### Performance

Indexed value (until 30-04-2025) - Source: Robeco

### Performance

Based on transaction prices, the fund's return was -10.05%.

Robeco Chinese Equities outperformed the benchmark in April. At the sector level, there was positive contribution from consumer discretionary, consumer staples and information technology. There was negative contribution from industrials, healthcare and financials. At the stock level, the main contributors were Hesai, Pop Mart International, and Giant Biogene. The main detractors were JD.com, KPC Pharmaceuticals, and Lenovo.

### Market development

China's markets experienced significant volatility in April, driven by the overwhelming tariff headlines. While market anxiety peaked in early April, it moderated slightly as hopes grew for domestic stimulus and potential tariff negotiations. In China, manufacturing activity contracted notably, with the NBS Manufacturing PMI declining by 1.5 percentage points to 49 in April. New export orders fell sharply by 4.3 percentage points to 44.7, reflecting declines in high-tech manufacturing, equipment exports, and basic raw materials. Deflationary pressures also mounted, with April's PPI expected to fall by 0.3 percentage points year-over-year to -2.8%. Many exporters have halted production and shipments to the US due to the uncertainty surrounding tariffs.

### Expectation of fund manager

China enters 2025 with a renewed focus on growth, as policymakers deploy fiscal and monetary tools to address significant economic challenges. In the March NPC meeting, the government raised its augmented fiscal deficit, primarily through an increase in the official budget deficit, expanded quotas for special long-term treasury bonds, and local government special bonds (LGSBs). Local governments will be encouraged to use these bond quotas to stabilize the property market by repurchasing land, reducing inventory, and providing financial support to developers. Stimulating domestic consumption remains central to China's growth strategy, with the 'internal circulation' initiative aimed at boosting consumer spending to rebalance the economy.

## Top 10 largest positions

We maintain a positive outlook on internet service companies, supported by their earnings recovery driven by cost-cutting measures and attractive valuations. Key beneficiaries of this trend among our top ten holdings include Tencent, Alibaba, Meituan, NetEase, and JD.com. Additionally, we see a growing appeal in high yield investments as China's government bond yields decline, with China Construction Bank and Industrial and Commercial Bank of China standing out. Other notable holdings in our top ten include leading players in the EV supply chain, such as Xiaomi, a tech company that recently launched its EV business successfully, BYD, China's largest EV automaker, and CATL, China's largest EV battery manufacturer.

## Fund price

30-04-25	EUR	91.53
High Ytd (18-03-25)	EUR	107.47
Low Ytd (08-04-25)	EUR	85.61

## Fees

Management fee	1.60%
Performance fee	None
Service fee	0.20%

## Legal status

Investment company with variable capital incorporated under Luxembourg law (SICAV)	
Issue structure	Open-end
UCITS V	Yes
Share class	D EUR
This fund is a subfund of Robeco Capital Growth Funds, SICAV	

## Registered in

Austria, Belgium, Chile, Finland, France, Germany, Hong Kong, Ireland, Italy, Luxembourg, Netherlands, Norway, Peru, Poland, Singapore, Spain, Sweden, Switzerland, Taiwan, United Kingdom

## Currency policy

The fund is allowed to pursue an active currency policy to generate extra returns.

## Risk management

Active. Risk management systems continually monitor the portfolio's divergence from the benchmark. In this way, extreme positions are avoided.

## Dividend policy

The fund does not distribute dividend. The income earned by the fund is reflected in its share price. The fund's entire result is thus reflected in its share price development.

ESG Important information

The sustainability information in this factsheet can help investors integrate sustainability considerations in their process. This information is for informational purposes only. The reported sustainability information may not at all be used in relation to binding elements for this fund. A decision to invest should take into account all characteristics or objectives of the fund as described in the prospectus. The prospectus is available on request and free of charge on the Robeco website.

Sustainability

The fund incorporates sustainability in the investment process through exclusions, ESG integration, engagement and voting. The fund does not invest in issuers that are in breach of international norms or where activities have been deemed detrimental to society following Robeco's exclusion policy. Financially material ESG factors are integrated in the bottom-up investment analysis to assess existing and potential ESG risks and opportunities. In the stock selection the fund limits exposure to elevated sustainability risks. In addition, where a stock issuer is flagged for breaching international standards in the ongoing monitoring, the issuer will become subject to engagement. Lastly, the fund makes use of shareholder rights and applies proxy voting in accordance with Robeco's proxy voting policy.

For more information please visit the sustainability-related disclosures.

The index used for all sustainability visuals is based on MSCI China 10/40 Index (Net Return, EUR).

Sustainalytics ESG Risk Rating

The Portfolio Sustainalytics ESG Risk Rating chart displays the portfolio's ESG Risk Rating. This is calculated by multiplying each portfolio component's Sustainalytics ESG Risk Rating by its respective portfolio weight. The Distribution across Sustainalytics ESG Risk levels chart shows the portfolio allocations broken into Sustainalytics' five ESG risk levels: negligible (0-10), low (10-20), medium (20-30), high (30-40) and severe (40+), providing an overview of portfolio exposure to the different ESG risk levels. Index scores are provided alongside the portfolio scores, highlighting the portfolio's ESG risk level compared to the index.

Only holdings mapped as corporates are included in the figures.

Environmental Footprint

Environmental footprint expresses the total resource consumption of the portfolio per mUSD invested. Each assessed company's footprint is calculated by normalizing resources consumed by the company's enterprise value including cash (EVIC). We aggregate these figures to portfolio level using a weighted average, multiplying each assessed portfolio constituent's footprint by its respective position weight. For comparison, index footprints are shown besides that of the portfolio. The equivalent factors that are used for comparison between the portfolio and index represent European averages and are based on third-party sources combined with own estimates. As such, the figures presented are intended for illustrative purposes and are purely an indication. Only holdings mapped as corporates are included in the figures.

SDG Impact Alignment

This distribution across SDG scores shows the portfolio weight allocated to companies with a positive, negative and neutral impact alignment with the Sustainable Development Goals (SDG) based on Robeco’s SDG Framework. The framework utilizes a three-step approach to assess a company’s impact alignment with the relevant SDGs and assign a total SDG score. The score ranges from positive to negative impact alignment with levels from high, medium or low impact alignment. This results in a 7-step scale from -3 to +3. For comparison, index figures are provided alongside that of the portfolio. Only holdings mapped as corporates are included in the figures.

Engagement

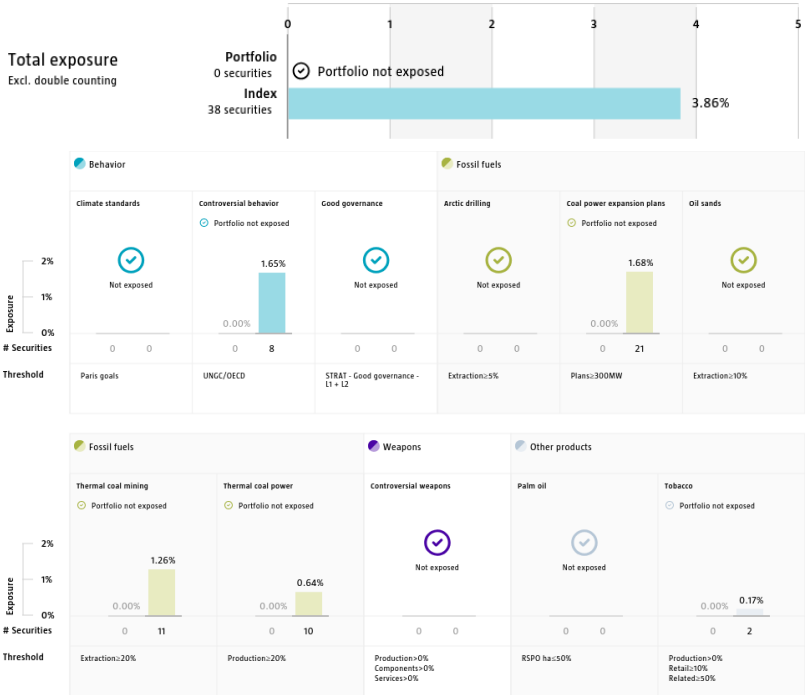

Robeco distinguishes between three types of engagement. Value Engagement focuses on long-term issues that are financially material and/or are causing adverse sustainability impacts. The themes can be broken into Environmental, Social, Governance, or Voting-related. SDG Engagement aims to drive a clear and measurable improvement in a company’s SDG contribution. Enhanced engagement is triggered by misconduct and focuses on companies severely breaching international standards. The report is based on all companies in the portfolio for which engagement activities have taken place during the past 12 months. Note that companies may be under engagement in multiple categories simultaneously. While the total portfolio exposure excludes double counting, it may not equal the sum of individual category exposures.

	Portfolio exposure	# companies engaged with	# activities with companies engaged with
Total (* excluding double counting)	27.27%	10	32
Environmental	15.63%	4	16
Social	9.80%	1	3
Governance	0.76%	2	6
Sustainable Development Goals	9.80%	2	2
Voting Related	0.00%	0	0
Enhanced	1.09%	2	5

Exclusions

The Exclusions charts display the degree of adherence to exclusion applied by Robeco. For reference, index exposures are shown beside that of the portfolio. Thresholds are based on revenues unless otherwise indicated. For more information about the exclusion policy and which level applies, please refer to the Exclusion Policy and Exclusion List available on Robeco.com.

### Investment policy

Robeco Chinese Equities is an actively managed fund that invests in listed stocks of leading Chinese companies. The selection of these stocks is based on fundamental analysis. The fund's objective is to achieve a better return than the index. The fund identifies attractive macro-economic themes and selects fundamentally sound companies. Both offshore (Hong Kong and US listed) and, to a limited extent, domestic Chinese stocks are selected.

The fund promotes E&S (i.e. Environmental and Social) characteristics within the meaning of Article 8 of the European Sustainable Finance Disclosure Regulation, integrates sustainability risks in the investment process and applies Robeco's Good Governance policy. The fund applies sustainability indicators, including but not limited to normative, activity-based and region-based exclusions, proxy voting and engagement.

### Fund manager's CV

Mr. Lu is the Head of Investments China. He is responsible for Robeco's overall investments and research activities in China. Before joining Robeco in Nov 2015, Mr. Lu worked as a Portfolio Manager at Norges Bank Investment Management in Shanghai from 2011 to 2015, and as an analyst in Hong Kong from 2009 to 2011. Prior to that, he worked at the M&A department of Morgan Stanley Asia Ltd. Mr. Lu started his career as an engineer at Motorola, Inc. in 2000 and subsequently held several managerial positions. Mr. Lu is a native Mandarin Chinese speaker. He holds an MBA with Distinction in Finance and Marketing from the Kellogg School of Management at Northwestern University in the US. He also holds a Master's degree in Electrical Engineering and Computer Science from the University of Illinois in the US and a Bachelor's degree in Biochemistry from Fudan University in China. The Chinese Equities investment team consists of five investment professionals with an average experience of 10 years, combining complementary skills and worldwide investment backgrounds. The team's portfolio managers place local insights into the context of a wider regional and global perspective. Local presence in Hong Kong and Shanghai allows for optimal coverage of both off- and onshore markets, respectively.

### Fiscal product treatment

The fund is established in Luxembourg and is subject to the Luxembourg tax laws and regulations. The fund is not liable to pay any corporation, income, dividend or capital gains tax in Luxembourg. The fund is subject to an annual subscription tax ('tax d'abonnement') in Luxembourg, which amounts to 0.05% of the net asset value of the fund. This tax is included in the net asset value of the fund. The fund can in principle use the Luxembourg treaty network to partially recover any withholding tax on its income.

### Fiscal treatment of investor

The fiscal consequences of investing in this fund depend on the investor's personal situation. For private investors in the Netherlands real interest and dividend income or capital gains received on their investments are not relevant for tax purposes. Each year investors pay income tax on the value of their net assets as at 1 January if and inasmuch as such net assets exceed the investor's tax-free allowance. Any amount invested in the fund forms part of the investor's net assets. Private investors who are resident outside the Netherlands will not be taxed in the Netherlands on their investments in the fund. However, such investors may be taxed in their country of residence on any income from an investment in this fund based on the applicable national fiscal laws. Other fiscal rules apply to legal entities or professional investors. We advise investors to consult their financial or tax adviser about the tax consequences of an investment in this fund in their specific circumstances before deciding to invest in the fund.
