protection and you may not get back the amount invested. The Fund is subject to the following risks which are materially relevant: **Sustainability:** The fund's integration of sustainability risks in the investment decision process may have the effect of excluding profitable investments from the investment universe of the fund and may also cause the fund to sell investments that will continue to perform well. A sustainability risk could materialise due to an environmental, social or governance event or condition which may impact the fund's investments and negatively affect the returns of the fund. **Derivative Instruments risk:** the risk of loss in an instrument where a small change in the value of the underlying investment may have a larger impact on the value of such instrument. Derivatives may involve additional liquidity, credit and counterparty risks. **Emerging markets risk:** the risk related to investing in countries that have less developed political, economic, legal and regulatory systems, and that may be impacted by political/economic instability, lack of liquidity or transparency, or safekeeping issues. **Foreign Currency risk:** the risk of loss arising from exchange-rate fluctuations or due to exchange control regulations. Complete information on the risks of investing in the Fund are set out in the Fund's prospectus.

Glossary

**Ongoing Charges Figure (OCF):** The Ongoing Charges Figure (OCF) includes the fees paid to the management company, the investment manager and the depository, as well as certain other expenses. The OCF is calculated by taking the relevant main material costs paid out over the 12-month period indicated and dividing them by the average net assets over the same period. The OCF does not include all expenses paid by the fund (for example, it does not include what the fund pays for buying and selling securities). For a comprehensive list of the types of costs deducted from fund assets, see the prospectus. For recent all-in annual costs, as well as hypothetical performance scenarios that show the effects that different levels of return could have on an investment in the fund, where applicable, see the KID/KIID. **Comparator:** Benchmark is used for comparing Fund performance, but is not a constraint to Fund Investment. **Price to Book:** The price per share of a stock divided by its book value (i.e., net worth) per share. For a portfolio, the value represents a weighted average of the stocks it holds. **Price to Earnings (12-Month Trailing)** is the share price of a stock, divided by its per-share earnings over the past year. For a portfolio, the value represents a weighted average of the stocks it holds. **Price to Cash Flow:** Supplements price/earnings ratio as a measure of relative value for a stock. For a portfolio, the value represents a weighted average of the stocks it holds. **Standard Deviation:** Measure of the degree to which a fund's return varies from the average of its previous returns. The larger the standard deviation, the greater the likelihood (and risk) that a fund's performance will fluctuate from the average return.

### Important Information

**This fund has been classified as Article 9 under the Regulation on sustainability related disclosures in the financial services sector (EU) 2019/2088. These are Funds which have an ESG integration approach, have binding environmental and/or social characteristics and a clear sustainable investment objective.**

Further information in relation to the sustainability-related aspects of the Fund can be found at [www.franklintempleton.lu/SFDR](http://www.franklintempleton.lu/SFDR). Please review all of the fund's objectives and characteristics before investing.

**Effective 5 March 2018, Templeton Global (Euro) Fund was renamed Templeton Global Climate Change Fund and modified its investment strategy to focus primarily on global companies which recognise and adapt to the long-term financial risks and opportunities presented by climate change and resource depletion.**

This is a sub-fund ("Fund") of Franklin Templeton Investment Funds ("FTIF"), a Luxembourg registered SICAV. Subscriptions to shares of the Fund can only be made based on the Fund's current Prospectus and, where available, the relevant Key Information Document ("KID") / Key Investor Information Document ("KIID"), accompanied by the latest available audited annual report and the latest semi-annual report if published thereafter. These documents can be found on our website at [www.ftidocuments.com](http://www.ftidocuments.com), obtained, free of charge, from your local FT representative or can be requested via FT's European Facilities Service which is available at <https://www.eifs.lu/franklintempleton>. The Fund's documents are available in English, Arabic, French, German, Italian, Polish and Spanish. In addition, a summary of investor rights is available from [www.franklintempleton.lu/summary-of-investor-rights](http://www.franklintempleton.lu/summary-of-investor-rights). The summary is available in English. The sub-funds of FTIF are notified for marketing in multiple EU Member States under the UCITS Directive. FTIF can terminate such notifications for any share class and/or sub-fund at any time by using the process contained in Article 93a of the UCITS Directive. For the avoidance of doubt, if you decide to invest, you will be buying units/shares in the Fund and will not be investing directly in the underlying assets of the Fund.

Given the variety of investment options available today, we suggest investors seek guidance from a Financial Adviser.

The share class shown has adopted a hedging strategy intended to reduce the effect of exchange rate movements between the currency of the Fund's investment strategy and the currency of the share class. The benchmark returns displayed are shown in the reference currency of the Fund's investment strategy EUR, while share class returns are shown in the reference currency of share class PLN. As a result, the returns shown above reflect the effect of the hedging strategy and one can compare the returns of the Fund (net of fees) relative to its benchmark index without the impact of exchange rate movements on index returns.
