

INVESTMENT POLICY OF THE FUND

The objective of the fund is to offer to the investors calculable investment yields at low risk. The Fund Manager may exclusively invest its fund assets in bond-type assets, mainly securities issued or guaranteed by the Polish State. Furthermore, the Fund may to a limited extent invest in debt and equity securities issued or guaranteed by the European Union, or its organization, the European Central Bank or the European Investment Bank, provided that its credit rating is at least equal to that of the Polish state and is denominated in Polish zloty. Weighted average remaining duration of the assets in the portfolio of the Fund may not exceed 6 months, and the weighted average remaining life of the assets may not exceed 12 months. In addition, the remaining term of the individual securities can be no more than years, or 397 days until the next interest determination date. For the sake of liquidity, the Fund may keep its financial assets in form of bank deposit, as well. Assets of the Fund are 100% denominated in Polish zloty.

VIG Polish Moneymarket Fund is not a guaranteed investment. The risk of loss of the principal is to be borne by the investor. An investment in VIG Polish Moneymarket Fund is different from an investment in deposits, with particular reference to the risk that the principal invested in VIG Polish Moneymarket Fund is capable of fluctuation. VIG Polish Moneymarket Fund does not rely on external support for guaranteeing the liquidity of the fund or stabilising the NAV per unit or share.

MARKET SUMMARY

Polish government bonds continued to perform well in September. Yields on the 3-year and 5-year maturities declined by 6 basis points, while the 10-year yield also fell by 4 basis points. At the early September rate-setting meeting, the central bank cut rates again, lowering the policy rate by 25 basis points to 4.75%. However, the Monetary Council remains cautious regarding further rate cuts. If the frozen energy price measures remain in place, an additional rate cut in October cannot be ruled out. Turning to economic data, preliminary figures showed that annual inflation remained unchanged in September, with the Polish Statistical Office recording a 2.9% year-on-year rate. Food prices declined on a monthly basis, although the pace of fuel price decreases slowed. Industrial production in the eighth month of the year rose by 0.7%, exceeding market expectations. Retail sales, however, weakened, with annual growth slowing from 4.8% in July to 3.1% in August. As for public finances, the government posted a deficit of PLN 15,295.8 million in the eighth month of the year, bringing the 12-month rolling budget deficit to 7.83% of GDP.
