On 3 March 2025, the Investment Manager for Schroder ISF Global Sustainable Convertible Bond changed from Schroder Investment Management (Switzerland) AG to Schroder Investment Management Limited.

# Directors' Report

## The Company

Schroder International Selection Fund (the 'Company') is an open-ended investment company organised as a "société anonyme" under the laws of the Grand Duchy of Luxembourg.

The Company constitutes a single legal entity, but the assets of each Sub-Fund shall be invested for the exclusive benefit of the Shareholders of the corresponding Sub-Fund and the assets of a specific Sub-Fund are solely accountable for the liabilities, commitments and obligations of that Sub-Fund.

Schroders is a FATCA compliant organisation. The FATCA classification of this entity and its GIIN is as follows: FATCA entity classification: FFI; Sponsoring entity: Schroder Investment Management (Europe) S.A. (the 'Management Company'); Sponsoring entity GIIN: 4RIMT7.00000.SP.442.

For Sub-Funds registered in the UK, as required by the Financial Conduct Authority (FCA), Schroders entered into the Temporary Marketing Permissions Regime (TMPR) which allows Schroders Funds to be distributed and marketed in the UK/to UK investors.

## Financial Statements

The Board of Directors (the 'Directors') of the Company submit their report and the audited financial statements for the year ended 31 December 2025.

At the date of this report, there were 126 Sub-Funds available for investment within the Company (the 'Sub-Funds'). Please refer to the current prospectus for the investment objectives of the Sub-Funds as well as details of investment restrictions. The monthly factsheets for each Sub-Fund can be obtained from the Company's registered office and are also available on the website of Schroder Investment Management (Europe) S.A. (<http://www.schroders.lu>).

This report covers the year from 1 January 2025 to 31 December 2025. The last day on which prices were calculated was 31 December 2025, being the last working day of the year. The financial statements are prepared on the basis of the last NAV calculated during the year, this was 31 December 2025 for all Sub-Funds, with the exception of 36 Sub-Funds mentioned in Accounting policies Net Asset Value - Calculation of Net Asset Value per share at page 936, where 31 December was a non-dealing day and therefore, 30 December was the date of the last NAV calculated. The financial statements are prepared in accordance with Luxembourg regulations relating to undertakings for collective investment. Across the Financial Statements, the names of the Sub-Funds will be preceded by "Schroder ISF", e.g. Schroder ISF Global Equity Alpha. On 31 December 2025, the total net assets of the Company were EUR 138,633,281,742 compared to EUR 121,718,531,662 on 31 December 2024 representing an increase of 13.90%.

## Directors' Responsibilities

The responsibility of the Board is governed by Luxembourg law. With respect to the financial statements of the Company, the Board of Directors are required to prepare financial statements for each financial year which give a true and fair view of the assets, liabilities and financial position of the Company and each of its Sub-Funds as at the financial year end and of the profit or loss of the Company and each of its Sub-Funds for the financial year.

The Directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgments and estimates that are reasonable and prudent;
- state whether they have been prepared in accordance with the applicable accounting standards, identify those standards, and note the effect and the reasons for any material departure from those standards; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Sub-Funds will continue in business.

The Directors are responsible for ensuring the maintenance of adequate accounting records. They have responsibility for taking such steps as are reasonably open to them to safeguard the assets of the Sub-Funds. In this regard, they have entrusted the assets of the Sub-Funds to J.P. Morgan SE, Luxembourg Branch (the 'Depositary') for safe-keeping. The Directors have responsibility for taking such steps as are reasonably open to them to prevent and detect fraud and other irregularities.

## Board Meetings

During the year to 31 December 2025, there were 11 board meetings held.

## Corporate Governance

The Company is subject to corporate governance based on:

1. Its obligations as defined by the UCITS Directive 2009/65/EC dated 13 July 2009, as implemented in Luxembourg law, which is available for inspection at the registered office of the Company at 5, rue Höhenhof, L-1736 Senningerberg, Grand Duchy of Luxembourg.
2. Its articles of incorporation which are available for inspection at the registered office of the Company and at the Luxembourg corporate and trade register, Registre de Commerce et des Sociétés ('RCSL').
3. The obligations in respect of the management of the Company, for which the Company has appointed Schroder Investment Management (Europe) S.A., which is subject to the requirements of the Management Company Directive 2010/43/EC, as implemented in Luxembourg law.
4. The Association of the Luxembourg Fund Industry ('ALFI') code of conduct, the principles of which the Company has voluntarily adopted.

## Internal Control and Risk Management Systems

The Board of Directors is responsible for establishing and maintaining adequate internal control and risk management systems of the Company in relation to the financial reporting process. Such systems are designed to manage rather than eliminate the risk of error or fraud in achieving the Company's financial reporting objectives and can only provide reasonable and not absolute assurance against material misstatement or loss.

The Board of Directors has contracted with the Management Company to put procedures in place to ensure all relevant accounting records are properly maintained and are readily available, including the production of annual and semi-annual reports. The annual and semi-annual reports of the Company are required to be approved by the Board of Directors and filed with the Commission de Surveillance du Secteur Financier ('CSSF') and in the case of annual reports with the RCSL. The annual statutory financial statements are required to be audited by independent auditors who report to the Board of Directors of the Company on their findings.

The Board meets at least four times a year and ensures that the Company maintains high standards of integrity and control in its operations and that it possesses adequate governance and means of control as law and regulation demand.

## Sustainable Finance Disclosure Regulation

The information on the environmental and social characteristics for the Sub-Funds disclosing under article 8(1) of SFDR as required by article 50 (2) of SFDR RTS and the information on sustainable investments for the Sub-Funds disclosing under article 9(1), 9(2) and 9(3) of SFDR as required by article 58 of the SFDR RTS are available in the 31 December 2025 Annual Report in Appendix V - Sustainable Finance Disclosure (Unaudited).

# Directors' Report (continued)

8 April 2025	Schroder ISF Dynamic Opportunities <sup>^</sup>	Schroder ISF Sustainable Future Trends

<sup>^</sup> The Sub-Fund was restructured in conjunction with its name change to Schroder ISF Dynamic Opportunities.

## 7. Additional Information

In accordance with applicable sanctions regulations, the Investment Manager of Schroder ISF Emerging Europe disposed of a further approximately one-third of the Russian assets held by the X9 and Y9 Classes (by number of securities). This realised sales proceeds of approximately €21 million and resulted in a second distribution of €21.00 per share to shareholders in the X9 and Y9 Classes on 13 August 2025.

## The Board of Directors

Schroder International Selection Fund

# Investment Manager's Report

## Economic review

The first half of 2025 was dominated by uncertainty over US trade tariffs, with the US and China at the centre of the conflict. Subsequently, as trade talks yielded some progress with the Trump administration adopting a more flexible approach, easing inflationary pressures and US interest rate cuts heralded a more benign economic background. Significantly, companies are reconfiguring their supply chains to reduce dependence on the US and China.

In response to weaker labour market data over the summer months, the Federal Reserve (Fed) cut interest rates by 25 basis points in September, followed by two further rate cuts in the final quarter.

President Trump unveiled a fiscal programme which was passed by Congress in the summer. The legislation extended tax cuts implemented in 2017, increased defence spending, and cut spending on welfare programmes such as Medicaid.

The continued resilience of the US economy was evident from strong gross domestic product growth, steady consumer spending and benign core inflation.

In the eurozone, economic conditions remain mixed. Manufacturing activity, especially in Germany, contracted. However, services activity stayed strong enabling overall business activity to expand modestly.

The annual UK Autumn Budget was well-received by investors as the government announced larger-than-expected fiscal headroom and smaller-than-expected gilt issuance for the year, assuaging concerns on the fiscal outlook.

A key contrast came from Japan. Sanae Takaichi became prime minister in October and announced a 21.3 trillion yen stimulus package. This raised concerns over Japan's already substantial debt burden at a time when interest rates are rising, with the Bank of Japan increasing interest rates to 0.75% - the highest level since 1995.

In emerging markets, targeted stimulus measures provided selective support for the Chinese economy despite persistent challenges in the property sector and consumer demand.

## Global equities review

Global equity markets ended the year at, or near, all-time highs. For the first time in several years, non-US equities significantly outperformed the US market for the full year. Several factors contributed, including a weaker US dollar and attractive valuations. These trends contributed to strong gains in Europe, Asia and emerging markets. Some year-end profit taking dampened momentum, but investor sentiment remained generally positive, underpinned by robust earnings growth and the continued enthusiasm for companies benefitting from artificial intelligence (AI).

Throughout 2025, performance leadership remained concentrated in technology and growth-oriented sectors, although as the year ended there were signs of market broadening, particularly in markets where cheaper valuations and improving fundamentals attracted investor interest. Expectations that the Fed and other central banks could deliver further policy easing in 2026 helped sustain investors' risk appetite and provided a supportive backdrop for equities as the year ended.

## Fixed income review

The major government bond markets exhibited mixed performance in 2025. Uncertainty over US trade tariffs overshadowed bond markets, while concerns over the sustainability of fiscal deficits grew. In May, ratings agency Moody's downgraded the US sovereign debt rating from Aaa to Aa1.

The 10-year US Treasury yield fell from 4.58% to 4.17%. During the second half of the year the Fed switched to a more accommodative stance as inflationary pressures eased with three 25 basis point interest rate cuts by the year end.

Germany's 10-year bond yield rose from 2.36% to 2.86%. The European Central Bank signalled the programme of interest rate cuts had run its course by the summer, while the new German government announced plans to substantially raise borrowing limits, funding defence and infrastructure expenditure.

Although the Bank of England reduced interest rates by 0.25% on four occasions, the 10-year UK gilt yield fell only marginally from 4.57% to 4.48% as core inflation remained sticky, and well above its official 2% target.

## Outlook

Global economic growth remains resilient and the Schroders Economics Group believes the US economy will continue to defy bearish expectations and that eurozone growth will accelerate on stimulus. By contrast, the UK is set to face structural headwinds and fiscal tightening, while in China the housing bust drags on. Against this background, central bank paths are likely to diverge, shaping both the opportunities and risks ahead.

We remain constructive on the global economic outlook and forecast above-consensus growth of 2.6% through 2026 and 2027. Looser monetary and fiscal conditions will continue to filter through the economy at a time when the more extreme policy risks on areas such as trade have eased. However, strong activity and additional monetary stimulus leave the global economy exposed to supply shocks, such as a spike in food price inflation or labour shortages, and to bubble risk amid the growing disconnect between equities and underlying economic fundamentals.

Coming into 2026, the global economic growth remained resilient. The Schroders Economics Group believed the US economy would continue to defy bearish expectations and that eurozone growth could accelerate on stimulus. By contrast, the UK looked set to face structural headwinds and fiscal tightening, while in China the housing bust drags on. Against this background, central bank paths were expected to diverge, shaping both the opportunities and risks ahead.

One risk was that strong activity and additional monetary stimulus could leave the global economy exposed to supply shocks, such as a spike in food price inflation or labour shortages, and to bubble risk amid the growing disconnect between equities and underlying economic fundamentals.

Events in the Middle East have clearly complicated the picture. Much depends on the duration of the conflict and the degree of disruption to the supply of commodities such as energy and fertilisers. The degree to which central banks focus on the inflation shock or risks to growth is also important.

## ***REPORT OF THE REVISEUR D'ENTREPRISES AGREE***

### ***Opinion***

We have audited the financial statements of Schroder International Selection Fund (“the Fund”) and of each of its sub-funds, which comprise the Combined Statement of Net Assets and the Schedule of Investments as at 31 December 2025, and the Combined Statement of Operations and Changes in Net Assets for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Fund and of each of its sub-funds as at 31 December 2025, and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

### ***Basis for opinion***

We conducted our audit in accordance with the Law of 23 July 2016 on the audit profession (the “Law of 23 July 2016”) and with International Standards on Auditing (“ISAs”) as adopted for Luxembourg by the Commission de Surveillance du Secteur Financier (“CSSF”). Our responsibilities under the Law of 23 July 2016 and ISAs as adopted for Luxembourg by the CSSF are further described in the « Responsibilities of “réviseur d'entreprises agréé” for the audit of the financial statements » section of our report. We are also independent of the Fund in accordance with the International Code of Ethics for Professional Accountants, including International Independence Standards, issued by the International Ethics Standards Board for Accountants (“IESBA Code”) as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the financial statements, and have fulfilled our other ethical responsibilities under those ethical requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### ***Other information***

The Board of Directors of the Fund is responsible for the other information. The other information comprises the information stated in the annual report but does not include the financial statements and our report of the “réviseur d'entreprises agréé” thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report this fact. We have nothing to report in this regard.

### ***Responsibilities of the Board of Directors of the Fund for the financial statements***

The Board of Directors of the Fund is responsible for the preparation and fair presentation of the financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements, and for such internal control as the Board of Directors of the Fund determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors of the Fund is responsible for assessing the Fund's and of each of its sub-funds' ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors of the Fund either intends to liquidate the Fund or any of its sub-funds or to cease operations, or has no realistic alternative but to do so.

### ***Responsibilities of the “réviseur d'entreprises agréé” for the audit of the financial statements***

The objectives of our audit are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue a report of the “réviseur d'entreprises agréé” that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors of the Fund.

- Conclude on the appropriateness of the Board of Directors of the Fund's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's or any of its sub-funds' ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our report of the “réviseur d'entreprises agréé” to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our report of the “réviseur d'entreprises agréé”. However, future events or conditions may cause the Fund or any of its sub-funds (except for the sub-funds where a decision or an intention to close exists) to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Luxembourg, 24 April 2026
