# Directors' Report

## The Company

Schroder International Selection Fund (the 'Company') is an open-ended investment company organised as a "société anonyme" under the laws of the Grand Duchy of Luxembourg.

The Company constitutes a single legal entity, but the assets of each Sub-Fund shall be invested for the exclusive benefit of the Shareholders of the corresponding Sub-Fund and the assets of a specific Sub-Fund are solely accountable for the liabilities, commitments and obligations of that Sub-Fund.

Schroders is a FATCA compliant organisation. The FATCA classification of this entity and its GIIN is as follows: FATCA entity classification: FFI; Sponsoring entity: Schroder Investment Management (Europe) S.A. (the 'Management Company'); Sponsoring entity GIIN: 4RIMT7.00000.SP.442.

For Sub-Funds registered in the UK, as required by the Financial Conduct Authority (FCA), Schroders entered into the Temporary Marketing Permissions Regime (TMPR) which allows Schroders Funds to be distributed and marketed in the UK/to UK investors.

## Financial Statements

The Board of Directors (the 'Directors') of the Company submit their report and the audited financial statements for the year ended 31 December 2024.

At the date of this report, there were 140 Sub-Funds available for investment within the Company (the 'Sub-Funds'). Please refer to the current prospectus for the investment objectives of the Sub-Funds as well as details of investment restrictions. The monthly factsheets for each Sub-Fund can be obtained from the Company's registered office and are also available on the website of Schroder Investment Management (Europe) S.A. (<http://www.schroders.lu>).

This report covers the year from 1 January 2024 to 31 December 2024. The last day on which prices were calculated was 31 December 2024, being the last working day of the year and 30 December 2024 for Schroder ISF EURO Equity, Schroder ISF Italian Equity, Schroder ISF Japanese Equity, Schroder ISF Swiss Equity, Schroder ISF European Dividend Maximiser, Schroder ISF European Equity Impact, Schroder ISF European Special Situations, Schroder ISF European Sustainable Equity, Schroder ISF Japanese Opportunities, Schroder ISF Japanese Smaller Companies, Schroder ISF Nordic Micro Cap, Schroder ISF Nordic Smaller Companies and Schroder ISF Swiss Small & Mid Cap Equity. The financial statements are prepared in accordance with Luxembourg regulations relating to undertakings for collective investment. Across the Financial Statements, the names of the Sub-Funds will be preceded by "Schroder ISF", e.g. Schroder ISF Global Equity Alpha. On 31 December 2024, the total net assets of the Company were EUR 121,718,531,662 compared to EUR 107,027,009,961 on 31 December 2023 representing an increase of 13.73%.

## Directors' Responsibilities

The responsibility of the Board is governed by Luxembourg law. With respect to the financial statements of the Company, the Board of Directors are required to prepare financial statements for each financial year which give a true and fair view of the assets, liabilities and financial position of the Company and each of its Sub-Funds as at the financial year end and of the profit or loss of the Company and each of its Sub-Funds for the financial year.

The Directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgments and estimates that are reasonable and prudent;
- state whether they have been prepared in accordance with the applicable accounting standards, identify those standards, and note the effect and the reasons for any material departure from those standards; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Sub-Funds will continue in business.

The Directors are responsible for ensuring the maintenance of adequate accounting records. They have responsibility for taking such steps as are reasonably open to them to safeguard the assets of the Sub-Funds. In this regard, they have entrusted the assets of the Sub-Funds to J.P. Morgan SE, Luxembourg Branch (the 'Depositary') for safe-keeping. The Directors have responsibility for taking such steps as are reasonably open to them to prevent and detect fraud and other irregularities.

## Board Meetings

During the year to 31 December 2024, there were 8 board meetings held.

## Corporate Governance

The Company is subject to corporate governance based on:

1. Its obligations as defined by the UCITS Directive 2009/65/EC dated 13 July 2009, as implemented in Luxembourg law, which is available for inspection at the registered office of the Company at 5, rue Höhenhof, L-1736 Senningerberg, Grand Duchy of Luxembourg.
2. Its articles of incorporation which are available for inspection at the registered office of the Company and at the Luxembourg corporate and trade register, Registre de Commerce et des Sociétés ('RCSL').
3. The obligations in respect of the management of the Company, for which the Company has appointed Schroder Investment Management (Europe) S.A., which is subject to the requirements of the Management Company Directive 2010/43/EC, as implemented in Luxembourg law.
4. The Association of the Luxembourg Fund Industry ('ALFI') code of conduct, the principles of which the Company has voluntarily adopted.

## Internal Control and Risk Management Systems

The Board of Directors is responsible for establishing and maintaining adequate internal control and risk management systems of the Company in relation to the financial reporting process. Such systems are designed to manage rather than eliminate the risk of error or fraud in achieving the Company's financial reporting objectives and can only provide reasonable and not absolute assurance against material misstatement or loss.

The Board of Directors has contracted with the Management Company to put procedures in place to ensure all relevant accounting records are properly maintained and are readily available, including the production of annual and semi-annual reports. The annual and semi-annual reports of the Company are required to be approved by the Board of Directors and filed with the Commission de Surveillance du Secteur Financier ('CSSF') and in the case of annual reports with the RCSL. The annual statutory financial statements are required to be audited by independent auditors who report to the Board of Directors of the Company on their findings.

The Board meets at least four times a year and ensures that the Company maintains high standards of integrity and control in its operations and that it possesses adequate governance and means of control as law and regulation demand.

## Sustainable Finance Disclosure Regulation

The information on the environmental and social characteristics for the Sub-Funds disclosing under article 8(1) of SFDR as required by article 50 (2) of SFDR RTS and the information on sustainable investments for the Sub-Funds disclosing under article 9(1), 9(2) and 9(3) of SFDR as required by article 58 of the SFDR RTS are available in the 31 December 2024 Annual Report in Appendix V - Sustainable Finance Disclosure (Unaudited).

# Directors' Report (continued)

# Investment Manager's Report

## Economic review

The 12-month period was dominated by changing expectations over when major central banks might be able to cut interest rates.

Softer-than-expected US inflation data in late 2023 reinforced the market's view that the Federal Reserve (Fed) had finished its rate hiking cycle and would move towards cuts early in 2024. However, as 2024 progressed, inflation proved to be stickier than expected and markets were forced to push back both the timing and extent of US rate cuts.

However, some weaker employment data in early summer led to fears that the Fed may have left it too late to cut rates, prompting worries about economic slowdown or even recession. The Fed responded in September with a 50 basis point (bps) cut to interest rates, larger than the typical 25 bps move.

It was a similar situation for the eurozone and UK, with higher-than-expected inflation resulting in the dialling back of expectations around policy easing. Both central banks did cut interest rates during the period.

A key contrast came from Japan. In March 2024, the Bank of Japan (BoJ) overhauled its monetary policy measures, not only ending negative rates but setting a short-term rate at 0.0-0.1%. The BoJ also abandoned its yield curve control policy. This came in response to rising inflation in Japan and signs of higher wages being agreed. The BoJ then raised interest rates further to 0.25% in July.

In emerging markets, mixed economic data from China continued to suggest a lacklustre economic recovery from the Covid-induced slowdown of prior years. The ongoing real estate crisis continued to weigh on sentiment. The Chinese authorities responded with a package of stimulus measures in September 2024. This included interest rate cuts, funding for the stock market and support for the property sector.

November brought the much-anticipated US presidential election. While the polls had been close, the result was a clean sweep for the Republicans with Donald Trump taking the presidency.

The US economy continued to avoid recession but inflation proved stubbornly high. The Fed cut interest rates in November but signalled fewer cuts than anticipated in 2025. Attention also began to shift to the likely inflationary impact of some of Trump's stated policy priorities.

Other elections held over the course of the year also tended to see incumbents lose out. In the UK, the Conservative party lost out to Labour in the July general election. In India, Prime Minister Modi's BJP won the most seats but fell short of a majority.

The Ukraine-Russia war persisted, while the crisis in the Middle East saw some instances of heightened conflict. This periodically raised some concerns about oil prices but ultimately supply remained plentiful.

## Global equities review

Global equity markets notched up strong gains over the 12-month period. This was despite some instances of marked volatility, notably in late July/early August and also in mid-December.

Overall, shares were supported by hopes that the US economy would achieve a soft economic landing and by expectations of further interest rate cuts. Resilient corporate earnings in several sectors also supported shares, as did enthusiasm around new technologies and artificial intelligence (AI). That said, some doubts about the likely returns to be made on large scale AI investment contributed to the volatility in markets.

The volatility in late July and early August sprang from several sources. The Bank of Japan raised interest rates while some weak US labour market data triggered expectations of steep US rate cuts. This impacted currencies and led to a brief steep fall in Japanese shares in particular, though they posted gains for the period overall.

The MSCI World index returned 18.7% (in US dollars) for the period. On a regional view, US shares led the gains. Information technology was among the top performing sectors, as were communication services and consumer discretionary. All three sectors were supported by strong gains for certain large cap US stocks. Financials was another outperformer with banks benefiting as a US recession failed to materialise and interest rates remained relatively high, albeit with some cuts forthcoming during the year. Underperforming sectors included materials and energy. Real estate underperformed as fewer rate cuts materialised.

Emerging markets slightly lagged their developed market counterparts. The MSCI EM index returned 7.5% (in US dollars). Optimism over the prospects for technology-related stocks helped Taiwanese equities to perform strongly. China was a key laggard for much of the period under review amid worries over its real estate sector. However, hopes of additional stimulus boosted shares towards the end of the period and it ended with gains. Brazil was a notable underperformer amid mounting concerns over its public finances.

## Fixed income review

Yields rose across the major government bond markets in 2024. The first half of the year saw market participants scale back expectations for early interest rate cuts and although subsequently softer inflation data boosted bond markets, particularly in the US, the November elections were the catalyst for a sell-off.

Over the 12-month period, the 10-year US Treasury yield rose from 3.86% to 4.58%. Weaker US labour market data prompted the Fed to sanction interest rate cuts in September and November although Fed officials subsequently issued more cautious guidance for 2025.

Germany's 10-year Bund yield rose from 2.03% to 2.36%, less than in the US as investors began to anticipate the European Central Bank (ECB) would become the first major central bank to cut interest rates, which duly occurred in June followed by consecutive reductions in September, October and December.

Despite the Bank of England reducing interest rates by 0.25% in August and November, the 10-year UK gilt yield rose sharply from 3.54% to 4.57% as the new Labour government announced a £28 billion annual increase in borrowing.

Japanese government bond yields rose significantly as the Bank of Japan abandoned its negative interest rate policy and raised borrowing costs to 0.25% in July. The 10-year government bond yield climbed from 0.62% to 1.09% over the year.

Credit spreads tightened significantly, as lower interest rates boosted demand for both investment grade and high yield corporate bonds. Spread tightening was most marked in the US high yield corporate bond market.

The US dollar recorded a 38-year high against the yen in June, before weakening as investors anticipated a narrowing interest rate differential between the US and Japan. Overall, the US dollar index ended higher, rising sharply after the November elections as the incoming Trump administration's policy agenda may see interest rates staying higher for longer.

# Investment Manager's Report (continued)

## Outlook

The global economy is set to continue to deliver growth in the region of 2.5-3% over the next couple of years, according to the Schroders Economics Group. In the US, the consumer is in good shape and, with the labour market cooling rather than collapsing, household spending should continue to drive growth.

There is huge uncertainty about the policy outlook once President-elect Donald Trump enters office. But pro-growth policies, along with relatively mild supply-side measures, will boost growth in 2025 with a further acceleration in 2026. Faster growth is likely to ensure that inflation remains higher than previously assumed and that, after some more near-term easing, the focus of the Federal Reserve will eventually turn to rate hikes in 2026.

The eurozone economy is expected to register some improvement in 2025/26, but it will be tough going. While consumers have benefited from lower inflation, sticky price pressures are likely to limit the room for further interest rate cuts.

For China, while Beijing's recent policy pivot was cheered by markets, the government's reluctance to stimulate domestic demand means that downward cyclical pressure on growth is unlikely to abate until the second half of 2025.

Among major asset classes, equities continue to be supported by strong earnings. However, valuations are looking stretched, notably in the US. In government bonds, valuations are flagging as cheap, but the US economy is not yet faltering. There is a muted outlook for commodities and Chinese demand remains subdued.

Early April 2025 brought a significant shift in the economic backdrop as President Trump announced wide-ranging tariffs on goods being imported into the US. The tariffs were devised using an unconventional approach based on the US trade deficit with trading partners. The tariffs were subsequently paused for 90 days for all affected countries except China. Individual countries are now seeking to negotiate their trading relationship with the US and it remains to be seen what the outcome of these negotiations will be. The Schroders Economics teams estimates that the tariffs as initially announced would see the effective US tariff rate rise to 25.3%, which could push up prices in the US by 2% and cut growth by almost 1%. These estimates take no account of any potential retaliation from other countries.

## ***REPORT OF THE REVISEUR D'ENTREPRISES AGREÉ***

### ***Opinion***

We have audited the financial statements of Schroder International Selection Fund ("the Fund") and of each of its sub-funds, which comprise the Combined Statement of Net Assets and the Schedule of Investments as at 31 December 2024, and the Combined Statement of Operations and Changes in Net Assets for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Fund and of each of its sub-funds as at 31 December 2024, and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

### ***Basis for opinion***

We conducted our audit in accordance with the Law of 23 July 2016 on the audit profession (the "Law of 23 July 2016") and with International Standards on Auditing ("ISAs") as adopted for Luxembourg by the Commission de Surveillance du Secteur Financier ("CSSF"). Our responsibilities under the Law of 23 July 2016 and ISAs as adopted for Luxembourg by the CSSF are further described in the « Responsibilities of "réviseur d'entreprises agréé" for the audit of the financial statements » section of our report. We are also independent of the Fund in accordance with the International Code of Ethics for Professional Accountants, including International Independence Standards, issued by the International Ethics Standards Board for Accountants ("IESBA Code") as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the financial statements, and have fulfilled our other ethical responsibilities under those ethical requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### ***Other information***

The Board of Directors of the Fund is responsible for the other information. The other information comprises the information stated in the annual report but does not include the financial statements and our report of the "réviseur d'entreprises agréé" thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report this fact. We have nothing to report in this regard.

### ***Responsibilities of the Board of Directors of the Fund for the financial statements***

The Board of Directors of the Fund is responsible for the preparation and fair presentation of the financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements, and for such internal control as the Board of Directors of the Fund determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors of the Fund is responsible for assessing the Fund's and of each of its sub-funds' ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors of the Fund either intends to liquidate the Fund or any of its sub-funds or to cease operations, or has no realistic alternative but to do so.

### ***Responsibilities of the “réviseur d'entreprises agréé” for the audit of the financial statements***

The objectives of our audit are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue a report of the “réviseur d'entreprises agréé” that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors of the Fund.
- Conclude on the appropriateness of the Board of Directors of the Fund's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's or any of its sub-funds' ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our report of the “réviseur d'entreprises agréé” to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our report of the “réviseur d'entreprises agréé”. However, future events or conditions may cause the Fund or any of its sub-funds (except for the sub-funds where a decision or an intention to close exists) to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
